About Metricell 12

1 Revision History

Version	Date	Revision Author	Summary of Changes
[1.0]	12/10/2026	TEST2 QA Automation	Generated from TEST2 evidence review

2 Test Cycle Information

Tester:	**Automated**
Jira Ticket:	TEST2-72
Environment:	o2intelligence-v4-dev.metricell.com
Browser Details:	Google Chrome 155.0.8059.40
Date of Test:	12/10/2026
Limitations during Testing:	Criterion 3: A stale element reference failed without changing state; subsequent edit/cancel calls found no dialog. Refreshed the snapshot and opened Surveyor successfully. Unchanged-state captures from unsuccessful calls are excluded. Defects (No.) counts directly contradicted criteria, not unique Jira bugs; blockers and inconclusive evidence count as zero.
Overall review outcome:	Passed
Browser URL(s) recorded after criteria:	https://o2intelligence-v4-dev.metricell.com/gis

3 Test Summary

Area of test	Pass	Fail	Defects (No.)
1. With Surveyor configuration open and Username, Cancel, and Add layer visible, enter TEST2-showcase-unsaved and verify the complete value is visibly present in Username before cancelling.	Y	N	0
2. After selecting Cancel and reopening Surveyor configuration, verify Username is empty while Cancel and Add layer remain available.	Y	N	0

Area of test	Pass	Fail	Defects (No.)
3. After cancelling the reopened dialog, verify the unobscured map view and complete Map layers entries and order match the original pre-dialog baseline, with no new Surveyor layer.	Y	N	0

4 Test Cases

Each test maps to a criterion and decisive browser evidence. Inconclusive results are reported as Failed.

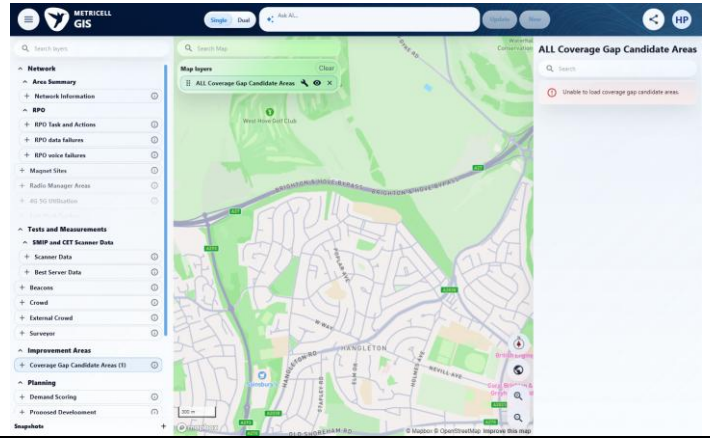

4.1 Tests

Preconditions:	V4 access and ticket conditions.	***Associated Requirements:***	Ticket criteria below.	Automation Notes:	Screenshots below each criterion; full log retained locally.

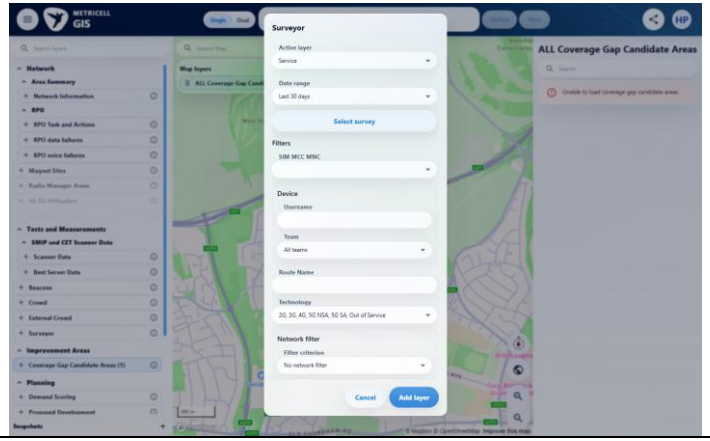

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	With Surveyor configuration open and Username, Cancel, and Add layer visible, enter TEST2-showcase-unsaved and verify the complete value is visibly present in Username before cancelling.	With Surveyor configuration open and Username, Cancel, and Add layer visible, enter TEST2-showcase-unsaved and verify the complete value is visibly present in Username before cancelling.	criterion-1-before-edit.png shows Username, Cancel and Add layer; criterion-1-final.png shows the complete TEST2-showcase-unsaved value in Username before cancellation. criterion-1-cleanup.png shows the dialog closed. Evidence: E01, E02, E03	Passed

