2 Test Cycle Information

Tester:	**Automated**
Jira Ticket:	TEST2-89
Environment:	o2intelligence-v4-dev.metricell.com
Browser Details:	Google Chrome 155.0.8059.85
Date of Test:	20/10/2026
Limitations during Testing:	13 blocked; 0 inconclusive criterion(s). Reviewed all 14 criteria against attempt-002 PNG evidence: one Passed and thirteen Blocked by the unavailable MS Teams Call layer and dependent results. All 47 referenced PNGs exist and are non-empty. Identical SHA256 groups were visually inspected through one representative per group; each criterion retains its own referenced evidence. The blocker cause is undetermined; no confirmed application defect is established. Criterion 2: MS Teams Call is unavailable in this account's current GIS layer catalogue: searching MS Teams shows 'No layers match this search.' Exploratory Surveyor configuration offers Service, Download, Upload, Ping, Data Experience, Call, Site Testing and Building; generic Call settings expose no MS Teams Call type. No matching authorised MS Teams Call points could be obtained or selected. Availability/permission/deployment cause is undetermined; this is not evidence of a product failure. Criterion 3: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: a displayed MS Teams Call point with Poor Quality 0–0.99 to verify Green. Criterion 3: Captured this criterion's final blocker and read the actual browser URL; cleared the search filter as cleanup. The asserted dependent operation could not be attempted. Criterion 4: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: a displayed MS Teams Call point with Poor Quality 1–9.99 to verify Yellow. Criterion 5: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: a displayed MS Teams Call point with Poor Quality 10–24.99 to verify Amber. Criterion 6: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: a displayed MS Teams Call point with Poor Quality 25 or greater to verify Red. Criterion 7: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this

	criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: a selectable MS Teams Call result whose details load to inspect the seven summary fields. Criterion 8: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: a selectable MS Teams Call result whose details load to inspect charts and available handover markers. Criterion 9: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: a selectable MS Teams Call result whose details load to inspect detailed-sample table columns. Criterion 10: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: MS Teams Call detailed samples and a supported sortable column. Criterion 11: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: MS Teams Call detailed samples and a supported filterable column. Criterion 12: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: a selected MS Teams Call test and its CSV export control. Criterion 13: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: an available zero-duration MS Teams Call result. Criterion 14: The current account's GIS layer catalogue returned 'No layers match this search.' for MS Teams. No MS Teams Call layer or matching selectable result could be obtained, so this criterion's required point/details/sample/export prerequisite could not be reached. The cause (availability, deployment or permissions) is undetermined. No fixture was created and no product failure is asserted. Specifically unavailable: a selectable MS Teams Call result that exhibits a detail-load failure. Defects (No.) counts directly contradicted criteria, not unique Jira bugs; blockers and inconclusive evidence count as zero.
Overall review outcome:	Blocked
Browser URL(s) recorded after criteria:	https://o2intelligence-v4-dev.metricell.com/gis

3 Test Summary

Area of test	Pass	Fail	Defects (No.)
1. Before selecting the MS Teams Call layer, the map shows no MS Teams Call test-result points.	Y	N	0
2. When the user selects the MS Teams Call layer and authorised matching results are available, each matching result is shown as a selectable map point.	N	N	0
3. For a displayed MS Teams Call point with Poor Quality 0–0.99, its map colour is Green.	N	N	0
4. For a displayed MS Teams Call point with Poor Quality 1–9.99, its map colour is Yellow.	N	N	0
5. For a displayed MS Teams Call point with Poor Quality 10–24.99, its map colour is Amber.	N	N	0
6. For a displayed MS Teams Call point with Poor Quality 25 or greater, its map colour is Red.	N	N	0
7. When the user selects a map point and its details load successfully, the details dialog displays Test ID, Test Result, Connection Time, Call Duration, Poor Quality, MSISDN and Test Technologies.	N	N	0
8. When the user selects a map point and its details load successfully, the details dialog displays signal and download charts and shows handover markers when available.	N	N	0
9. When the user selects a map point and its details load successfully, the details dialog displays a detailed-sample table that omits label, latitude, longitude and handover-only columns.	N	N	0
10. When detailed samples are displayed, sorting a supported column changes their displayed order to match the selected sort.	N	N	0

Area of test	Pass	Fail	Defects (No.)
11. When detailed samples are displayed, filtering a supported column limits the displayed samples to those matching the filter.	N	N	0
12. When the user exports a selected test as CSV, the exported CSV contains data for that selected test.	N	N	0
13. When a zero-duration result is selected, its details dialog does not display stale or misleading data.	N	N	0
14. When details for a selected result fail to load, the dialog does not display stale or misleading data.	N	N	0

4 Test Cases

Each test maps to a criterion and decisive browser evidence. Inconclusive results are reported as Failed.

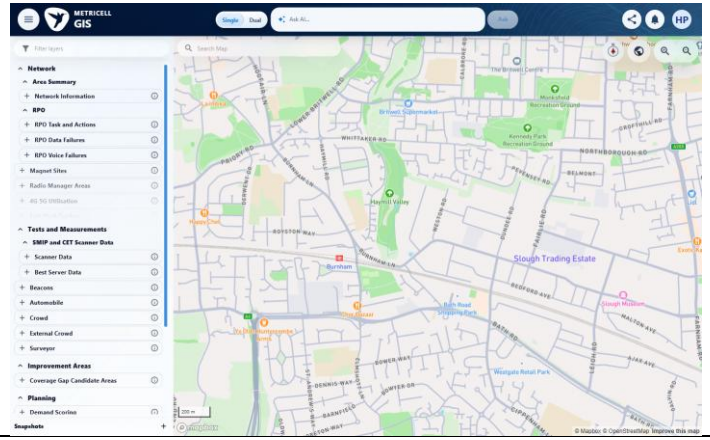

4.1 Tests

Preconditions:	V4 access and ticket conditions.	***Associated Requirements:***	Ticket criteria below.	Automation Notes:	Screenshots below each criterion; full log retained locally.

