About Metricell13

1 Revision History

Version	Date	Revision Author	Summary of Changes
[1.0]	07/10/2026	TEST2 QA Automation	Generated from TEST2 evidence review

2 Test Cycle Information

Tester:	Automated
Jira Ticket:	TEST2-60
Environment:	o2intelligence-v4-dev.metricell.com
Browser Details:	Google Chrome 154.0.8037.98
Date of Test:	07/10/2026
Limitations during Testing:	Criterion 3: During setup, a parent-scoped Add layer locator timed out and an unscoped Add layer click was rejected as ambiguous; neither added a layer. Display Settings on the pre-existing layer was opened read-only and dismissed without changes. Located the actual Surveyor Add layer reference, then completed the test-layer setup. Defects (No.) counts directly contradicted criteria, not unique Jira bugs; blockers and inconclusive evidence count as zero.
Overall review outcome:	Passed
Browser URL(s) recorded after criteria:	https://o2intelligence-v4-dev.metricell.com/gis

3 Test Summary

Area of test	Pass	Fail	Defects (No.)
1. With one test-created Surveyor layer loaded...	Y	N	0
2. With the same Surveyor layer remaining loaded...	Y	N	0
3. With the same layer still loaded after the...	Y	N	0
4. With the same layer still loaded, change Show...	Y	N	0

4 Test Cases

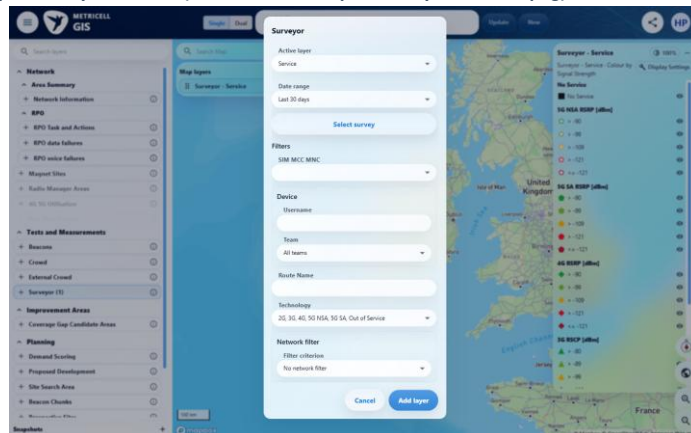

Each test maps to a criterion and decisive browser evidence. Inconclusive results are reported as Failed.

4.1 Tests

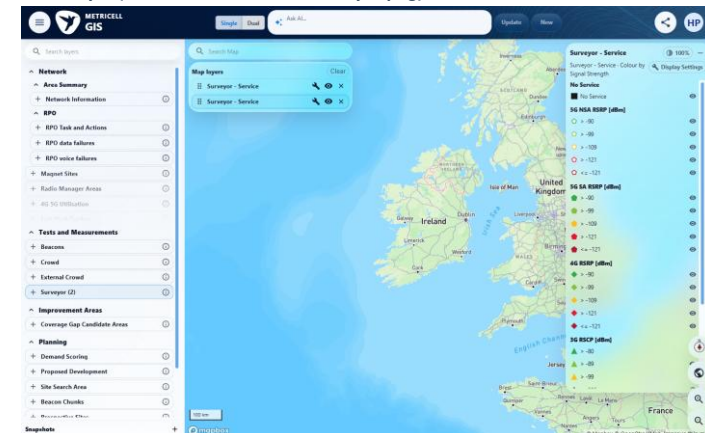

Preconditions:		V4 access and ticket conditions.	Associated Requirements:	Ticket criteria below.	Automation Notes:	Screenshots below each criterion; full log retained locally.
ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path			Outcome
1.0.0	With one test-created Surveyor layer loaded in GIS using its defaults, open Display Settings for that same layer and capture the layer identity and the initial Show linked sites checkbox state.	With one test-created Surveyor layer loaded in GIS using its defaults, open Display Settings for that same layer and capture the layer identity and the initial Show linked sites checkbox state.	Independent setup captures show Service / Last 30 days and the addition of a selected second Surveyor - Service row; criterion-1-final.png shows its initial Show linked sites checkbox checked. Evidence: E01, E02, E03			Passed

