1 Revision History

Version	Date	Revision Author	Summary of Changes
[1.0]	28/10/2026	TEST2 QA Automation	Generated from TEST2 evidence review

2 Test Cycle Information

Tester:	**Automated**
Jira Ticket:	TEST2-79
Environment:	o2intelligence-v4-dev.metricell.com
Browser Details:	Google Chrome 156.0.8078.48
Date of Test:	28/10/2026
Limitations during Testing:	Unverified criterion(s): 2, 3, 12. See the assessment below each criterion. Criteria 15, 16 used simulated UI conditions; see their assessments. Inconclusive evidence is reported as Failed, but is not a confirmed application defect.
Overall review outcome:	Failed
Browser URL(s) recorded after criteria:	https://o2intelligence-v4-dev.metricell.com/gis

3 Test Summary

Area of test	Pass (Y/N)	Fail (Y/N)	Blocked (Y/N)	Defect No
1. With neither layer selected, the map shows no Download or Upload test-result points.	Y	N	N	0
2. After selecting Download, the map shows selectable points for matching authorised Download results only.	N	Y	N	0
3. After selecting Upload, the map shows selectable points for matching authorised Upload results only.	N	Y	N	0
4. Selecting a Download result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Download Rate, and Wi-Fi Connected.	Y	N	N	0
5. Selecting an Upload result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Upload Rate, and Wi-Fi Connected.	Y	N	N	0
6. The Download result details chart plots Signal Strength in dBm and Download Rate in Mbps over time.	Y	N	N	0
7. The Upload result details chart plots Signal Strength in dBm and Upload Rate in Mbps over time.	Y	N	N	0
8. The Download details table displays MSISDN, Start Time, End Time, Download Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, and Error Message.	Y	N	N	0
9. The Upload details table displays MSISDN, Start Time, End Time, Upload Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, and Error Message.	Y	N	N	0
10. Where signal strength or rate values are shown, each value includes its applicable unit (dBm or Mbps).	N	Y	N	1
11. For a result whose Error Message is null, the details table displays “No Error”.	Y	N	N	0
12. Sorting a supported Download or Upload details-table column changes the displayed row order to match the selected sort.	N	Y	N	0
13. Filtering a supported Download or Upload details-table column displays rows matching the applied filter.	Y	N	N	0
14. Requesting details for a zero-duration test does not open a details dialog.	Y	N	N	0
15. While result details are loading, the interface shows a loading state without stale or misleading detail data.	Y	N	N	0
16. If result details fail to load, the interface shows an error state without stale or misleading detail data.	Y	N	N	0

4 Test Cases

Each test maps to a criterion and decisive browser evidence. Inconclusive results are reported as Failed.

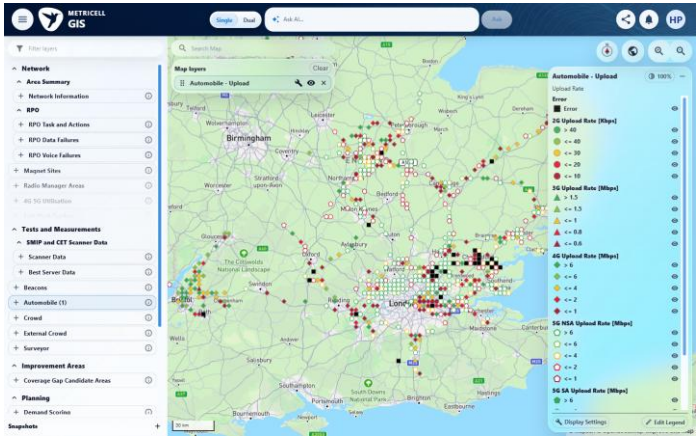

4.1 Tests

Preconditions:	V4 access and ticket conditions.	***Associated Requirements:***	Ticket criteria below.	Automation Notes:	Screenshots below each criterion; full log retained locally.

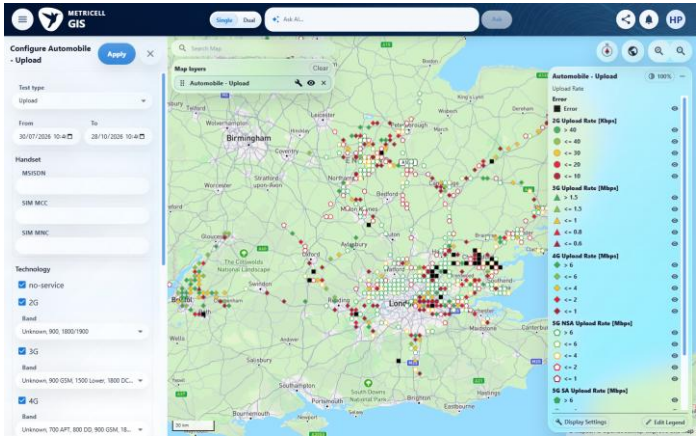

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	With neither layer selected, the map shows no Download or Upload test-result points.	With neither layer selected, the map shows no Download or Upload test-result points.	criterion-1-final.png shows a settled unobscured map with no selected layer list and no Download or Upload test-result markers; Automobile is available in the catalogue. This establishes absence in the displayed scope. Evidence: E01, E02, E03	Passed

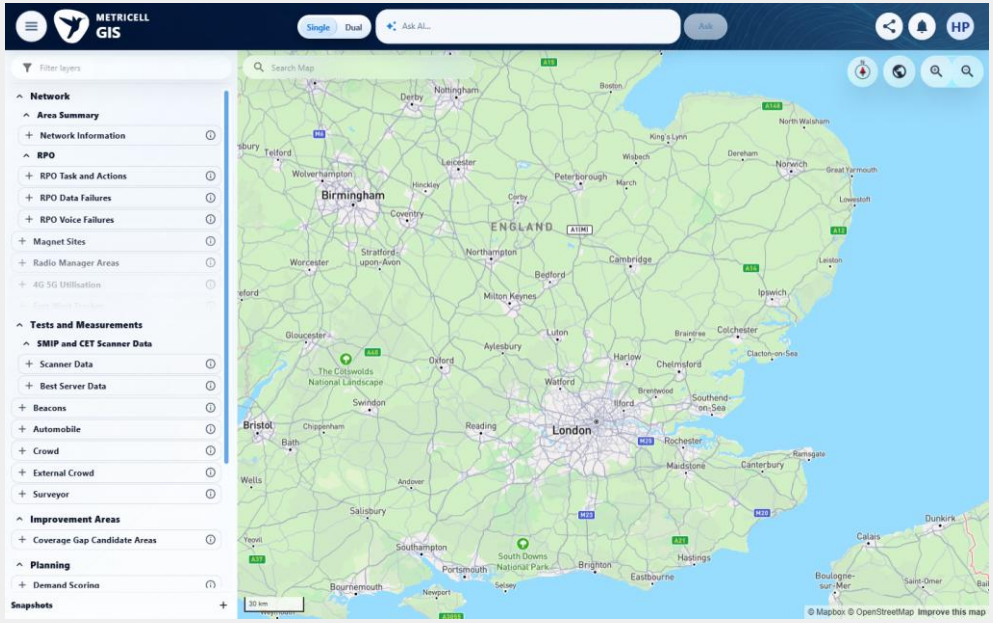

Criterion 1 evidence: With neither layer selected, the map shows no Download or Upload test-result points.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E01 - Original upload (criterion-1-original-upload.png)

E02 - Original config (criterion-1-original-config.png)

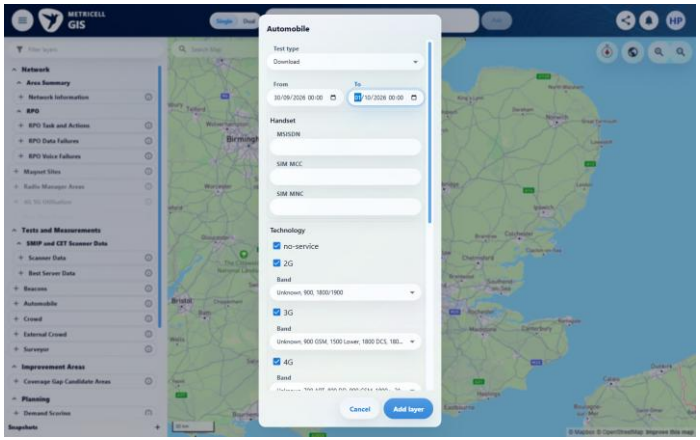

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 1 continued: With neither layer selected, the map shows no Download or Upload test-result points. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E03 - Final (criterion-1-final.png)** 			

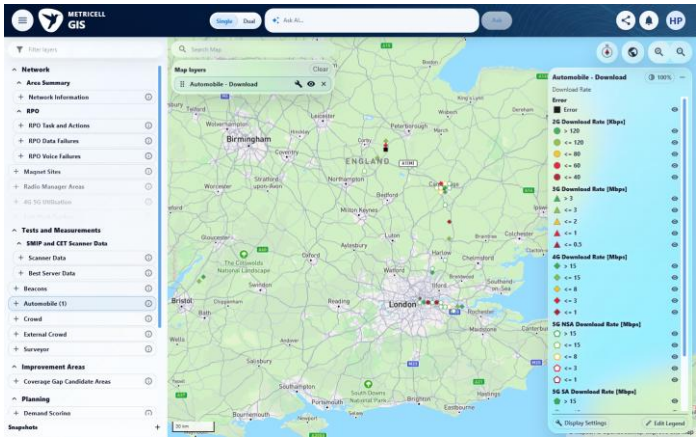

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
2.0.0	After selecting Download, the map shows selectable points for matching authorised Download results only.	After selecting Download, the map shows selectable points for matching authorised Download results only.	criterion-2-before-add.png selects Automobile Download for 30 September; criterion-2-after-add.png shows the selected layer and its plotted results. The recorded genuine GET /api/platform/automobile/download/points and POST /api/platform/automobile/download/cluster-details support the before-point/final sequence opening Download 132617095. The seven returned aggregates and their members were not reconciled completely with selectable map presentation; matching-only completeness remains Unverified, not a product defect. Evidence: E04, E05, E06, E07, E08	Failed
Criterion 2 assessment: Testing notes: Download selection, matching endpoint and one selectable matching record are demonstrated. Complete reconciliation of all seven returned aggregates and their members was not completed; this is a coverage gap, not unavailable data.				

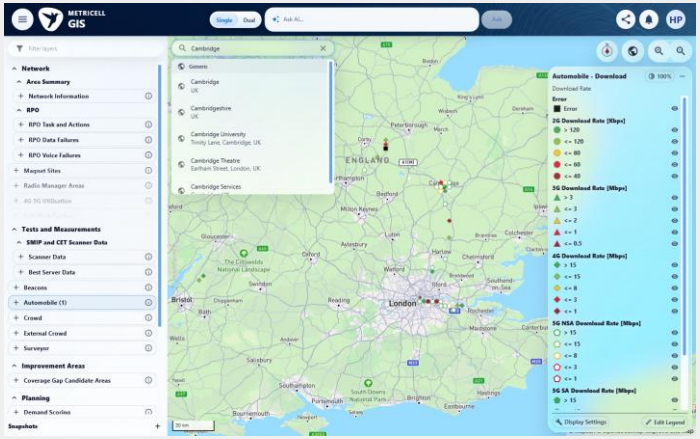

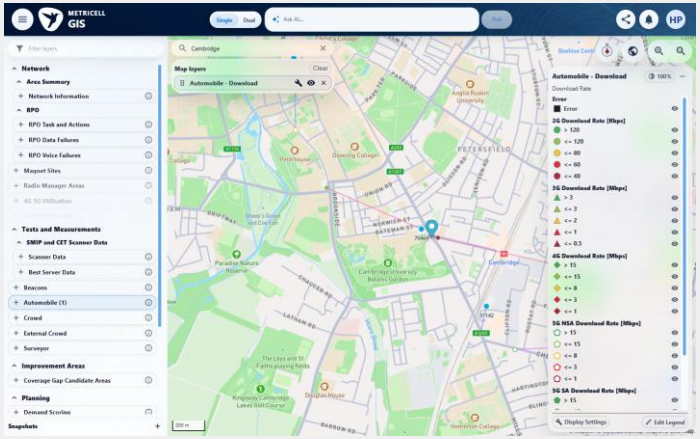

Criterion 2 evidence: After selecting Download, the map shows selectable points for matching authorised Download results only.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