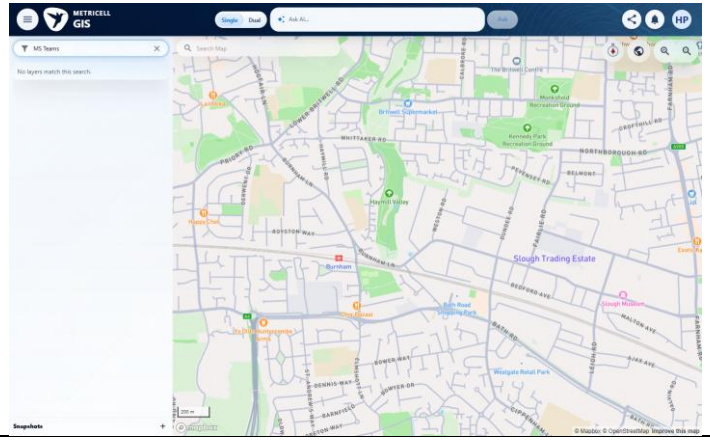

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	Before selecting the MS Teams Call layer, the map shows no MS Teams Call test-result points.	Before selecting the MS Teams Call layer, the map shows no MS Teams Call test-result points.	criterion-1-after-open-gis.png and criterion-1-before-filter.png show a settled map before layer selection with no MS Teams Call test-result points; criterion-1-final.png shows the map still without those points while the catalogue search returns no matches. Evidence: E01, E02	Passed

Criterion 1 evidence: Before selecting the MS Teams Call layer, the map shows no MS Teams Call test-result points.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E01 - Before filter (criterion-1-before-filter.png)

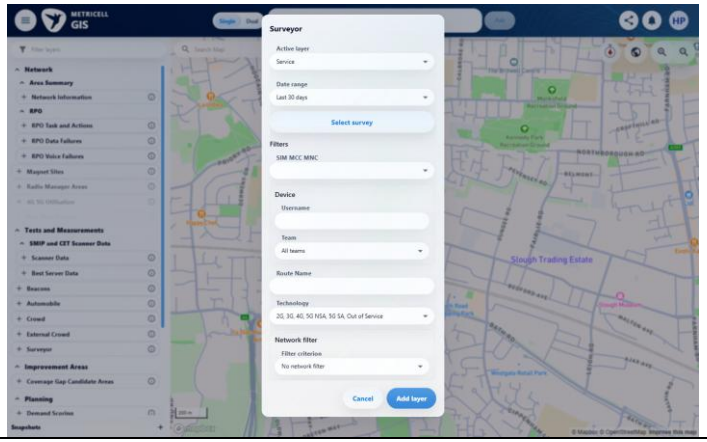

E02 - Final (criterion-1-final.png)

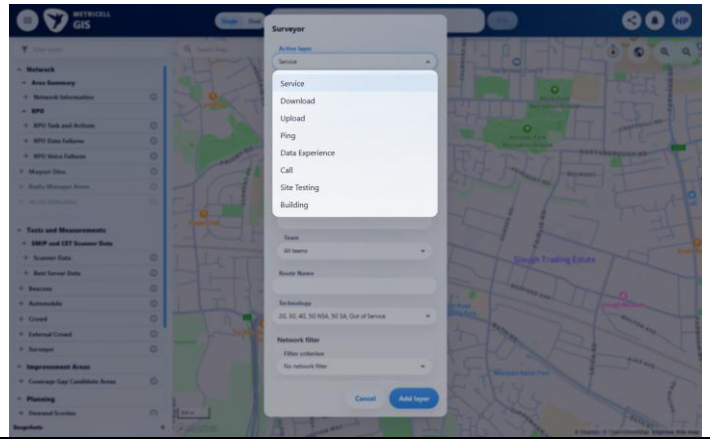

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
2.0.0	When the user selects the MS Teams Call layer and authorised matching results are available, each matching result is shown as a selectable map point.	When the user selects the MS Teams Call layer and authorised matching results are available, each matching result is shown as a selectable map point.	criterion-2-final.png shows MS Teams searched with No layers match this search. criterion-2-active-layer-options.png lists no MS Teams Call option; criterion-2-call-settings.png shows generic Call settings only. The required layer and matching selectable results were unavailable; availability, deployment or permission cause is undetermined. Evidence: E03, E04, E05, E06, E07	Blocked

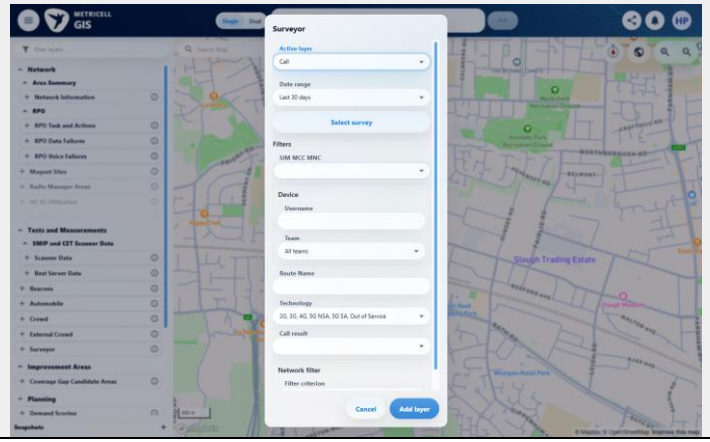

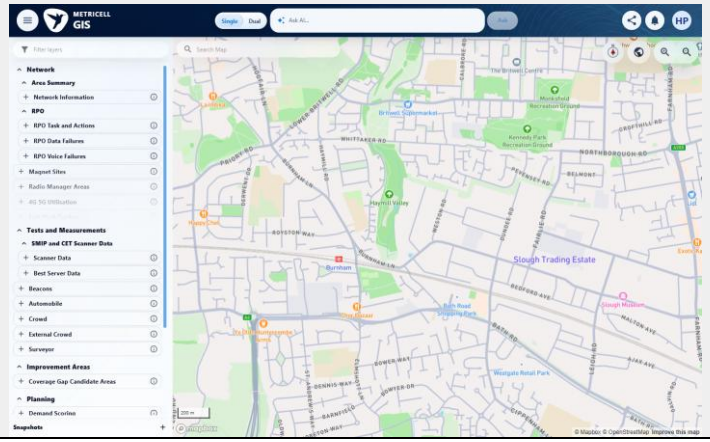

Criterion 2 evidence: When the user selects the MS Teams Call layer and authorised matching results are available, each matching result is shown as a selectable map point.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

