2 Test Cycle Information

Tester:	**Automated**
Jira Ticket:	TEST2-82
Environment:	o2intelligence-v4-dev.metricell.com
Browser Details:	Google Chrome 155.0.8059.85
Date of Test:	20/10/2026
Limitations during Testing:	3 blocked; 0 inconclusive criterion(s). Reviewed all six criteria against live attempt-002 results and local screenshots. Loaded Ping details, returned attributes and 5G NSA-only opening are supported; loading, unavailable-detail and failed-detail-load conditions could not be established with the available environment. Criterion 1: The selected event's detail displays Ping Time 28 ms, matching its 28 ms cluster row and event time 06/10/2026 10:36:20. Earlier independent selections within this criterion also showed 0 ms for a recorded timeout and N/A for an unavailable measurement. Confirmation-final is the decisive assertion; exploratory captures are setup. Criterion 1: During discovery, inspected and cancelled Crowd configuration, then used Surveyor Ping. The first screenshot save failed because the staging screenshots directory did not yet exist; created it and restarted from the launcher before testing. Criterion 2: Verified the detail table showed the matching event time, username seb.knight, survey mm wave 2, phone status Out of Service, Ping Time 0 ms and Jitter 0 ms together. Additional returned handset and recorded NETWORK_TIMEOUT attributes were present in the table. Criterion 3: With only 5G NSA selected, the selected Ping event opens successfully and shows its matching point data without a detail-load error. The recorded event's Error Message field is No error. Criterion 3: Opened event 06/10/2026 10:36:20 and verified matching Ping Time 28 ms, Jitter 3 ms, Data Technology 5G NSA, Cell ID 72374_135_4 and Error Message No error. Criterion 5: The selected event has an unavailable Ping measurement (N/A), but its event details are available and load normally. This does not exercise the detail view's no-data state. No selectable point with unavailable detail data or documented no-data fixture was supplied or established. Criterion 5: Verified that its matching event attributes loaded and that the recorded Error Message was NO_CONNECTION. Captured final state and current URL. Criterion 6: NETWORK_TIMEOUT is a historical Ping measurement result, not a failed detail-service request. The available event details loaded successfully. No reproducible failed detail-load point or approved failure fixture was available, so the required load-error state and stale-data protection cannot be determined. Criterion 6: Selected the visible timeout cluster and opened event 06/10/2026 10:32:56. Criterion 6: Verified that event details loaded, showing its matching time, Ping Time 0 ms, Jitter 0 ms and recorded NETWORK_TIMEOUT measurement attribute. Defects (No.) counts directly contradicted criteria, not unique Jira bugs; blockers and inconclusive evidence count as zero.
Overall review outcome:	Blocked
Browser URL(s) recorded after criteria:	https://o2intelligence-v4-dev.metricell.com/gis

3 Test Summary

Area of test	Pass	Fail	Defects (No.)
1. When a selected Ping point's details have loaded, the detail view shows that point's Ping Time with the unit milliseconds (ms).	Y	N	0
2. When Ping attributes are returned for the selected point, the detail view displays those attributes alongside the Ping Time.	Y	N	0
3. With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state.	Y	N	0
4. While Ping details are loading, the detail view shows a loading state.	N	N	0
5. When Ping details are unavailable, the detail view shows a no-data state.	N	N	0
6. When Ping details fail to load, the detail view shows an error state and does not display data as if it belonged to the selected point.	N	N	0

4 Test Cases

Each test maps to a criterion and decisive browser evidence. Inconclusive results are reported as Failed.

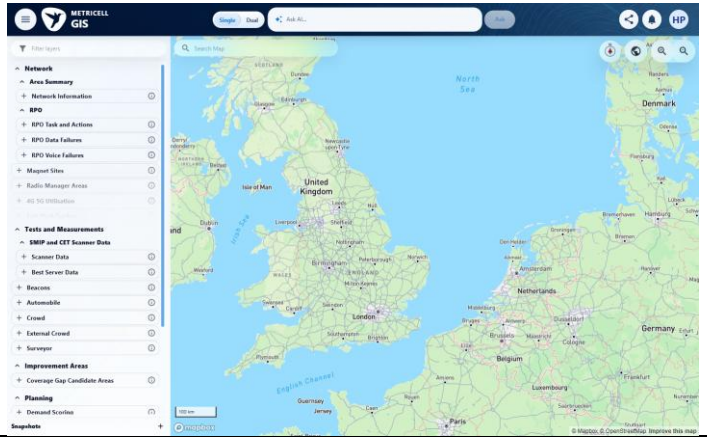

4.1 Tests

Preconditions:	V4 access and ticket conditions.	***Associated Requirements:***	Ticket criteria below.	Automation Notes:	Screenshots below each criterion; full log retained locally.

