About Metricell14

1 Revision History

Version	Date	Revision Author	Summary of Changes
[1.0]	06/10/2026	TEST2 QA Automation	Generated from TEST2 evidence review

2 Test Cycle Information

Tester:	Automated
Jira Ticket:	TEST2-57
Environment:	o2intelligence-v4-dev.metricell.com
Browser Details:	Google Chrome 154.0.8037.98
Date of Test:	06/10/2026
Limitations during Testing:	Criterion 2: One Zoom in changed the settled visible scale from 100 km to 50 km. The same loaded Surveyor - Service layer remained identifiable. Cleanup completed; the tooltip interception was recovered during cleanup. Defects (No.) counts directly contradicted criteria, not unique Jira bugs; blockers and inconclusive evidence count as zero.
Overall review outcome:	Passed
Browser URL(s) recorded after criteria:	https://o2intelligence-v4-dev.metricell.com/gis

3 Test Summary

Area of test	Pass	Fail	Defects (No.)
1. With a test-created Surveyor layer loaded in...	Y	N	0
2. With the same Surveyor layer loaded and...	Y	N	0
3. After the zoom-in criterion passes, selecting...	Y	N	0
4. After completing the zoom-in and zoom-out...	Y	N	0

4 Test Cases

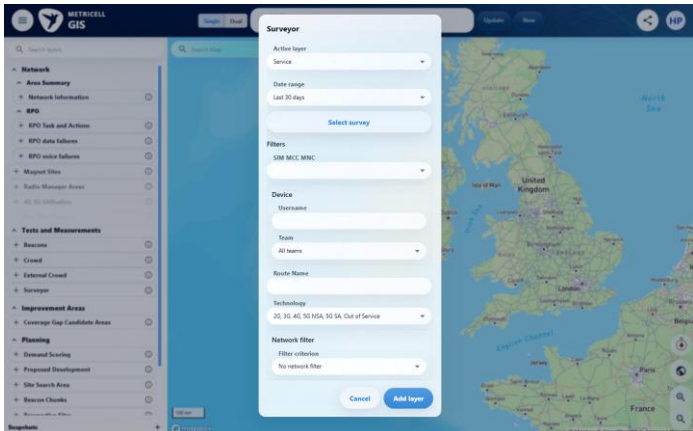

Each test maps to a criterion and decisive browser evidence. Inconclusive results are reported as Failed.

4.1 Tests

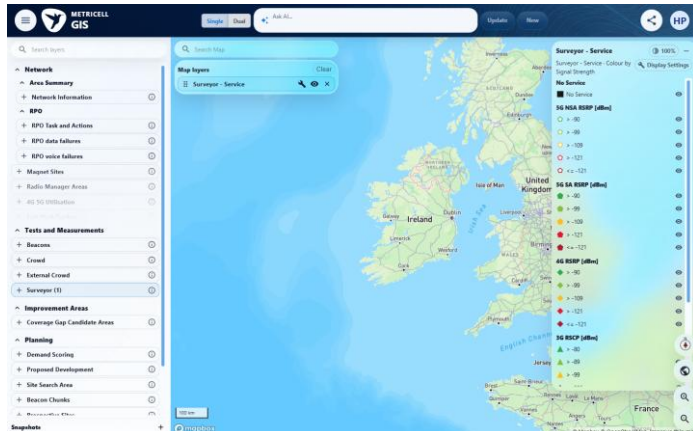

Preconditions:		V4 access and ticket conditions.	Associated Requirements:	Ticket criteria below.	Automation Notes:	Screenshots below each criterion; full log retained locally.
ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path		Outcome	
1.0.0	With a test-created Surveyor layer loaded in GIS, the layer is identifiable in Map layers or the legend, and opening its Display Settings shows a recordable Show linked sites checkbox state.	With a test-created Surveyor layer loaded in GIS, the layer is identifiable in Map layers or the legend, and opening its Display Settings shows a recordable Show linked sites checkbox state.	Criterion-owned before-add, after-add and final screenshots show the newly added Surveyor - Service in Map layers and the legend, with Show linked sites checked in Display Settings. Evidence: E01, E02, E03		Passed	

Criterion 1 evidence: With a test-created Surveyor layer loaded in GIS, the layer is identifiable in Map layers or the legend, and opening its Display Settings shows a recordable Show linked sites checkbox state.
Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

