# 2 Test Cycle Information

| | |
|---|---|
| **Tester:** | **Automated** |
| **Jira Ticket:** | TEST2-83 |
| **Environment:** | o2intelligence-v4-dev.metricell.com |
| **Browser Details:** | Google Chrome 156.0.8078.48 |
| **Date of Test:** | 27/10/2026 |
| **Limitations during Testing:** | Blocked criterion(s): 3, 5, 6, 8. See the assessment below each criterion.<br>Criteria 7, 9 used simulated UI conditions; see their assessments. |
| **Overall review outcome:** | Blocked |
| **Browser URL(s) recorded after criteria:** | https://o2intelligence-v4-dev.metricell.com/gis |

# 3 Test Summary

| Area of test | Pass (Y/N) | Fail (Y/N) | Blocked (Y/N) | Defect No |
|---|---|---|---|---|
| 1. Given a Service point's details have loaded in the shared point-detail dialog, the standard detail presentation shows the returned serving-cell information. | Y | N | N | 0 |
| 2. Given the loaded Service point details include neighbour-cell data, each returned neighbour appears in its own distinct section beneath the serving-cell information. | N | Y | N | 1 |
| 3. Given the loaded Service point details contain no neighbour-cell data, serving-cell information remains visible and no empty neighbour section appears. | N | N | Y | 0 |
| 4. Given displayed Service point detail rows are available, sorting the rows changes their visible order according to the selected sort, and filtering them shows only rows matching the selected filter. | Y | N | N | 0 |
| 5. Given a Service point's reported radio generation is 2G, 3G, 4G, 5G NSA, or 5G SA, the visible KPI names are appropriate to that generation. | N | N | Y | 0 |
| 6. Given 5G SA is selected and the user opens a Service point in the shared point-detail dialog, the Service point detail presentation loads without an error state. | N | N | Y | 0 |
| 7. Given Service point details are loading, the detail presentation shows a loading state without displaying incorrect detail data. | Y | N | N | 0 |
| 8. Given Service point details are unavailable, the detail presentation shows a no-data state without displaying incorrect detail data. | N | N | Y | 0 |
| 9. Given loading Service point details fails, the detail presentation shows an error state and does not show incorrect detail data. | Y | N | N | 0 |

# 4 Test Cases

Each test maps to a criterion and decisive browser evidence. Inconclusive results are reported as Failed.

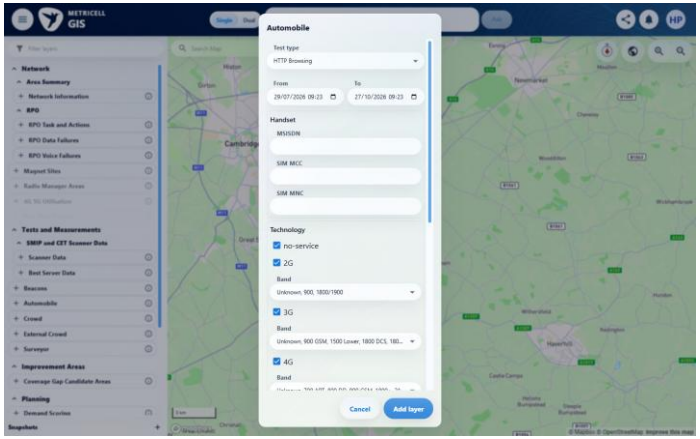

## 4.1 Tests

| | | | | | |
|---|---|---|---|---|---|
| ***Preconditions:*** | V4 access and ticket conditions. | ***Associated Requirements:*** | Ticket criteria below. | Automation Notes: | Screenshots below each criterion; full log retained locally. |

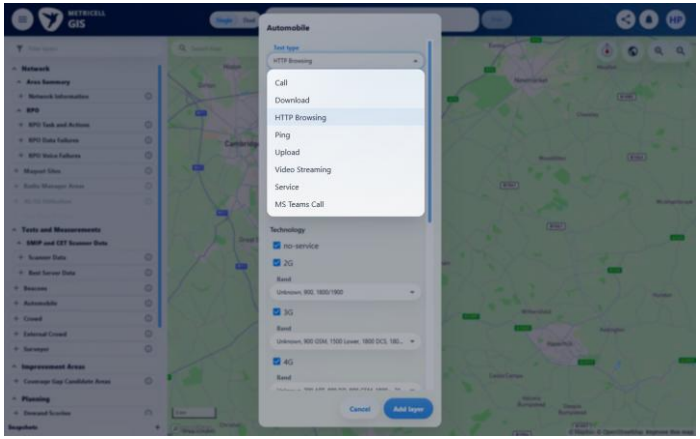

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **1.0.0** | Given a Service point's details have loaded in the shared point-detail dialog, the standard detail presentation shows the returned serving-cell information. | Given a Service point's details have loaded in the shared point-detail dialog, the standard detail presentation shows the returned serving-cell information. | criterion-1-final.png, criterion-1-serving-280.png and criterion-1-serving-540.png show the loaded Automobile Service 4G point 131928136 and overlapping serving rows: serving cell 2592_130_4, PLMN 23410, location 52.20127/0.30414, site 2592, TAC 432, CI 153973122, PCI 468, EARFCN 6400, RSRP -116 dBm, RSRQ -20 and SINR -6. The decisive bottom state is also retained as criterion-1-final-complete-serving.png. These visible fields agree with the selected result's recorded serviceDetails response from POST /api/platform/automobile/service/cluster-details. Evidence: E01, E02, E03, E04, E05, E06, E07, E08 | Passed |

