About Metricell15

Version	Date	Revision Author	Summary of Changes
[1.0]	28/09/2026	TEST2 QA Automation	Generated from TEST2 evidence review

Tester:	Automated
Jira Ticket:	TEST2-36
Environment:	Chrome
Browser Details:	Chrome version not recorded
Date of Test:	28/09/2026
Limitations during Testing:	None recorded

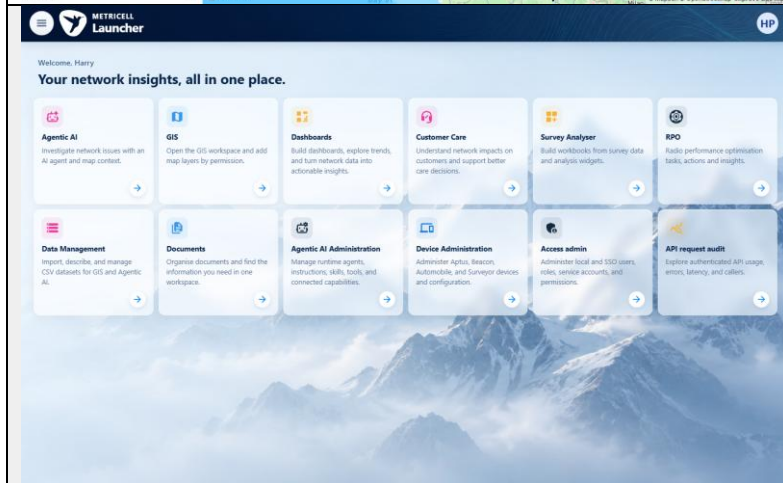

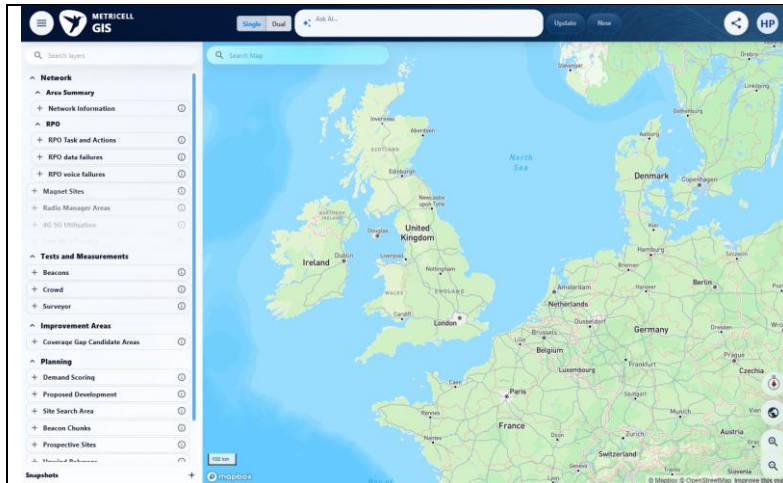

Area of test	Pass	Fail	Defects (No.)
1. Starting on the GIS page with the base map loaded, visible map controls are present and no application error is displayed.	Y	N	0
2. Drag the base map to a different position; the visible geographic area changes while the GIS page remains open.	Y	N	0
3. After the pan completes, the map controls remain visible and can be used, and no application error is displayed.	Y	N	0

All automated tests must map to an approved criterion and produce reproducible results plus decisive evidence. Use Failed, Blocked, or Unverified where applicable.