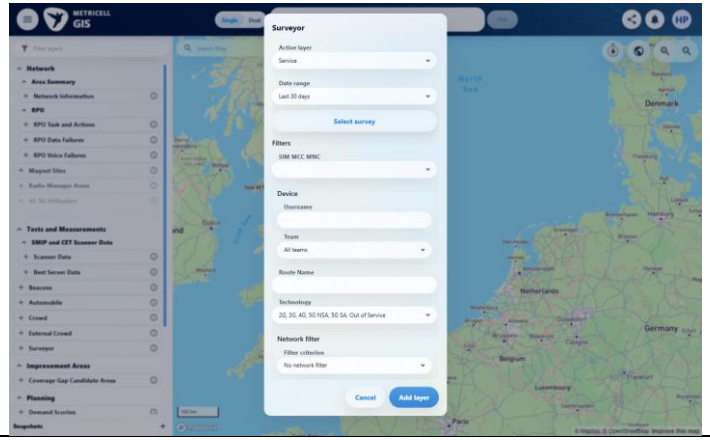

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	When a selected Ping point's details have loaded, the detail view shows that point's Ping Time with the unit milliseconds (ms).	When a selected Ping point's details have loaded, the detail view shows that point's Ping Time with the unit milliseconds (ms).	criterion-1-confirmation-cluster.png shows event 06/10/2026 10:36:20 with Ping Time 28 ms; criterion-1-confirmation-final.png shows the same event time and Ping Time 28 ms in its loaded detail view. Evidence: E01, E02, E03, E04, E05, E06, E07, E08, E09, E10, E11, E12, E13, E14, E15, E16, E17, E18	Passed

