About Metricell8

1 Revision History

Version	Date	Revision Author	Summary of Changes
[1.0]	06/10/2026	TEST2 QA Automation	Generated from TEST2 evidence review

2 Test Cycle Information

Tester:	Automated
Jira Ticket:	TEST2-55
Environment:	o2intelligence-v4-dev.metricell.com
Browser Details:	Google Chrome 154.0.8037.98
Date of Test:	06/10/2026
Limitations during Testing:	No testing limitations recorded.
Overall review outcome:	Passed
Browser URL(s) recorded after criteria:	https://o2intelligence-v4-dev.metricell.com/launcher ; https://o2intelligence-v4-dev.metricell.com/api-request-audit

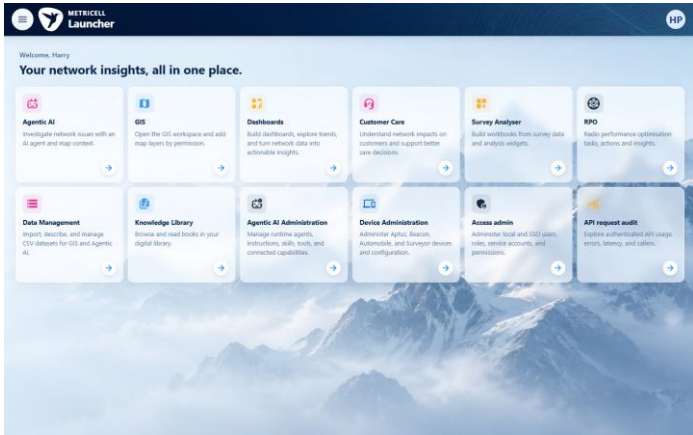

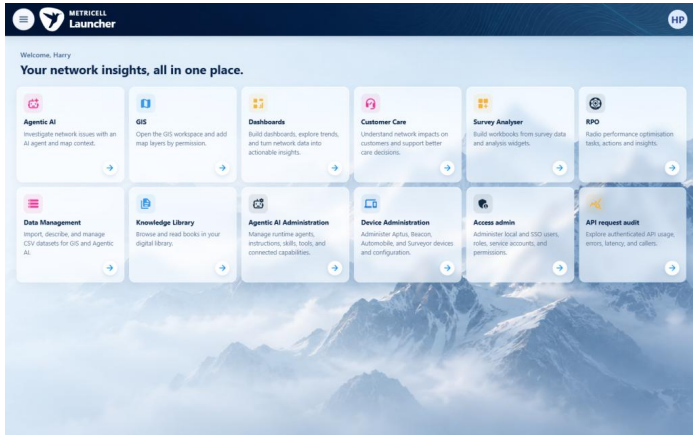

3 Test Summary

Area of test	Pass	Fail	Defects (No.)
1. Starting from the V4 launcher with existing...	Y	N	0
2. After the user opens the API Request Audit...	Y	N	0
3. After the API Request Audit module has...	Y	N	0

4 Test Cases

Each test maps to a criterion and decisive browser evidence. Inconclusive results are reported as Failed.