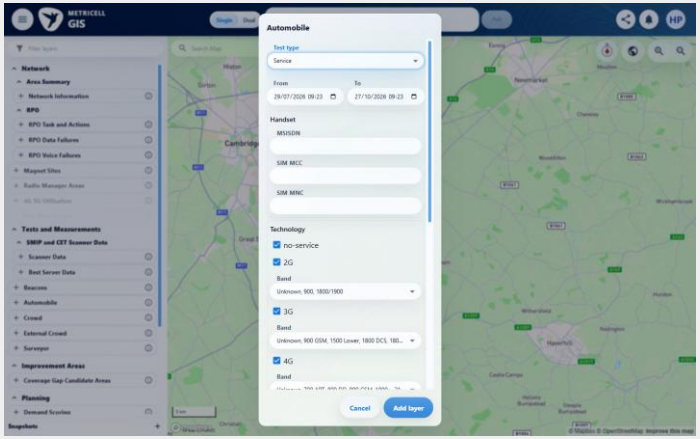

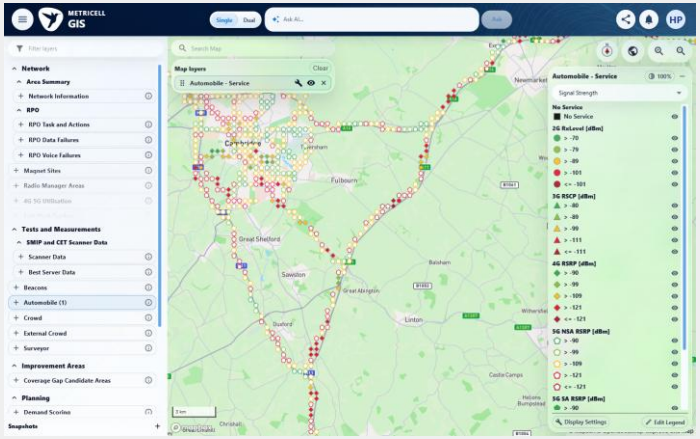

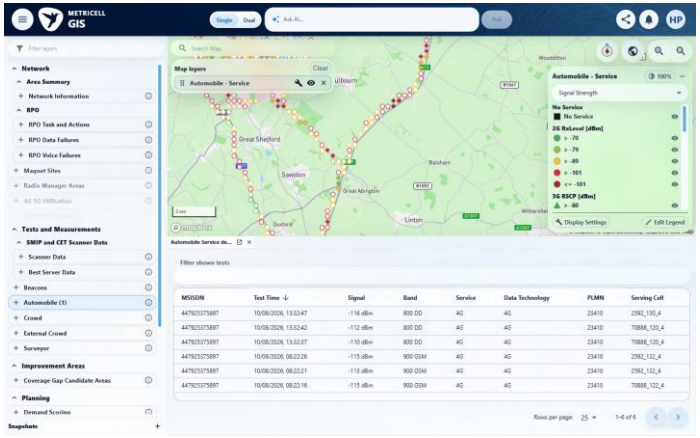

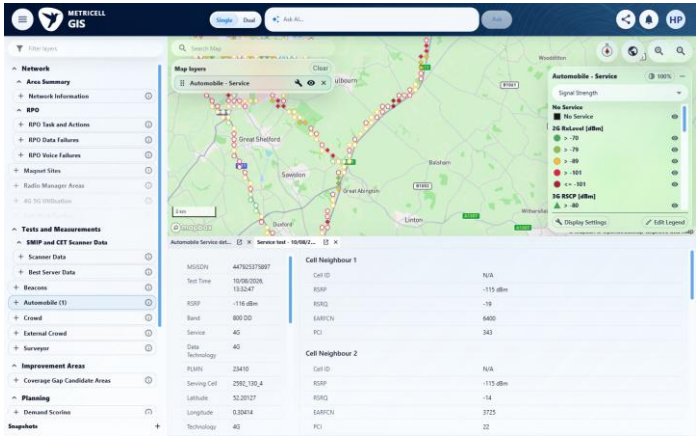

**Criterion 1 evidence: Given a Service point's details have loaded in the shared point-detail dialog, the standard detail presentation shows the returned serving-cell information.**
**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**