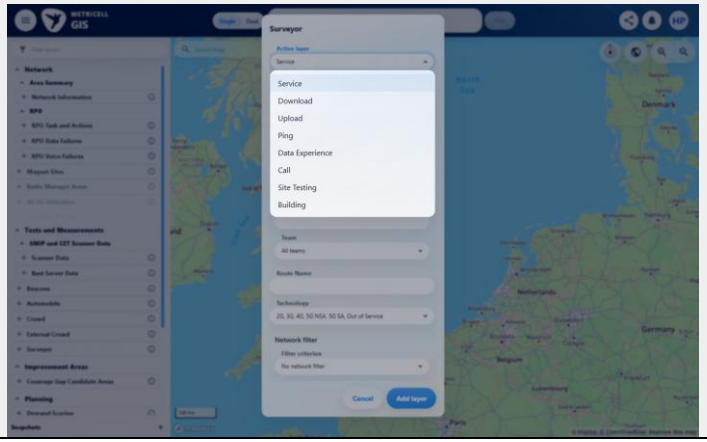

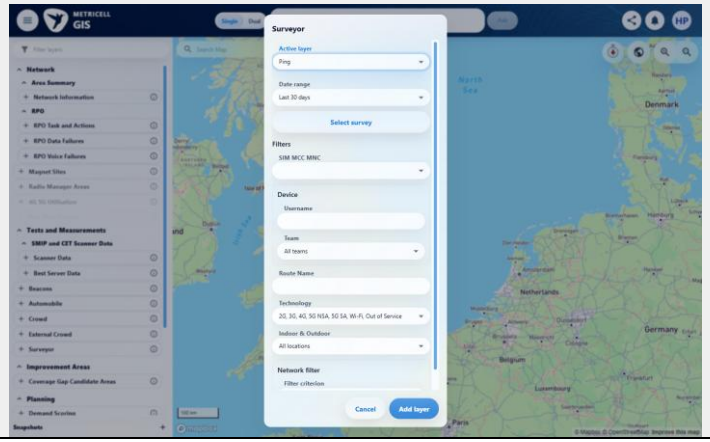

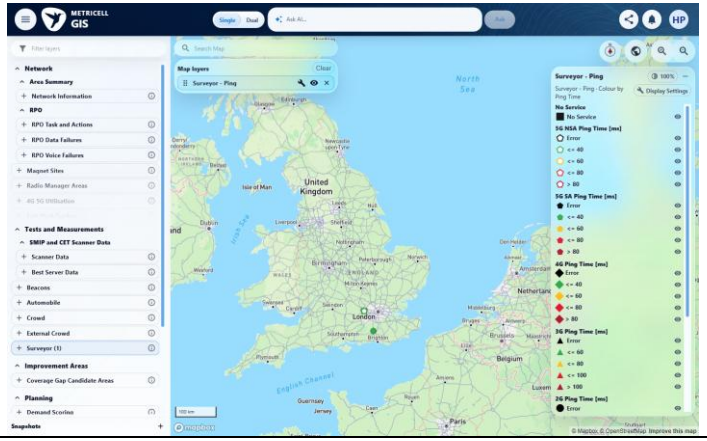

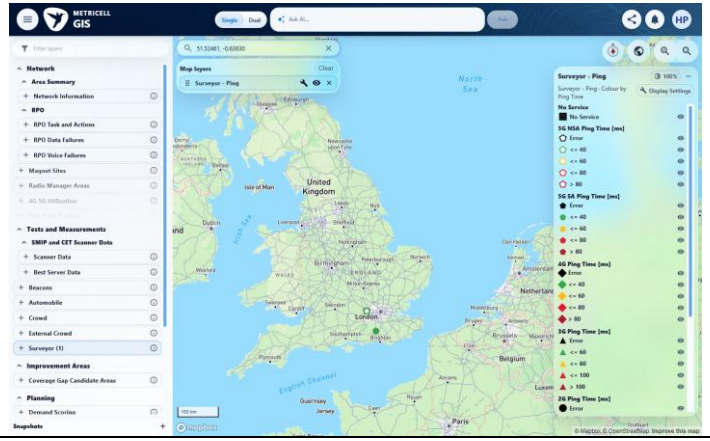

Criterion 1 evidence: When a selected Ping point's details have loaded, the detail view shows that point's Ping Time with the unit milliseconds (ms).
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