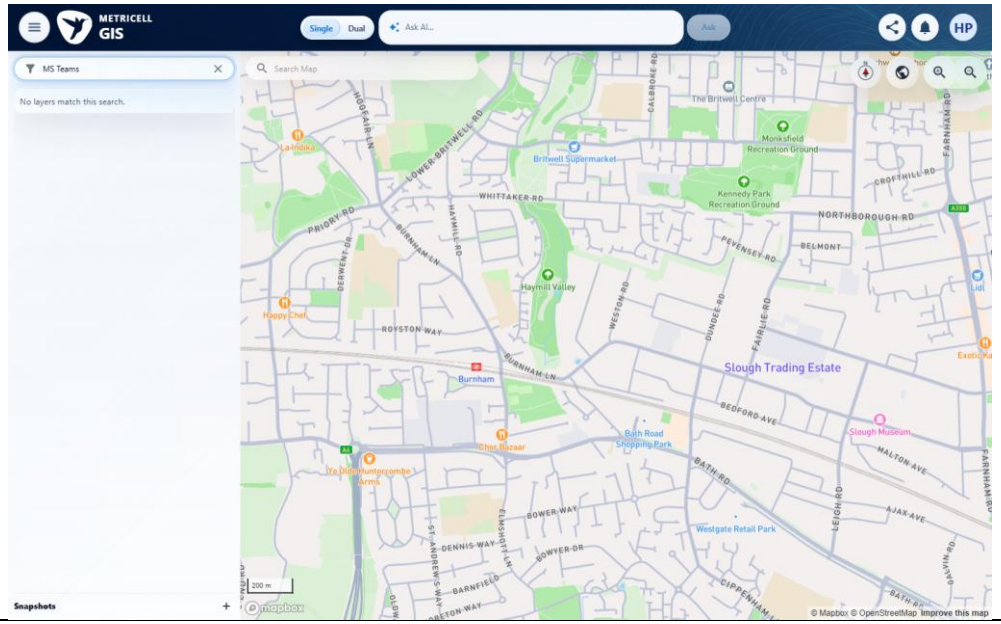

E03 - Surveyor settings (criterion-2-surveyor-settings.png)

E04 - Active layer options (criterion-2-active-layer-options.png)

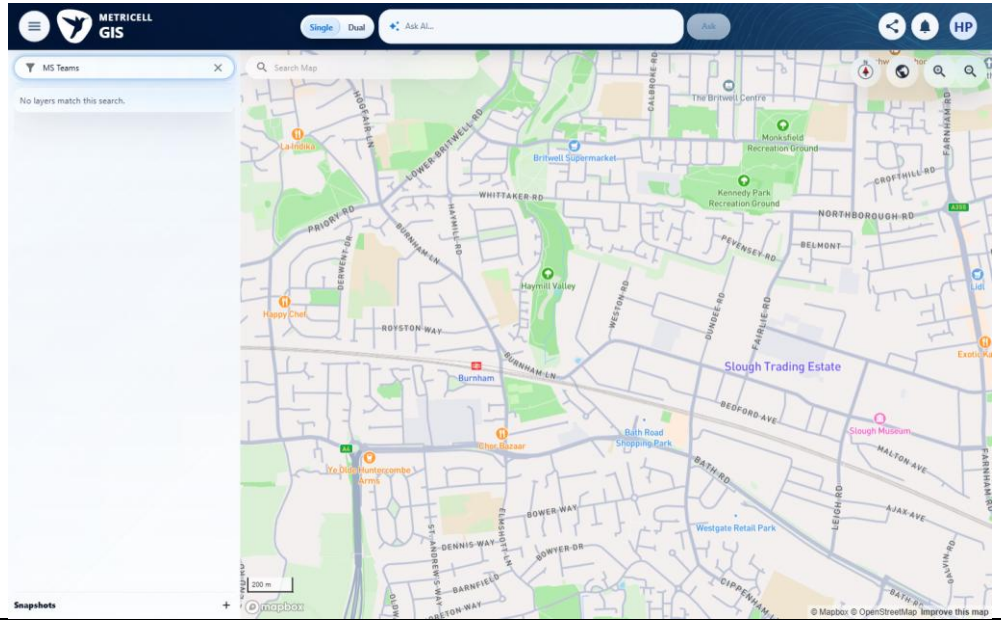

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 2 continued: When the user selects the MS Teams Call layer and authorised matching results are available, each matching result is shown as a selectable map point. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E05 - Call settings (criterion-2-call-settings.png)**  				
E06 - After cancel (criterion-2-after-cancel.png)  				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 2 continued: When the user selects the MS Teams Call layer and authorised matching results are available, each matching result is shown as a selectable map point. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E07 - Final (criterion-2-final.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
3.0.0	For a displayed MS Teams Call point with Poor Quality 0–0.99, its map colour is Green.	For a displayed MS Teams Call point with Poor Quality 0–0.99, its map colour is Green.	criterion-3-final.png shows MS Teams search returning No layers match this search. No displayed MS Teams Call point with Poor Quality 0-0.99 was available to assess its Green colour. Evidence: E07	Blocked

Criterion 3 evidence: For a displayed MS Teams Call point with Poor Quality 0–0.99, its map colour is Green.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