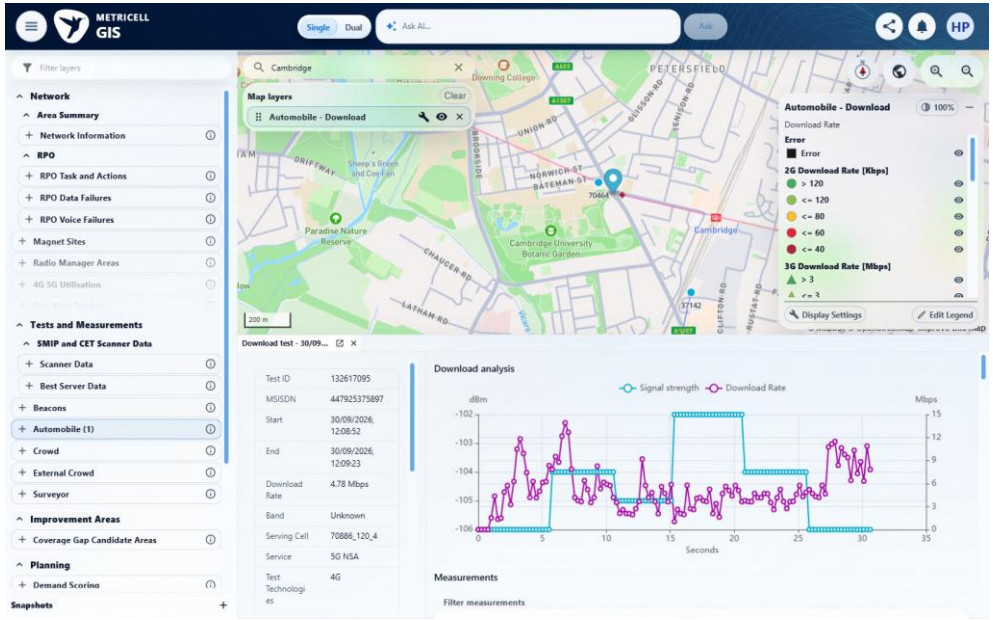

E04 - Before add (criterion-2-before-add.png)

E05 - After add (criterion-2-after-add.png)

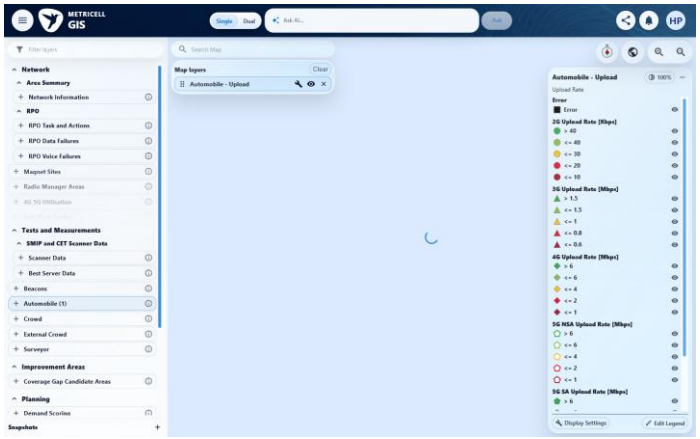

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 2 continued: After selecting Download, the map shows selectable points for matching authorised Download results only. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E06 - Before search select (criterion-2-before-search-select.png)**  **E07 - Before point (criterion-2-before-point.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 2 continued: After selecting Download, the map shows selectable points for matching authorised Download results only. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E08 - Final (criterion-2-final.png)** 				

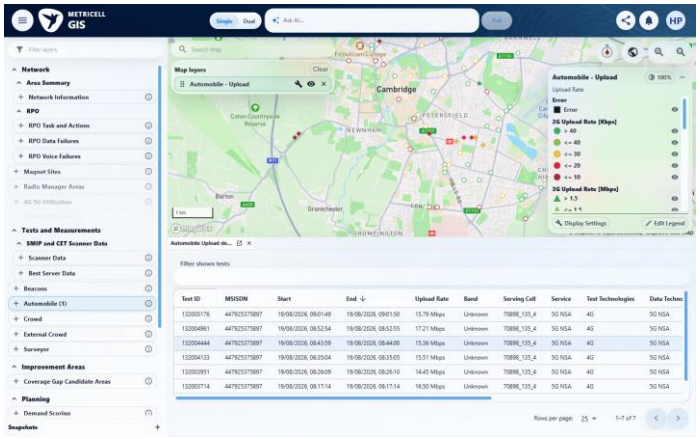

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
3.0.0	After selecting Upload, the map shows selectable points for matching authorised Upload results only.	After selecting Upload, the map shows selectable points for matching authorised Upload results only.	criterion-3-before-apply.png and after-apply.png show Automobile Upload selection and its settled layer. criterion-3-final.png opens Upload 132610532; repair-before-cluster.png and repair-final.png additionally show a seven-result Upload cluster in the later 90-day Cambridge scope. Recorded /api/platform/automobile/upload/points observations support module provenance. Neither the original day scope nor the later viewport response has complete aggregate/member reconciliation; no complete matching-only/selectability pass is supported. Evidence: E09, E10, E11, E12, E13	Failed

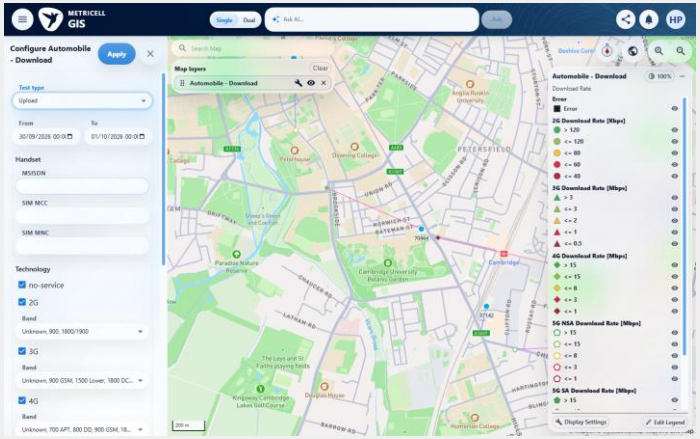

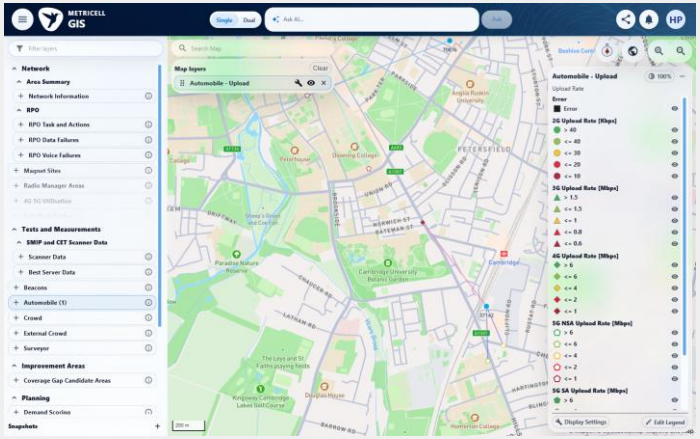

Criterion 3 evidence: After selecting Upload, the map shows selectable points for matching authorised Upload results only.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

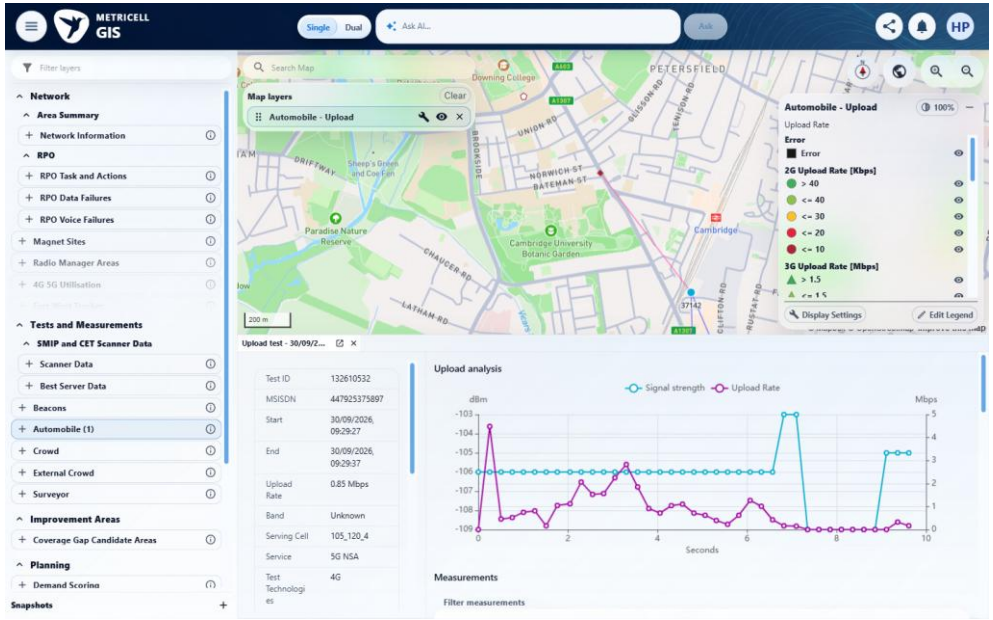

E09 - Repair before cluster (criterion-3-repair-before-cluster.png)

E10 - Repair final (criterion-3-repair-final.png)

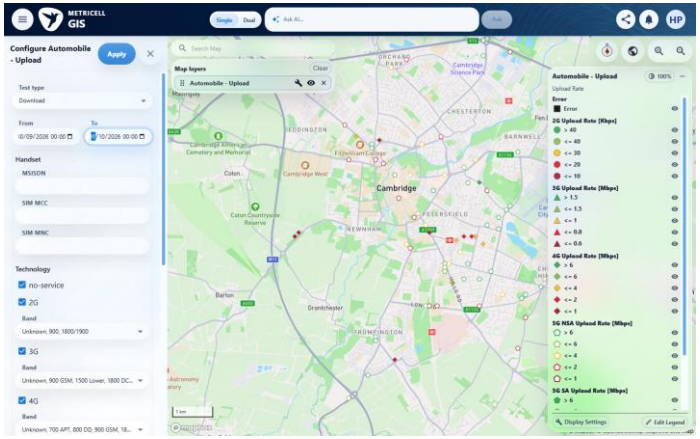

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 3 continued: After selecting Upload, the map shows selectable points for matching authorised Upload results only. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E11 - Before apply (criterion-3-before-apply.png)**  **E12 - After apply (criterion-3-after-apply.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 3 continued: After selecting Upload, the map shows selectable points for matching authorised Upload results only. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E13 - Final (criterion-3-final.png)**  				

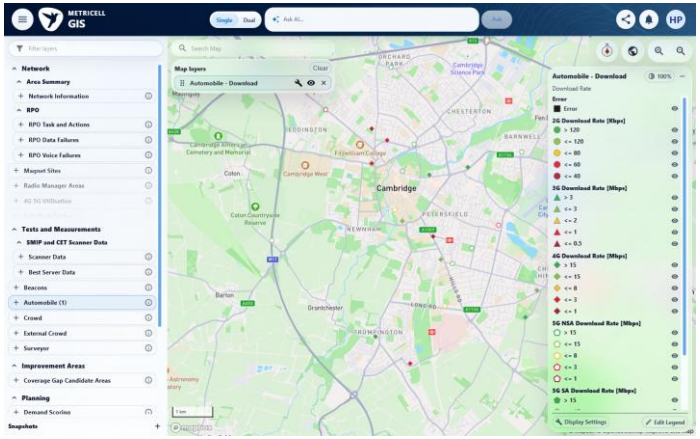

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
4.0.0	Selecting a Download result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Download Rate, and Wi-Fi Connected.	Selecting a Download result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Download Rate, and Wi-Fi Connected.	criterion-4-repair-summary-top.png, repair-summary-middle.png and repair-final.png show Download 132617095 with MSISDN 447925375897, Service/Data Technology 5G NSA, Serving Cell 70886_120_4, Test Technologies 4G, rate 4.78 Mbps, Wi-Fi Connected No and duration 30.841 s. These overlapping settled summary views follow the recorded point selection and supersede the exploratory sequence. Evidence: E14, E15, E16, E17, E18	Passed

Criterion 4 evidence: Selecting a Download result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Download Rate, and Wi-Fi Connected.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E14 - Repair before apply (criterion-4-repair-before-apply.png)

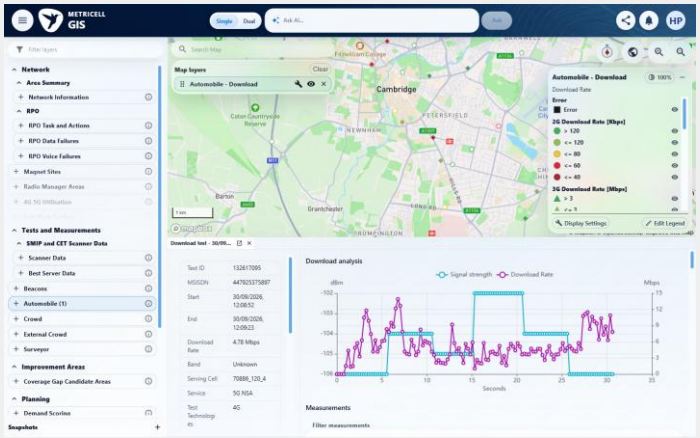

E15 - Repair before point (criterion-4-repair-before-point.png)