4.1 Tests

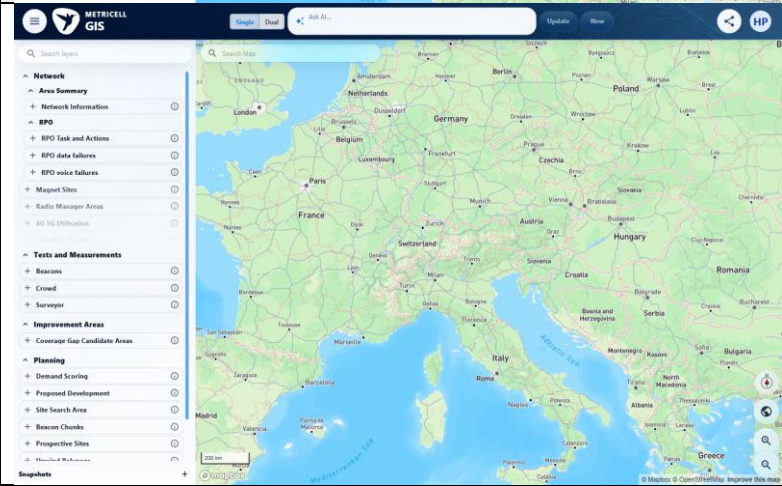

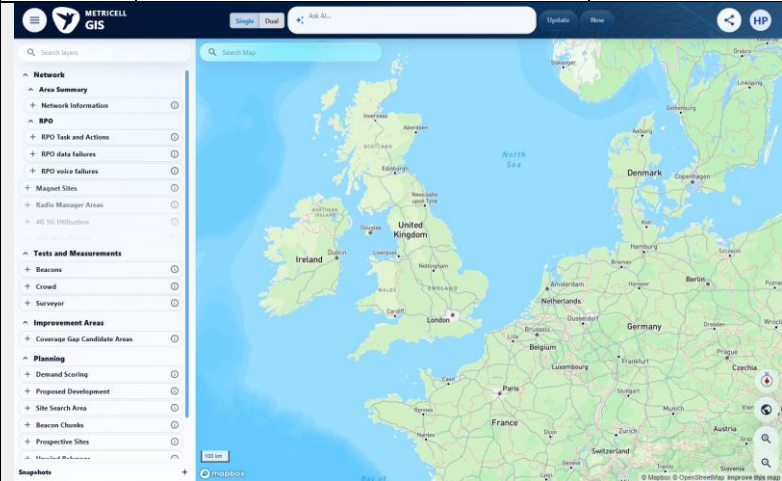

Preconditions:	Not recorded in agent output.	Associated Requirements:	Criteria from criteria.md.	Automation Notes:	Automated browser run; PNG evidence reviewed.
-----------------------	-------------------------------	---------------------------------	----------------------------	--------------------------	---