4.1 Tests

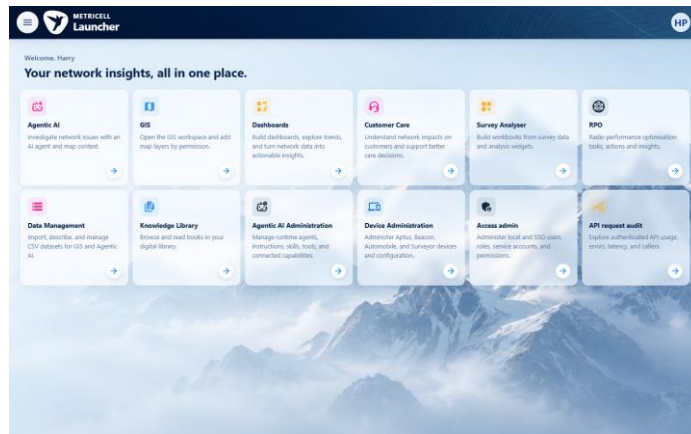

Preconditions:		V4 access and ticket conditions.	Associated Requirements:	Ticket criteria below.	Automation Notes:	Screenshots below each criterion; full log retained locally.
ID / Criterion	Criteria Tested		Expected Result	Actual Result / Evidence Path		Outcome
1.0.0	Starting from the V4 launcher with existing authorised access, the launcher displays an API Request Audit module card with an available control to open it.		Starting from the V4 launcher with existing authorised access, the launcher displays an API Request Audit module card with an available control to open it.	The initial, hover and final images show the authorised launcher with an API request audit card and a visible active arrow control. The browser-derived URL is https://o2intelligence-v4-dev.metricell.com/launcher. Evidence: E01, E02		Passed
Criterion 1 evidence: Starting from the V4 launcher with existing authorised access, the launcher displays an API Request Audit module card with an available control to open it.						
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/launcher						
E01 - Initial (criterion-1-initial.png)						
						
E02 - Final (criterion-1-final.png)						
						

2.0.0	After the user opens the API Request Audit module card, an API Request Audit dashboard or request explorer is displayed with identifiable module content, and the user is not left on the launcher, a login screen, or an application error page.	After the user opens the API Request Audit module card, an API Request Audit dashboard or request explorer is displayed with identifiable module content, and the user is not left on the launcher, a login screen, or an application error page.	This criterion's initial image shows the launcher; after opening and in the final image, the API request audit header, populated request metrics and Requests and errors over time chart are displayed. The browser-derived URL confirms the /api-request-audit destination on o2intelligence-v4-dev.metricell.com. Evidence: E01, E03	Passed
-------	---	---	---	--------

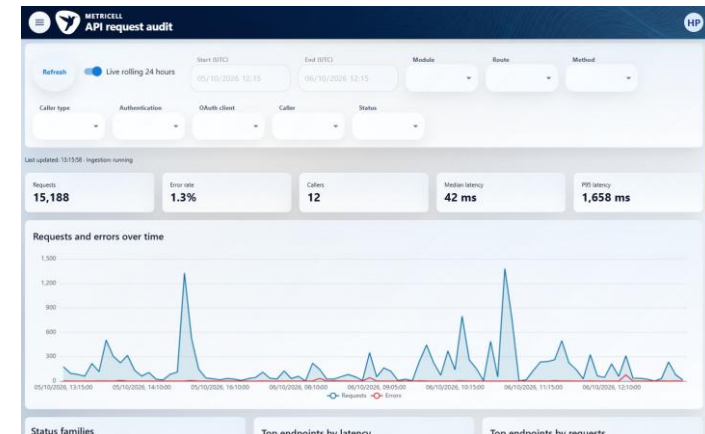

Criterion 2 evidence: After the user opens the API Request Audit module card, an API Request Audit dashboard or request explorer is displayed with identifiable module content, and the user is not left on the launcher, a login screen, or an application error page.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/api-request-audit>

E01 - Initial (criterion-2-initial.png)

E03 - Final (criterion-2-final.png)

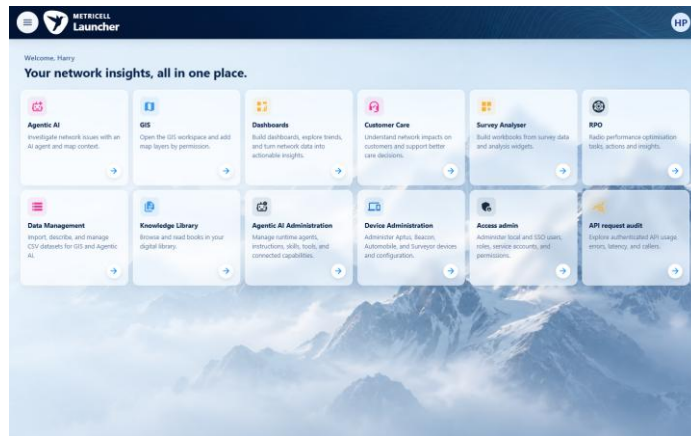

3.0.0	After the API Request Audit module has loaded, using the browser Back control returns to the V4 launcher and displays its module cards again.	After the API Request Audit module has loaded, using the browser Back control returns to the V4 launcher and displays its module cards again.	This criterion's ordered images show the launcher, the loaded audit dashboard before Back, then the launcher with all 12 module cards after Back and in the final state. Its steps record the browser Back action, and the browser-derived final URL is https://o2intelligence-v4-dev.metricell.com/launcher . Evidence: E01, E04, E02	Passed
-------	---	---	--	--------

