About Metricell10

Version	Date	Revision Author	Summary of Changes
[1.0]	29/09/2026	TEST2 QA Automation	Generated from TEST2 evidence review

Tester:	Automated
Jira Ticket:	TEST2-39
Environment:	Chrome
Browser Details:	Chrome version not recorded
Date of Test:	29/09/2026
Limitations during Testing:	None recorded

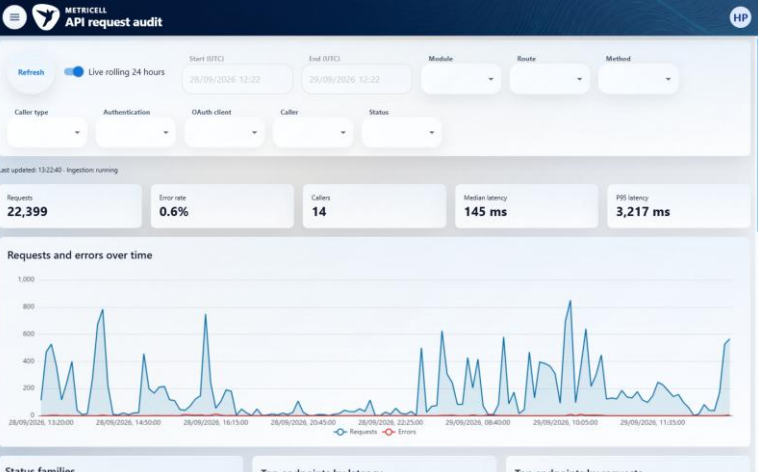

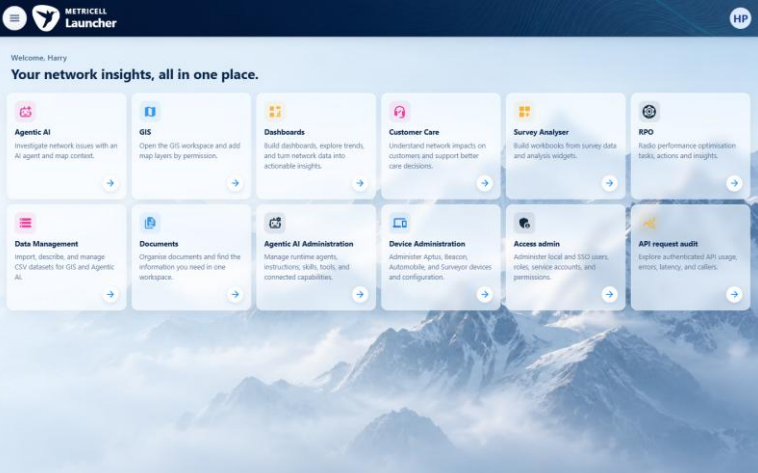

Area of test	Pass	Fail	Defects (No.)
1. From the V4 launcher, open API Request Audit and verify that the module view loads without an application error.	Y	N	0
2. From the first API Request Audit view, use the browser Back control and verify that the V4 launcher is visible.	Y	N	0
3. From the launcher reached by the browser Back control, open API Request Audit again in the same browser session and verify that the module view loads without an application error.	Y	N	0

All automated tests must map to an approved criterion and produce reproducible results plus decisive evidence. Use Failed, Blocked, or Unverified where applicable.