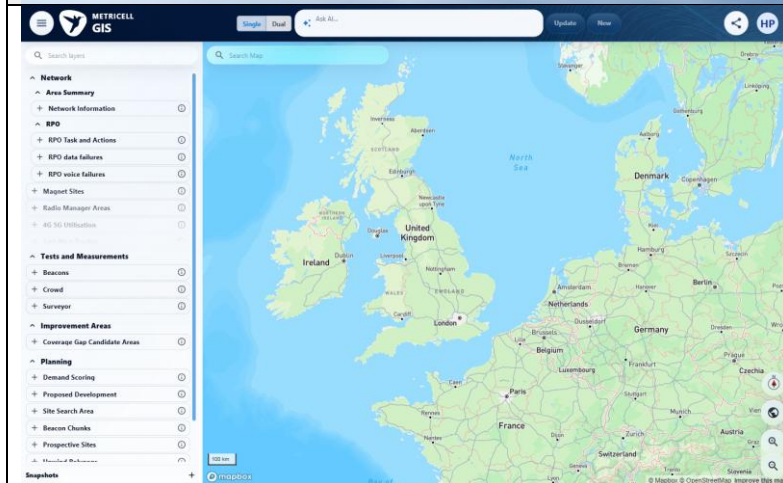

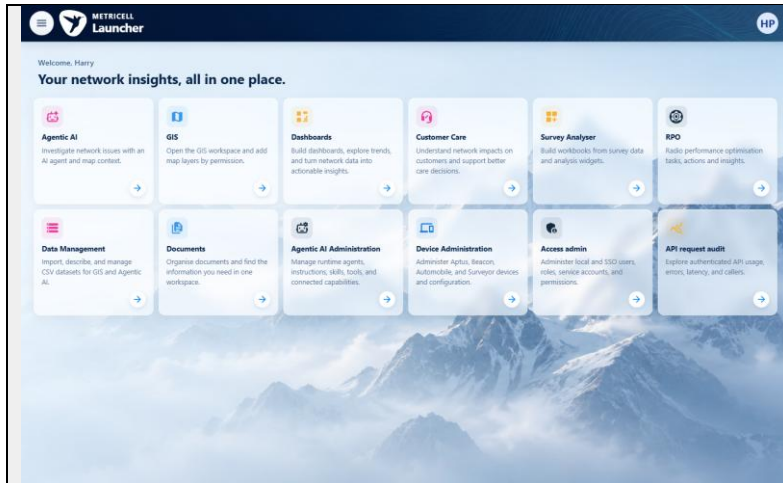

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	Starting on the GIS page with the base map loaded, visible map controls are present and no application error is displayed.	Starting on the GIS page with the base map loaded, visible map controls are present and no application error is displayed.	The initial and final screenshots show the loaded GIS base map and visible controls without an application error. The result browserUrl is https://o2intelligence-v4-dev.metricell.com/gis , matching the expected V4 host. Steps taken: Started at the required launcher URL.; Opened GIS from the launcher.; Confirmed the base map tiles rendered, visible map controls were present, and no application error appeared in the page or console.	Passed