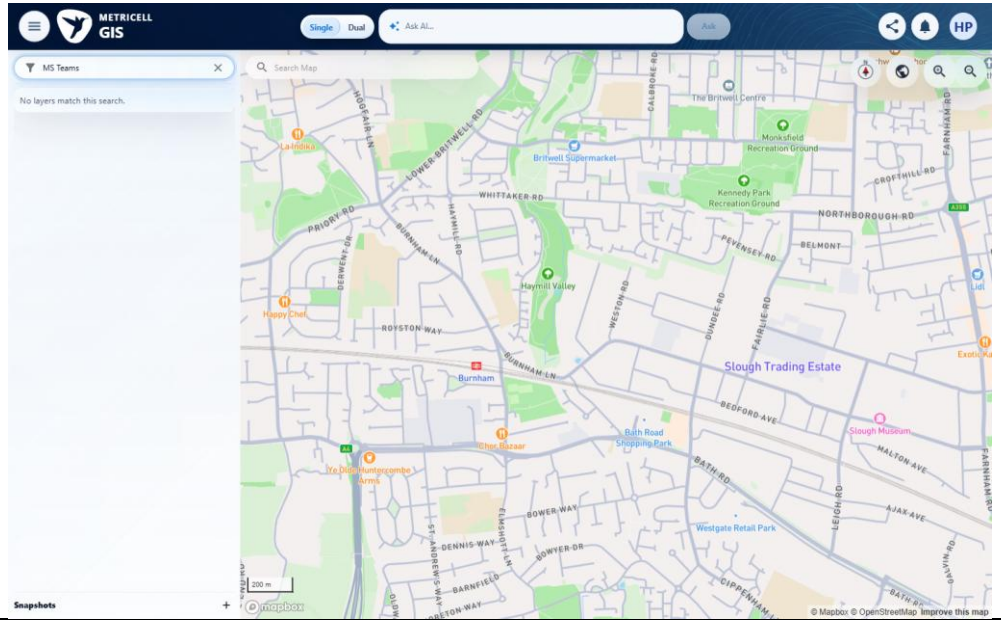

E07 - Final (criterion-3-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
4.0.0	For a displayed MS Teams Call point with Poor Quality 1–9.99, its map colour is Yellow.	For a displayed MS Teams Call point with Poor Quality 1–9.99, its map colour is Yellow.	criterion-4-final.png shows MS Teams search returning No layers match this search. No displayed MS Teams Call point with Poor Quality 1-9.99 was available to assess its Yellow colour. Evidence: E07	Blocked

Criterion 4 evidence: For a displayed MS Teams Call point with Poor Quality 1–9.99, its map colour is Yellow.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

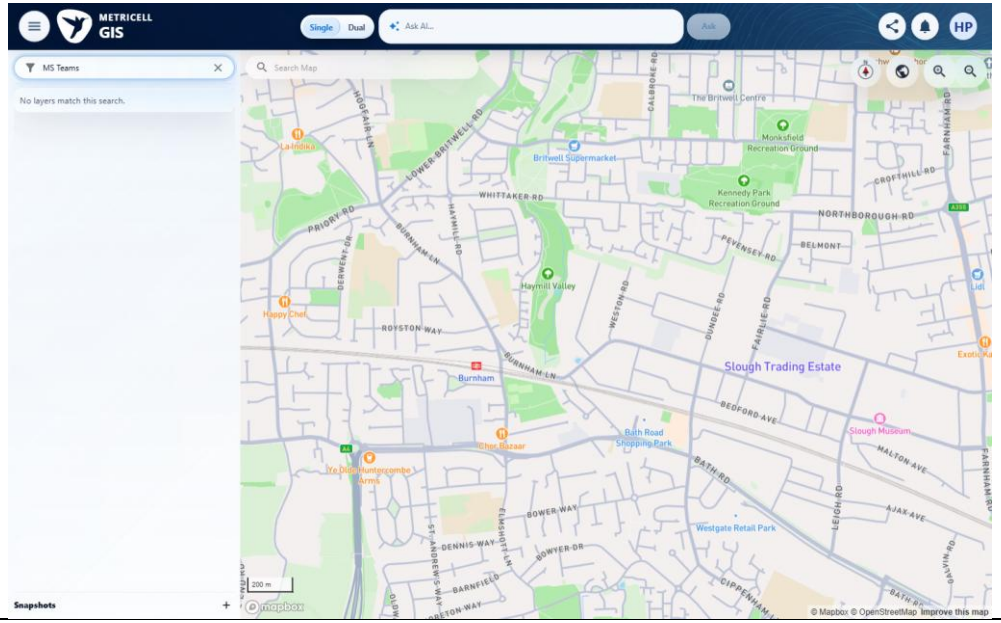

E07 - Final (criterion-4-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
5.0.0	For a displayed MS Teams Call point with Poor Quality 10–24.99, its map colour is Amber.	For a displayed MS Teams Call point with Poor Quality 10–24.99, its map colour is Amber.	criterion-5-final.png shows MS Teams search returning No layers match this search. No displayed MS Teams Call point with Poor Quality 10-24.99 was available to assess its Amber colour. Evidence: E07	Blocked

Criterion 5 evidence: For a displayed MS Teams Call point with Poor Quality 10–24.99, its map colour is Amber.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