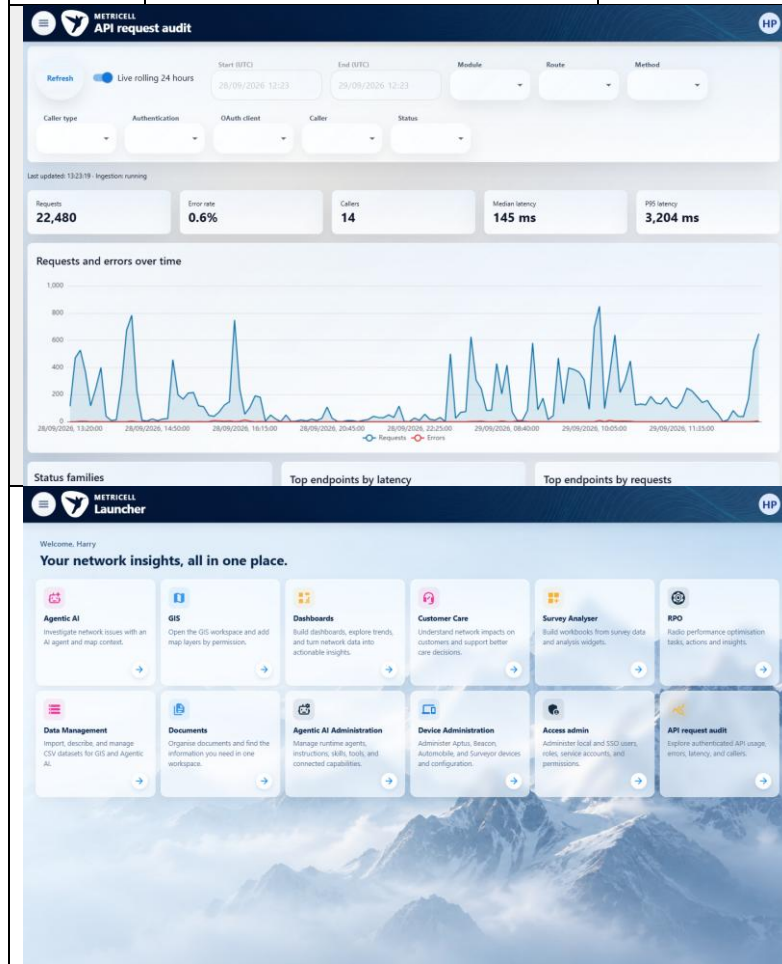

4.1 Tests

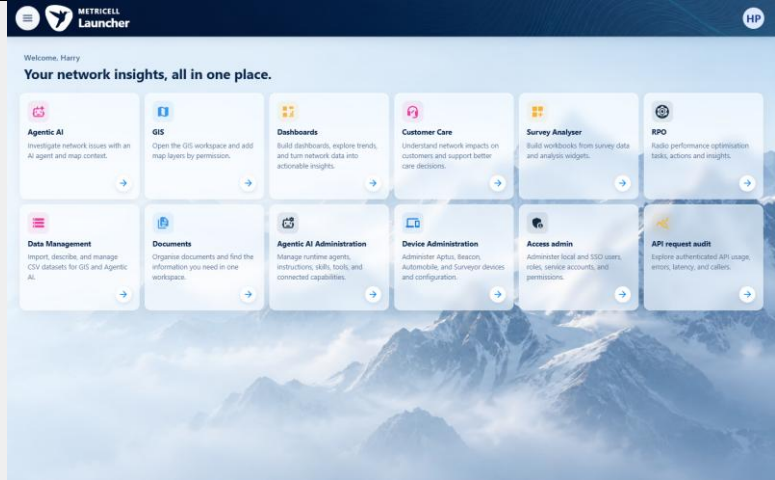

Preconditions:	Not recorded in agent output.	Associated Requirements:	Criteria from criteria.md.	Automation Notes:	Automated browser run; PNG evidence reviewed.
-----------------------	-------------------------------	---------------------------------	----------------------------	--------------------------	---

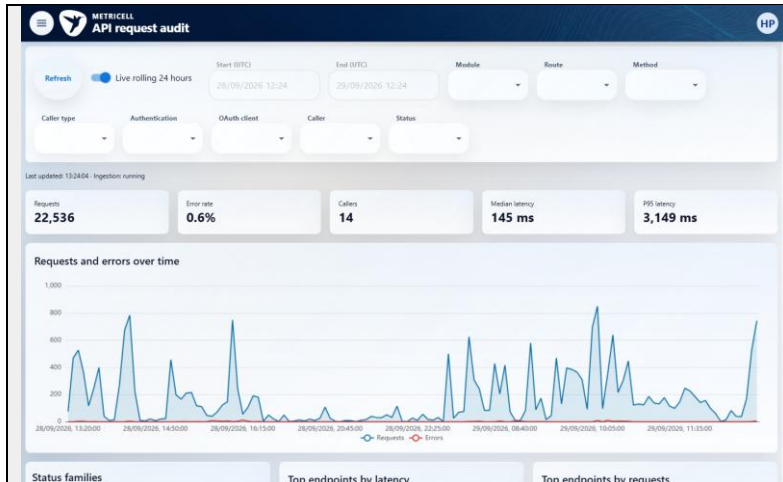

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	From the V4 launcher, open API Request Audit and verify that the module view loads without an application error.	From the V4 launcher, open API Request Audit and verify that the module view loads without an application error.	The initial screenshot shows the V4 launcher with the API request audit tile, and the final screenshot shows the API request audit dashboard loaded with metrics and charts. The result browserUrl is on the expected o2intelligence-v4-dev.metricell.com host and the /api-request-audit route. Steps taken: Opened the V4 launcher and confirmed the API Request Audit tile was available.; Opened API Request Audit and confirmed its dashboard, request metrics, charts, and request explorer loaded without an application error.	Passed

				
				
2.0.0	From the first API Request Audit view, use the browser Back control and verify that the V4 launcher is visible.	From the first API Request Audit view, use the browser Back control and verify that the V4 launcher is visible.	The attempt includes the named initial, before-back, and final screenshots; the final screenshot shows the V4 launcher. The result browserUrl is https://o2intelligence-v4-dev.metricell.com/launcher. Steps taken: Started from the V4 launcher, opened API Request Audit, and confirmed the module view loaded.;	Passed

Used the browser Back control and confirmed the V4 launcher was visible at the launcher URL.

				
3.0.0	From the launcher reached by the browser Back control, open API Request Audit again in the same browser session and verify that the module view loads without an application error.	From the launcher reached by the browser Back control, open API Request Audit again in the same browser session and verify that the module view loads without an application error.	The initial and final screenshots for this criterion show the API request audit view, with the final screenshot displaying its dashboard metrics and charts. The result browserUrl is on the expected o2intelligence-v4-dev.metricell.com host and the /api-request-audit route. Steps taken: Captured the V4 launcher reached by browser Back in the same browser session.; Opened API Request Audit again and confirmed the dashboard metrics and request explorer loaded without an application error.	Passed

METRICELL
Launcher

Welcome, Harry

Your network insights, all in one place.

Agentic AI
Investigate network issues with an AI agent and map context.

GIS
Open the GIS workspace and add map layers by permission.

Dashboards
Build dashboards, explore trends, and turn network data into actionable insights.

Customer Care
Understand network impacts on customers and support better care decisions.

Survey Analyst
Build workflows from survey data and analysis widgets.

RPO
Public performance optimisation tasks, actions and insights.

Data Management
Import, describe, and manage CSV datasets for GIS and Agentic AI.

Documents
Organise documents and find the information you need in one workspace.

Agentic AI Administration
Manage runtime agents, instructions, skills, tools, and connected capabilities.

Device Administration
Administer agents, devices, Automobile, and Supervisor devices and configuration.

Access admin
Administer local and OOO users, roles, service accounts, and permissions.

API request audit
Explore authenticated API usage, errors, latency, and calls.

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