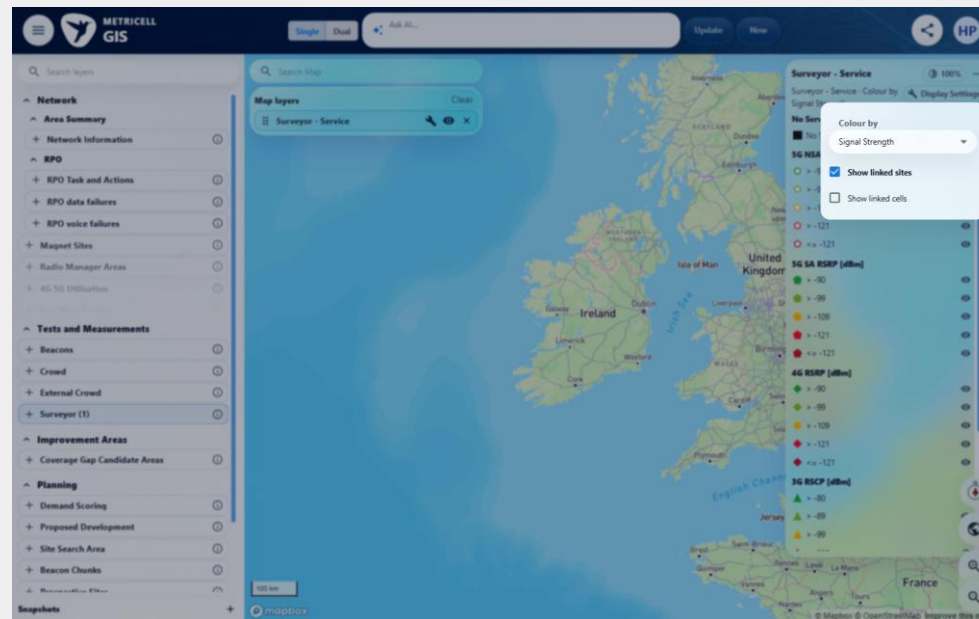

E01 - After open surveyor (criterion-1-after-open-surveyor.png)

E02 - Before display settings (criterion-1-before-display-settings.png)

Criterion 1 continued: With a test-created Surveyor layer loaded in GIS, the layer is identifiable in Map layers or the legend, and opening its Display Settings shows a recordable Show linked sites checkbox state.
Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>
E03 - Final (criterion-1-final.png)

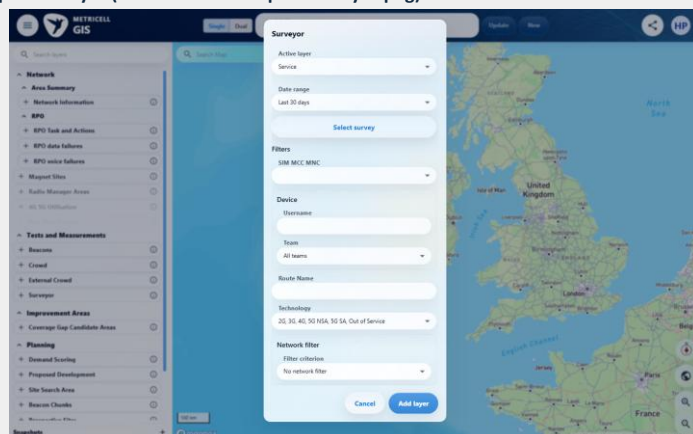

2.0.0	With the same Surveyor layer loaded and Display Settings closed, after recording a settled initial map scale, selecting zoom-in once produces a closer settled map scale and the same layer remains identifiable in Map layers or the legend.	With the same Surveyor layer loaded and Display Settings closed, after recording a settled initial map scale, selecting zoom-in once produces a closer settled map scale and the same layer remains identifiable in Map layers or the legend.	With Display Settings closed, criterion-2-before-zoom-in.png shows 100 km and criterion-2-final.png shows the closer 50 km scale; Surveyor - Service remains in Map layers and the legend. The reported tooltip interception occurred during cleanup, after this assertion. Evidence: E04, E05, E06, E07, E08, E09	Passed
-------	---	---	---	--------