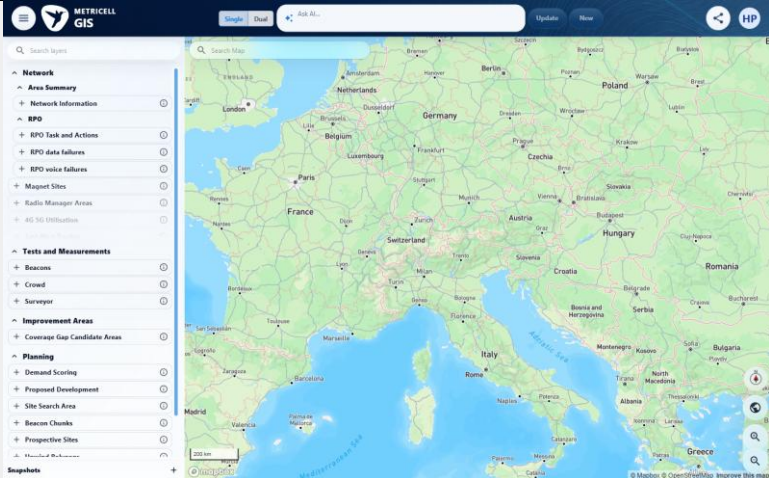

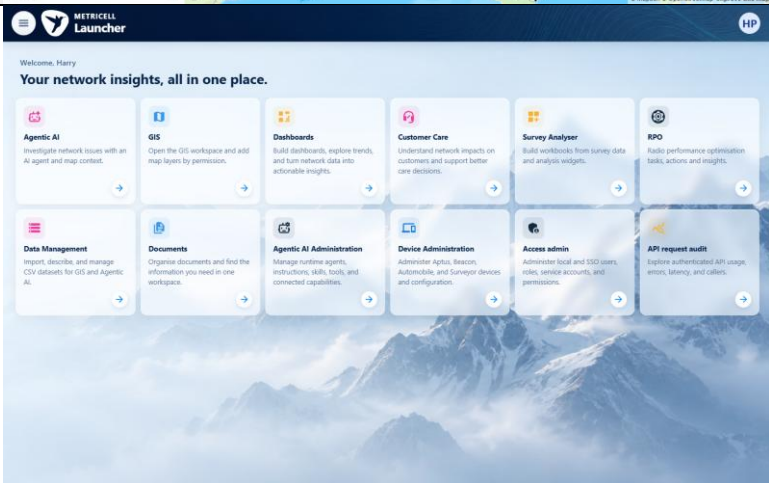

2.0.0	Drag the base map to a different position; the visible geographic area changes while the GIS page remains open.	Drag the base map to a different position; the visible geographic area changes while the GIS page remains open.	The before-pan screenshot shows the UK and nearby Europe; the after-pan screenshot shows central Europe and the Mediterranean, with the GIS page still open. Steps taken: Returned to the launcher and opened GIS for this criterion.; Captured the initial map view, then dragged the map from its center toward the Search Map overlay.; Confirmed the visible geography changed from the UK and	Passed

			nearby Europe to central Europe and the Mediterranean while the GIS page stayed open.

3.0.0	After the pan completes, the map controls remain visible and can be used, and no application error is displayed.	After the pan completes, the map controls remain visible and can be used, and no application error is displayed.	The post-pan zoom-in and zoom-out screenshots show the map changing scale and the controls remaining visible; the final screenshot shows the map at the restored zoom with no application error. Steps taken: Returned to the launcher and opened GIS for this criterion.; Dragged the map to pan it, then clicked Zoom in and Zoom out to verify the controls remained	Passed

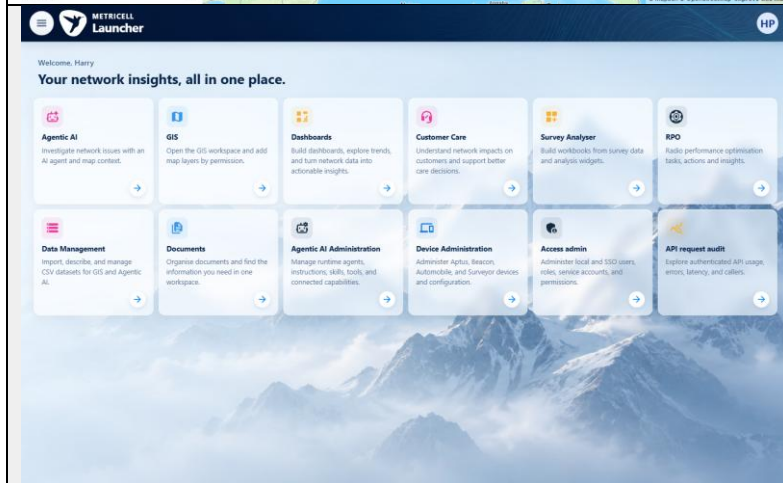

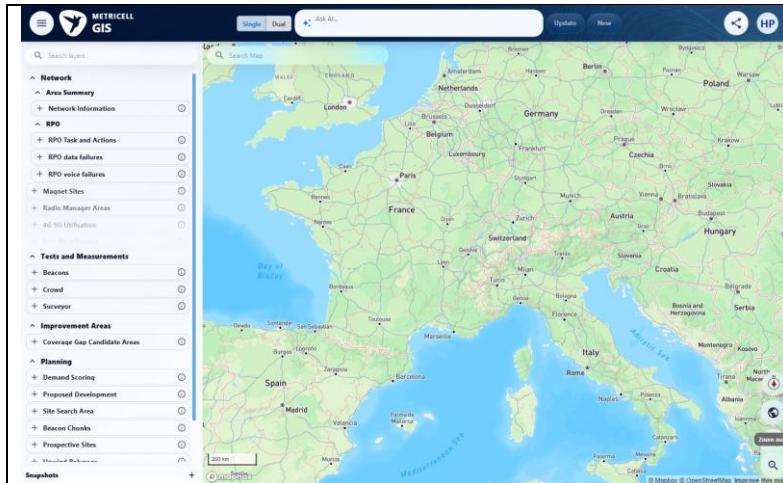

usable and restore the zoom level.; Confirmed map controls remained visible and no application error appeared in the page or console.

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
