Welcome, Harry

Your network insights, all in one place.

Agentic AI
Investigate network issues with an AI agent and map context.

GIS
Open the GIS workspace and add map layers by permission.

Dashboards
Build dashboards, explore trends, and turn network data into actionable insights.

Customer Care
Understand network impacts on customers and support better care decisions.

Survey Analyser
Build workbooks from survey data and analysis widgets.

RPO
Radio performance optimisation tasks, actions and insights.

Data Management
Import, describe, and manage OSI datasets for GIS and Agentic AI.

Documents
Organise documents and find the information you need in one workspace.

Agentic AI Administration
Manage runtime agents, instructions, skills, tools, and connected capabilities.

Device Administration
Administer local and SSD devices, Automobility, and Surveyor devices and configuration.

Access admin
Administer local and SSD users, roles, service accounts, and permissions.

API request audit
Explore authenticated API usage, errors, latency, and callers.

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