Criterion 1 evidence: With one test-created Surveyor layer loaded in GIS using its defaults, open Display Settings for that same layer and capture the layer identity and the initial Show linked sites checkbox state.
Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

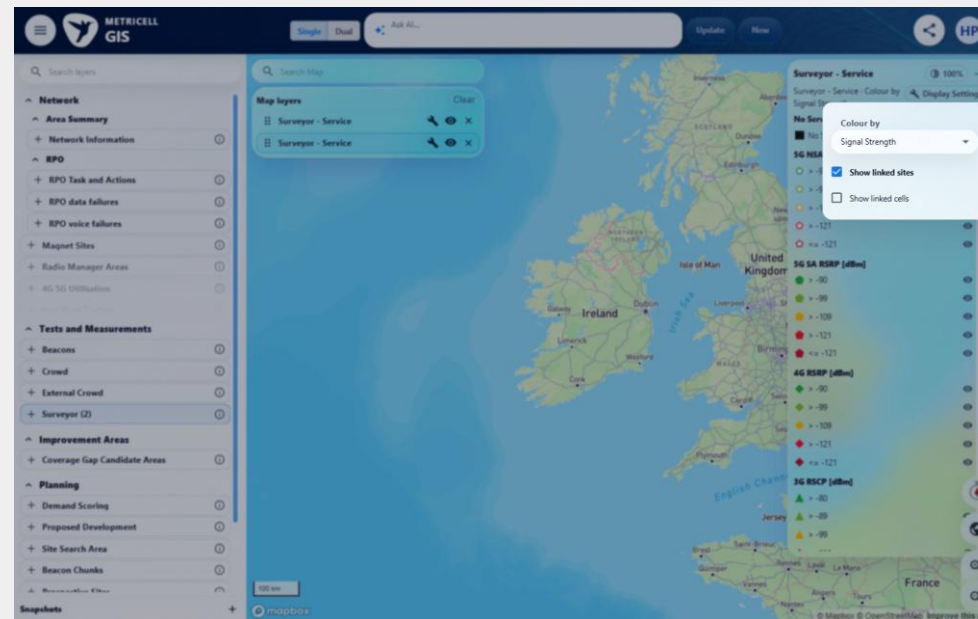

E01 - After open surveyor defaults (criterion-1-after-open-surveyor-defaults.png)

E02 - After add test layer (criterion-1-after-add-test-layer.png)

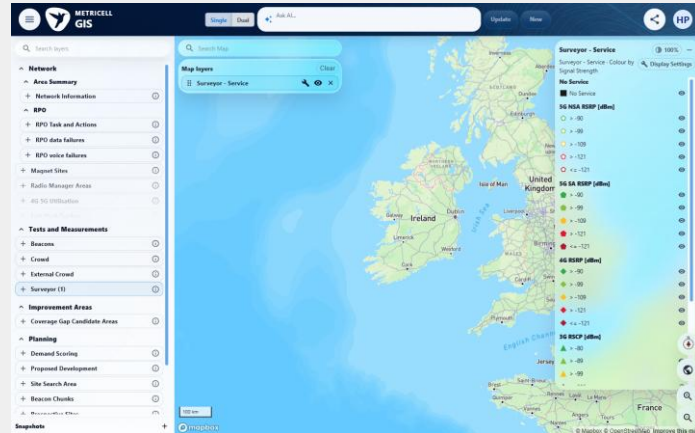

Criterion 1 continued: With one test-created Surveyor layer loaded in GIS using its defaults, open Display Settings for that same layer and capture the layer identity and the initial Show linked sites checkbox state.
Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>
E03 - Final (criterion-1-final.png)