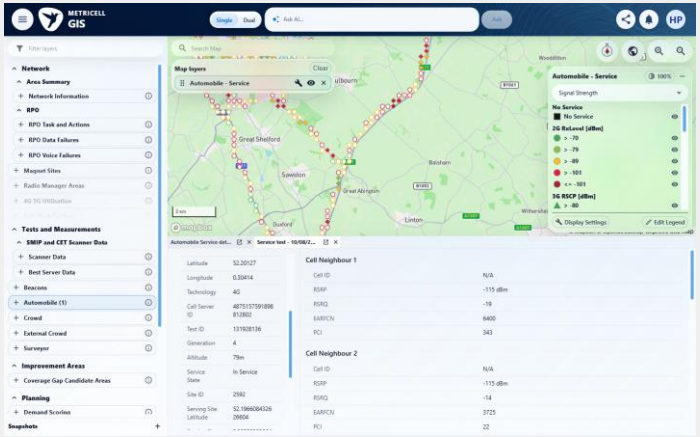

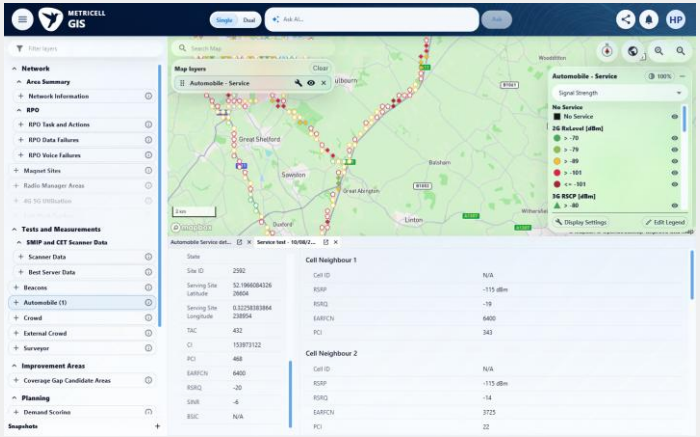

**E01 - Automobile configuration (criterion-1-automobile-configuration.png)**

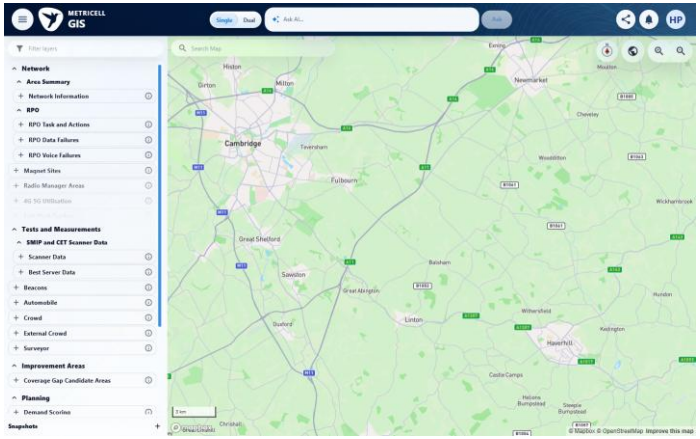

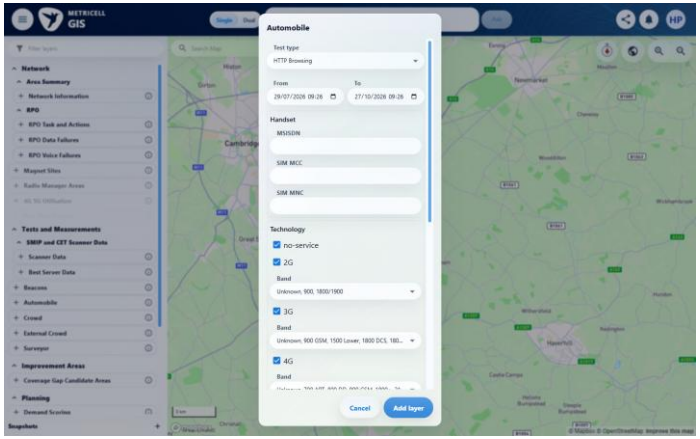

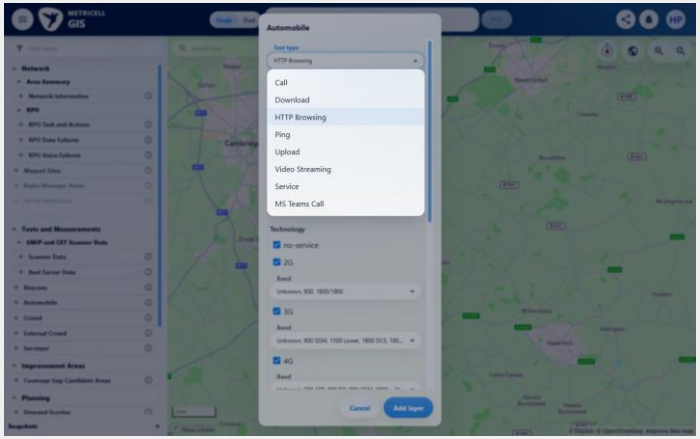

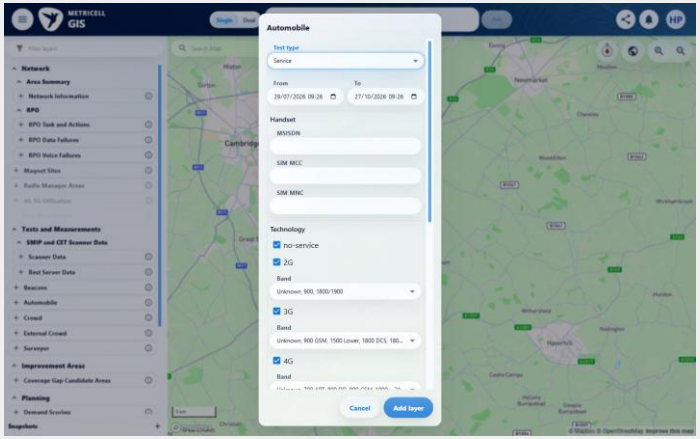

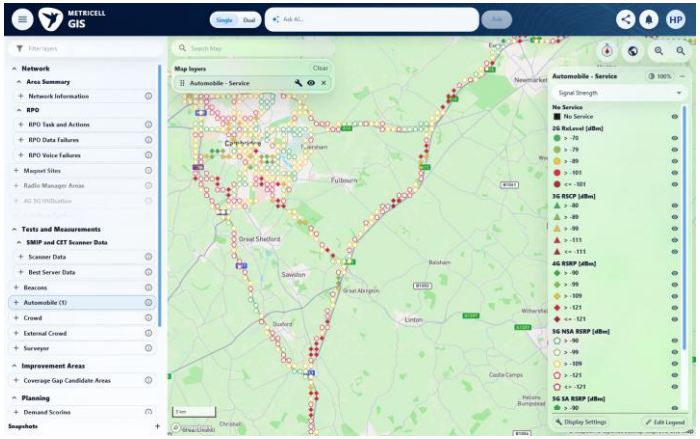

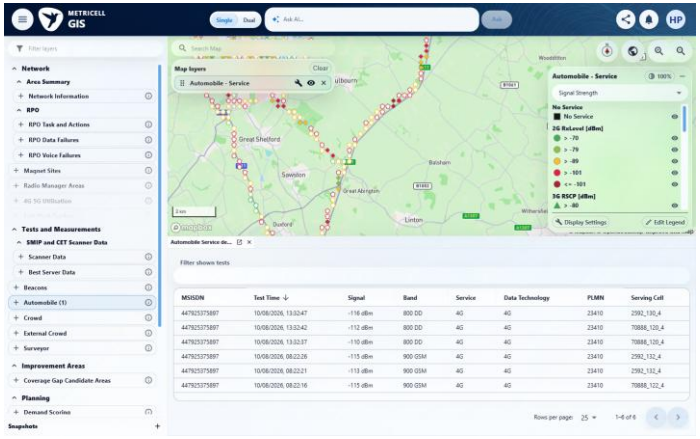

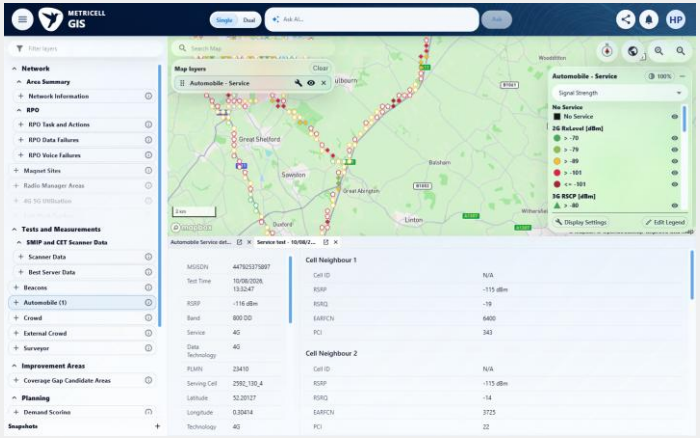

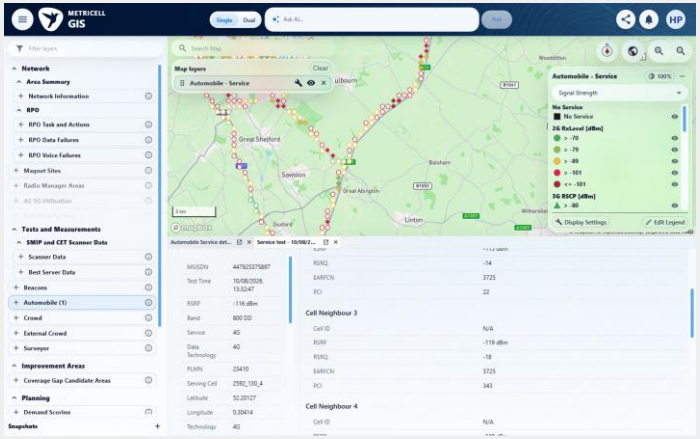

**E02 - Test type choices (criterion-1-test-type-choices.png)**

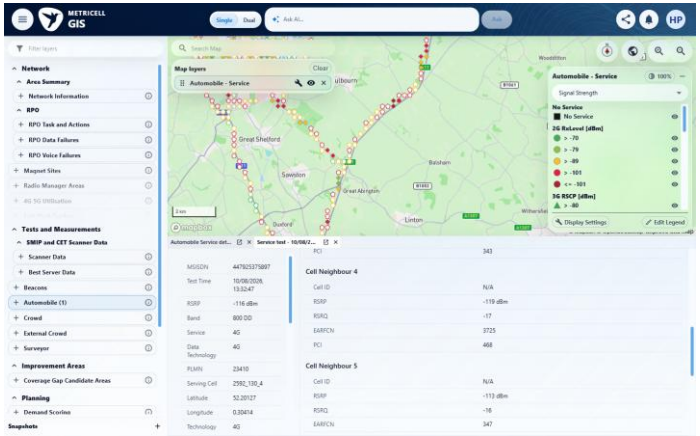

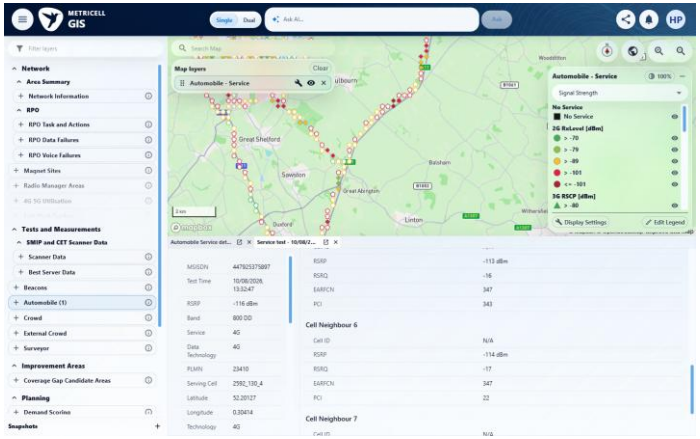

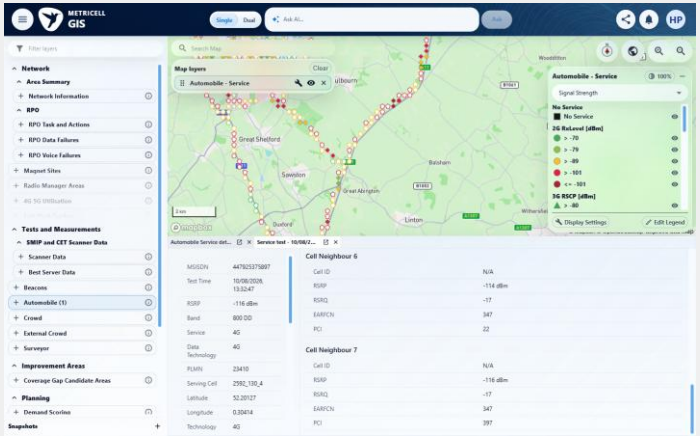

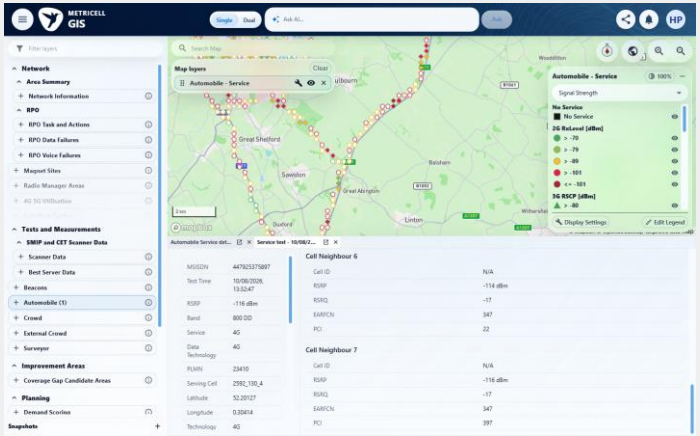

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **Criterion 1 continued: Given a Service point's details have loaded in the shared point-detail dialog, the standard detail presentation shows the returned serving-cell information.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br>**E03 - Service configuration (criterion-1-service-configuration.png)**<br>  <br>**E04 - Service loaded (criterion-1-service-loaded.png)**<br>  | | | | |
| **Criterion 1 continued: Given a Service point's details have loaded in the shared point-detail dialog, the standard detail presentation shows the returned serving-cell information.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br>**E05 - Before open record (criterion-1-before-open-record.png)**<br>  <br>**E06 - Final (criterion-1-final.png)**<br>  | | | | |

