About Metricell25

Version	Date	Revision Author	Summary of Changes
[1.0]	28/09/2026	TEST2 QA Automation	Generated from TEST2 evidence review

Tester:	Automated
Jira Ticket:	TEST2-38
Environment:	Chrome
Browser Details:	Chrome version not recorded
Date of Test:	28/09/2026
Limitations during Testing:	None recorded

Area of test	Pass	Fail	Defects (No.)
1. Starting at `https://o2intelligence-v4-dev.metricell.com/launcher`, with the V4 launcher displayed and the user signed in if prompted, select the **API Request Audit** card.	Y	N	0
2. After the first card selection, verify that the API Request Audit module is displayed on the `o2intelligence-v4-dev.metricell.com` V4 host and no application load error is shown.	Y	N	0
3. From the first API Request Audit module view, use the browser Back control and verify that the V4 launcher is displayed again.	Y	N	0

4. From the restored V4 launcher, select the **API Request Audit** card a second time during the same browser session.	Y	N	0
5. After the second card selection, verify that the API Request Audit module is displayed again on the `o2intelligence-v4-dev.metricell.com` V4 host and no application load error is shown.	Y	N	0
6. Across the two module openings, verify that the browser URLs identify the same V4 host and that the intermediate launcher view is visible between the openings.	Y	N	0
7. During this flow, verify that no audit data is created or modified.	N	Y	1

All automated tests must map to an approved criterion and produce reproducible results plus decisive evidence. Use Failed, Blocked, or Unverified where applicable.

4.1 Tests

Preconditions:	Not recorded in agent output.	Associated Requirements:	Criteria from criteria.md.	Automation Notes:	Automated browser run; PNG evidence reviewed.
-----------------------	-------------------------------	---------------------------------	----------------------------	--------------------------	---

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	Starting at `https://o2intelligence-v4-dev.metricell.com/launcher`, with the V4 launcher displayed and the user signed in if prompted, select the **API Request Audit** card.	Starting at `https://o2intelligence-v4-dev.metricell.com/launcher`, with the V4 launcher displayed and the user signed in if prompted, select the **API Request Audit** card.	Attempt-003 initial and before-select screenshots show the signed-in V4 launcher and API Request Audit card; the corresponding browserUrl is on the required V4 host. Steps taken: Opened the exact V4 launcher route; the launcher was displayed and the signed-in account showed HP.; Selected the API request audit launcher card.; Observed the API request audit module.	Passed

METRICELL Launcher

Welcome, Harry

Your network insights, all in one place.

- Agentic AI**
Investigate network issues with an AI agent and map context.
- GIS**
Open the GIS workspace and add map layers by permission.
- Dashboards**
Build dashboards, explore trends, and turn network data into actionable insights.
- Customer Care**
Understand network impacts on customers and support better care decisions.
- Survey Analyst**
Build workflows from survey data and analysis widgets.
- RPO**
Rapid performance optimisation tasks, actions and insights.
- Data Management**
Import, describe, and manage CSV datasets for GIS and Agentic AI.
- Documents**
Organise documents and find the information you need in one workspace.
- Agentic AI Administration**
Manage runtime agents, instructions, skills, tools, and connected capabilities.
- Device Administration**
Administer agents, devices, Automobile, and Surveyor devices and configuration.
- Access admin**
Administer local and OOO users, roles, service accounts, and permissions.
- API request audit**
Explore authenticated API usage, errors, latency, and calls.

				
				
4.0.0	From the restored V4 launcher, select the **API Request Audit** card a second time during the same browser session.	From the restored V4 launcher, select the **API Request Audit** card a second time during the same browser session.	Attempt-003 before-select shows the launcher card and after-select/final show API Request Audit reopened; browserUrl uses the required V4 host. Steps taken: Opened the launcher route in the existing browser session.; Selected the API Request Audit card again after the prior launcher restoration.; Observed the module open.	Passed

- API request audit**
Explore authenticated API usage, errors, latency, and calls.

Selected API Request Audit a second time and recorded the second module URL.; Confirmed both module URLs used o2intelligence-v4-dev.metriccell.com.

				
				
7.0.0	During this flow, verify that no audit data is created or modified.	During this flow, verify that no audit data is created or modified.	Screenshots show the read-only dashboard flow, but cannot establish whether automatic backend auditing created records; results report only GET requests were observed and backend persistence was not observable. Steps taken: Repeated the launcher, first opening, Back, and second opening flow without using any create or edit control.; Inspected Playwright network requests for API	Failed

Request Audit; the observed summary, filter, event, and ingestion-health calls were GET requests.; Backend persistence and whether automatic request auditing creates records could not be observed from the browser.

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