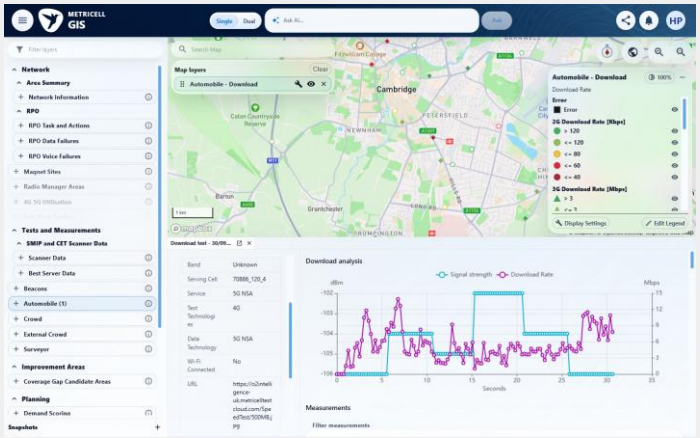

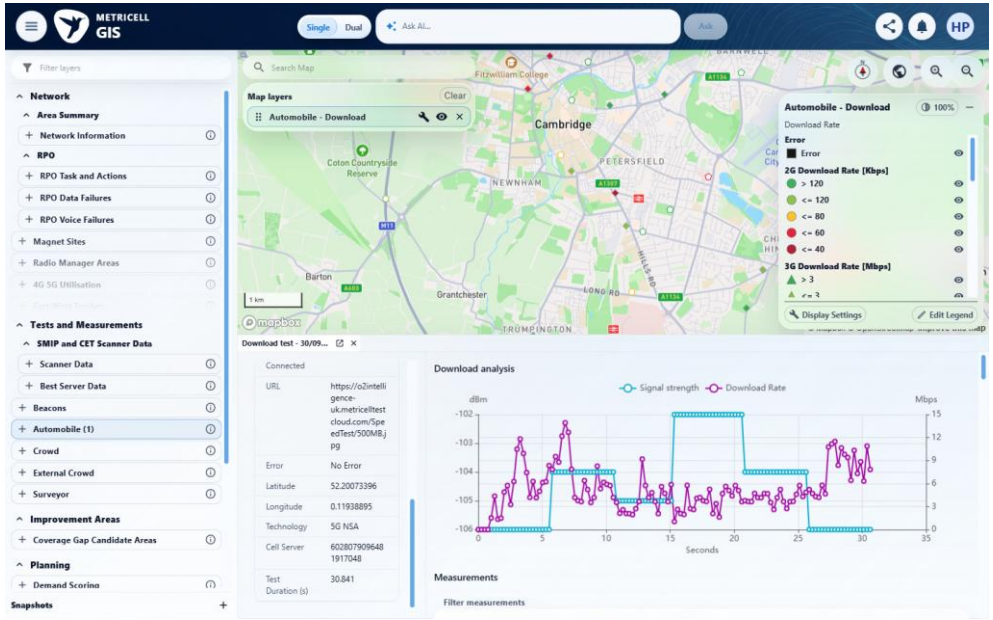

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 4 continued: Selecting a Download result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Download Rate, and Wi-Fi Connected. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis				

E16 - Repair summary top (criterion-4-repair-summary-top.png)

E17 - Repair summary middle (criterion-4-repair-summary-middle.png)

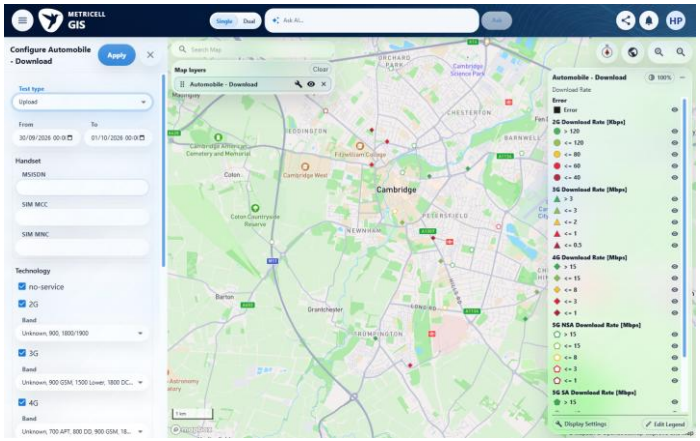

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 4 continued: Selecting a Download result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Download Rate, and Wi-Fi Connected. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis **E18 - Repair final (criterion-4-repair-final.png)** 

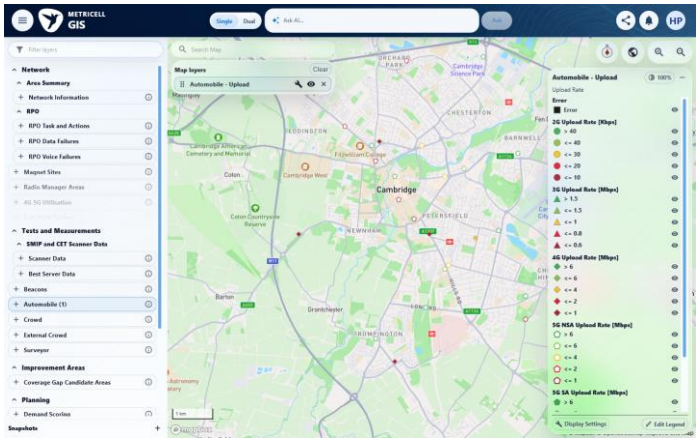

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
5.0.0	Selecting an Upload result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Upload Rate, and Wi-Fi Connected.	Selecting an Upload result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Upload Rate, and Wi-Fi Connected.	criterion-5-repair-top.png, repair-middle.png and repair-final.png show Upload 132610532 with MSISDN 447925375897, Service/Data Technology 5G NSA, Serving Cell 105_120_4, Test Technologies 4G, rate 0.85 Mbps, Wi-Fi Connected No and duration 9.777 s. The repaired criterion-owned sequence proves the eight required summary fields. Evidence: E19, E20, E21, E22, E23	Passed

Criterion 5 evidence: Selecting an Upload result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Upload Rate, and Wi-Fi Connected.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E19 - Repair before apply (criterion-5-repair-before-apply.png)

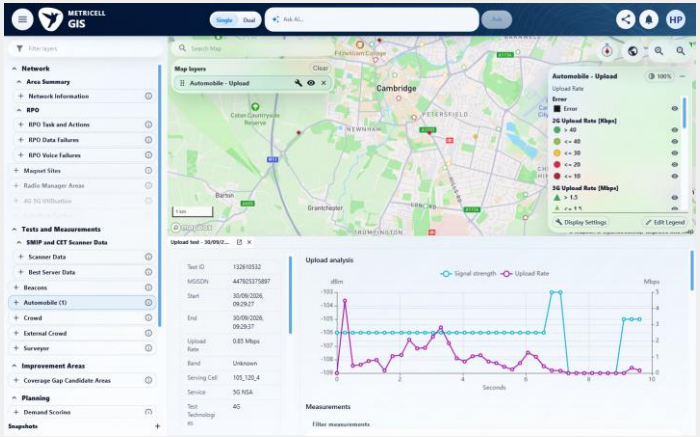

E20 - Repair before point (criterion-5-repair-before-point.png)

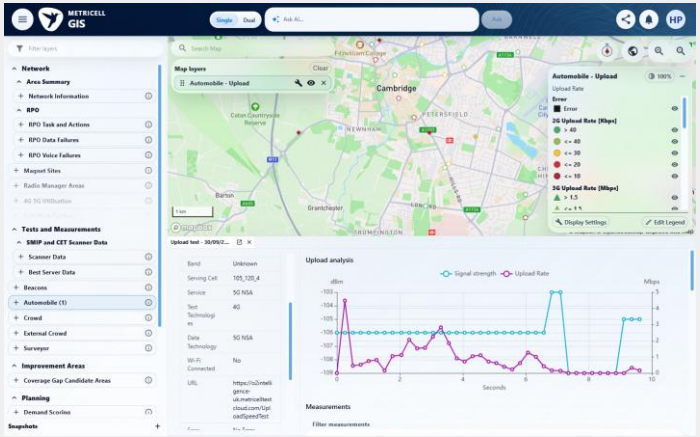

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 5 continued: Selecting an Upload result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Upload Rate, and Wi-Fi Connected. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis				

E21 - Repair top (criterion-5-repair-top.png)

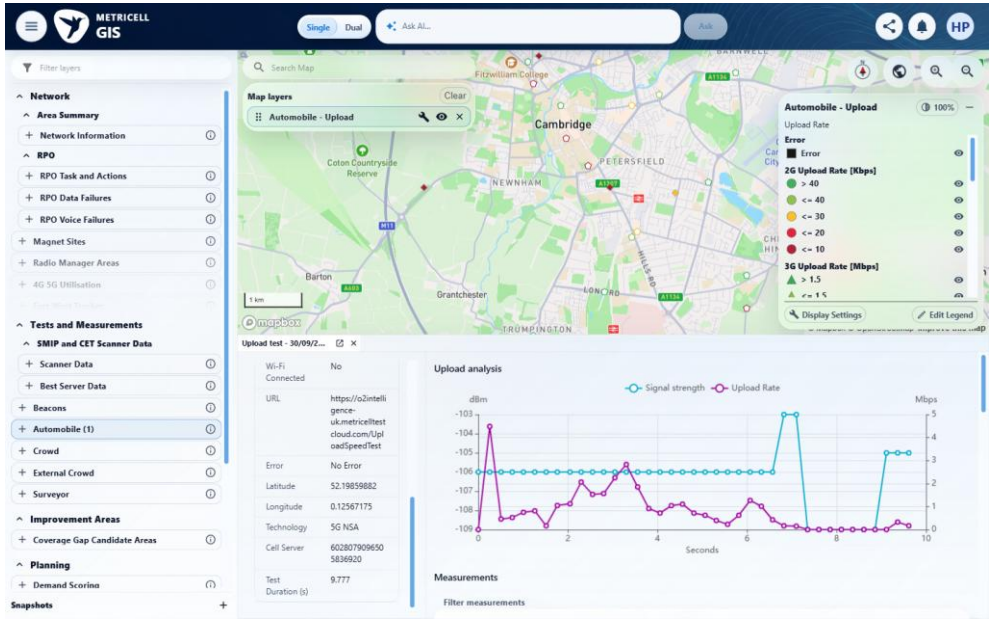

E22 - Repair middle (criterion-5-repair-middle.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 5 continued: Selecting an Upload result point opens its details dialog with Data Technology, MSISDN, Service, Serving Cell, Test Duration, Test Technologies, Upload Rate, and Wi-Fi Connected. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis				

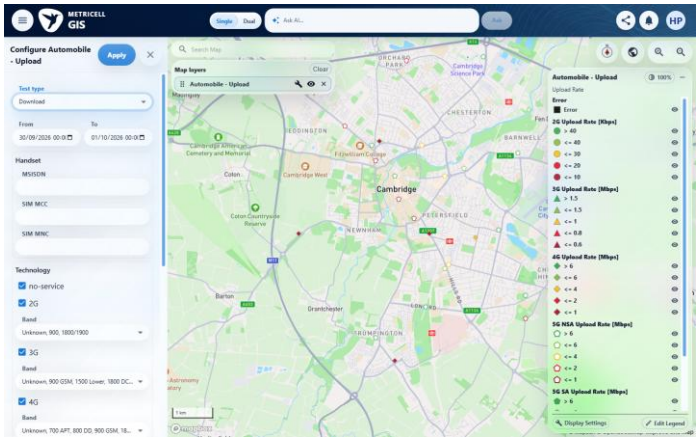

E23 - Repair final (criterion-5-repair-final.png)

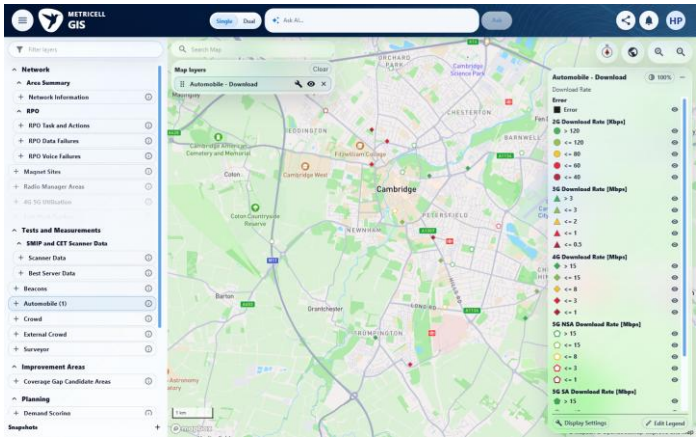

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
6.0.0	The Download result details chart plots Signal Strength in dBm and Download Rate in Mbps over time.	The Download result details chart plots Signal Strength in dBm and Download Rate in Mbps over time.	criterion-6-repair-final.png shows Download 132617095's plotted Signal strength and Download Rate series, dBm and Mbps axes and Seconds horizontal axis; the visible tooltip confirms samples belong to the plotted chart. Tooltip unit formatting is assessed separately under criterion 10. Evidence: E24, E25, E26	Passed

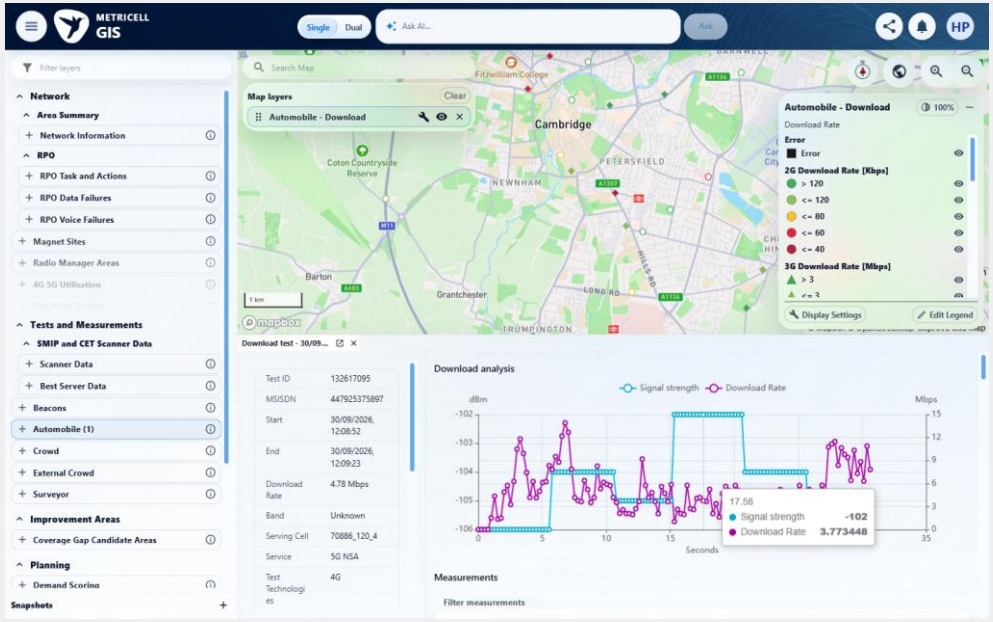

Criterion 6 evidence: The Download result details chart plots Signal Strength in dBm and Download Rate in Mbps over time.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E24 - Repair before apply (criterion-6-repair-before-apply.png)