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **Criterion 1 continued: Given a Service point's details have loaded in the shared point-detail dialog, the standard detail presentation shows the returned serving-cell information.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br>**E07 - Serving 280 (criterion-1-serving-280.png)**<br>  <br>**E08 - Serving 540 (criterion-1-serving-540.png)**<br>  | | | | |
| **2.0.0** | Given the loaded Service point details include neighbour-cell data, each returned neighbour appears in its own distinct section beneath the serving-cell information. | Given the loaded Service point details include neighbour-cell data, each returned neighbour appears in its own distinct section beneath the serving-cell information. | criterion-2-neighbours-0.png, criterion-2-neighbours-280.png, criterion-2-neighbours-560.png, criterion-2-neighbours-840.png and criterion-2-neighbours-1000.png reconcile all seven returned neighbours for the selected point 131928136, using EARFCN/PCI and RSRP/RSRQ tuples. Each has a distinct section. The first capture directly contradicts placement beneath the serving information: neighbours occupy the separate right-hand column beside serving details. criterion-2-final.png retains the bottom of that layout.<br>Evidence: E09, E10, E11, E12, E13, E14, E15, E16, E17, E18, E19 | Failed |
| Criterion 2 assessment: Testing notes: Recorded the final GIS URL and inspected saved captures. Cleanup initially timed out after closing the cluster tab; inspected current UI, then closed the remaining owned detail tab and removed the layer before restarting criterion 3. | | | | |

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **Criterion 2 evidence: Given the loaded Service point details include neighbour-cell data, each returned neighbour appears in its own distinct section beneath the serving-cell information.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br><br>**E09 - Setup 0 (criterion-2-setup-0.png)**<br>  <br><br>**E10 - Setup 1 (criterion-2-setup-1.png)**<br>  | | | | |
| **Criterion 2 continued: Given the loaded Service point details include neighbour-cell data, each returned neighbour appears in its own distinct section beneath the serving-cell information.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br><br>**E11 - Setup 2 (criterion-2-setup-2.png)**<br>  <br><br>**E12 - Setup 3 (criterion-2-setup-3.png)**<br>  | | | | |

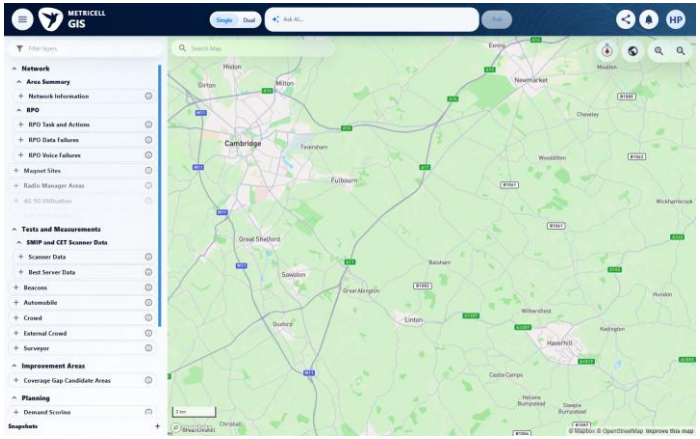

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **Criterion 2 continued: Given the loaded Service point details include neighbour-cell data, each returned neighbour appears in its own distinct section beneath the serving-cell information.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br>**E13 - Setup 4 (criterion-2-setup-4.png)**<br>  <br>**E14 - Cluster (criterion-2-cluster.png)**<br>  | | | | |
| **Criterion 2 continued: Given the loaded Service point details include neighbour-cell data, each returned neighbour appears in its own distinct section beneath the serving-cell information.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br>**E15 - Neighbours 0 (criterion-2-neighbours-0.png)**<br>  <br>**E16 - Neighbours 280 (criterion-2-neighbours-280.png)**<br>  | | | | |

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **Criterion 2 continued: Given the loaded Service point details include neighbour-cell data, each returned neighbour appears in its own distinct section beneath the serving-cell information.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br><br>**E17 - Neighbours 560 (criterion-2-neighbours-560.png)**<br>  <br><br>**E18 - Neighbours 840 (criterion-2-neighbours-840.png)**<br>  | | | | |
| **Criterion 2 continued: Given the loaded Service point details include neighbour-cell data, each returned neighbour appears in its own distinct section beneath the serving-cell information.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br><br>**E19 - Neighbours 1000 (criterion-2-neighbours-1000.png)**<br>  <br><br>**E19 - Final (criterion-2-final.png)**<br>  | | | | |

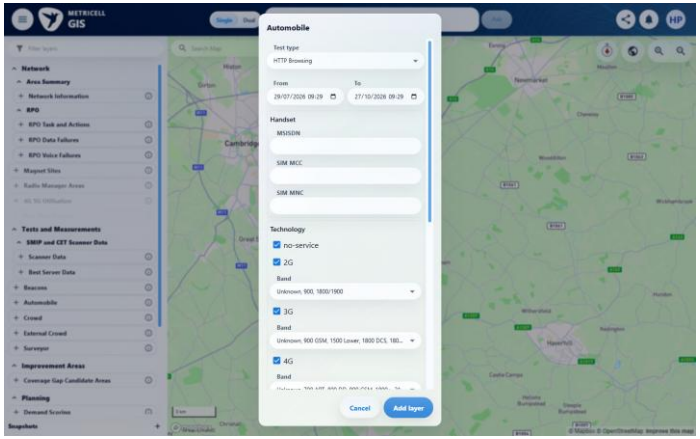

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **3.0.0** | Given the loaded Service point details contain no neighbour-cell data, serving-cell information remains visible and no empty neighbour section appears. | Given the loaded Service point details contain no neighbour-cell data, serving-cell information remains visible and no empty neighbour section appears. | criterion-3-record-131928146.png and criterion-3-final.png show populated serving details and two neighbour sections for each inspected record (131928146 and 131921586). No qualifying no-neighbour detail fixture was established in this Automobile Service run, so serving-only rendering and absence of an empty neighbour section remain blocked. This is a fixture limitation, not evidence that the feature is unavailable or defective.<br>Evidence: E09, E20, E21, E22, E13, E14, E23, E24, E25 | Blocked |
| Criterion 3 assessment: Testing notes: Missing qualifying Automobile Service fixture with serving-cell details and no neighbour data. The sampled records both returned neighbours; absence of an empty section therefore cannot be tested. This is not a product failure. | | | | |

