About Metricell12

Version	Date	Revision Author	Summary of Changes
[1.0]	22/09/2026	TEST2 QA Automation	Generated from TEST2 evidence review

Tester:	Automated
Jira Ticket:	TEST2-26
Environment:	Chrome
Browser Details:	Chrome version not recorded
Date of Test:	22/09/2026
Limitations during Testing:	None recorded

Area of test	Pass	Fail	Defects (No.)
1. Given the configured V4 launcher page is available, open it and verify that at least one module card is visible with an Open module control.	Y	N	0
2. On a visible module card, select the Open module control and verify that the selected module page is displayed.	Y	N	0
3. After the module opens, verify that the resulting module page displays without a load error and capture evidence of both the launcher card and the opened module page.	Y	N	0

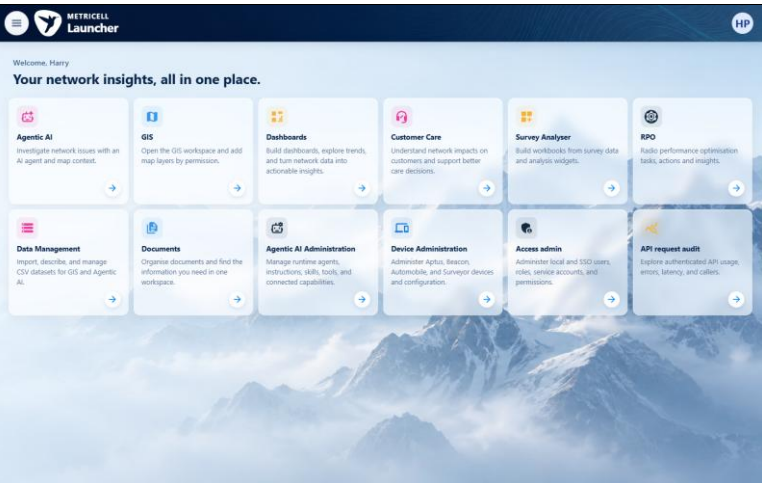

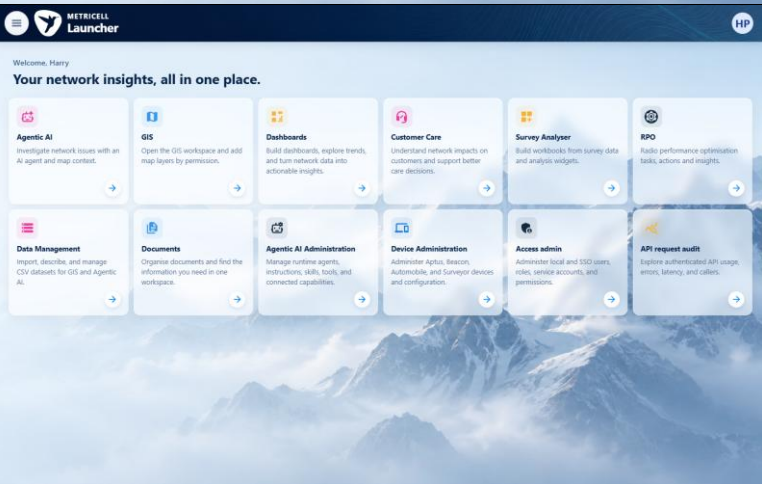

All automated tests must map to an approved criterion and produce reproducible results plus decisive evidence. Use Failed, Blocked, or Unverified where applicable.