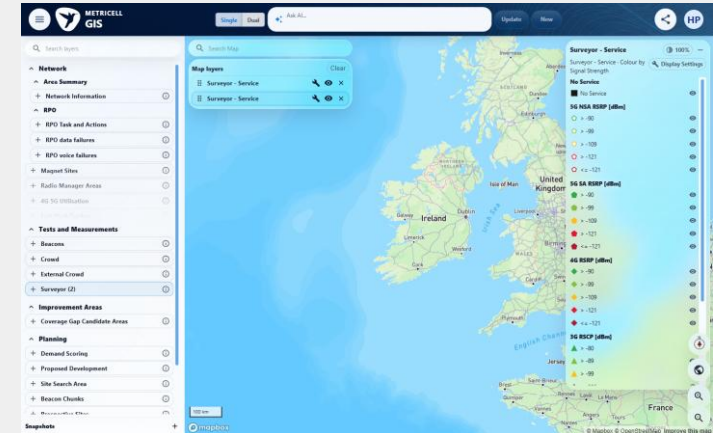

2.0.0	With the same Surveyor layer remaining loaded and no additional layer added, change Show linked sites once and verify the checkbox visibly changes to the opposite state.	With the same Surveyor layer remaining loaded and no additional layer added, change Show linked sites once and verify the checkbox visibly changes to the opposite state.	The criterion-owned before-change and after-change captures show checked then unchecked for the selected second Surveyor - Service row, with both existing map-layer rows retained. Evidence: E04, E05, E06, E07	Passed
-------	---	---	---	--------

Criterion 2 evidence: With the same Surveyor layer remaining loaded and no additional layer added, change Show linked sites once and verify the checkbox visibly changes to the opposite state.
 Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metriceil.com/gis>

E04 - Before open surveyor (criterion-2-before-open-surveyor.png)

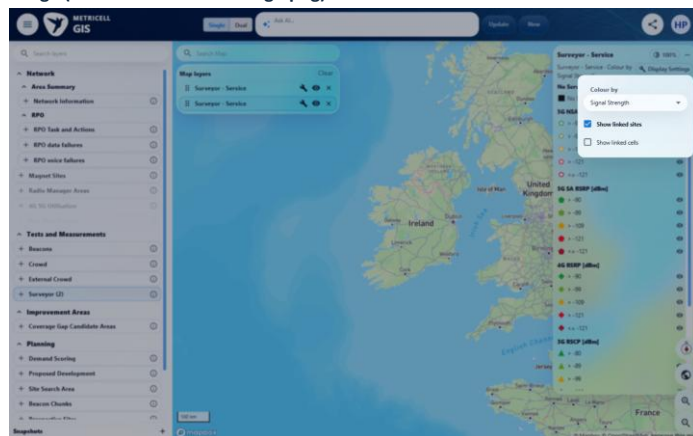

E05 - After add default layer (criterion-2-after-add-default-layer.png)

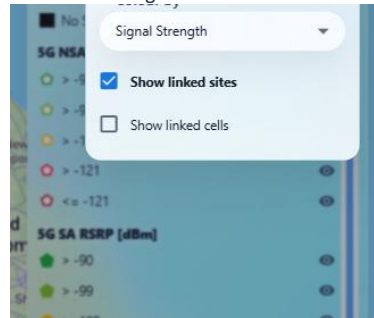

Criterion 2 continued: With the same Surveyor layer remaining loaded and no additional layer added, change Show linked sites once and verify the checkbox visibly changes to the opposite state.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