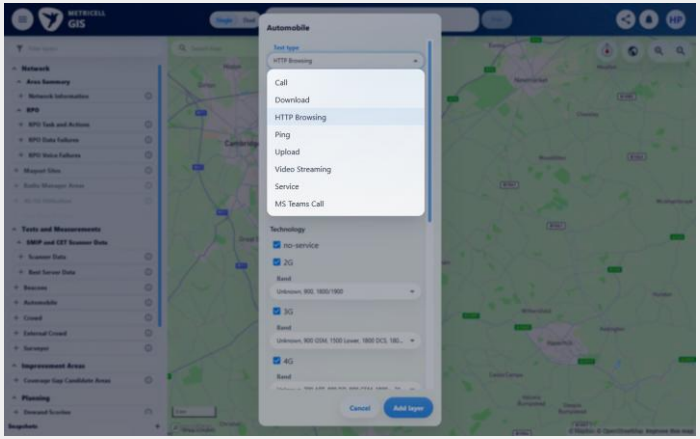

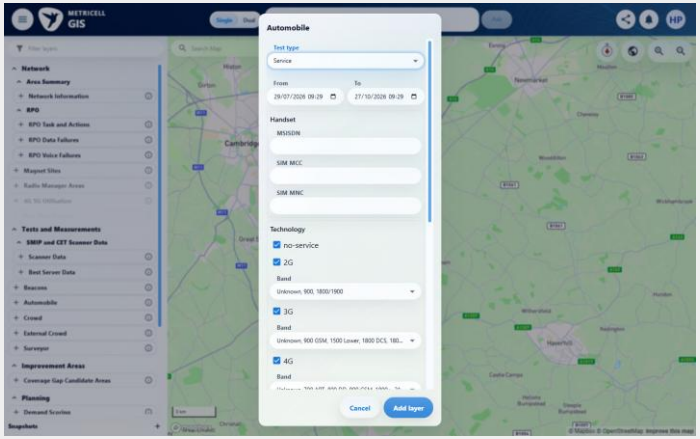

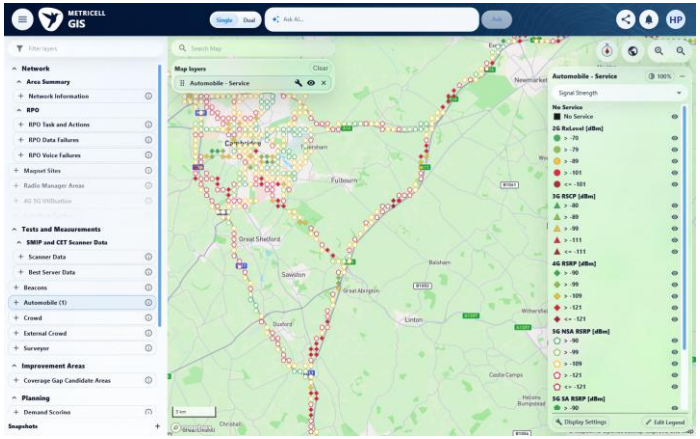

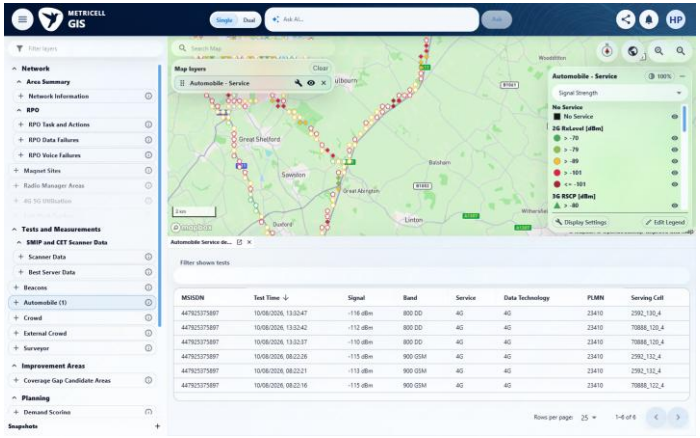

**Criterion 3 evidence: Given the loaded Service point details contain no neighbour-cell data, serving-cell information remains visible and no empty neighbour section appears.**
**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**

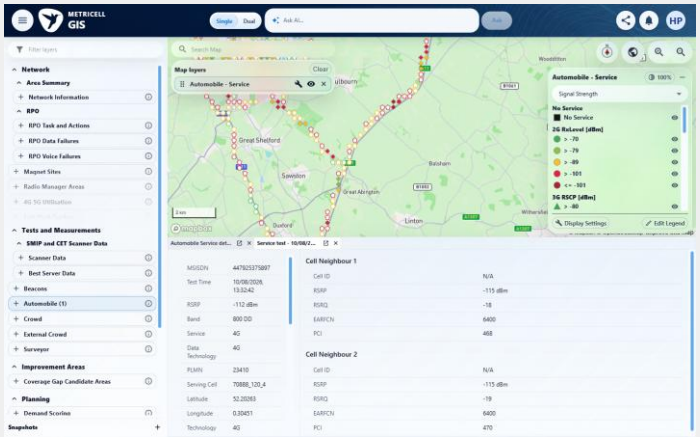

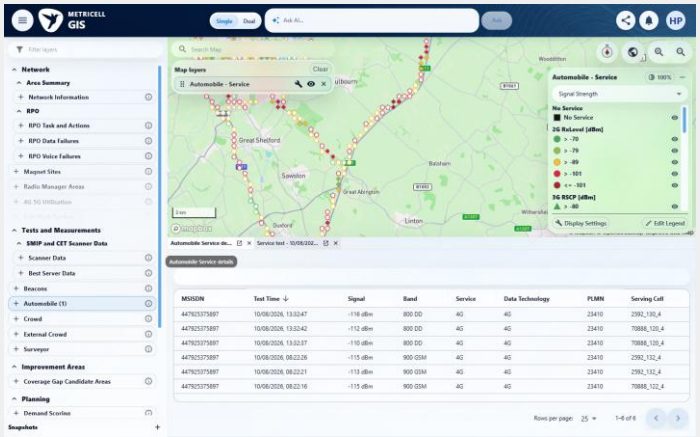

**E09 - Restart setup 0 (criterion-3-restart-setup-0.png)**

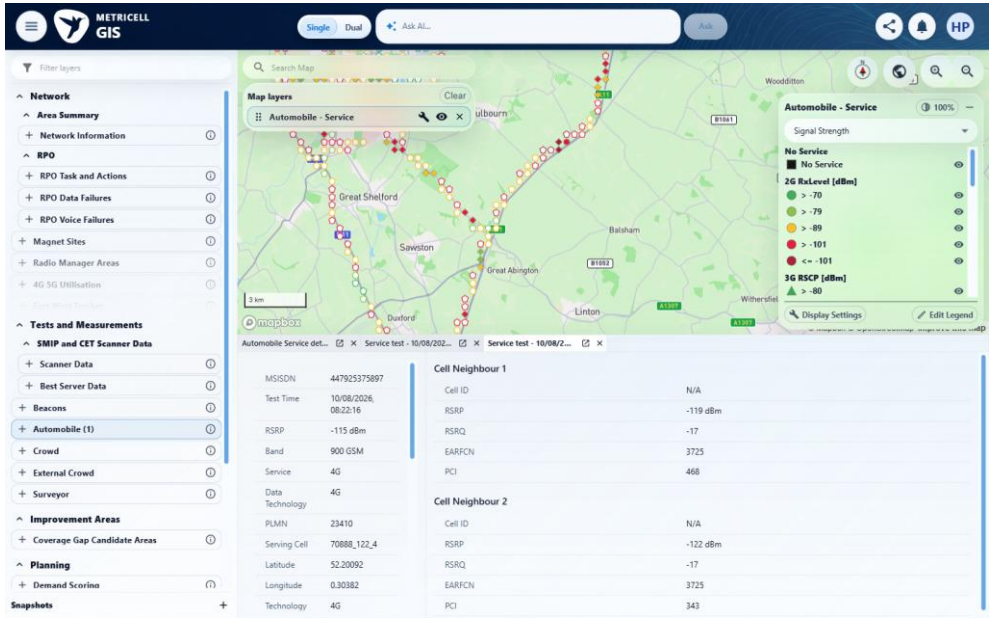

**E20 - Restart setup 1 (criterion-3-restart-setup-1.png)**

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **Criterion 3 continued: Given the loaded Service point details contain no neighbour-cell data, serving-cell information remains visible and no empty neighbour section appears.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br><br>**E21 - Restart setup 2 (criterion-3-restart-setup-2.png)**<br>  <br><br>**E22 - Restart setup 3 (criterion-3-restart-setup-3.png)**<br>  | | | | |
| **Criterion 3 continued: Given the loaded Service point details contain no neighbour-cell data, serving-cell information remains visible and no empty neighbour section appears.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br><br>**E13 - Restart setup 4 (criterion-3-restart-setup-4.png)**<br>  <br><br>**E14 - Cluster (criterion-3-cluster.png)**<br>  | | | | |