4.1 Tests

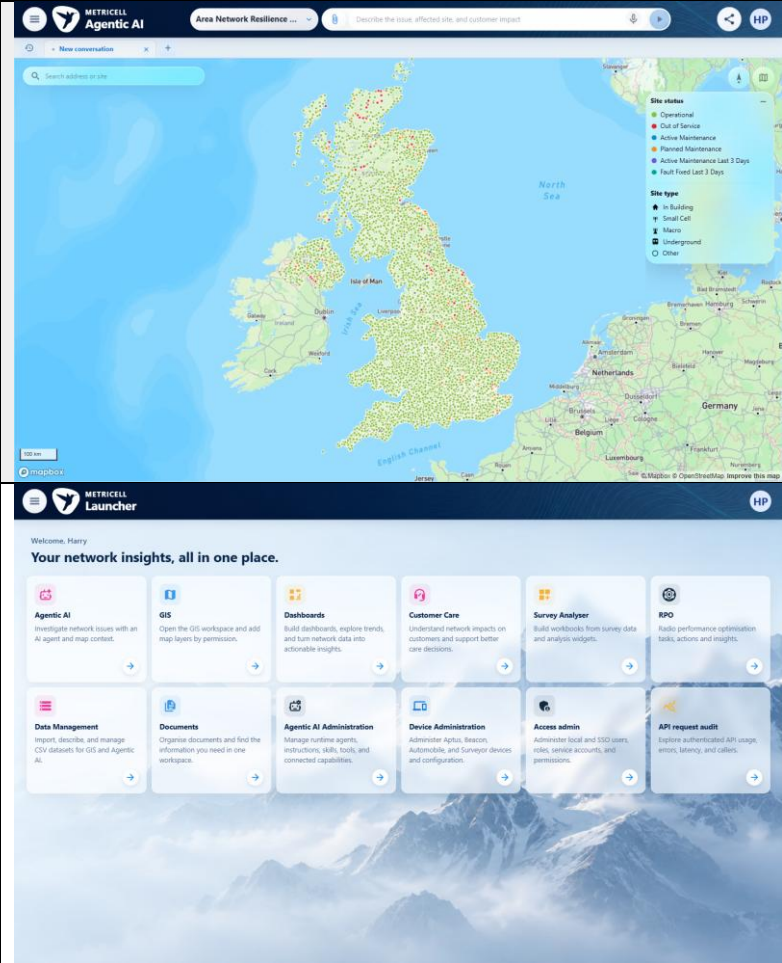

Preconditions:	Not recorded in agent output.	Associated Requirements:	Criteria from criteria.md.	Automation Notes:	Automated browser run; PNG evidence reviewed.

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	Given the configured V4 launcher page is available, open it and verify that at least one module card is visible with an Open module control.	Given the configured V4 launcher page is available, open it and verify that at least one module card is visible with an Open module control.	The attempt-001 launcher screenshots directly show multiple visible module cards with circular open controls, including Agentic AI; the result's browserUrl is present and matches the expected V4 host. Steps taken: Navigated to the required V4 launcher URL and completed the permitted email-and-Continue authentication sequence.; Returned to the launcher independently for this criterion and read the browser URL as https://o2intelligence-v4-dev.metricell.com/launcher.; Inspected the launcher and confirmed visible module cards with Open controls.; Captured and verified separate non-empty initial and final PNG evidence.	Passed

				
				
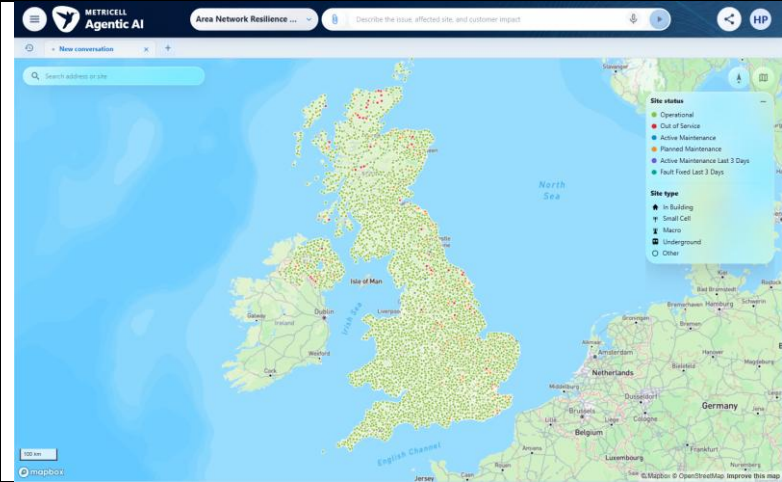

2.0.0	On a visible module card, select the Open module control and verify that the selected module page is displayed.	On a visible module card, select the Open module control and verify that the selected module page is displayed.	The attempt-001 evidence directly shows the Agentic AI card before selection and the rendered Agentic AI module page afterward. Steps taken: Returned independently to the required launcher and read the browser URL as https://o2intelligence-v4-dev.metricell.com/launcher .; Captured the criterion initial state and the launcher	Passed

			immediately before opening the module.; Selected the visible Open Agentic AI control.; Confirmed the browser navigated to /agentic-ai and displayed the Agentic AI interface with its agent selector, prompt control, conversation tab, and map.; Captured and verified separate non-empty after-open and final PNG evidence.

3.0.0	After the module opens, verify that the resulting module page displays without a load error and capture evidence of both the launcher card and the opened module page.	After the module opens, verify that the resulting module page displays without a load error and capture evidence of both the launcher card and the opened module page.	The attempt-001 evidence directly includes both the launcher card state and the opened Agentic AI page, which is visibly rendered with its controls and map and shows no load-error state. Steps taken: Returned independently to the required launcher and read the browser URL as https://o2intelligence-v4-dev.metricell.com/launcher;	Passed

			Captured the criterion initial state and the launcher card immediately before opening Agentic AI.; Selected the visible Open Agentic AI control.; Confirmed the module page rendered at https://o2intelligence-v4-dev.metricell.com/agentic-ai with no visible load error and zero Playwright console errors.; Captured and verified separate non-empty after-open and final PNG evidence, then restored the application to the launcher.

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