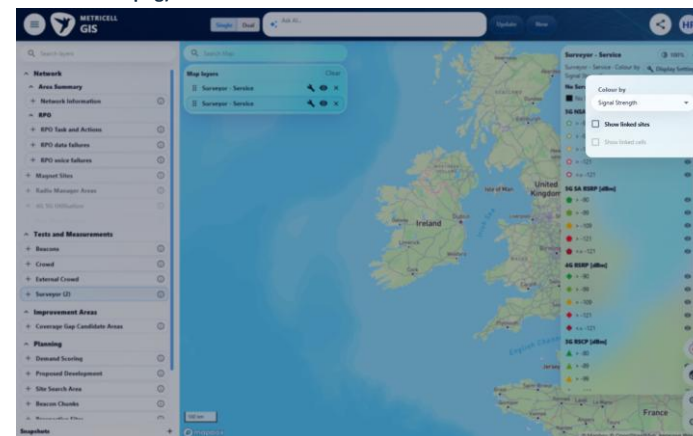

E06 - Before change (criterion-2-before-change.png)

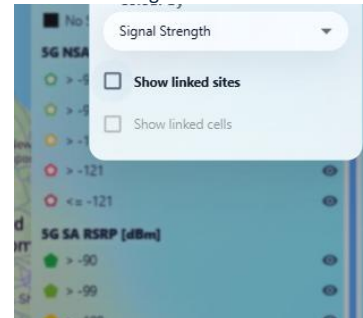

E06 detail enlargement - full screenshot above

E07 - Final (criterion-2-final.png)

E07 detail enlargement - full screenshot above

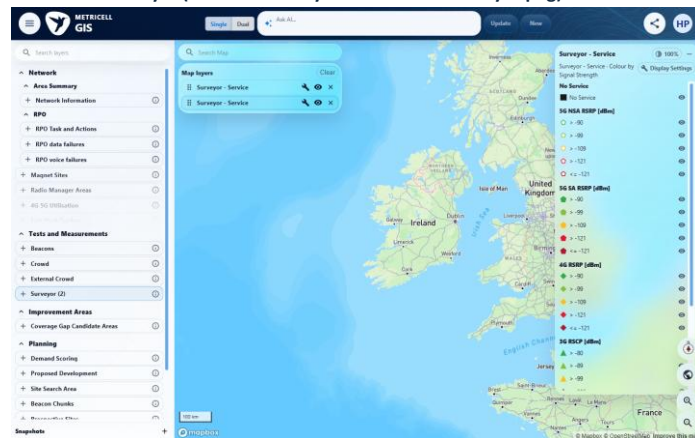

3.0.0	With the same layer still loaded after the change, close and reopen Display Settings and verify Show linked sites remains in the changed state rather than returning to the recorded original state.	With the same layer still loaded after the change, close and reopen Display Settings and verify Show linked sites remains in the changed state rather than returning to the recorded original state.	The recovered criterion-owned sequence shows checked, unchecked, Display Settings closed with both rows retained, then reopened unchecked for the same selected second row. Setup locator errors preceded the recovered sequence and do not establish an application defect. Evidence: E05, E06, E07, E08	Passed
-------	--	--	--	--------

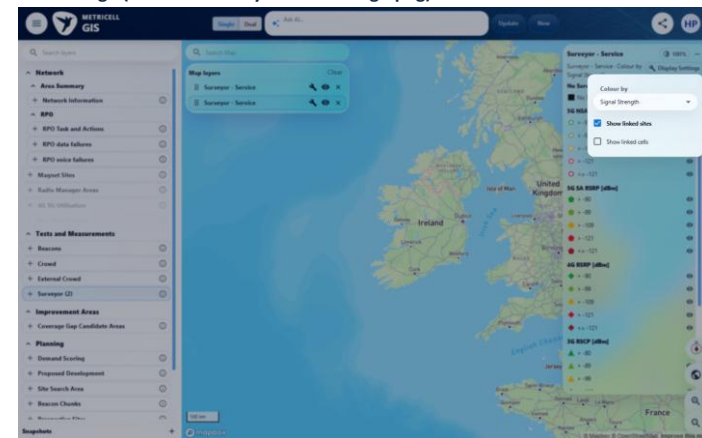

Criterion 3 evidence: With the same layer still loaded after the change, close and reopen Display Settings and verify Show linked sites remains in the changed state rather than returning to the recorded original state.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metrice.com/gis>