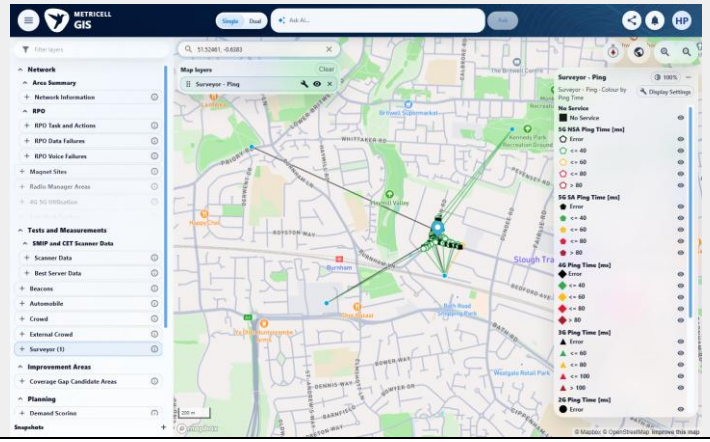

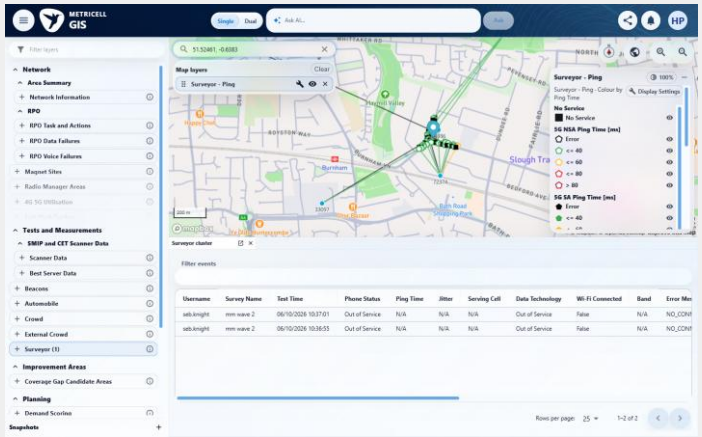

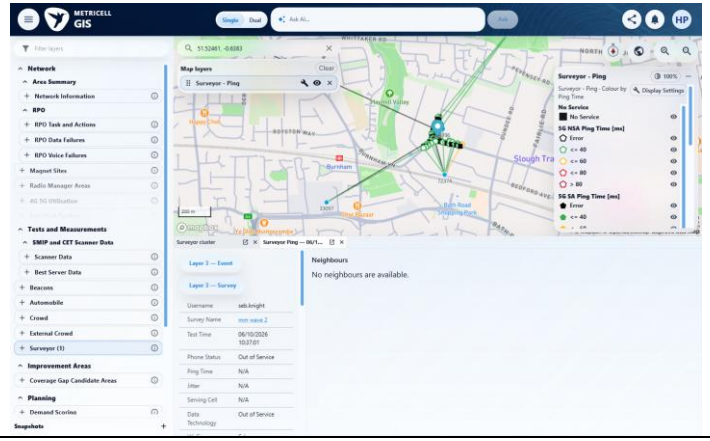

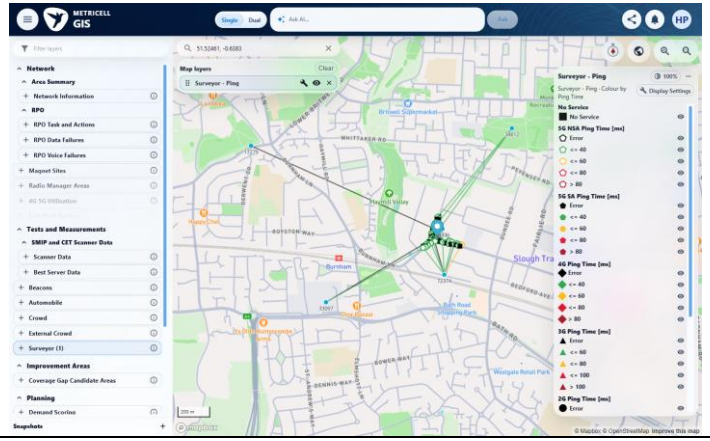

E01 - Before open surveyor (criterion-1-before-open-surveyor.png)