E25 - Repair before point (criterion-6-repair-before-point.png)

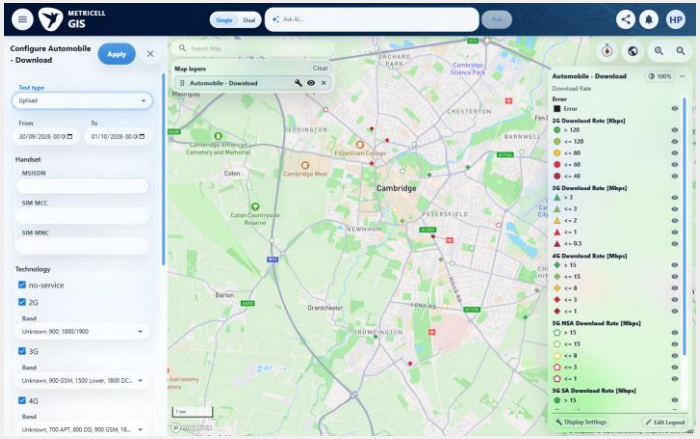

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 6 continued: The Download result details chart plots Signal Strength in dBm and Download Rate in Mbps over time. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E26 - Repair final (criterion-6-repair-final.png)** 				

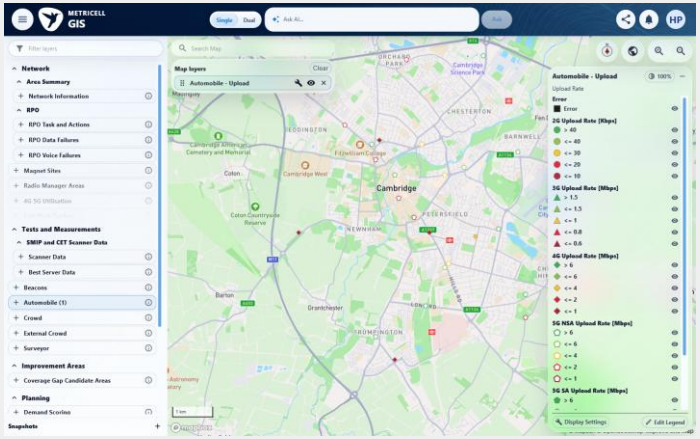

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
7.0.0	The Upload result details chart plots Signal Strength in dBm and Upload Rate in Mbps over time.	The Upload result details chart plots Signal Strength in dBm and Upload Rate in Mbps over time.	criterion-7-repair-final.png shows Upload 132610532's two plotted series with dBm/Mbps axes over Seconds; criterion-7-tooltip.png also exposes the samples. Both signals are visible on the chart, independently of the measurements table. Evidence: E19, E27, E28, E29	Passed

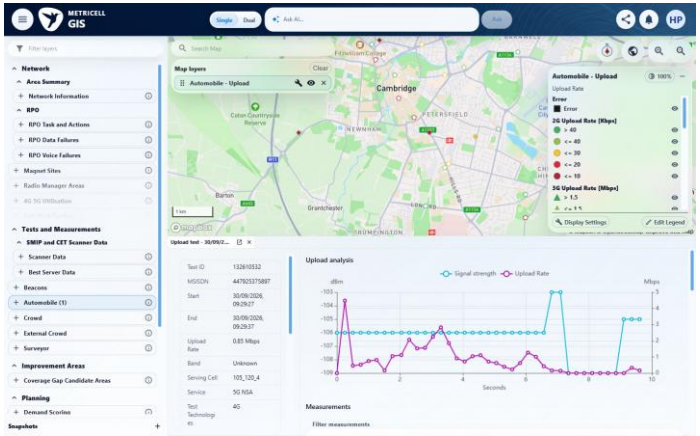

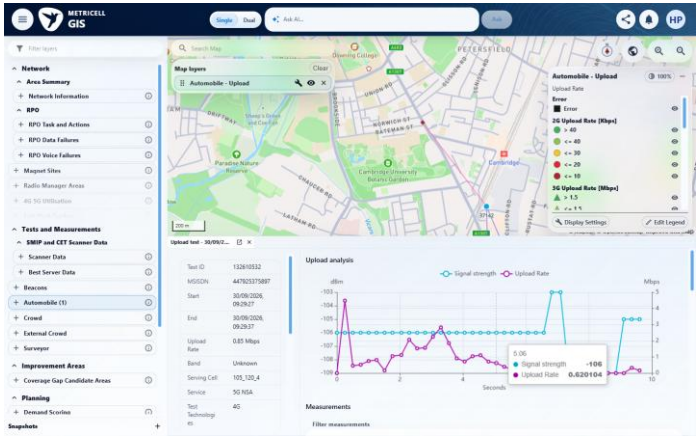

Criterion 7 evidence: The Upload result details chart plots Signal Strength in dBm and Upload Rate in Mbps over time.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E19 - Repair before apply (criterion-7-repair-before-apply.png)

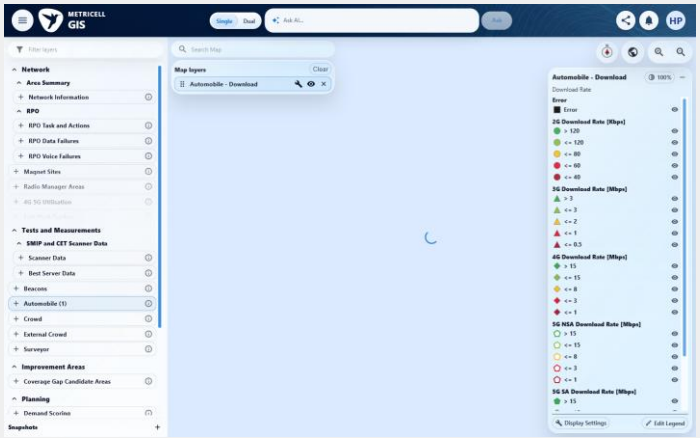

E27 - Repair before point (criterion-7-repair-before-point.png)

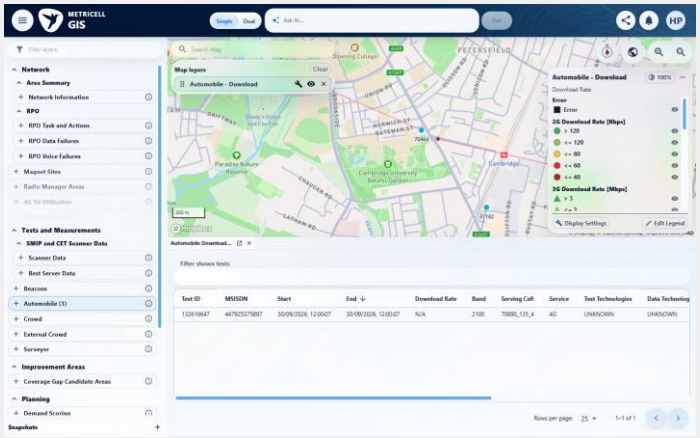

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 7 continued: The Upload result details chart plots Signal Strength in dBm and Upload Rate in Mbps over time. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E28 - Repair final (criterion-7-repair-final.png)**  **E29 - Tooltip (criterion-7-tooltip.png)** 				
8.0.0	The Download details table displays MSISDN, Start Time, End Time, Download Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, and Error Message.	The Download details table displays MSISDN, Start Time, End Time, Download Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, and Error Message.	criterion-8-recheck-left.png and recheck-final.png show the Automobile Download test-results table, whose row entities are tests, for 132616647. Across horizontal scroll states all 12 specified columns and their displayed values are readable, including Start/End and Error labels corresponding to Start Time/End Time and Error Message. Rate is N/A and technologies UNKNOWN for this failed record; this proves column presence, not a successful rate. The separate measurement table is not used as column proof. Evidence: E30, E31, E32	Passed
Criterion 8 assessment: Testing notes: The actual Download test-results table contains every required field. The earlier exploratory measurement-table interpretation is superseded; no missing-column product failure is claimed. In Automobile Download with 30 September local day filters, selected the failed map result 132616647; the test-results table remained open rather than an individual analysis view. Actual labels Start, End and Error correspond to specified Start Time, End Time and Error Message. Rate was N/A on this zero-duration Network Error record; column presence is verified, not a successful rate value.				

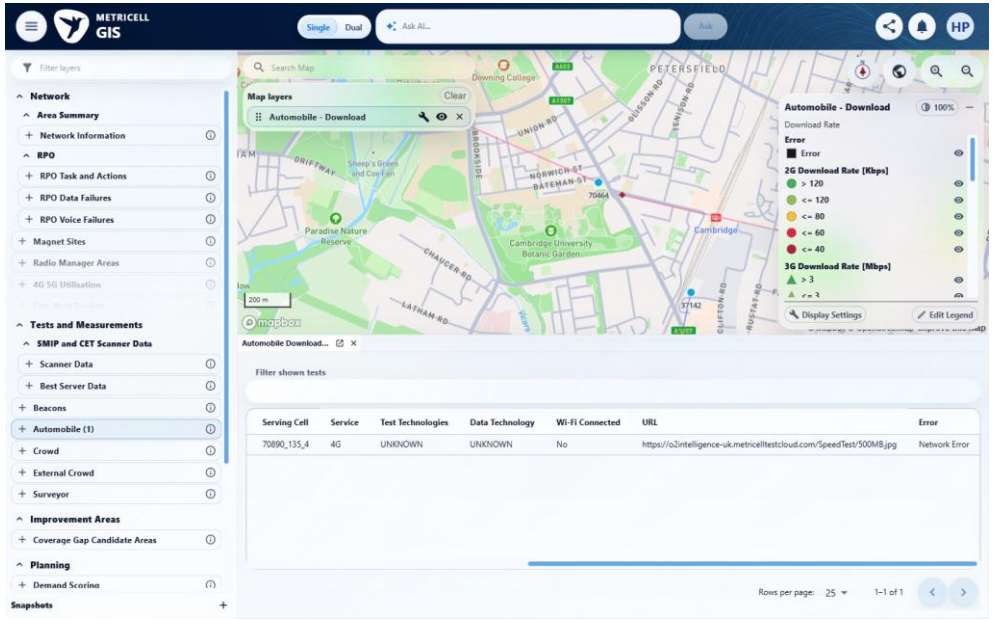

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 8 evidence: The Download details table displays MSISDN, Start Time, End Time, Download Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, and Error Message. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis				

E30 - Recheck before point (criterion-8-recheck-before-point.png)

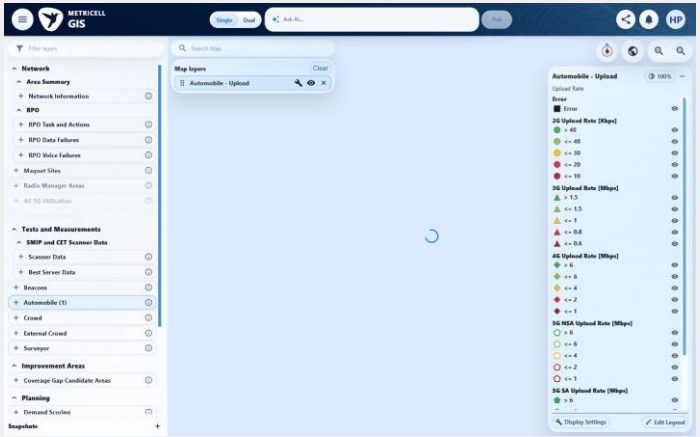

E31 - Recheck left (criterion-8-recheck-left.png)

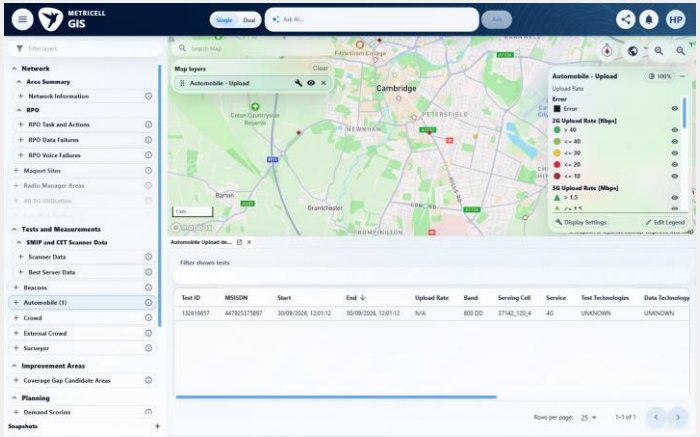

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 8 continued: The Download details table displays MSISDN, Start Time, End Time, Download Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, and Error Message. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis **E32 - Recheck final (criterion-8-recheck-final.png)** 				
9.0.0	The Upload details table displays MSISDN, Start Time, End Time, Upload Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, and Error Message.	The Upload details table displays MSISDN, Start Time, End Time, Upload Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, and Error Message.	criterion-9-repair-left.png and repair-final.png show the Automobile Upload test-results table for 132616657 across horizontal scroll states, including every specified column. Start/End and Error correspond to the source's time/error labels. The failed record displays N/A rate, UNKNOWN technologies and Network Error; no successful rate value is claimed. Measurement-table exploration is excluded. Evidence: E33, E34, E35	Passed
Criterion 9 assessment: Testing notes: The actual Upload test-results table contains every required field. The earlier exploratory measurement-table interpretation is superseded; no missing-column product failure is claimed. In Automobile Upload with 30 September local day filters, selected the failed map result 132616657; the test-results table remained open rather than an individual analysis view. Actual labels Start, End and Error correspond to specified Start Time, End Time and Error Message. Rate was N/A on this zero-duration Network Error record; column presence is verified, not a successful rate value.				