E05 - Retry after add default layer (criterion-3-retry-after-add-default-layer.png)

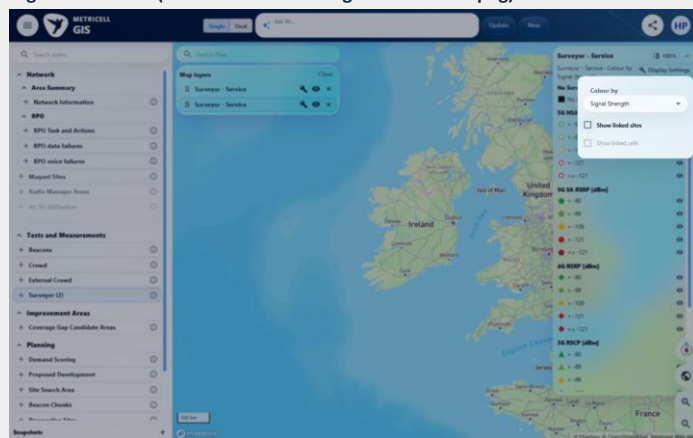

E06 - Retry before change (criterion-3-retry-before-change.png)

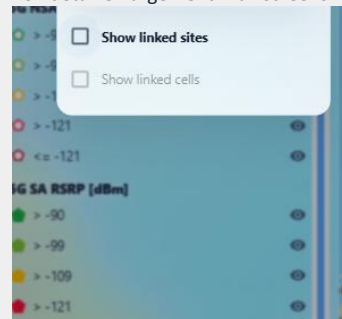

Criterion 3 continued: With the same layer still loaded after the change, close and reopen Display Settings and verify Show linked sites remains in the changed state rather than returning to the recorded original state.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

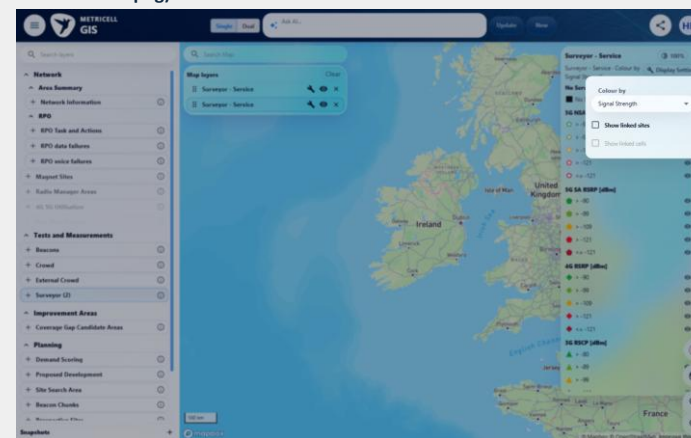

E07 - After change before close (criterion-3-after-change-before-close.png)

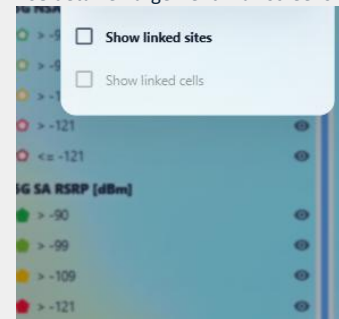

E07 detail enlargement - full screenshot above

E08 - Final (criterion-3-final.png)