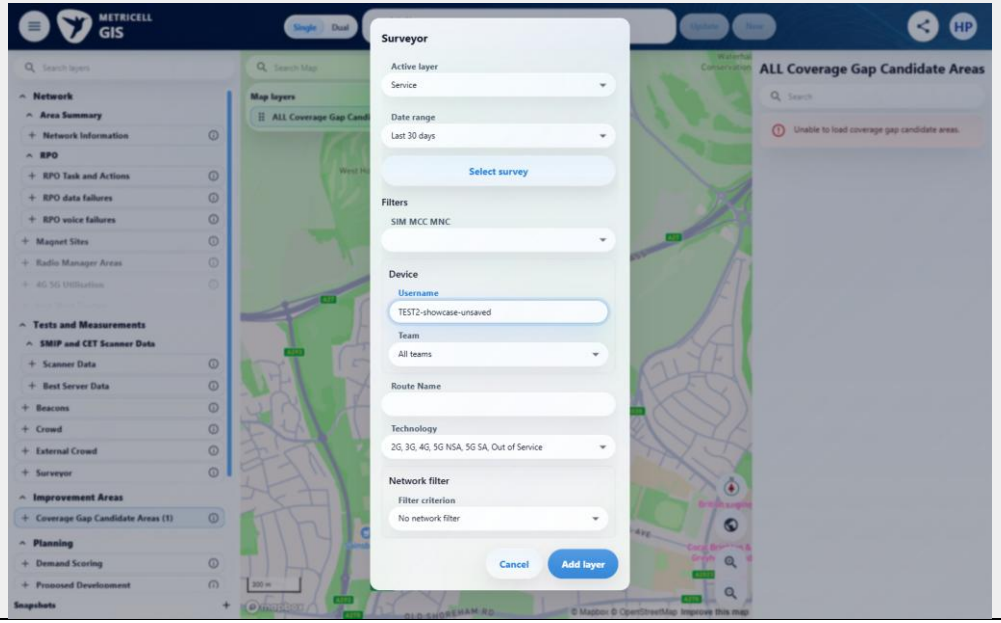

Criterion 1 evidence: With Surveyor configuration open and Username, Cancel, and Add layer visible, enter TEST2-showcase-unsaved and verify the complete value is visibly present in Username before cancelling. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E01 - Before open surveyor (criterion-1-before-open-surveyor.png)

E02 - Before edit (criterion-1-before-edit.png)

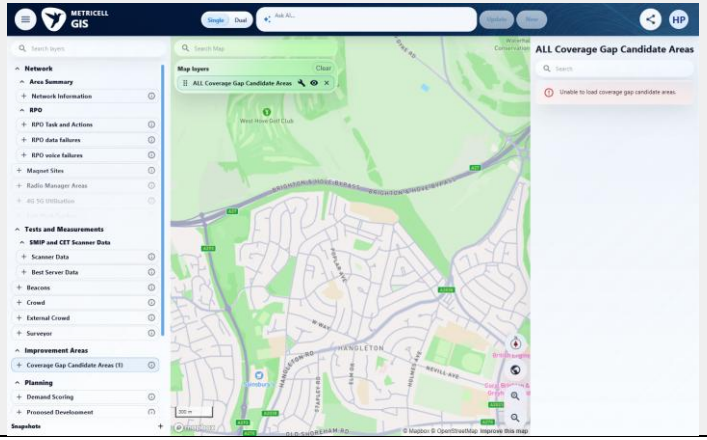

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 1 continued: With Surveyor configuration open and Username, Cancel, and Add layer visible, enter TEST2-showcase-unsaved and verify the complete value is visibly present in Username before cancelling. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis **E03 - Final (criterion-1-final.png)**  				