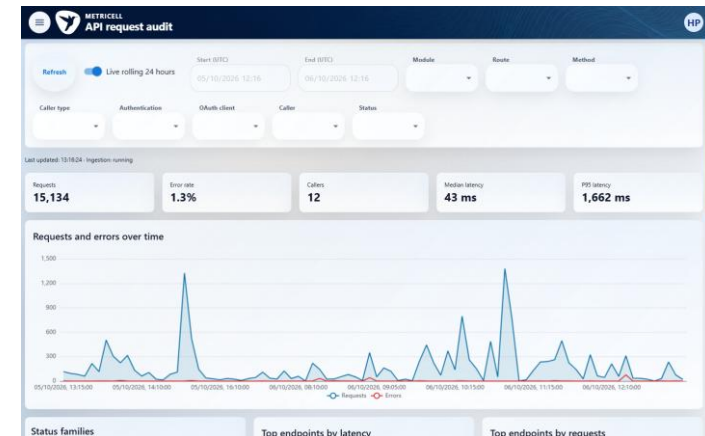

Criterion 3 evidence: After the API Request Audit module has loaded, using the browser Back control returns to the V4 launcher and displays its module cards again.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/launcher>

E01 - Initial (criterion-3-initial.png)

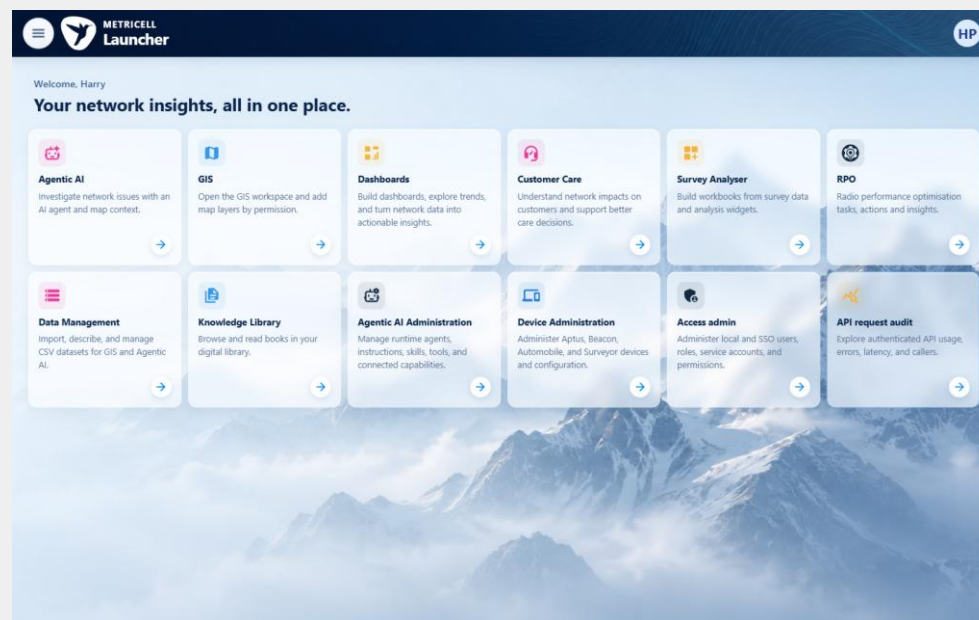

E04 - After open before back (criterion-3-after-open-before-back.png)

Criterion 3 continued: After the API Request Audit module has loaded, using the browser Back control returns to the V4 launcher and displays its module cards again.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/launcher>

E02 - Final (criterion-3-final.png)

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