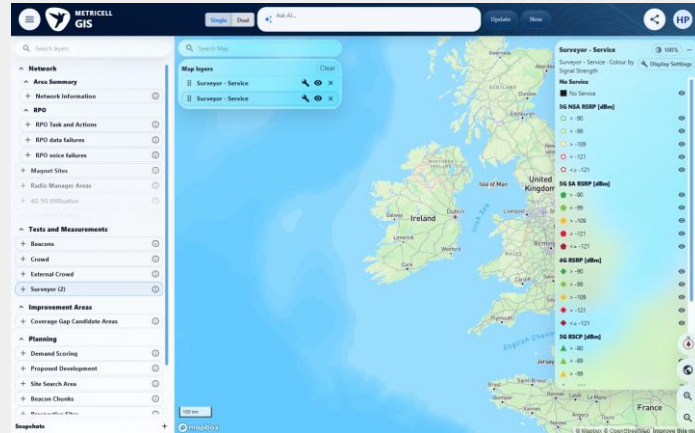

E08 detail enlargement - full screenshot above

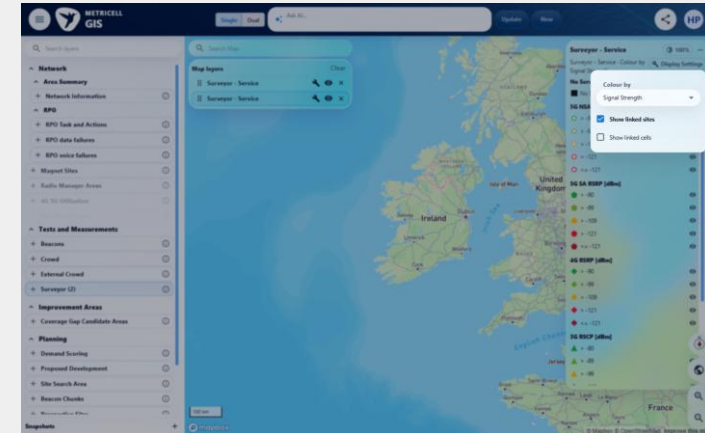

4.0.0	With the same layer still loaded, change Show linked sites back to the recorded original state, close and reopen Display Settings, and verify the checkbox shows the original state.	With the same layer still loaded, change Show linked sites back to the recorded original state, close and reopen Display Settings, and verify the checkbox shows the original state.	The criterion-owned sequence records checked, changes to unchecked, closes/reopens unchecked, restores checked, then closes/reopens checked with the same selected second Surveyor - Service row and both rows retained. Evidence: E05, E06, E07, E09, E10, E11	Passed
-------	--	--	--	--------

Criterion 4 evidence: With the same layer still loaded, change Show linked sites back to the recorded original state, close and reopen Display Settings, and verify the checkbox shows the original state.
Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metriceil.com/gis>

E05 - After add default layer (criterion-4-after-add-default-layer.png)

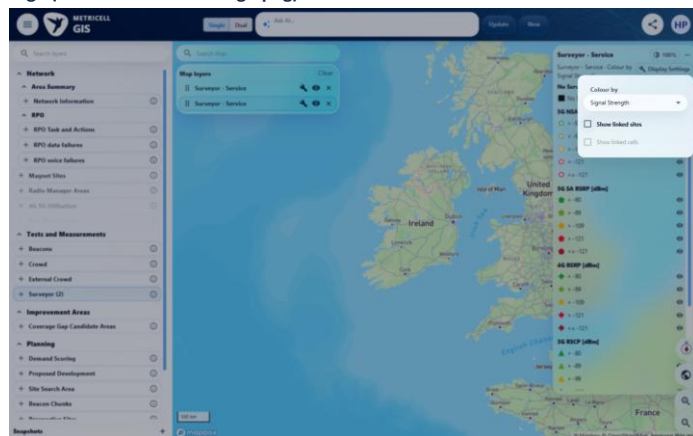

E06 - Before change (criterion-4-before-change.png)