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **Criterion 3 continued: Given the loaded Service point details contain no neighbour-cell data, serving-cell information remains visible and no empty neighbour section appears.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br>**E23 - Record 131928146 (criterion-3-record-131928146.png)**<br>  <br>**E24 - Back to cluster (criterion-3-back-to-cluster.png)**<br>  | | | | |

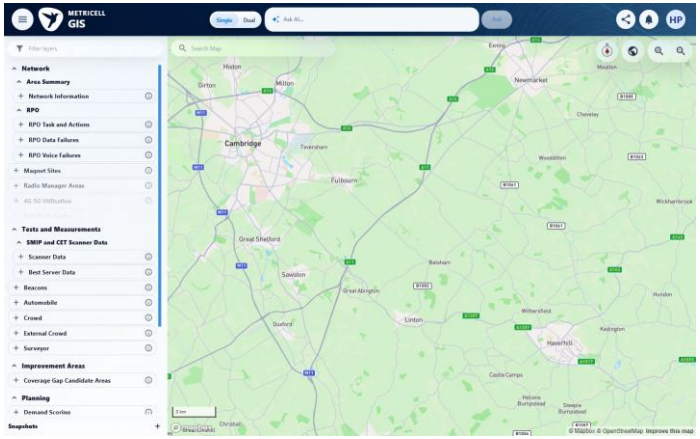

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **Criterion 3 continued: Given the loaded Service point details contain no neighbour-cell data, serving-cell information remains visible and no empty neighbour section appears.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br><br>**E25 - Final (criterion-3-final.png)**<br>  | | | |

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **4.0.0** | Given displayed Service point detail rows are available, sorting the rows changes their visible order according to the selected sort, and filtering them shows only rows matching the selected filter. | Given displayed Service point detail rows are available, sorting the rows changes their visible order according to the selected sort, and filtering them shows only rows matching the selected filter. | criterion-4-baseline.png defines all six displayed Automobile Service rows (pagination 1-6 of 6). criterion-4-sorted-ascending.png shows the settled Signal upward indicator and -116, -115, -115, -113, -112, -110 dBm order; criterion-4-sorted-descending.png shows the downward indicator and reversed numeric order. criterion-4-final.png filters 900 GSM and retains exactly the three baseline matches at 08:22:21, 08:22:26 and 08:22:16, excluding all three 800 DD rows.<br>Evidence: E09, E26, E27, E28, E13, E14, E29, E30, E31 | Passed |

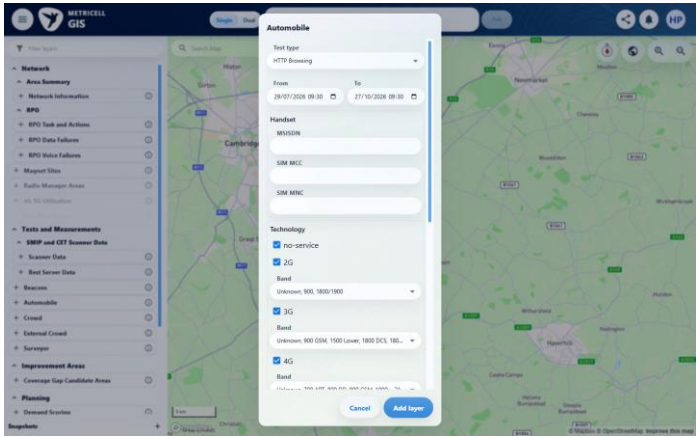

**Criterion 4 evidence: Given displayed Service point detail rows are available, sorting the rows changes their visible order according to the selected sort, and filtering them shows only rows matching the selected filter.**

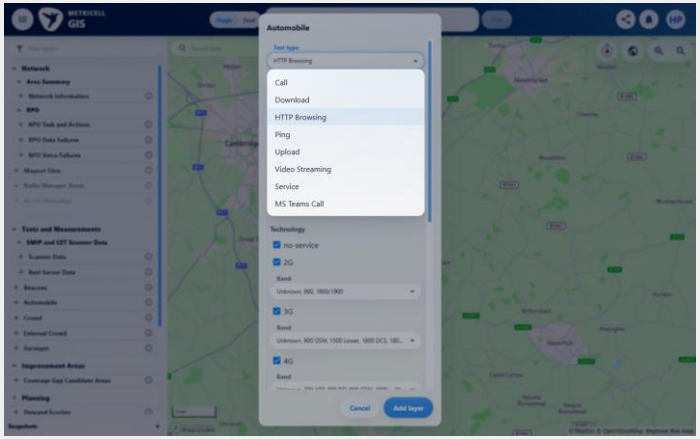

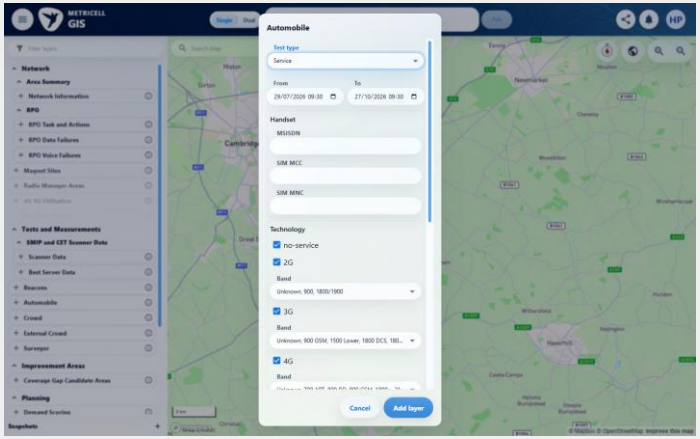

**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **Criterion 4 continued: Given displayed Service point detail rows are available, sorting the rows changes their visible order according to the selected sort, and filtering them shows only rows matching the selected filter.**<br>**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**<br>**E31 - Final (criterion-4-final.png)** | | |  | |