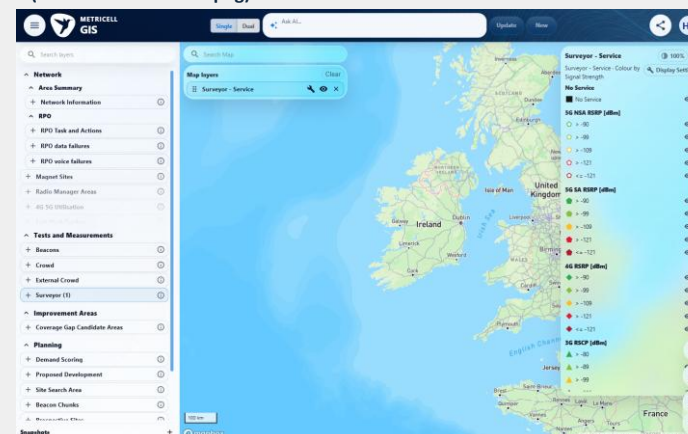

Criterion 2 evidence: With the same Surveyor layer loaded and Display Settings closed, after recording a settled initial map scale, selecting zoom-in once produces a closer settled map scale and the same layer remains identifiable in Map layers or the legend.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E04 - After open surveyor (criterion-2-after-open-surveyor.png)

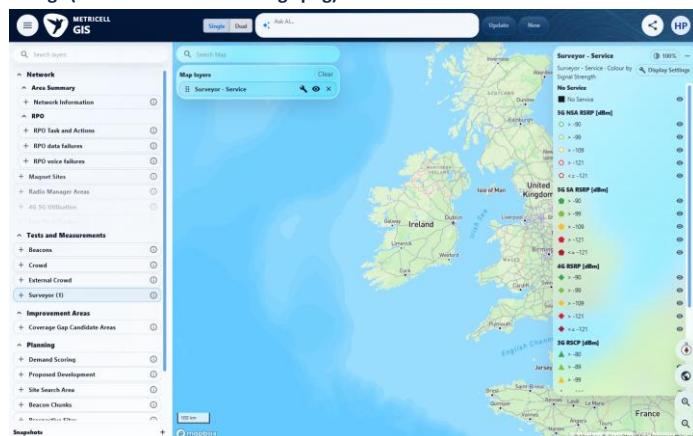

E05 - After add (criterion-2-after-add.png)

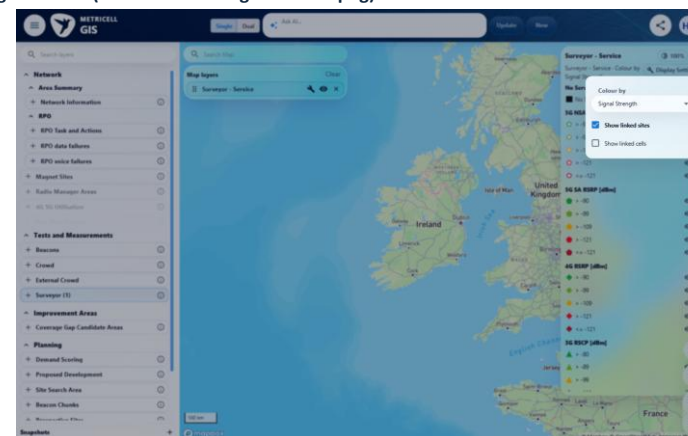

Criterion 2 continued: With the same Surveyor layer loaded and Display Settings closed, after recording a settled initial map scale, selecting zoom-in once produces a closer settled map scale and the same layer remains identifiable in Map layers or the legend.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E06 - Before settings (criterion-2-before-settings.png)

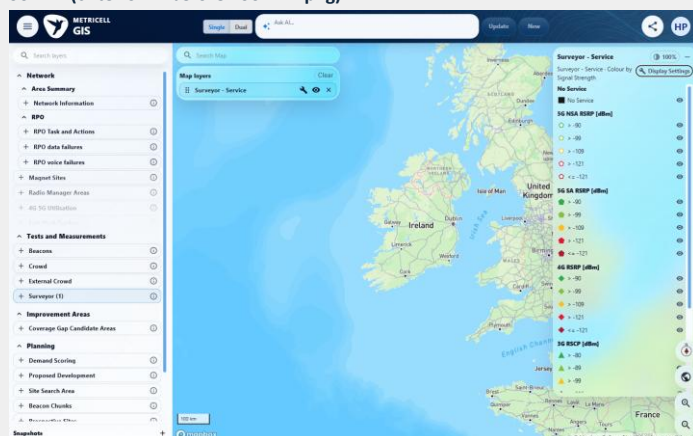

E07 - Settings baseline (criterion-2-settings-baseline.png)