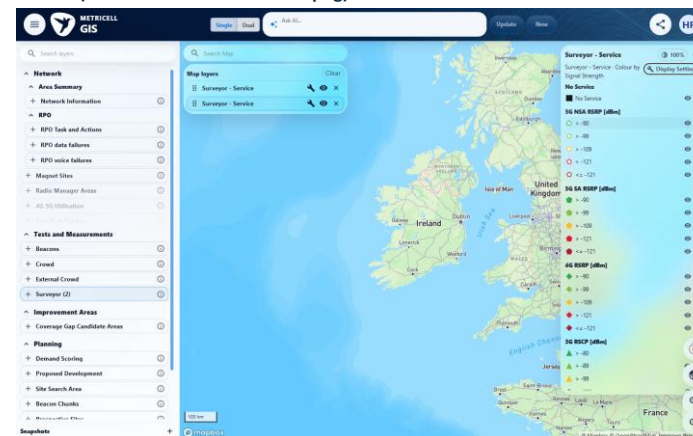

Criterion 4 continued: With the same layer still loaded, change Show linked sites back to the recorded original state, close and reopen Display Settings, and verify the checkbox shows the original state.
 Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E07 - After change (criterion-4-after-change.png)

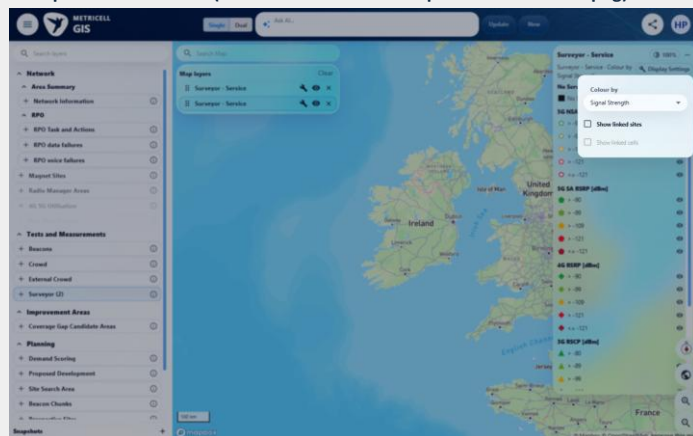

E09 - After first close (criterion-4-after-first-close.png)

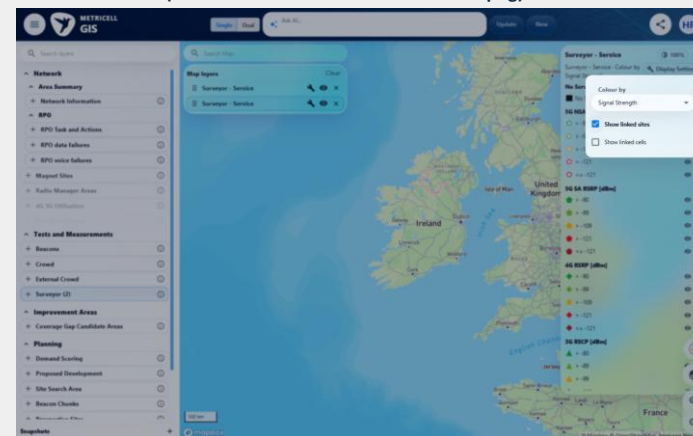

Criterion 4 continued: With the same layer still loaded, change Show linked sites back to the recorded original state, close and reopen Display Settings, and verify the checkbox shows the original state.
 Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metricell.com/gis>

E10 - After first reopen before restore (criterion-4-after-first-reopen-before-restore.png)

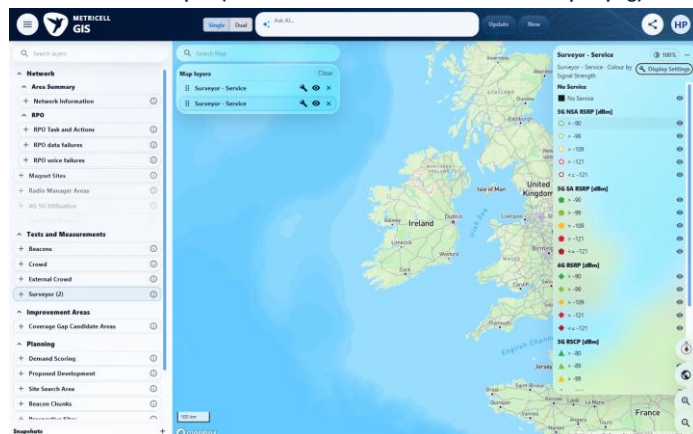

E11 - After restore before close (criterion-4-after-restore-before-close.png)