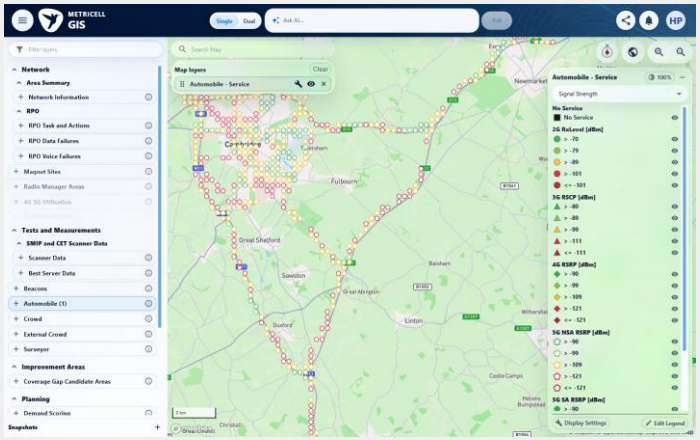

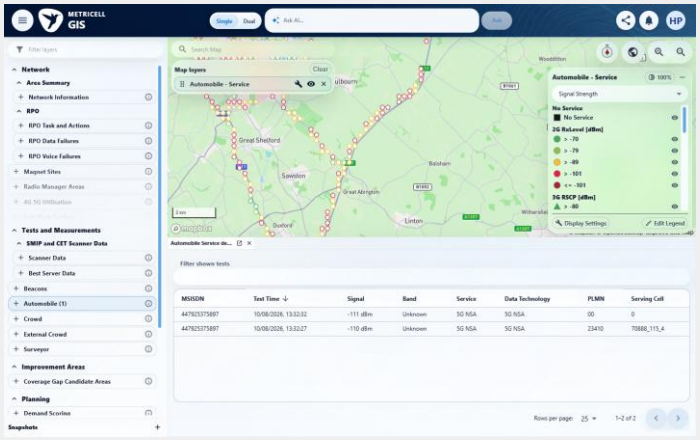

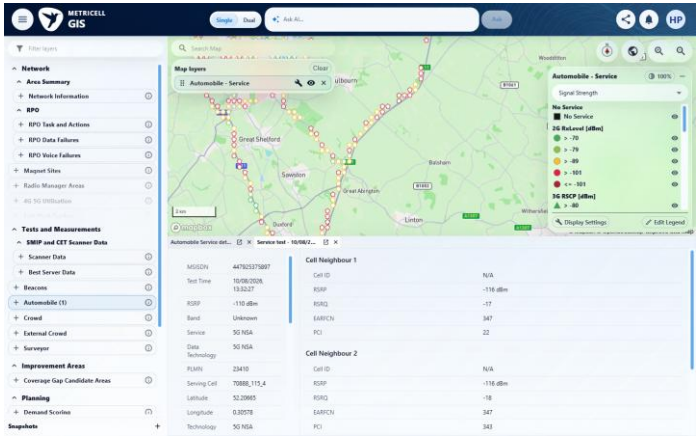

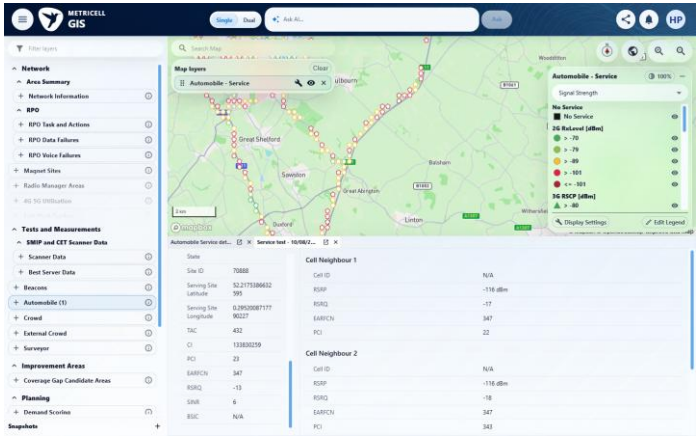

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **5.0.0** | Given a Service point's reported radio generation is 2G, 3G, 4G, 5G NSA, or 5G SA, the visible KPI names are appropriate to that generation. | Given a Service point's reported radio generation is 2G, 3G, 4G, 5G NSA, or 5G SA, the visible KPI names are appropriate to that generation. | criterion-5-2g-kpis-top.png and criterion-5-2g-kpis-bottom.png show reported 2G with RxLevel, RxQual, ARFCN and BSIC; criterion-5-4g-top.png and criterion-5-4g-kpis.png show 4G with RSRP, RSRQ, EARFCN and SINR; criterion-5-nsa-kpis-top.png and criterion-5-nsa-kpis-bottom.png show 5G NSA and its LTE-anchor labels. criterion-5-3g-configuration.png/criterion-5-3g-map.png and criterion-5-sa-configuration.png/criterion-5-final.png show exclusive generation selection followed by empty scoped maps. No 3G or 5G SA detail fixture was established in the inspected Cambridge/date scope; their KPI branches remain blocked, without asserting global data absence. Evidence: E09, E32, E33, E34, E13, E14, E35, E36, E37, E38, E39, E40, E41, E42, E43, E44, E45, E46, E47, E48, E49, E50 | Blocked |
| Criterion 5 assessment: Testing notes: 2G, 4G and 5G NSA KPI labels were observed; 3G and 5G SA detail fixtures were unavailable in the inspected area/date scope. Map legend labels alone do not verify point detail labels. Used Configure Automobile - Service to select only 2G, applied, and selected a visible marker. It opened the individual point directly; the initial wait for a cluster table timed out, so inspected the current UI before proceeding. Record 131921613 reports 2G/generation 2, RxLevel, RxQual, ARFCN and BSIC. | | | | |

| **7.0.0** | Given Service point details are loading, the detail presentation shows a loading state without displaying incorrect detail data. | Given Service point details are loading, the detail presentation shows a loading state without displaying incorrect detail data. | The recorded check satisfied the criterion; see the assessment below.<br>Evidence: E56, E57, E58, E59, E60, E61 | Passed |
| Criterion 7 assessment: SIMULATED UI STATE: Delayed the selected detail request to check loading. The evidence shows only a loading spinner in the entire active detail presentation, without prior fields or neighbours. | | | | |