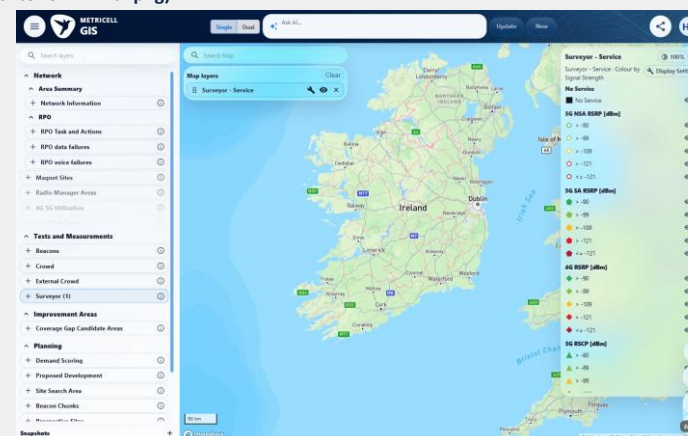

Criterion 2 continued: With the same Surveyor layer loaded and Display Settings closed, after recording a settled initial map scale, selecting zoom-in once produces a closer settled map scale and the same layer remains identifiable in Map layers or the legend.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E08 - Before zoom in (criterion-2-before-zoom-in.png)

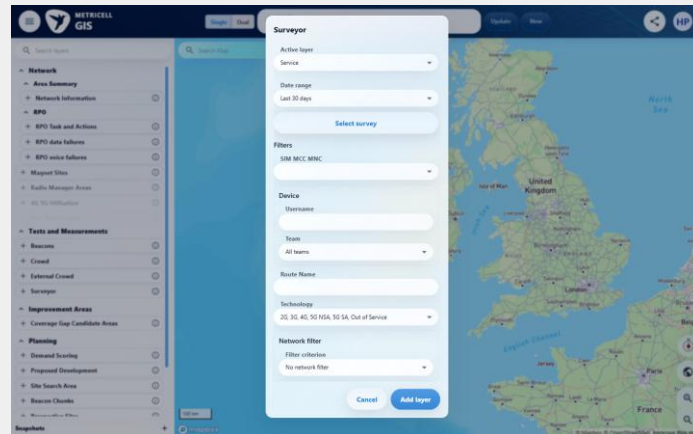

E09 - Final (criterion-2-final.png)

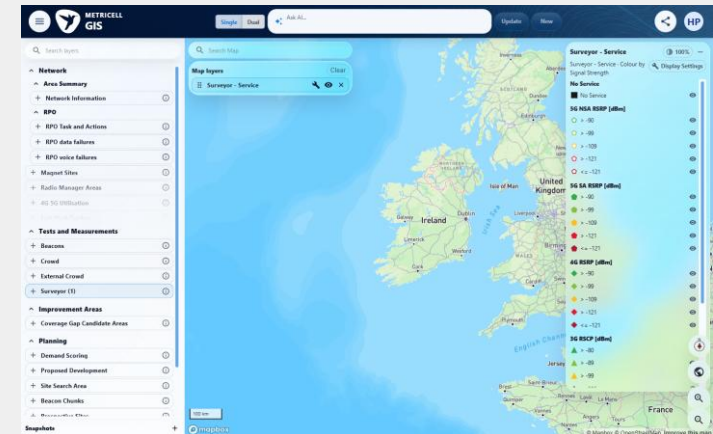

3.0.0	After the zoom-in criterion passes, selecting zoom-out once returns the map to the recorded initial scale and the same Surveyor layer remains available without being added again.	After the zoom-in criterion passes, selecting zoom-out once returns the map to the recorded initial scale and the same Surveyor layer remains available without being added again.	Criterion 3's own ordered before-zoom-in, after-zoom-in, before-zoom-out and final screenshots show 100 km to 50 km to 100 km, retaining Surveyor - Service throughout; its recorded steps contain no intervening layer addition. Evidence: E04, E06, E10, E08, E09, E11, E12	Passed
-------	--	--	--	--------

Criterion 3 evidence: After the zoom-in criterion passes, selecting zoom-out once returns the map to the recorded initial scale and the same Surveyor layer remains available without being added again.
Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E04 - After open surveyor (criterion-3-after-open-surveyor.png)

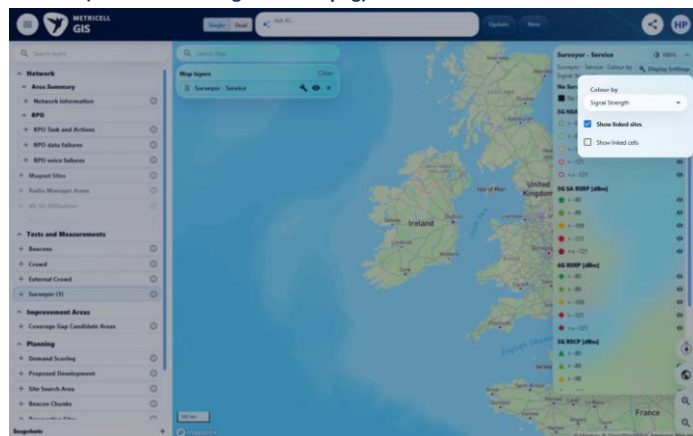

E06 - Before settings (criterion-3-before-settings.png)