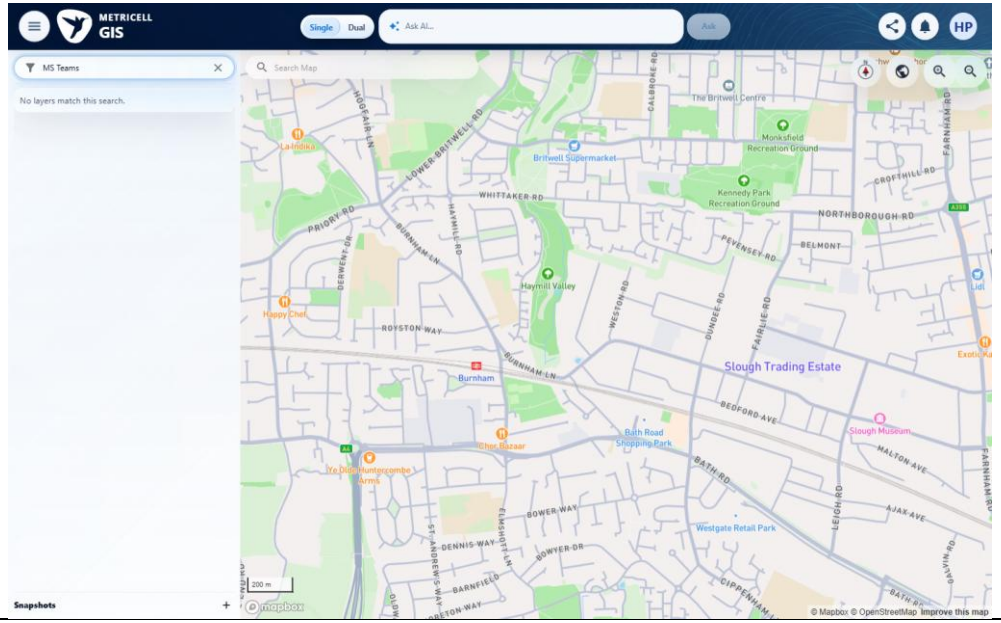

E07 - Final (criterion-5-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
6.0.0	For a displayed MS Teams Call point with Poor Quality 25 or greater, its map colour is Red.	For a displayed MS Teams Call point with Poor Quality 25 or greater, its map colour is Red.	criterion-6-final.png shows MS Teams search returning No layers match this search. No displayed MS Teams Call point with Poor Quality 25 or greater was available to assess its Red colour. Evidence: E07	Blocked

Criterion 6 evidence: For a displayed MS Teams Call point with Poor Quality 25 or greater, its map colour is Red.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

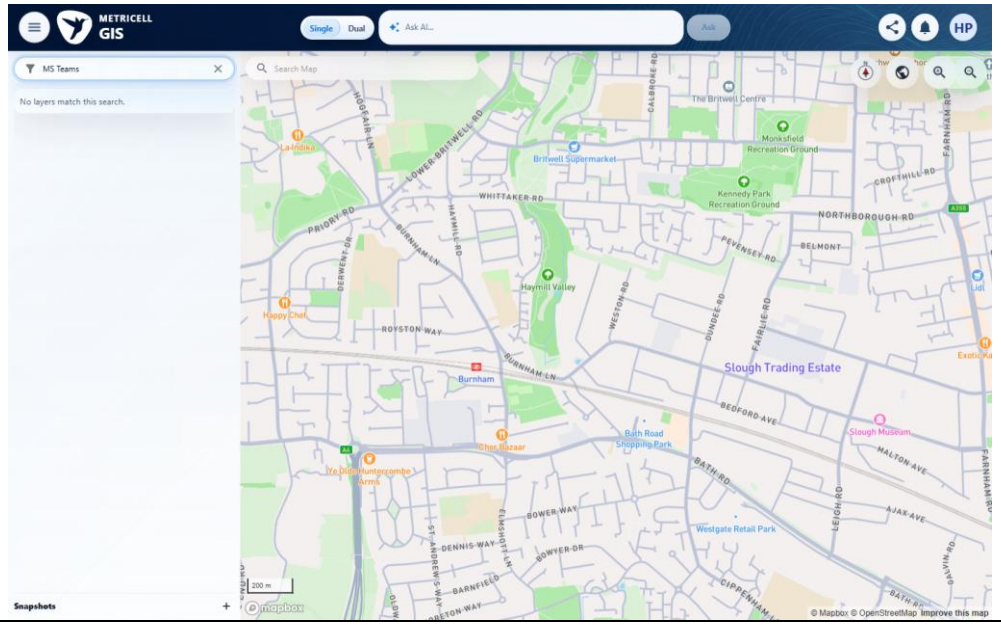

E07 - Final (criterion-6-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
7.0.0	When the user selects a map point and its details load successfully, the details dialog displays Test ID, Test Result, Connection Time, Call Duration, Poor Quality, MSISDN and Test Technologies.	When the user selects a map point and its details load successfully, the details dialog displays Test ID, Test Result, Connection Time, Call Duration, Poor Quality, MSISDN and Test Technologies.	criterion-7-final.png shows MS Teams search returning No layers match this search. A selectable MS Teams Call result and loaded details dialog were unavailable, preventing inspection of Test ID, Test Result, Connection Time, Call Duration, Poor Quality, MSISDN and Test Technologies. Evidence: E07	Blocked

Criterion 7 evidence: When the user selects a map point and its details load successfully, the details dialog displays Test ID, Test Result, Connection Time, Call Duration, Poor Quality, MSISDN and Test Technologies.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

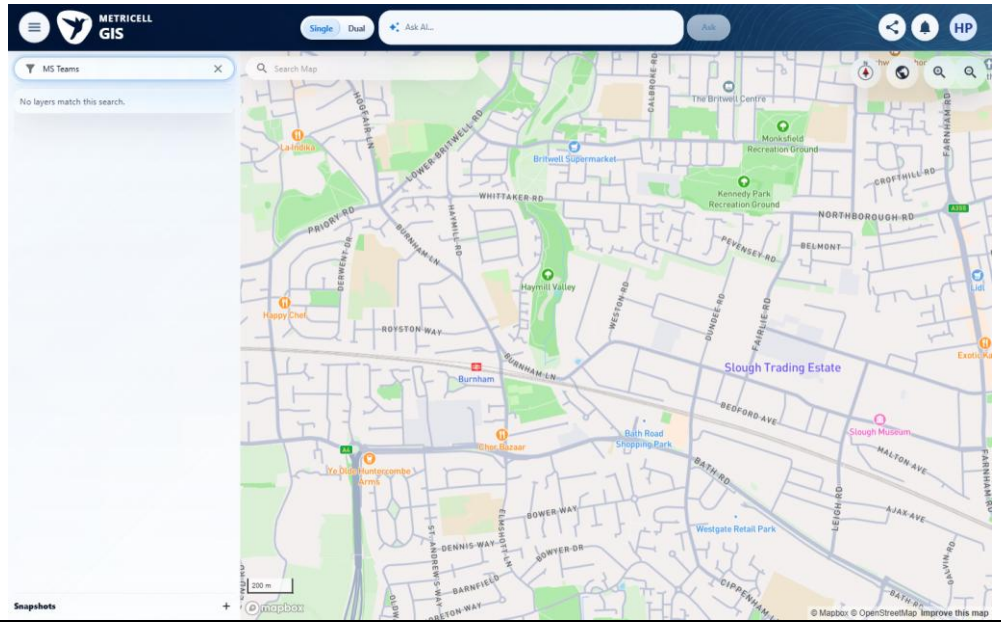

E07 - Final (criterion-7-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
8.0.0	When the user selects a map point and its details load successfully, the details dialog displays signal and download charts and shows handover markers when available.	When the user selects a map point and its details load successfully, the details dialog displays signal and download charts and shows handover markers when available.	criterion-8-final.png shows MS Teams search returning No layers match this search. A selectable MS Teams Call result and loaded details dialog were unavailable, preventing inspection of signal/download charts and available handover markers. Evidence: E07	Blocked