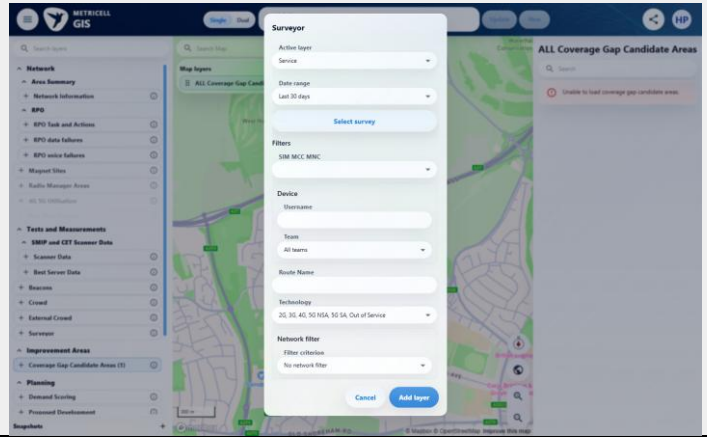

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
2.0.0	After selecting Cancel and reopening Surveyor configuration, verify Username is empty while Cancel and Add layer remain available.	After selecting Cancel and reopening Surveyor configuration, verify Username is empty while Cancel and Add layer remain available.	The criterion-owned sequence shows TEST2-showcase-unsaved in criterion-2-first-edited-before-cancel.png, the closed dialog in criterion-2-after-first-cancel-before-reopen.png, then empty Username with Cancel and Add layer in criterion-2-final.png. criterion-2-cleanup.png shows the reopened dialog closed. Evidence: E04, E05, E06, E07, E08	Passed

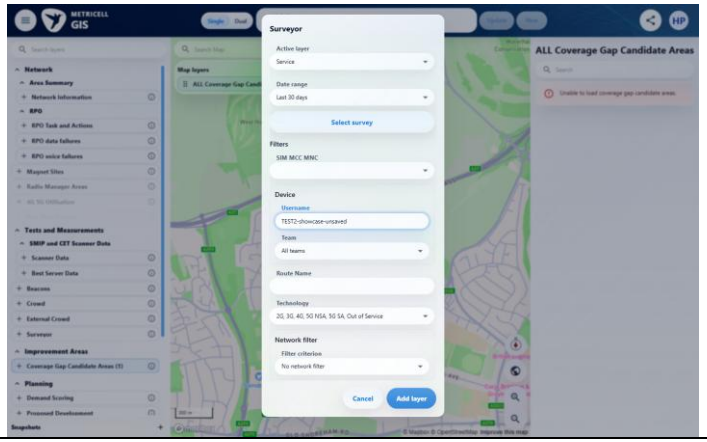

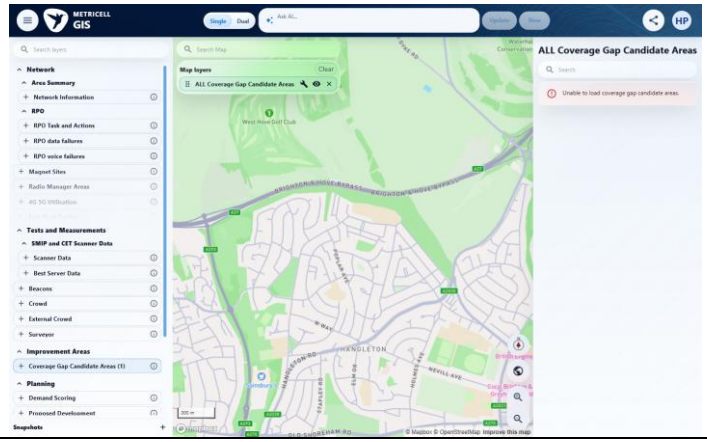

Criterion 2 evidence: After selecting Cancel and reopening Surveyor configuration, verify Username is empty while Cancel and Add layer remain available.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