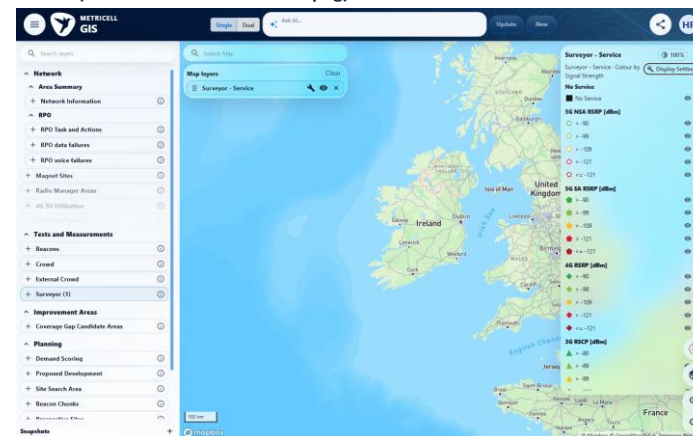

Criterion 3 continued: After the zoom-in criterion passes, selecting zoom-out once returns the map to the recorded initial scale and the same Surveyor layer remains available without being added again.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E10 - Settings baseline (criterion-3-settings-baseline.png)

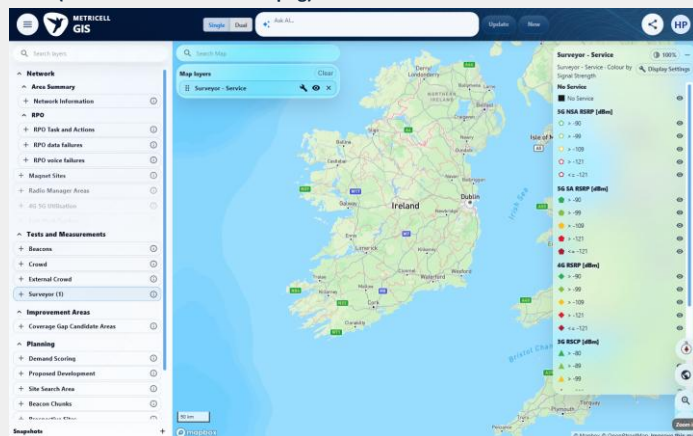

E08 - Before zoom in (criterion-3-before-zoom-in.png)

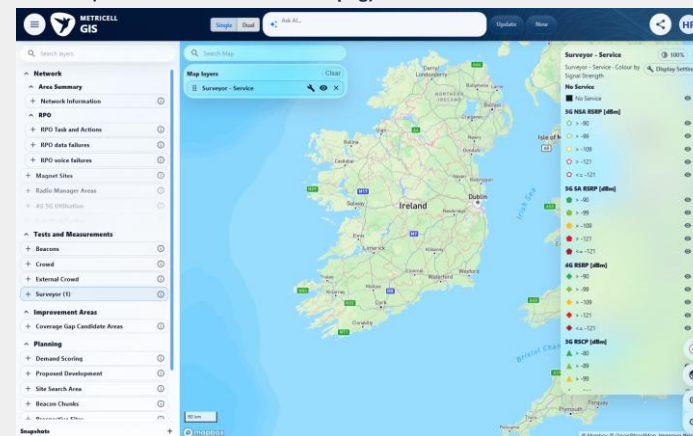

Criterion 3 continued: After the zoom-in criterion passes, selecting zoom-out once returns the map to the recorded initial scale and the same Surveyor layer remains available without being added again.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E09 - After zoom in (criterion-3-after-zoom-in.png)