Criterion 8 evidence: When the user selects a map point and its details load successfully, the details dialog displays signal and download charts and shows handover markers when available.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

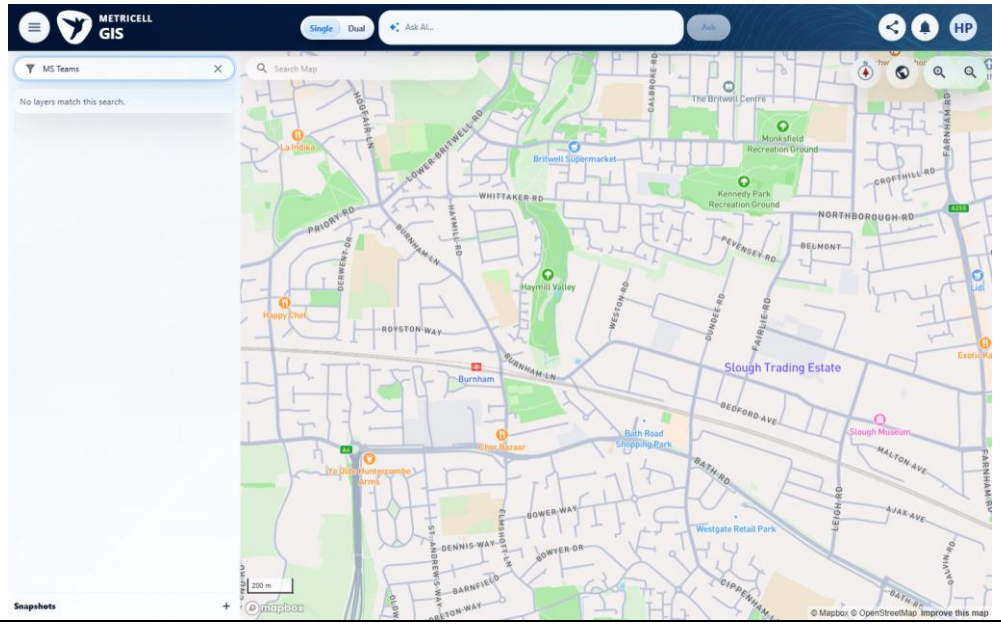

E07 - Final (criterion-8-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
9.0.0	When the user selects a map point and its details load successfully, the details dialog displays a detailed-sample table that omits label, latitude, longitude and handover-only columns.	When the user selects a map point and its details load successfully, the details dialog displays a detailed-sample table that omits label, latitude, longitude and handover-only columns.	criterion-9-final.png shows MS Teams search returning No layers match this search. MS Teams Call details and detailed samples were unavailable, preventing inspection of the table and exclusion of label, latitude, longitude and handover-only columns. Evidence: E07	Blocked

Criterion 9 evidence: When the user selects a map point and its details load successfully, the details dialog displays a detailed-sample table that omits label, latitude, longitude and handover-only columns.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

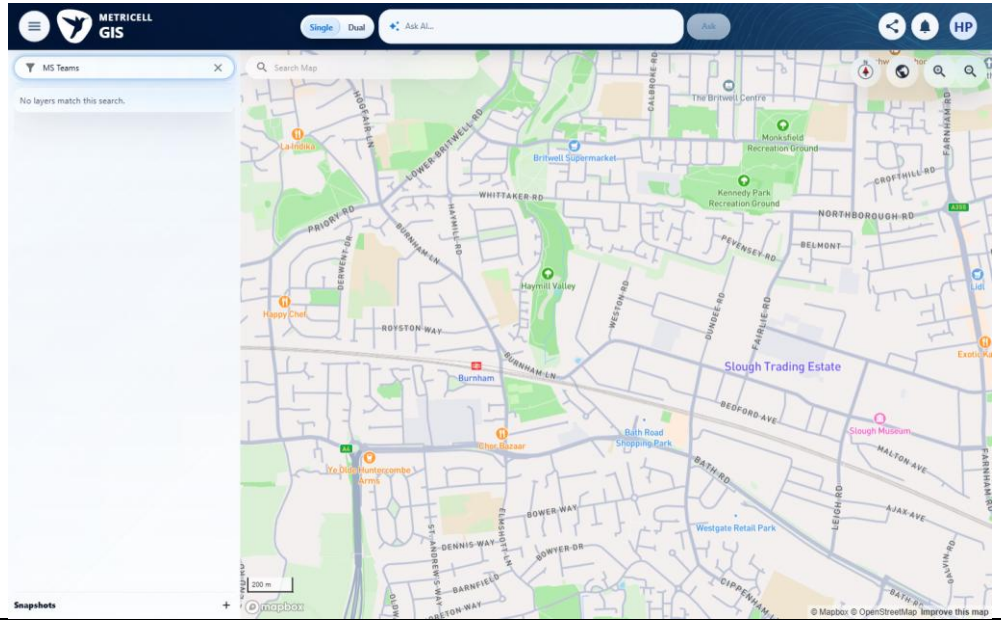

E07 - Final (criterion-9-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
10.0.0	When detailed samples are displayed, sorting a supported column changes their displayed order to match the selected sort.	When detailed samples are displayed, sorting a supported column changes their displayed order to match the selected sort.	criterion-10-final.png shows MS Teams search returning No layers match this search. MS Teams Call detailed samples were unavailable, so no supported column sort or resulting order could be exercised. Evidence: E07	Blocked

Criterion 10 evidence: When detailed samples are displayed, sorting a supported column changes their displayed order to match the selected sort.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