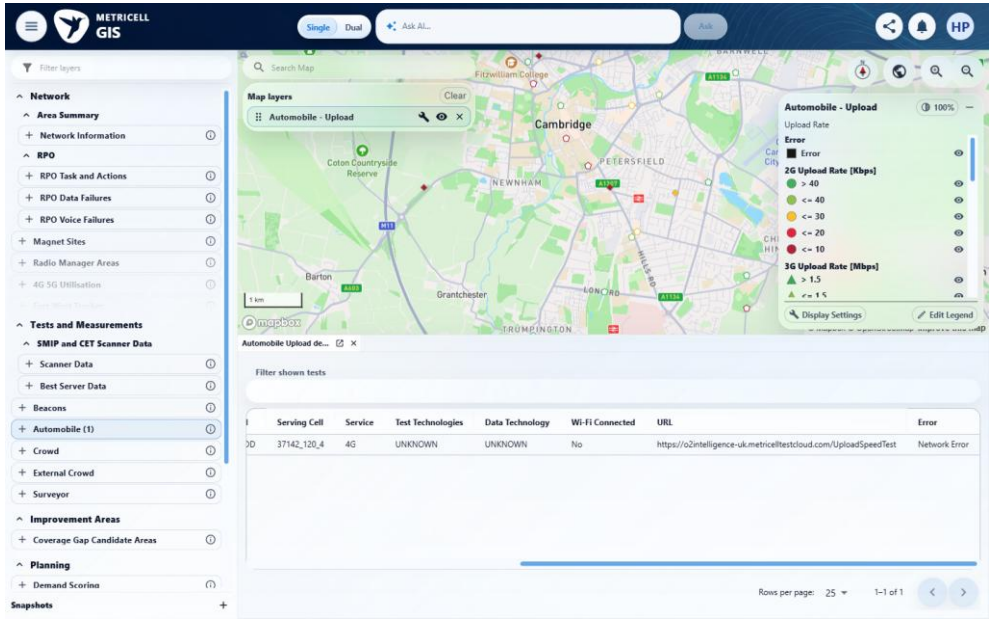

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 9 evidence: The Upload details table displays MSISDN, Start Time, End Time, Upload Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, and Error Message. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis				

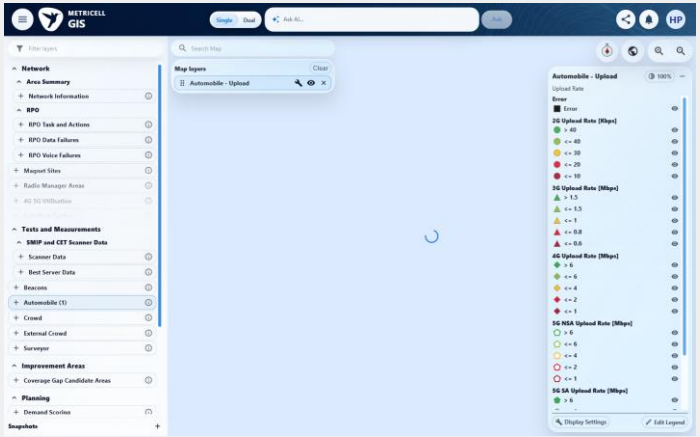

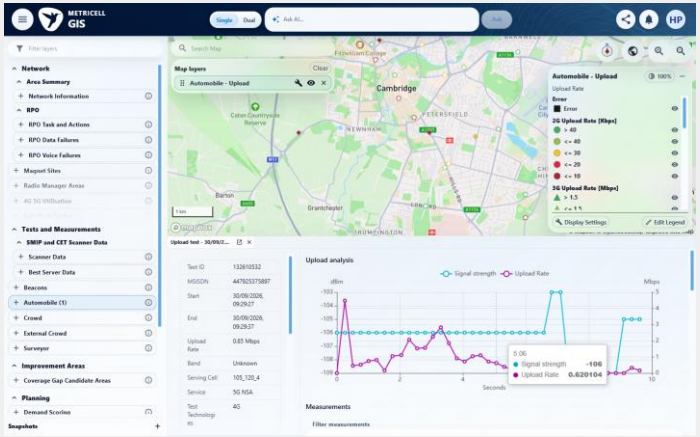

E33 - Repair before point (criterion-9-repair-before-point.png)

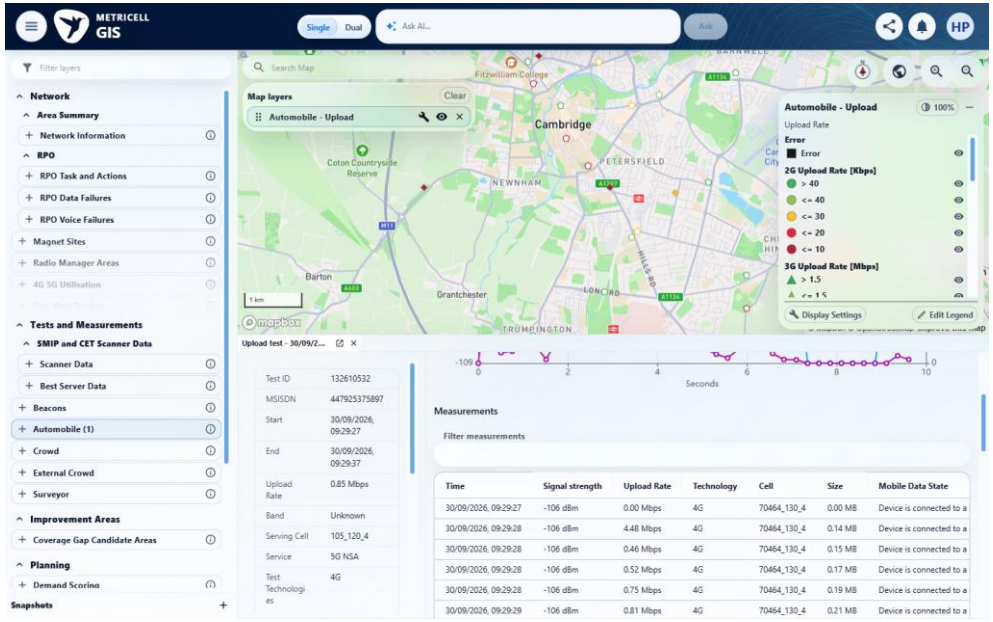

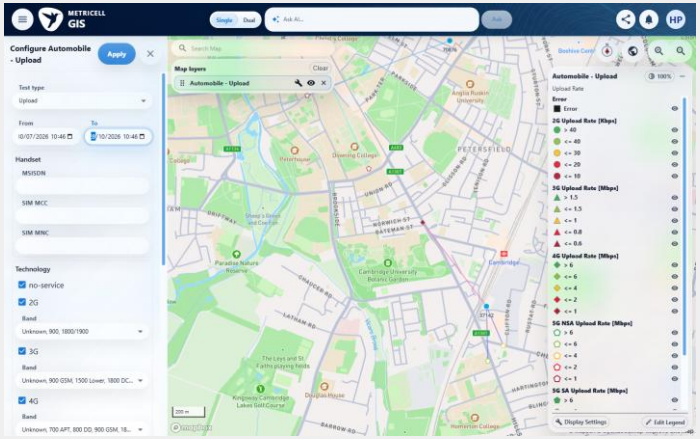

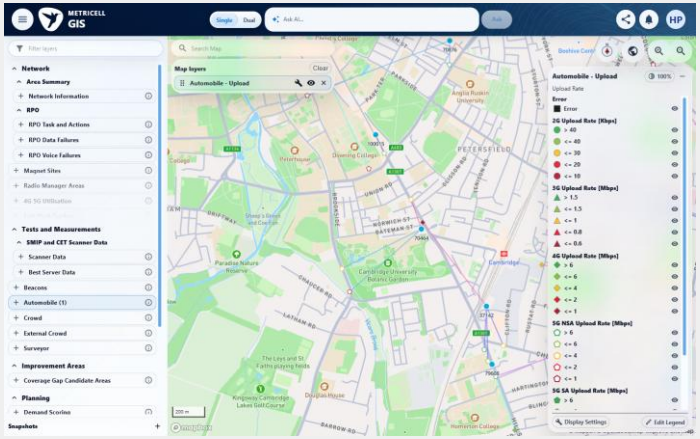

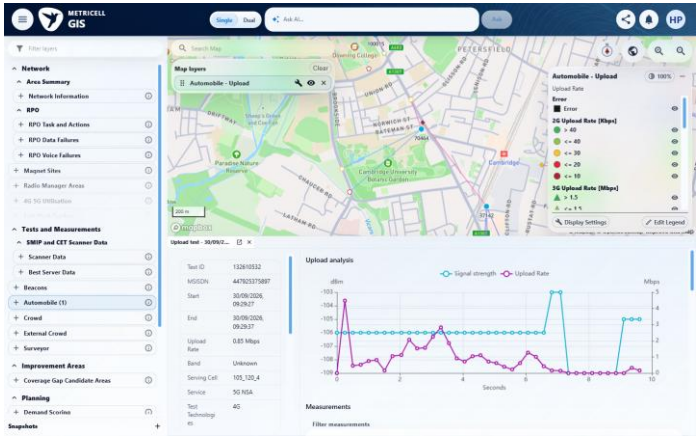

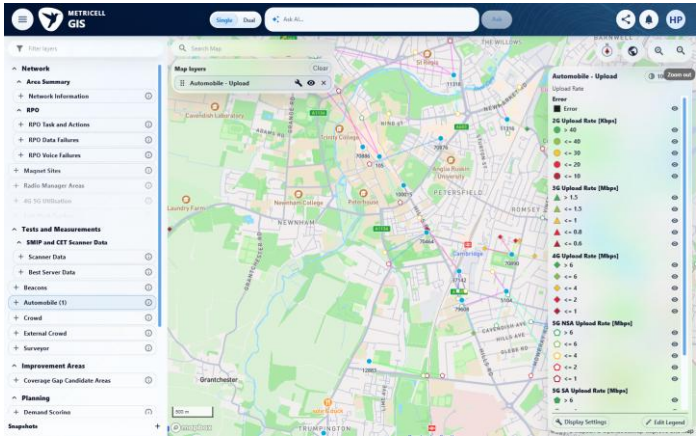

E34 - Repair left (criterion-9-repair-left.png)