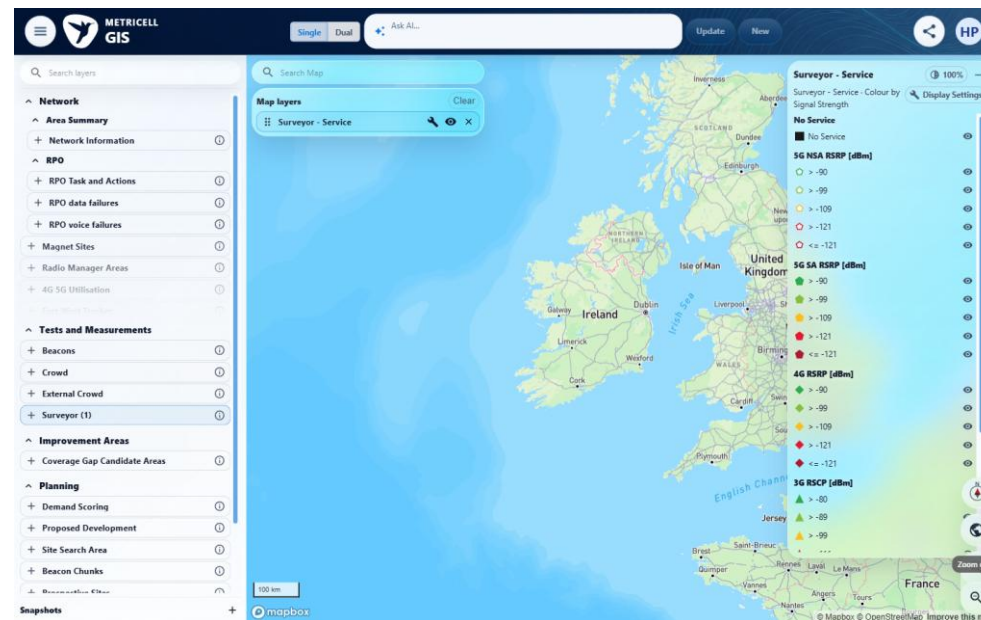

E11 - Before zoom out (criterion-3-before-zoom-out.png)

Criterion 3 continued: After the zoom-in criterion passes, selecting zoom-out once returns the map to the recorded initial scale and the same Surveyor layer remains available without being added again.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

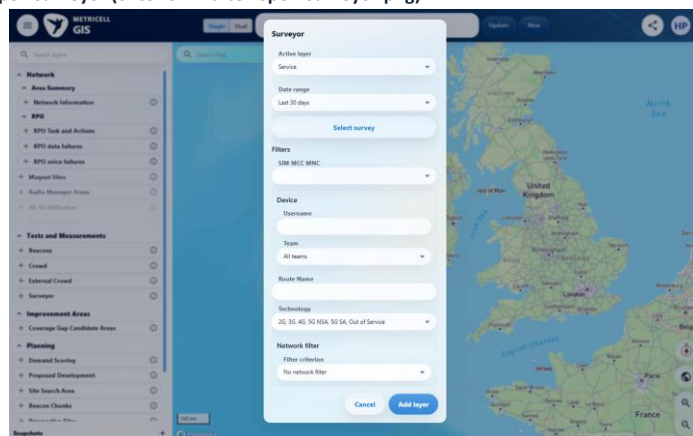

E12 - Final (criterion-3-final.png)

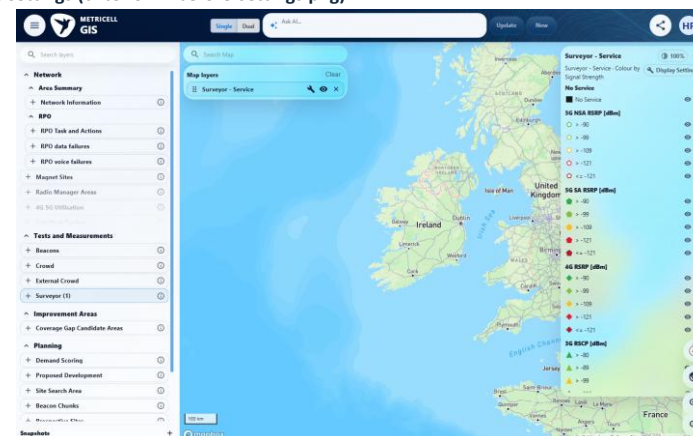

4.0.0	After completing the zoom-in and zoom-out journey, opening Display Settings for the same Surveyor layer shows the same Show linked sites checkbox state recorded before zooming.	After completing the zoom-in and zoom-out journey, opening Display Settings for the same Surveyor layer shows the same Show linked sites checkbox state recorded before zooming.	Criterion 4's own baseline shows Show linked sites checked at 100 km; subsequent screenshots show settings closed, zoom to 50 km, return to 100 km, and reopened settings with Show linked sites still checked for Surveyor - Service. Evidence: E04, E06, E07, E08, E09, E11, E12	Passed
-------	--	--	--	--------

Criterion 4 evidence: After completing the zoom-in and zoom-out journey, opening Display Settings for the same Surveyor layer shows the same Show linked sites checkbox state recorded before zooming.
 Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E04 - After open surveyor (criterion-4-after-open-surveyor.png)

