About Metricell12

Version	Date	Revision Author	Summary of Changes
[1.0]	01/10/2026	TEST2 QA Automation	Generated from TEST2 evidence review

Tester:	Automated
Jira Ticket:	TEST2-48
Environment:	Chrome
Browser Details:	Chrome version not recorded
Date of Test:	01/10/2026
Limitations during Testing:	No testing limitations recorded.
Overall review outcome:	Passed
Browser URL(s) recorded after criteria:	https://o2intelligence-v4-dev.metricell.com/gis

Area of test	Pass	Fail	Defects (No.)
1. Starting from the V4 launcher, the signed-in...	Y	N	0
2. After opening `Display Settings`, the panel...	Y	N	0
3. After changing `Show linked sites` to the...	Y	N	0
4. After restoring `Show linked sites` to its...	Y	N	0

All automated tests must map to an approved criterion and produce reproducible results plus decisive evidence. Use Failed, Blocked, or Unverified where applicable.

4.1 Tests

Preconditions:	Per-criterion prerequisites are stated in the acceptance criteria and test steps; no separate fixture inventory was supplied.	Associated Requirements:	Ticket acceptance criteria, listed in full below.	Automation Notes:	Automated browser run. The appendix contains selected decisive screenshots; the full attempt evidence remains in the local evidence folder. Inconclusive results are reported as Failed.
-----------------------	---	---------------------------------	---	--------------------------	--

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	Starting from the V4 launcher, the signed-in user opens GIS, loads an available Surveyor layer, and the layer legend displays a `Display Settings` control.	Starting from the V4 launcher, the signed-in user opens GIS, loads an available Surveyor layer, and the layer legend displays a `Display Settings` control.	Screenshots show the signed-in launcher, GIS, and loaded Surveyor - Service legend with Display Settings. Steps taken: Navigated to the V4 launcher and confirmed the signed-in welcome screen; Opened GIS, selected the available Surveyor layer with its default Service configuration, and added it to the map; Observed the Surveyor - Service legend with the Display Settings control; Removed the added layer to restore the map. Evidence: E01, E02 Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis	Passed
2.0.0	After opening `Display Settings`, the panel displays a `Show linked sites` control with a discernible current state.	After opening `Display Settings`, the panel displays a `Show linked sites` control with a discernible current state.	The Display Settings screenshot shows Show linked sites checked. Steps taken: Returned to the V4 launcher, opened GIS, and added the available Surveyor layer using its default configuration; Opened Display Settings and observed Show	Passed

			linked sites checked; Removed the added layer to restore the map. Evidence: E03 Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis	
3.0.0	After changing `Show linked sites` to the opposite state, the control visibly displays the new state.	After changing `Show linked sites` to the opposite state, the control visibly displays the new state.	Before and after screenshots show Show linked sites checked, then unchecked. Steps taken: Returned to the V4 launcher, opened GIS, and added the available Surveyor layer using its default configuration; Opened Display Settings and observed Show linked sites initially checked; Clicked Show linked sites once and observed that it was unchecked; Restored Show linked sites to checked and removed the added layer. Evidence: E03, E04 Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis	Passed
4.0.0	After restoring `Show linked sites` to its original state, closing and reopening `Display Settings` shows the original state again.	After restoring `Show linked sites` to its original state, closing and reopening `Display Settings` shows the original state again.	Screenshots show the restored checked state before closing and the checked state after reopening Display Settings. Steps taken: Returned to the V4 launcher, opened GIS, and added the available Surveyor layer using its default configuration; Opened Display Settings and observed Show linked sites checked; Closed Display Settings, reopened it, and observed Show linked sites remained checked; Removed the added layer to restore the map. Evidence: E03, E05, E06 Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis	Passed

Evidence Appendix - selected decisive screenshots

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