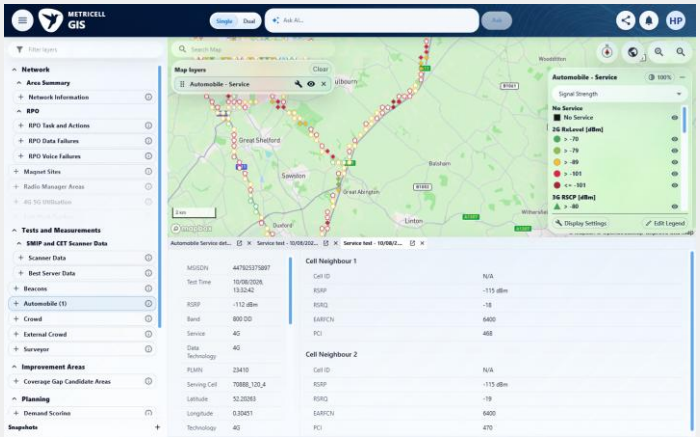

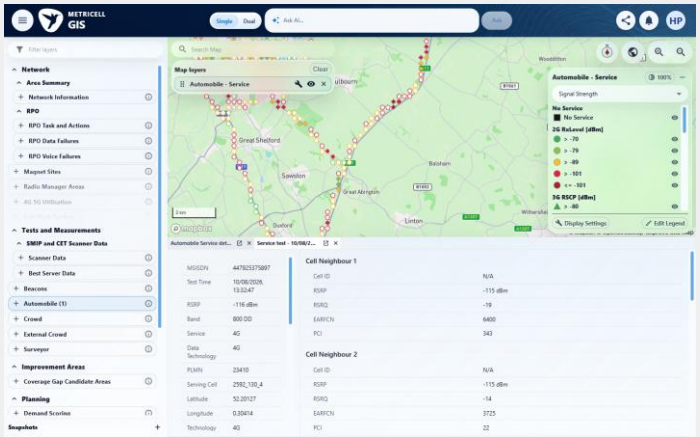

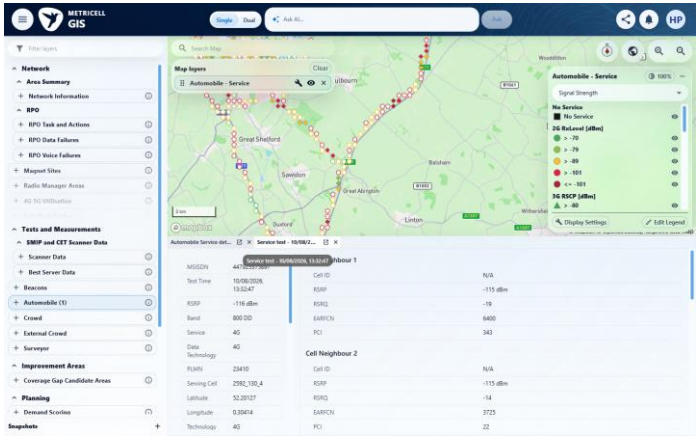

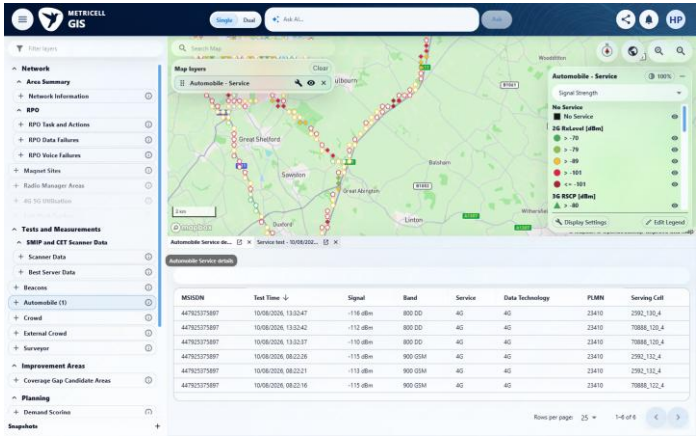

**Criterion 7 evidence: Given Service point details are loading, the detail presentation shows a loading state without displaying incorrect detail data.**
**Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis**

| ID / Criterion | Criteria Tested | Expected Result | Actual Result / Evidence Path | Outcome |
|---|---|---|---|---|
| **8.0.0** | Given Service point details are unavailable, the detail presentation shows a no-data state without displaying incorrect detail data. | Given Service point details are unavailable, the detail presentation shows a no-data state without displaying incorrect detail data. | No genuine unavailable-detail fixture or authoritative empty-response contract for POST /api/platform/automobile/service/cluster-details was established. criterion-8-final.png instead shows the selected point 131928117 loaded with serving information and two neighbours. An empty point-list response is a different endpoint/state. The no-data presentation and exclusion of stale details are blocked pending the required fixture or contract; no fabricated empty detail response is accepted.<br>Evidence: E62, E63, E64, E65, E04, E66, E67 | Blocked |

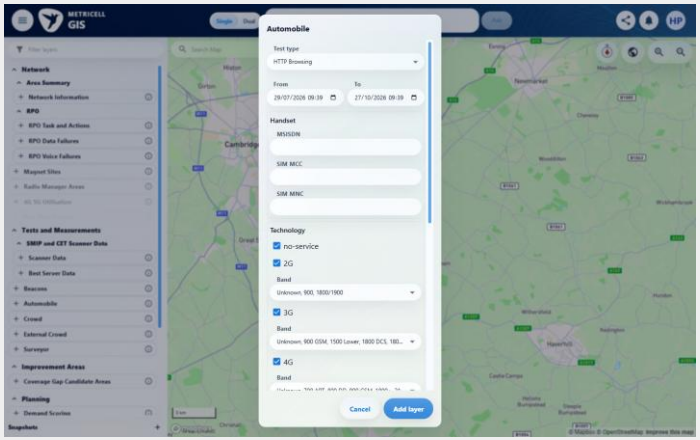

Criterion 8 assessment: Testing notes: No genuine unavailable-detail fixture or authoritative empty response contract for the individual Service detail request was established. The no-data UI branch and incorrect-data exclusion cannot be decided safely. Inspected the genuine POST /api/platform/automobile/service/cluster-details HTTP 200 response: it contained populated serving details and two neighbours. It was not an unavailable-details fixture. No authoritative empty-detail response contract or genuine unavailable-detail response was supplied or established. Empty map point-list responses are a different endpoint/state.

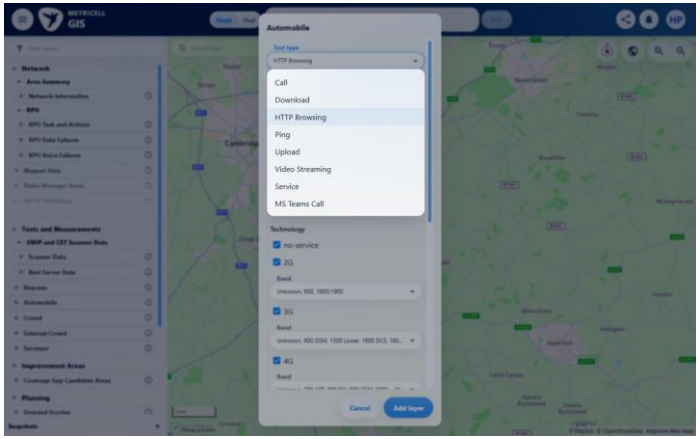

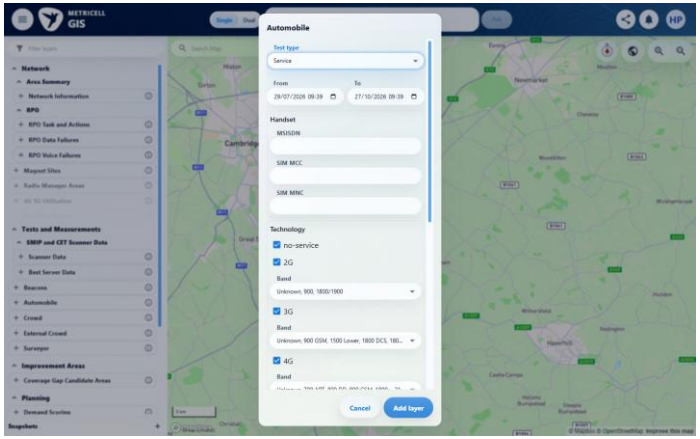

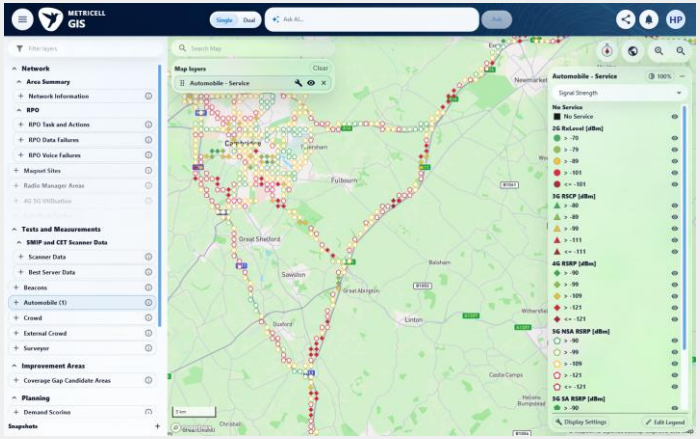

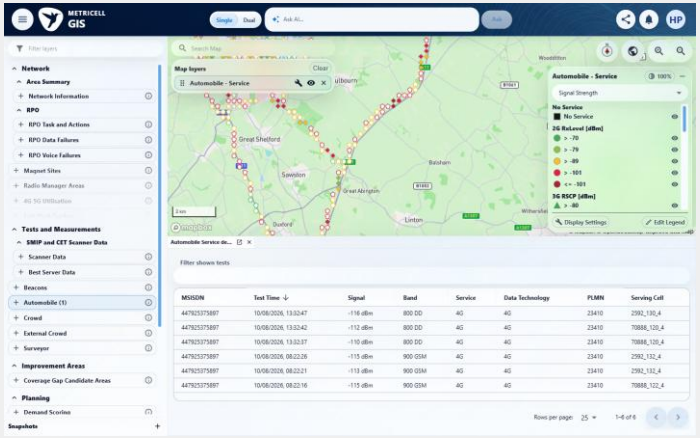

**Criterion 8 evidence: Given Service point details are unavailable, the detail presentation shows a no-data state without displaying incorrect detail data.**

metricell
Better Connected

## About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