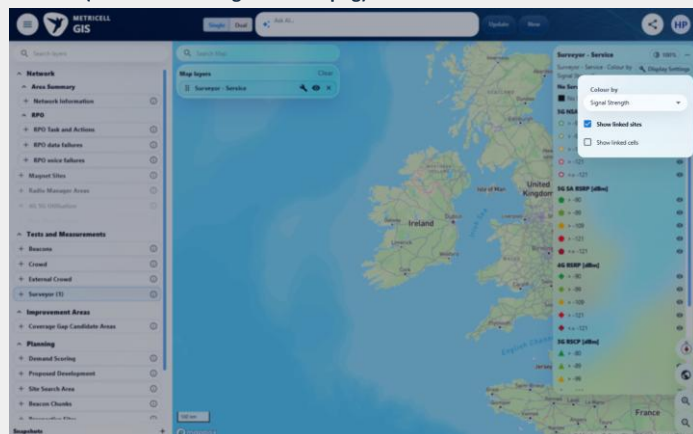

E06 - Before settings (criterion-4-before-settings.png)

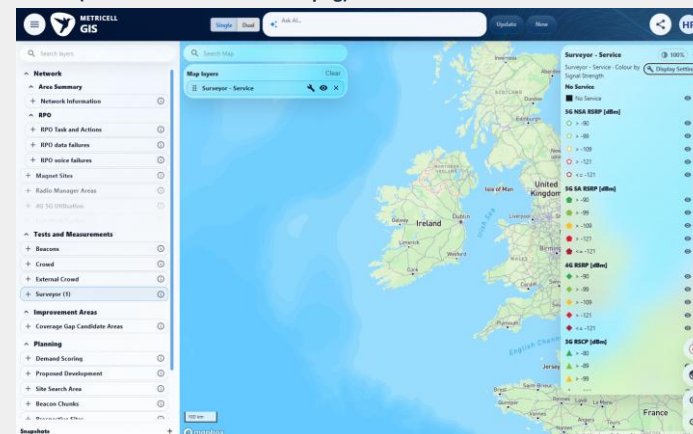

Criterion 4 continued: After completing the zoom-in and zoom-out journey, opening Display Settings for the same Surveyor layer shows the same Show linked sites checkbox state recorded before zooming.
 Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E07 - Settings baseline (criterion-4-settings-baseline.png)

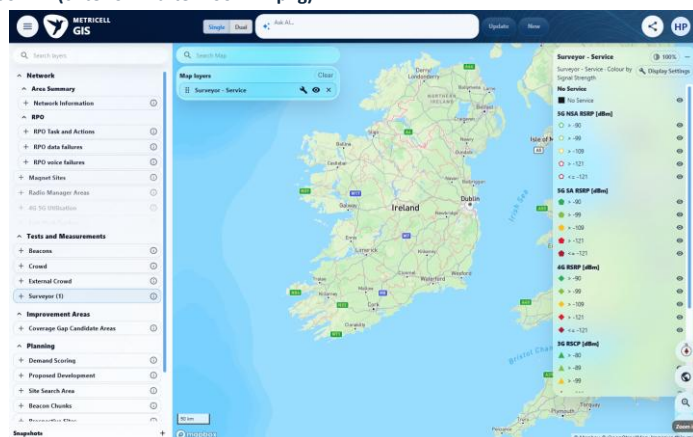

E08 - Before zoom in (criterion-4-before-zoom-in.png)

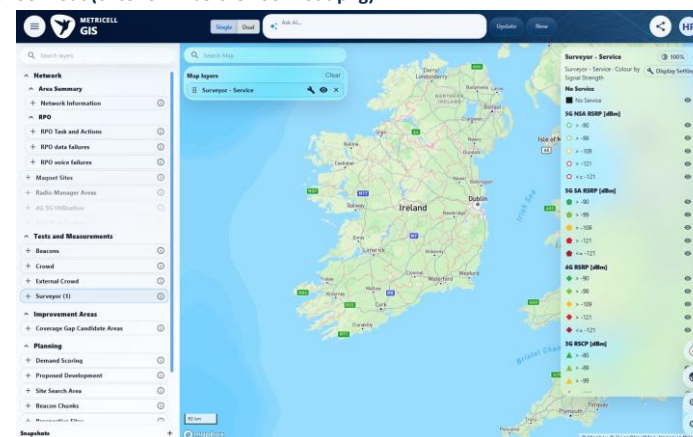

Criterion 4 continued: After completing the zoom-in and zoom-out journey, opening Display Settings for the same Surveyor layer shows the same Show linked sites checkbox state recorded before zooming.
 Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E09 - After zoom in (criterion-4-after-zoom-in.png)