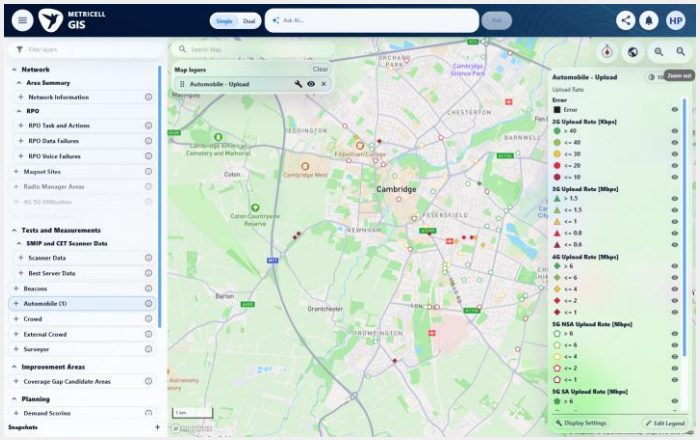

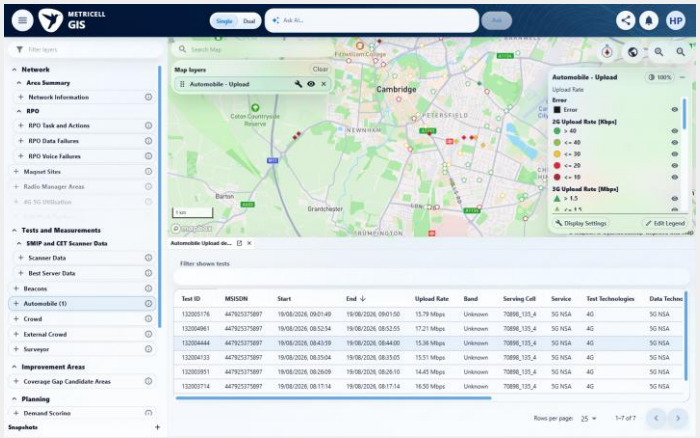

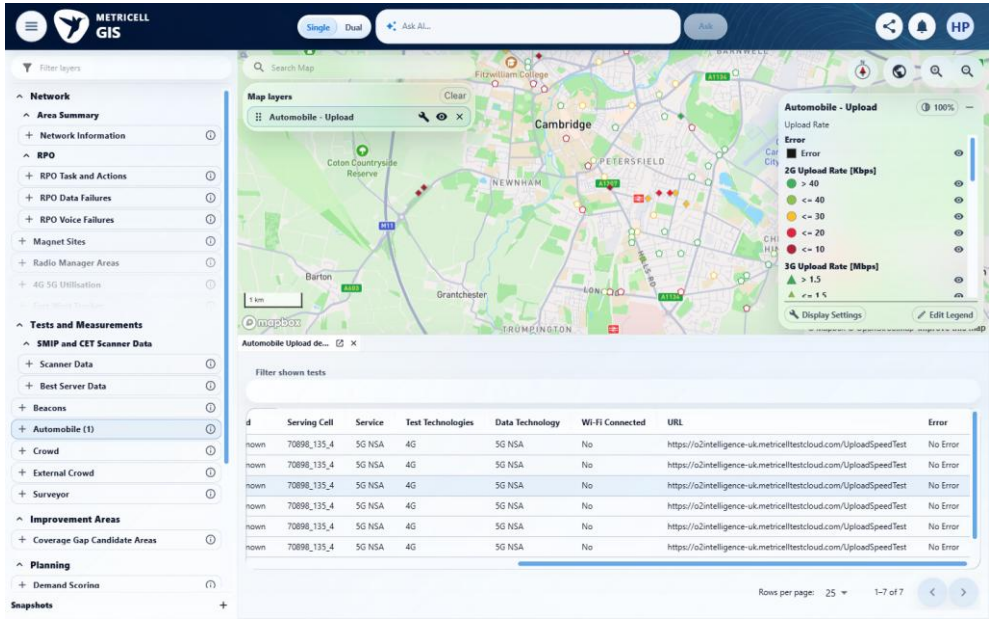

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 9 continued: The Upload details table displays MSISDN, Start Time, End Time, Upload Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, and Error Message. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis **E35 - Repair final (criterion-9-repair-final.png)** 				
10.0.0	Where signal strength or rate values are shown, each value includes its applicable unit (dBm or Mbps).	Where signal strength or rate values are shown, each value includes its applicable unit (dBm or Mbps).	criterion-10-repair-tooltip.png directly shows Upload 132610532 at 5.06 seconds: Signal strength -106 and Upload Rate 0.620104 lack dBm/Mbps beside the tooltip values. Axes are labelled and summary rate is 0.85 Mbps; repair-final.png shows measurement values with -106 dBm and Mbps. The source requires values formatted with units, so the bounded tooltip contradiction is Failed. Evidence: E36, E37, E38	Failed
Criterion 10 assessment: Testing notes: The explicit each-value unit requirement is contradicted by chart tooltip values lacking their applicable units; summary/table values and axis labels carry units. This is a bounded observed tooltip failure, not a claim about all other records.				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 10 evidence: Where signal strength or rate values are shown, each value includes its applicable unit (dBm or Mbps). **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E36 - Repair before point (criterion-10-repair-before-point.png)**  **E37 - Repair tooltip (criterion-10-repair-tooltip.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 10 continued: Where signal strength or rate values are shown, each value includes its applicable unit (dBm or Mbps). **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E38 - Repair final (criterion-10-repair-final.png)** 				
11.0.0	For a result whose Error Message is null, the details table displays “No Error”.	For a result whose Error Message is null, the details table displays “No Error”.	criterion-11-recheck-table-left.png identifies Upload tests and recheck-table-final.png shows No Error on the six visible rows. The criterion-owned genuine POST /api/platform/automobile/upload/cluster-details HTTP 200 observation records errorMessage:null for these IDs. This proves null-to-No Error presentation for the visible records; the seventh row is below the captured scroll area, so the tester's claim that all seven Error cells were visibly verified is not adopted. The source requires a null-error result, not exhaustive null-error records. Evidence: E39, E40, E41, E42, E43, E44, E45	Passed
Criterion 11 assessment: Testing notes: Compared the selected cluster's table, including all seven Error cells, with the genuine null-error values. Each displayed No Error.				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 11 evidence: For a result whose Error Message is null, the details table displays “No Error”. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E39 - Recheck before apply (criterion-11-recheck-before-apply.png)**  **E40 - Recheck before point (criterion-11-recheck-before-point.png)** 				
Criterion 11 continued: For a result whose Error Message is null, the details table displays “No Error”. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E41 - Recheck single (criterion-11-recheck-single.png)**  **E42 - Recheck zoom13 (criterion-11-recheck-zoom13.png)** 				

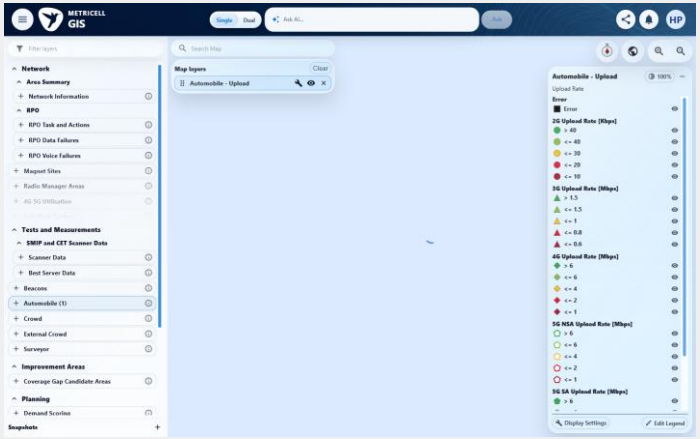

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 11 continued: For a result whose Error Message is null, the details table displays “No Error”. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E43 - Recheck settled zoom12 (criterion-11-recheck-settled-zoom12.png)**  **E44 - Recheck table left (criterion-11-recheck-table-left.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 11 continued: For a result whose Error Message is null, the details table displays “No Error”. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E45 - Recheck table final (criterion-11-recheck-table-final.png)** 				

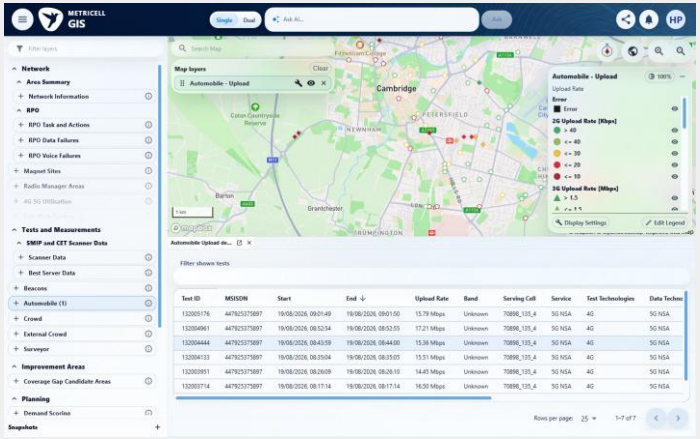

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
12.0.0	Sorting a supported Download or Upload details-table column changes the displayed row order to match the selected sort.	Sorting a supported Download or Upload details-table column changes the displayed row order to match the selected sort.	criterion-12-recheck-baseline.png establishes the Upload test-results table (test rows, not measurement samples). recheck-rate-ascending.png visibly orders six rows as 14.45, 15.36, 15.51, 15.79, 15.88, 16.50 Mbps; recheck-final.png visibly orders six as 17.21, 16.50, 15.88, 15.79, 15.51, 15.36 Mbps with matching header arrows. Pagination says seven rows, but each capture clips the seventh below the scroll area. Complete seven-row ordering and unchanged membership in each state lack bottom-row captures; Unverified, with no demonstrated incorrect ordering. Evidence: E46, E47, E48, E49	Failed
Criterion 12 assessment: Testing notes: Enumerated headers: Test ID, MSISDN, Start, End, Upload Rate, Band, Serving Cell, Service, Test Technologies, Data Technology, Wi-Fi Connected, URL, Error. The source/canonical criterion requires sorting a supported column; selected Upload Rate with seven differing values.				

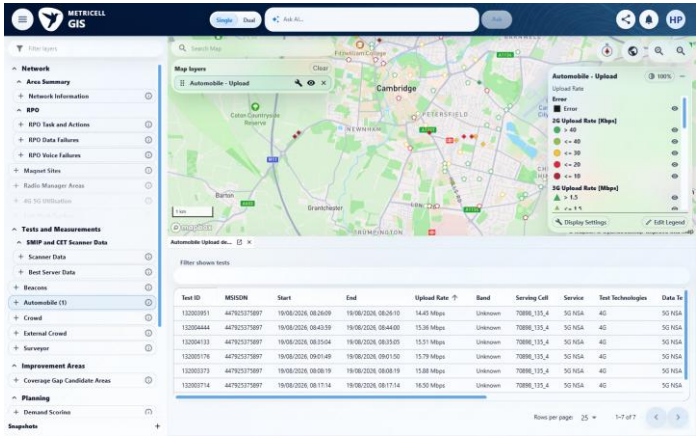

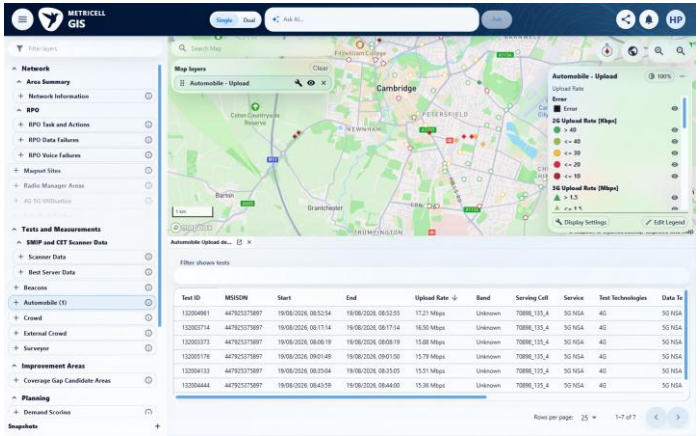

Criterion 12 evidence: Sorting a supported Download or Upload details-table column changes the displayed row order to match the selected sort.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E46 - Recheck before point (criterion-12-recheck-before-point.png)

E47 - Recheck baseline (criterion-12-recheck-baseline.png)

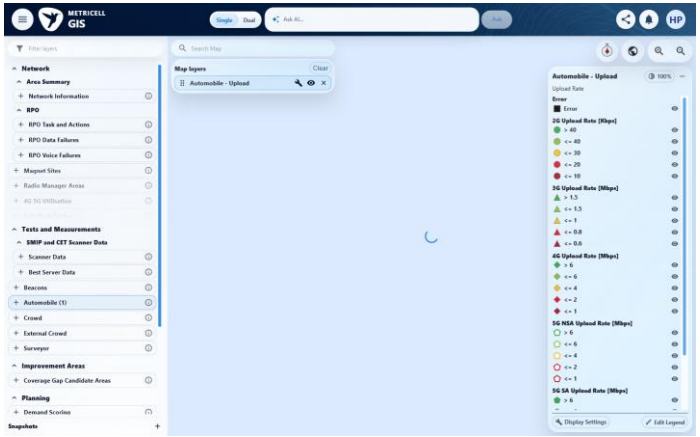

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 12 continued: Sorting a supported Download or Upload details-table column changes the displayed row order to match the selected sort. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E48 - Recheck rate ascending (criterion-12-recheck-rate-ascending.png)**  **E49 - Recheck final (criterion-12-recheck-final.png)** 				

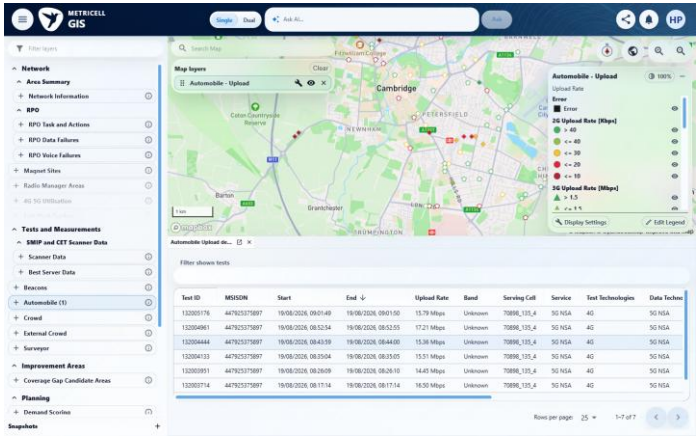

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
13.0.0	Filtering a supported Download or Upload details-table column displays rows matching the applied filter.	Filtering a supported Download or Upload details-table column displays rows matching the applied filter.	criterion-13-recheck-before-filter.png establishes the unfiltered Automobile Upload test-results table with seven total test rows. recheck-final.png shows Filter shown tests set to 132005176, exactly that readable matching test remaining and pagination 1-1 of 1. This proves the supported Test ID filtering assertion on the test-results table. Post-clear restoration is described in steps but has no matching capture and is not part of this criterion's required assertion. Evidence: E50, E47, E51	Passed