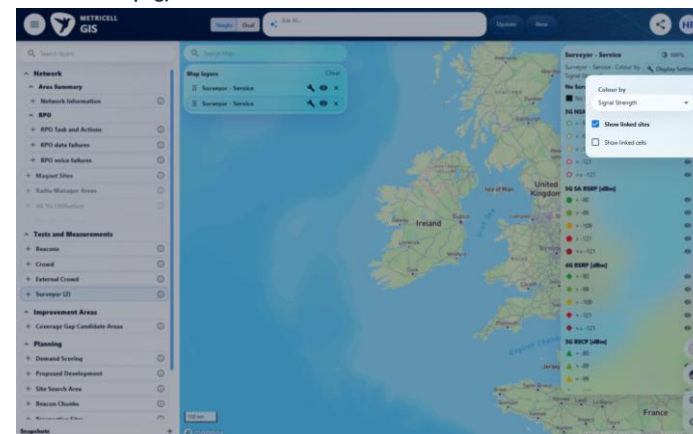

Criterion 4 continued: With the same layer still loaded, change Show linked sites back to the recorded original state, close and reopen Display Settings, and verify the checkbox shows the original state.

Browser URL recorded after criterion: <https://o2intelligence-v4-dev.metrice.com/gis>

E09 - After second close before reopen (criterion-4-after-second-close-before-reopen.png)

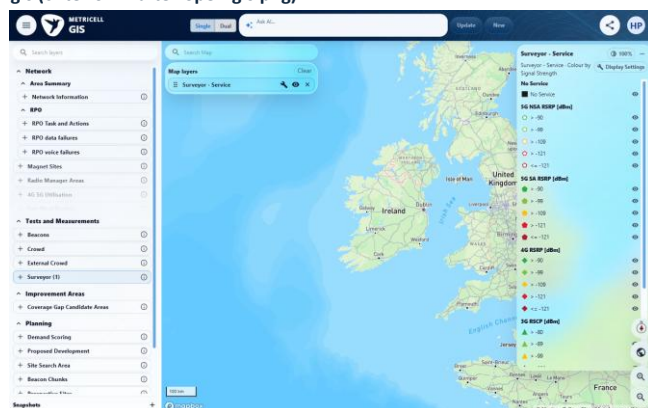

E06 - Final (criterion-4-final.png)

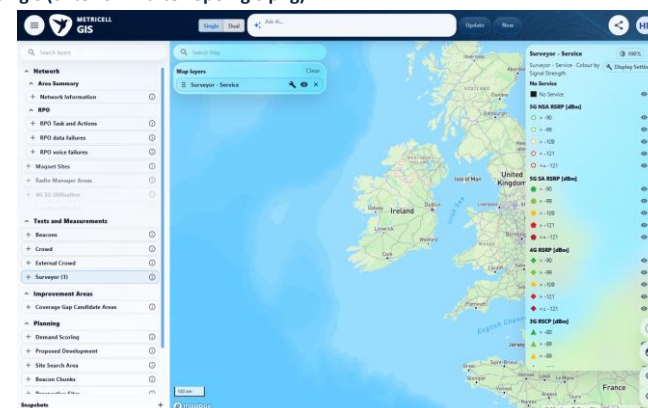

Supporting setup captures - full attempt evidence remains in the local evidence folder

E12 - After open gis (criterion-1-after-open-gis.png)

E13 - After open gis (criterion-2-after-open-gis.png)

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