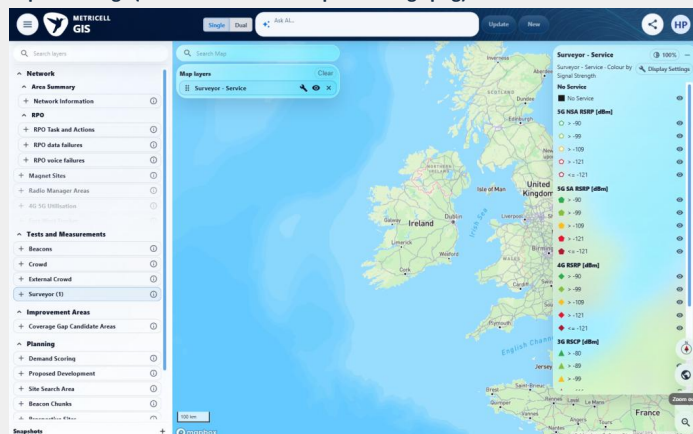

E11 - Before zoom out (criterion-4-before-zoom-out.png)

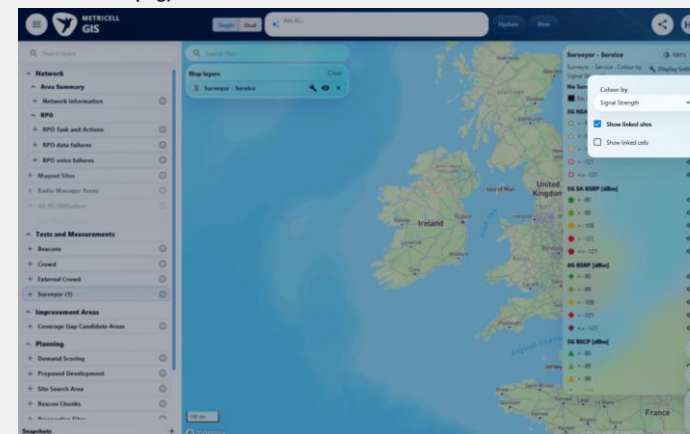

Criterion 4 continued: After completing the zoom-in and zoom-out journey, opening Display Settings for the same Surveyor layer shows the same Show linked sites checkbox state recorded before zooming.
 Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metriceil.com/gis>

E12 - Before reopen settings (criterion-4-before-reopen-settings.png)

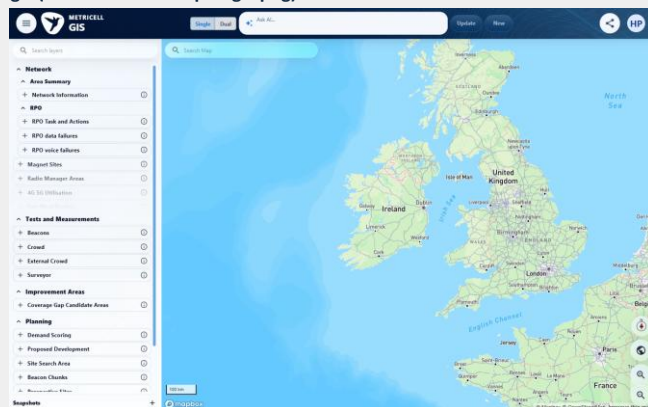

E07 - Final (criterion-4-final.png)

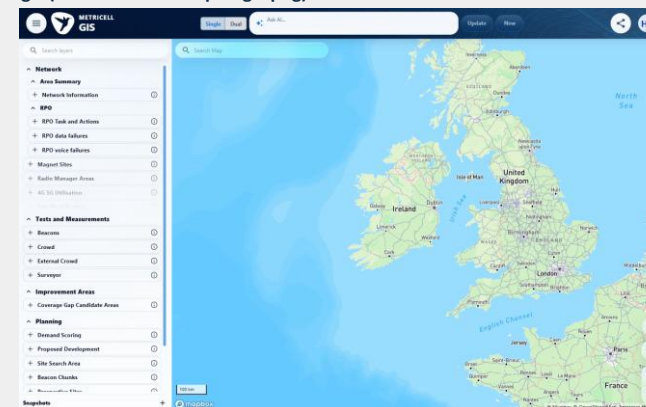

Supporting setup captures - full attempt evidence remains in the local evidence folder

E13 - After open gis (criterion-1-after-open-gis.png)

E14 - After open gis (criterion-2-after-open-gis.png)

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