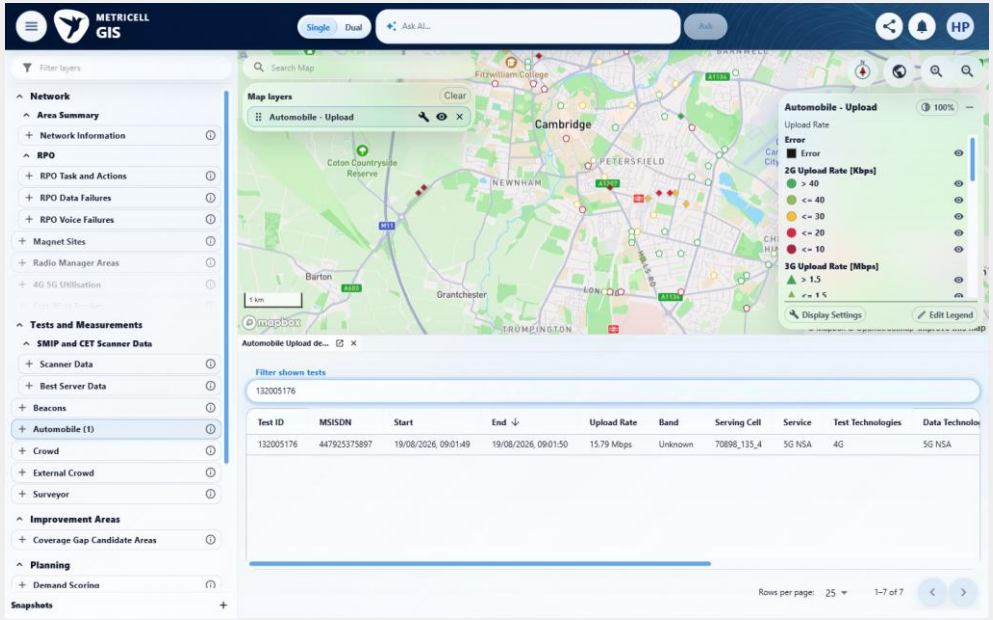

Criterion 13 evidence: Filtering a supported Download or Upload details-table column displays rows matching the applied filter.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E50 - Recheck before point (criterion-13-recheck-before-point.png)

E47 - Recheck before filter (criterion-13-recheck-before-filter.png)

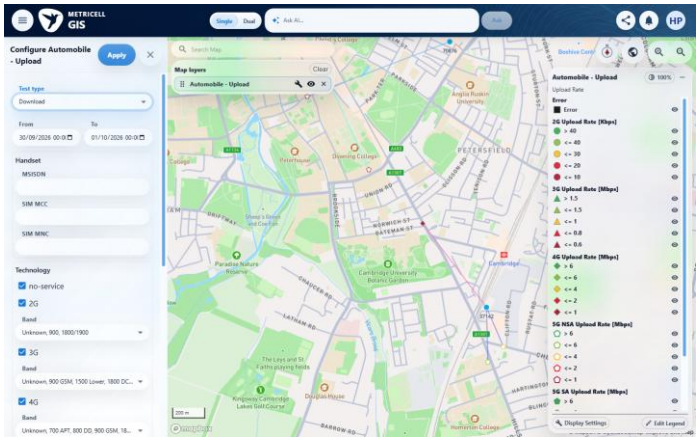

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 13 continued: Filtering a supported Download or Upload details-table column displays rows matching the applied filter. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E51 - Recheck final (criterion-13-recheck-final.png)**  				

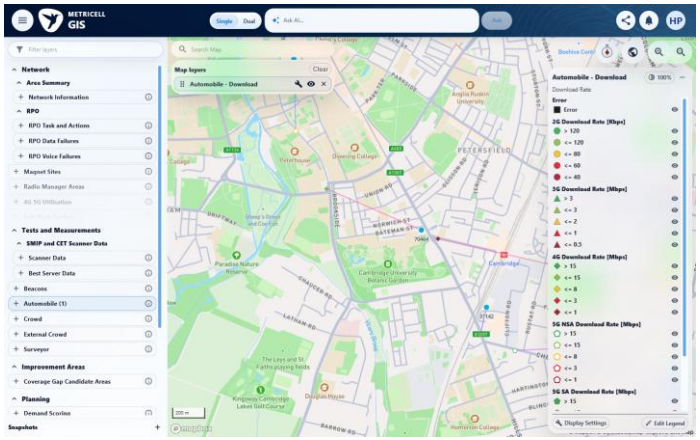

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
14.0.0	Requesting details for a zero-duration test does not open a details dialog.	Requesting details for a zero-duration test does not open a details dialog.	criterion-14-before-disabled-pointer.png and criterion-14-final.png show the same settled Download test-results row 132616647 with equal displayed Start/End 30/09/2026 12:00:07 and no individual analysis tab after the recorded ordinary pointer activation on its Test ID cell. The genuine cluster-details observation identifies testDurationMs:0 and equal underlying times. This is actual pointer prevention proof, not an inference from aria-disabled. The recorded row inspection found no tabindex/focusable keyboard path; no keyboard requirement is invented. The open aggregate's test list is distinct from individual details. Evidence: E52, E53, E54, E55	Passed
Criterion 14 assessment: Testing notes: Activated the failed map aggregate near 52.19498/0.13184; genuine POST /api/platform/automobile/download/cluster-details HTTP 200 returned test 132616647 with testDurationMs:0 and identical startTime/endTime 2026-09-30T12:00:07.383.				

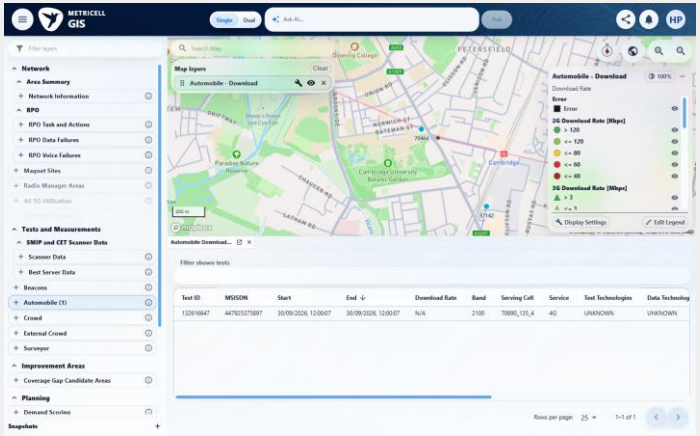

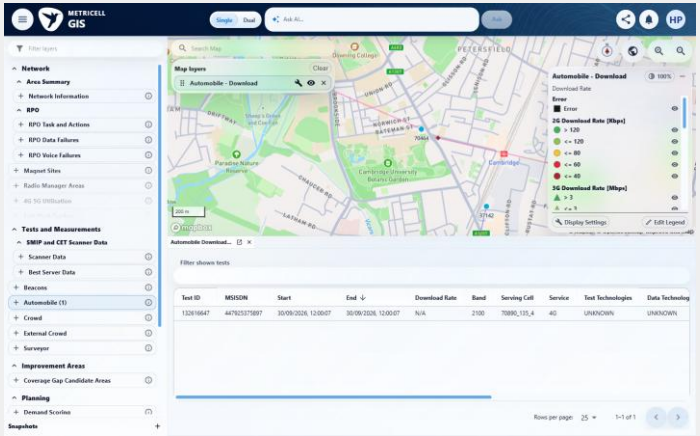

Criterion 14 evidence: Requesting details for a zero-duration test does not open a details dialog.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

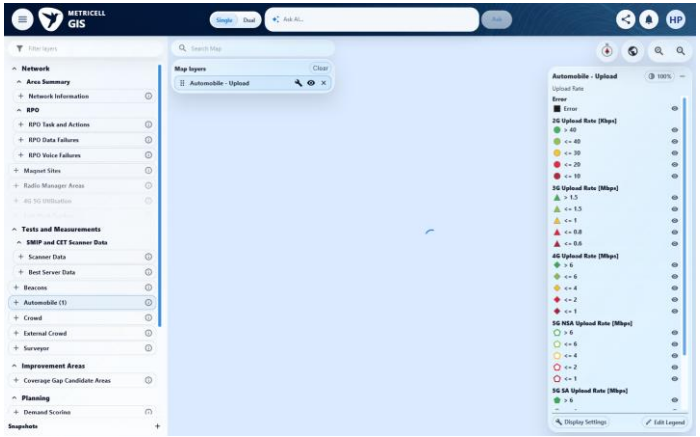

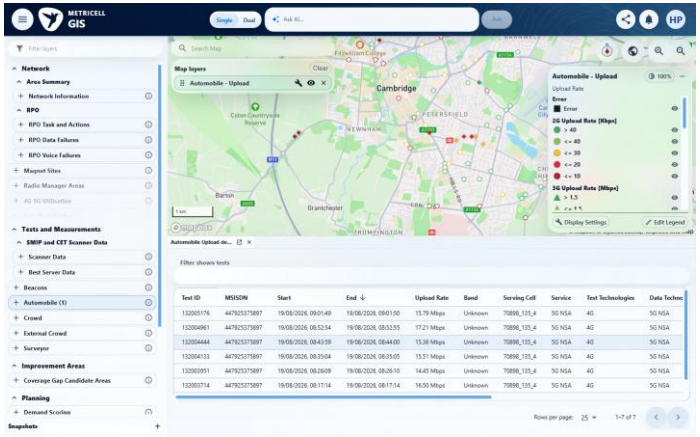

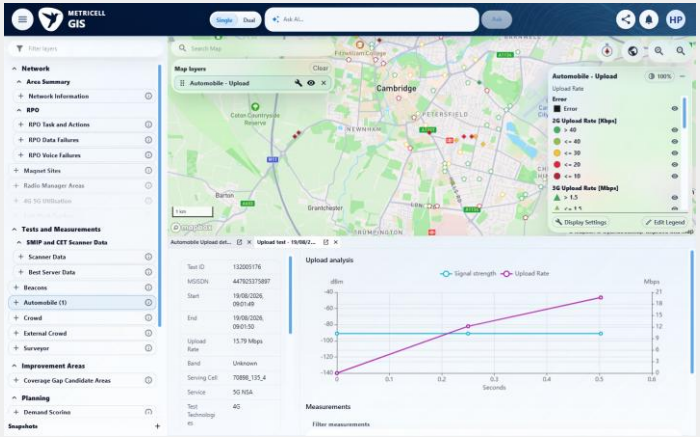

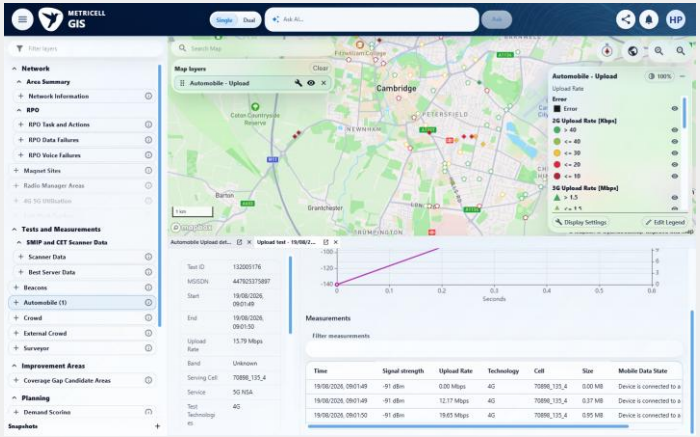

E52 - Before apply (criterion-14-before-apply.png)