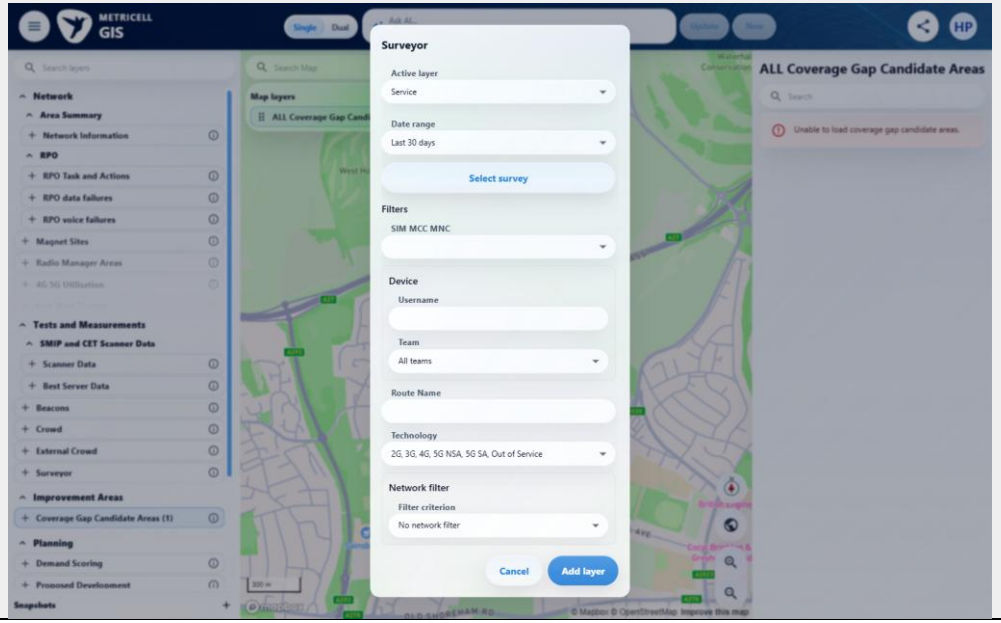

E04 - Before first open (criterion-2-before-first-open.png)

E05 - Before first edit (criterion-2-before-first-edit.png)

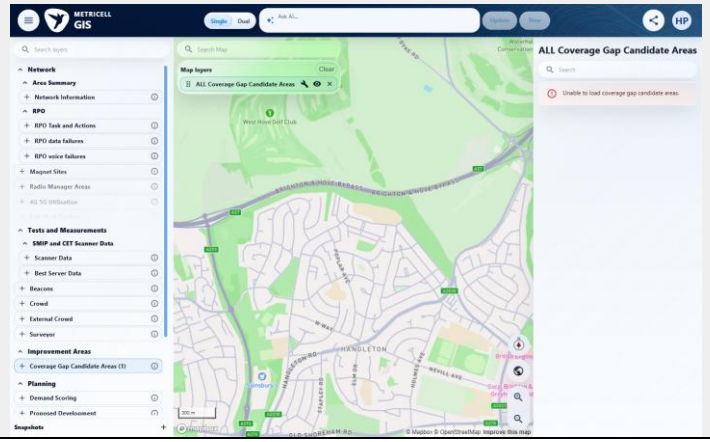

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 2 continued: After selecting Cancel and reopening Surveyor configuration, verify Username is empty while Cancel and Add layer remain available. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E06 - First edited before cancel (criterion-2-first-edited-before-cancel.png)**  				
E07 - After first cancel before reopen (criterion-2-after-first-cancel-before-reopen.png)  				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 2 continued: After selecting Cancel and reopening Surveyor configuration, verify Username is empty while Cancel and Add layer remain available. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E08 - Final (criterion-2-final.png)** 				