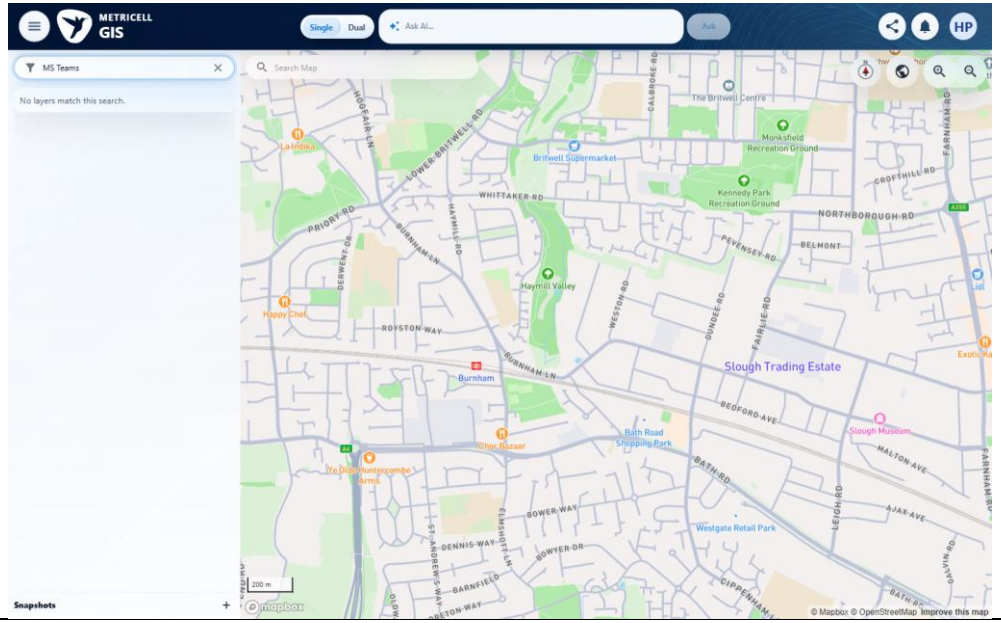

E07 - Final (criterion-10-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
11.0.0	When detailed samples are displayed, filtering a supported column limits the displayed samples to those matching the filter.	When detailed samples are displayed, filtering a supported column limits the displayed samples to those matching the filter.	criterion-11-final.png shows MS Teams search returning No layers match this search. MS Teams Call detailed samples were unavailable, so no supported column filter or matching sample subset could be exercised. Evidence: E07	Blocked

Criterion 11 evidence: When detailed samples are displayed, filtering a supported column limits the displayed samples to those matching the filter.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

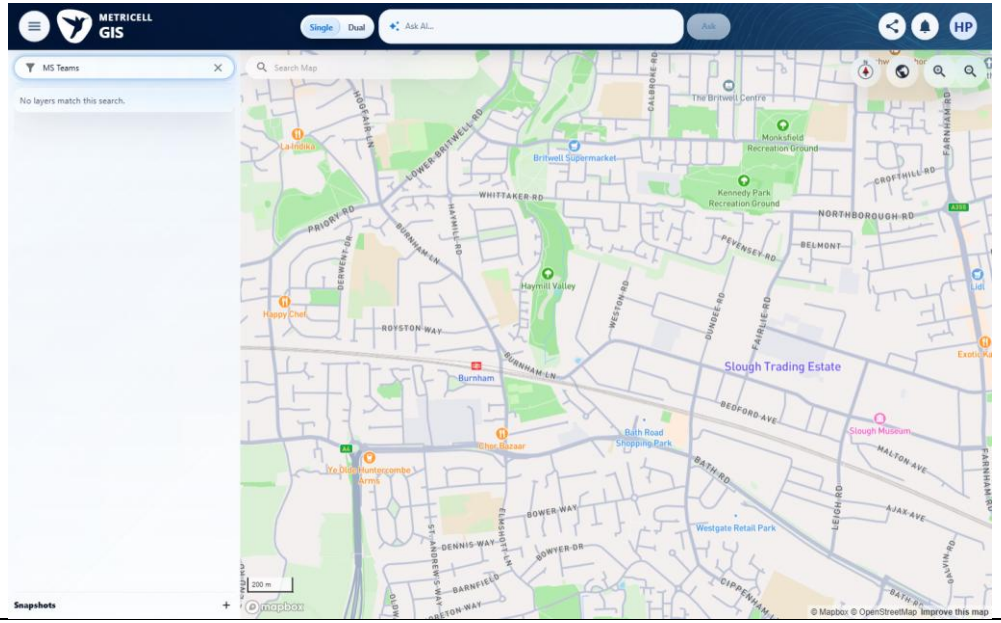

E07 - Final (criterion-11-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
12.0.0	When the user exports a selected test as CSV, the exported CSV contains data for that selected test.	When the user exports a selected test as CSV, the exported CSV contains data for that selected test.	criterion-12-final.png shows MS Teams search returning No layers match this search. No MS Teams Call test could be selected for CSV export; selected-test CSV contents could not be assessed. Evidence: E07	Blocked

Criterion 12 evidence: When the user exports a selected test as CSV, the exported CSV contains data for that selected test.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