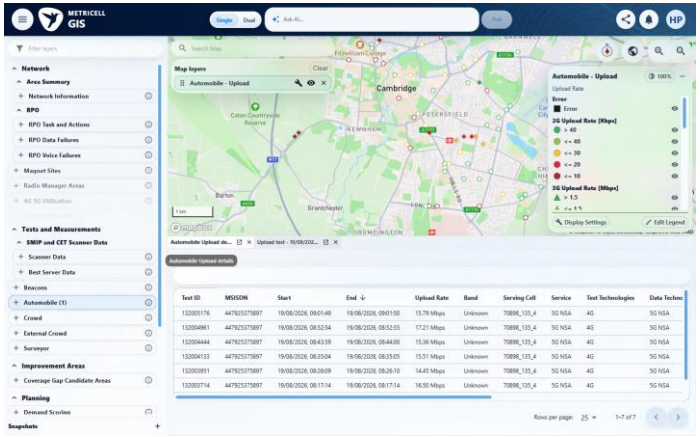

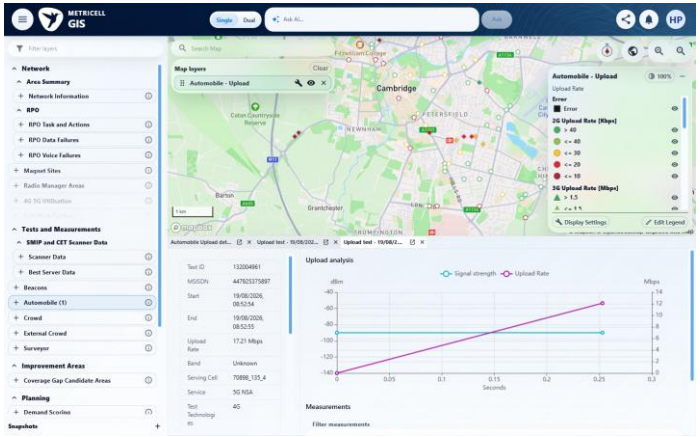

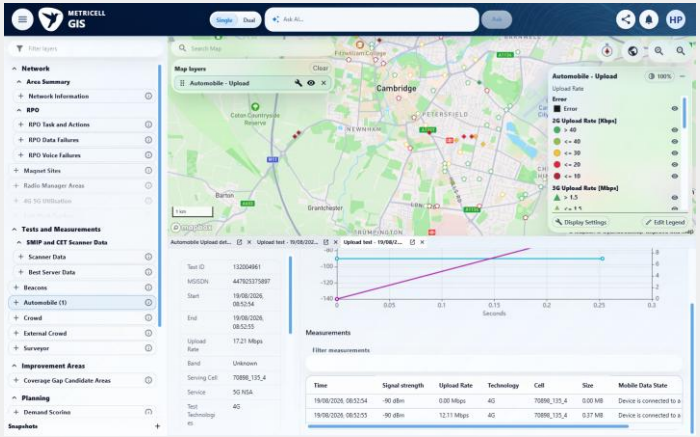

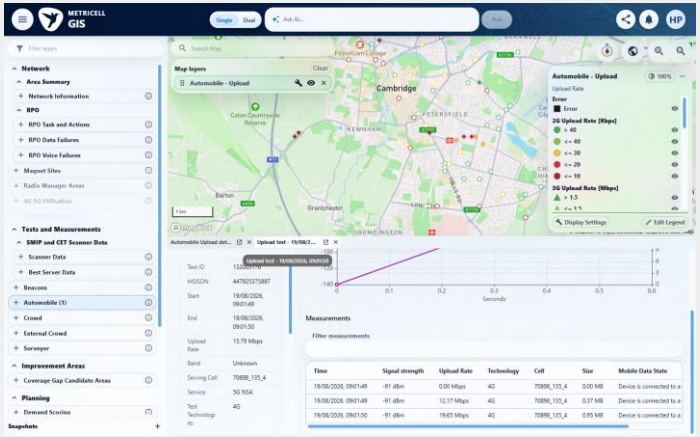

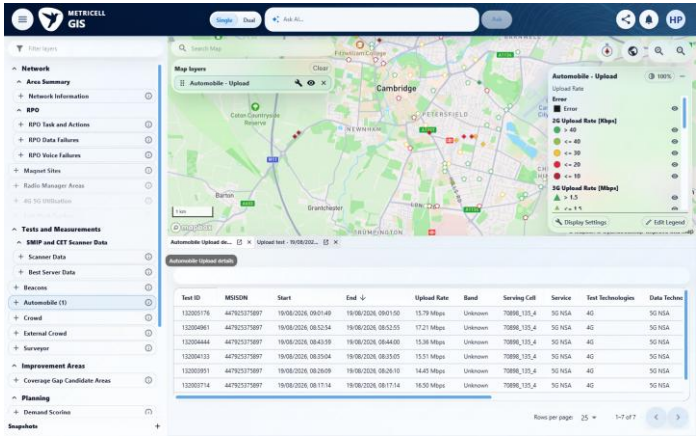

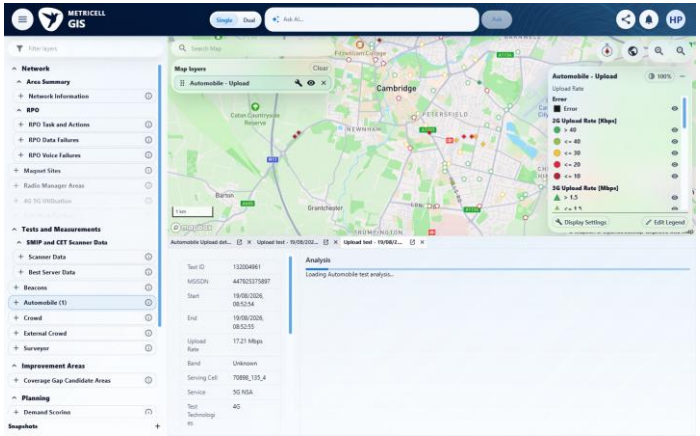

E53 - Before cluster (criterion-14-before-cluster.png)

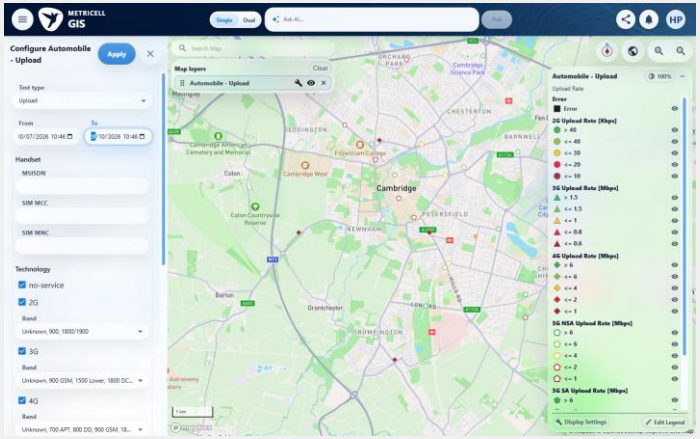

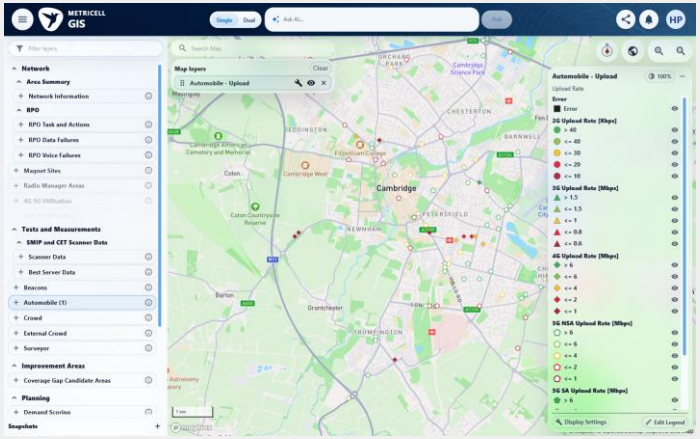

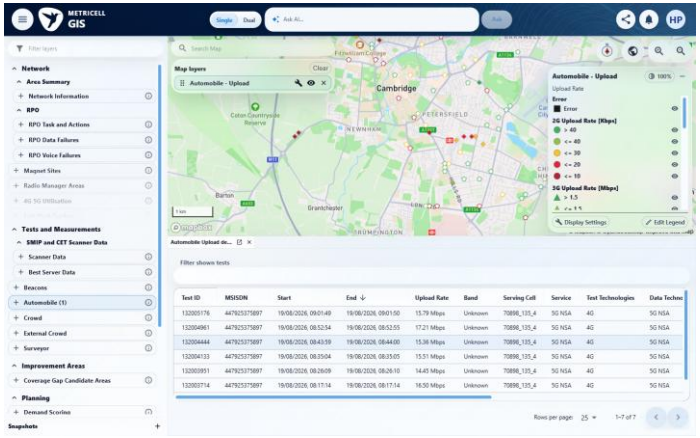

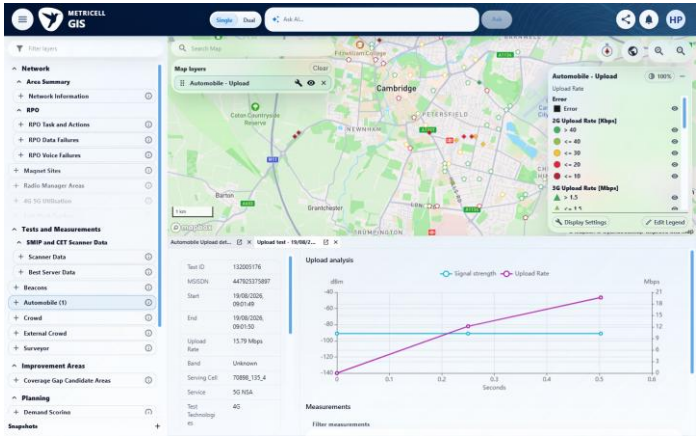

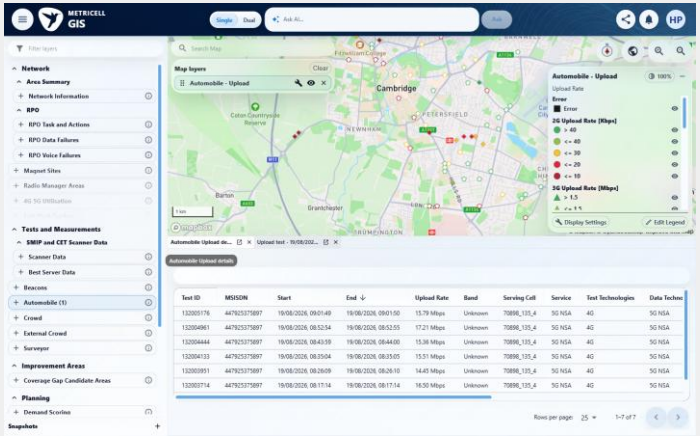

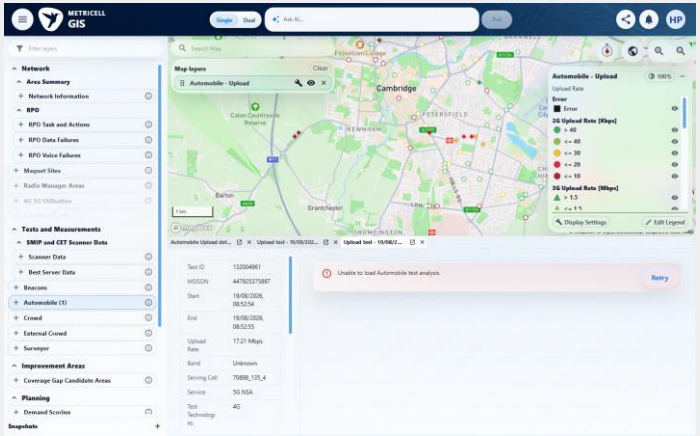

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 14 continued: Requesting details for a zero-duration test does not open a details dialog. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E54 - Before disabled pointer (criterion-14-before-disabled-pointer.png)**  **E55 - Final (criterion-14-final.png)** 				
15.0.0	While result details are loading, the interface shows a loading state without stale or misleading detail data.	While result details are loading, the interface shows a loading state without stale or misleading detail data.	The recorded check satisfied the criterion; see the assessment below. Evidence: E56, E47, E57, E58, E59, E60, E61, E62, E63	Passed
Criterion 15 assessment: SIMULATED UI STATE: Delayed the selected detail request to check loading. The evidence shows target 132004961 and Loading Automobile test analysis without the baseline chart or sample table.				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 15 evidence: While result details are loading, the interface shows a loading state without stale or misleading detail data. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E56 - Before cluster (criterion-15-before-cluster.png)**  **E47 - Before baseline (criterion-15-before-baseline.png)** 				
Criterion 15 continued: While result details are loading, the interface shows a loading state without stale or misleading detail data. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E57 - Valid baseline chart (criterion-15-valid-baseline-chart.png)**  **E58 - Valid baseline table (criterion-15-valid-baseline-table.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 15 continued: While result details are loading, the interface shows a loading state without stale or misleading detail data. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E59 - Before target genuine (criterion-15-before-target-genuine.png)**  **E60 - Genuine target chart (criterion-15-genuine-target-chart.png)** 				
Criterion 15 continued: While result details are loading, the interface shows a loading state without stale or misleading detail data. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E61 - Genuine target table (criterion-15-genuine-target-table.png)**  **E62 - Distinct baseline before delay (criterion-15-distinct-baseline-before-delay.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 15 continued: While result details are loading, the interface shows a loading state without stale or misleading detail data. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E59 - Before delayed selection (criterion-15-before-delayed-selection.png)**  **E63 - Final (criterion-15-final.png)** 				
16.0.0	If result details fail to load, the interface shows an error state without stale or misleading detail data.	If result details fail to load, the interface shows an error state without stale or misleading detail data.	The recorded check satisfied the criterion; see the assessment below. Evidence: E64, E65, E47, E66, E59, E67	Passed
Criterion 16 assessment: SIMULATED UI STATE: Returned HTTP 503 for the selected detail request to check error handling. Normal target selection received one synthetic HTTP 503 Service Unavailable, text/plain Service Unavailable, using standard HTTP failure semantics rather than an invented project response body/empty-data contract. repair-final.png shows target 132004961's genuine summary and Unable to load Automobile test analysis with Retry; the previous record's chart/sample table is absent from selected analysis.				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 16 evidence: If result details fail to load, the interface shows an error state without stale or misleading detail data. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E64 - Repair before apply (criterion-16-repair-before-apply.png)**  **E65 - Repair before cluster (criterion-16-repair-before-cluster.png)** 				
Criterion 16 continued: If result details fail to load, the interface shows an error state without stale or misleading detail data. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E47 - Repair before baseline (criterion-16-repair-before-baseline.png)**  **E66 - Repair distinct baseline (criterion-16-repair-distinct-baseline.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 16 continued: If result details fail to load, the interface shows an error state without stale or misleading detail data. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E59 - Repair before error (criterion-16-repair-before-error.png)**  **E67 - Repair final (criterion-16-repair-final.png)** 				

metricell
Better Connected

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