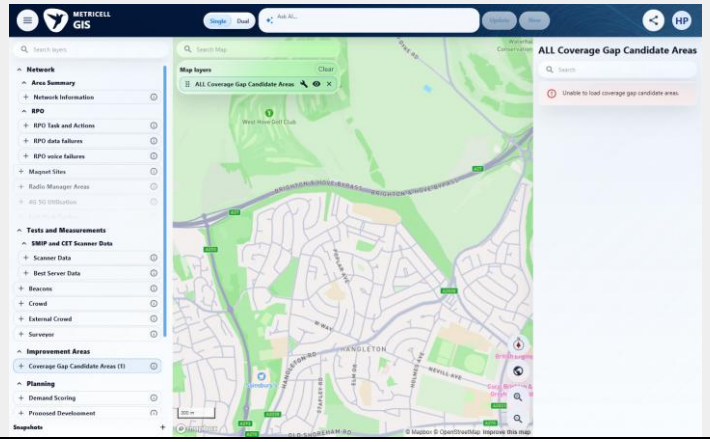

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
3.0.0	After cancelling the reopened dialog, verify the unobscured map view and complete Map layers entries and order match the original pre-dialog baseline, with no new Surveyor layer.	After cancelling the reopened dialog, verify the unobscured map view and complete Map layers entries and order match the original pre-dialog baseline, with no new Surveyor layer.	criterion-3-baseline-map.png and criterion-3-baseline-layers.png show the original unobscured map at 300 m scale and complete single-entry list, ALL Coverage Gap Candidate Areas. The recovered sequence shows the open dialog in criterion-3-first-open-before-edit.png, complete edit in criterion-3-first-edit-before-cancel.png, closed dialog in criterion-3-first-closed-before-reopen.png and reopened empty Username in criterion-3-final-reopened-empty-before-cancel.png. After final Cancel, criterion-3-final-restored-layers.png and criterion-3-final.png match the baseline map extent, content, scale and complete layer list/order, with no Surveyor layer. The existing coverage gap load alert is unchanged; the earlier stale-reference interaction is not an application defect. Evidence: E07, E04	Passed

Criterion 3 evidence: After cancelling the reopened dialog, verify the unobscured map view and complete Map layers entries and order match the original pre-dialog baseline, with no new Surveyor layer.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E07 - Baseline map (criterion-3-baseline-map.png)

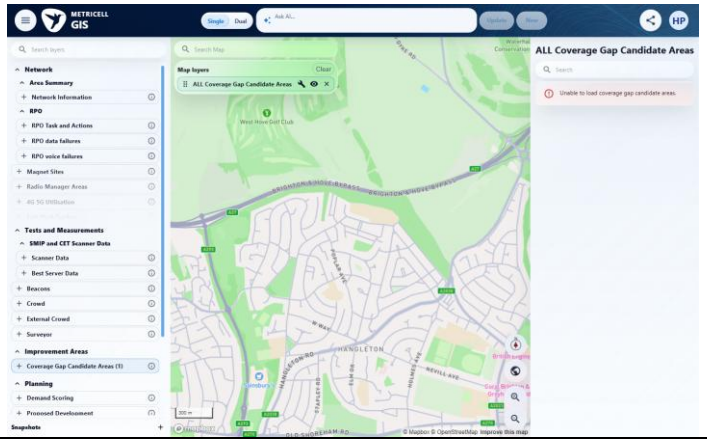

E07 - Final (criterion-3-final.png)

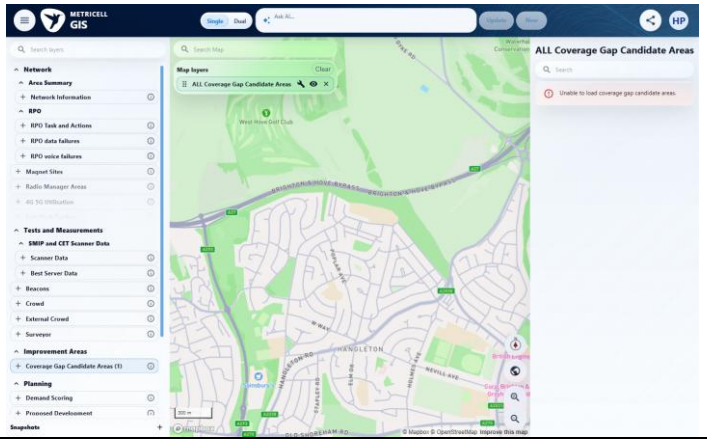

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 3 continued: After cancelling the reopened dialog, verify the unobscured map view and complete Map layers entries and order match the original pre-dialog baseline, with no new Surveyor layer. Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis				

E04 - Baseline layers (criterion-3-baseline-layers.png)

E07 - Final restored layers (criterion-3-final-restored-layers.png)

Better Connected

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