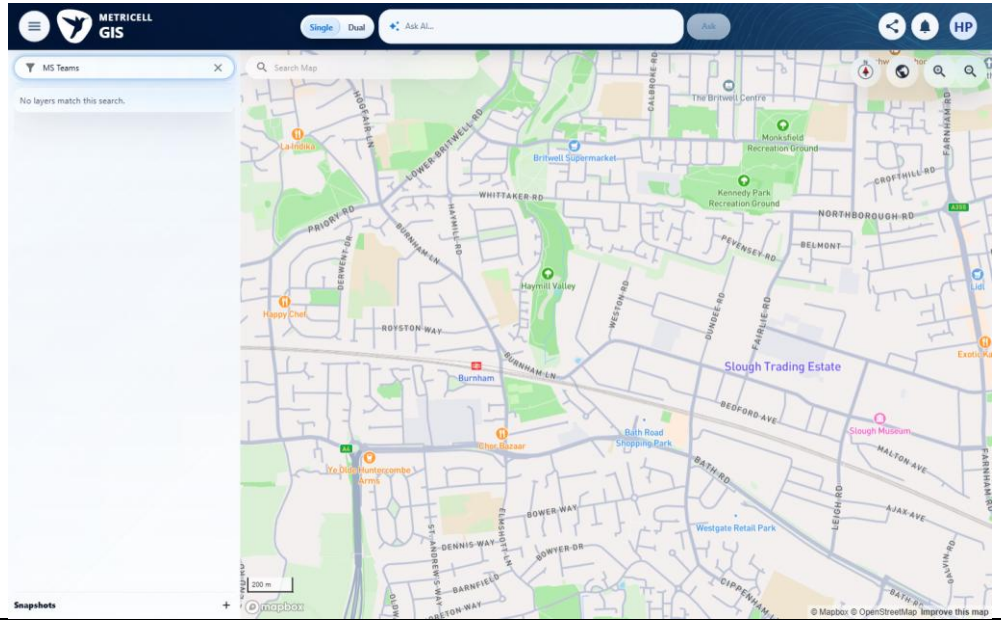

E07 - Final (criterion-12-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
13.0.0	When a zero-duration result is selected, its details dialog does not display stale or misleading data.	When a zero-duration result is selected, its details dialog does not display stale or misleading data.	criterion-13-final.png shows MS Teams search returning No layers match this search. No zero-duration MS Teams Call result was available for selection, preventing assessment of stale or misleading dialog data. Evidence: E07	Blocked

Criterion 13 evidence: When a zero-duration result is selected, its details dialog does not display stale or misleading data.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

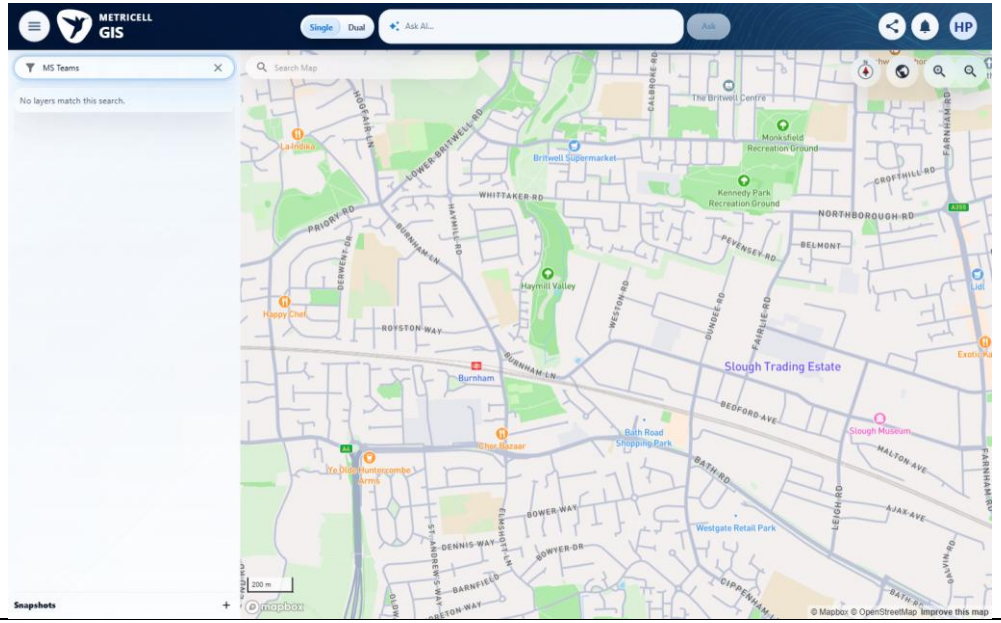

E07 - Final (criterion-13-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
14.0.0	When details for a selected result fail to load, the dialog does not display stale or misleading data.	When details for a selected result fail to load, the dialog does not display stale or misleading data.	criterion-14-final.png shows MS Teams search returning No layers match this search. No MS Teams Call result was available to exercise a failed detail load, preventing assessment of stale or misleading dialog data. Evidence: E07	Blocked

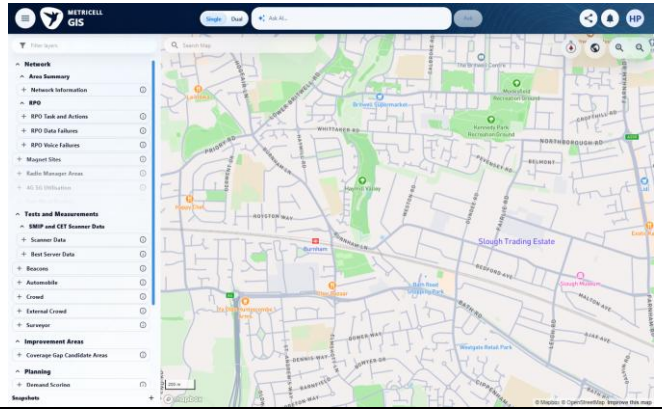

Criterion 14 evidence: When details for a selected result fail to load, the dialog does not display stale or misleading data.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E07 - Final (criterion-14-final.png)

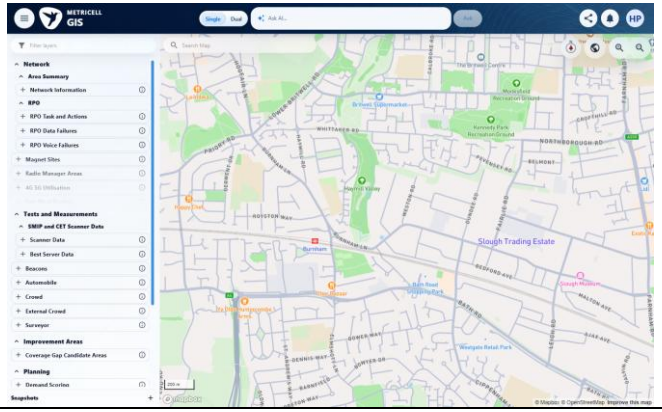

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Supporting setup captures - full attempt evidence remains in the local evidence folder				

E08 - After open gis (criterion-1-after-open-gis.png)

E09 - After open gis (criterion-2-after-open-gis.png)

Better Connected

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.

Find out more at www.metricell.com