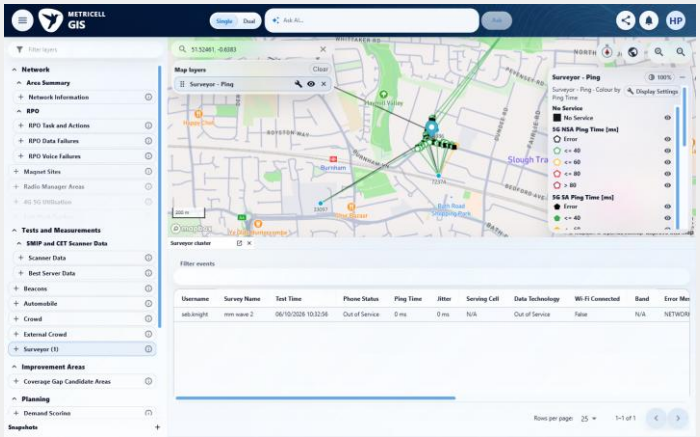

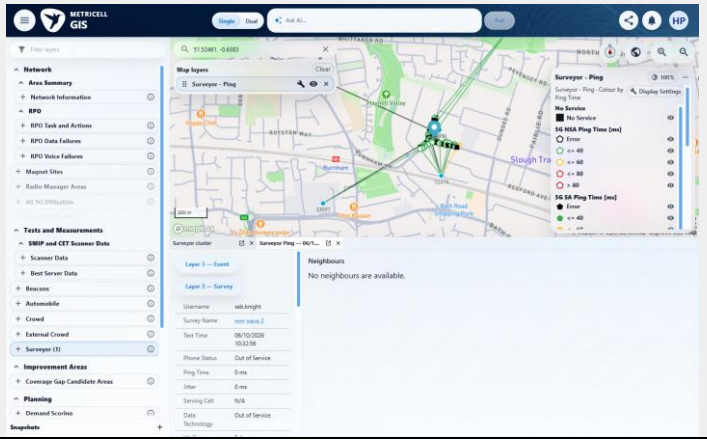

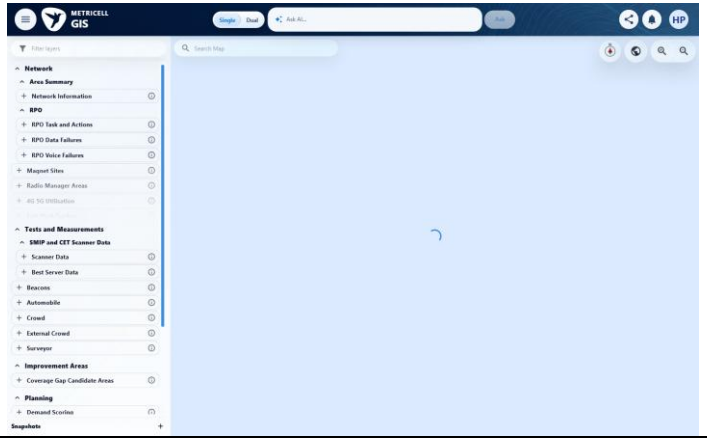

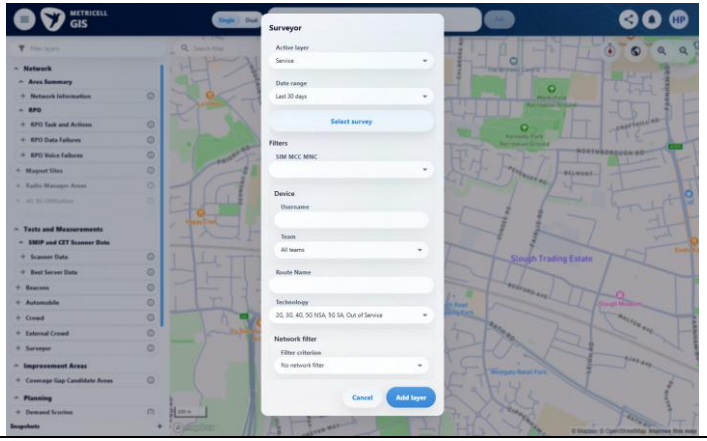

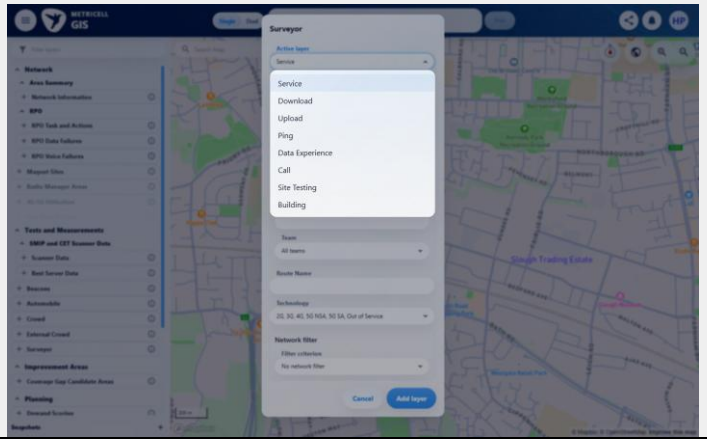

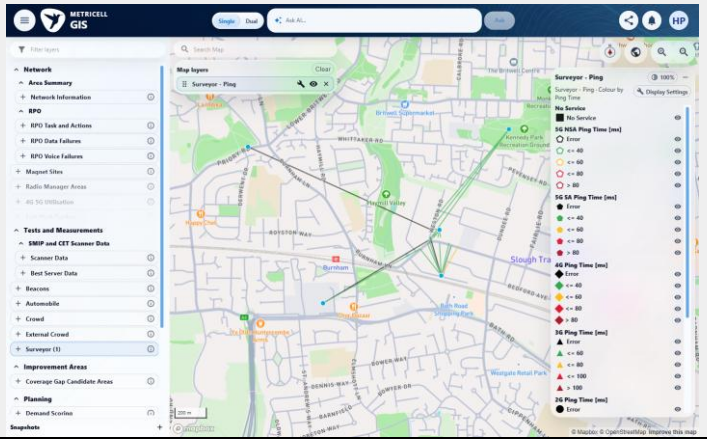

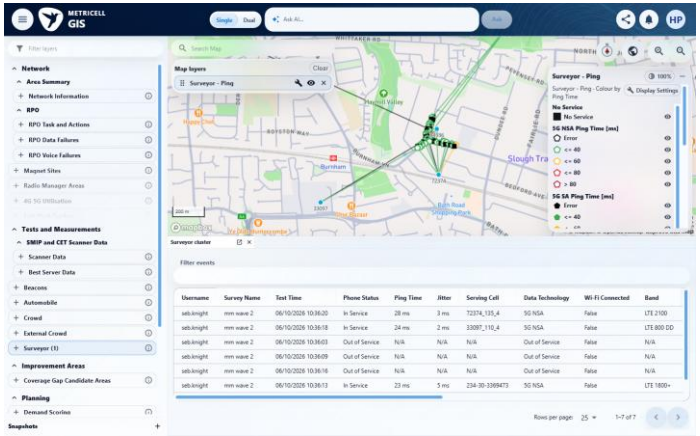

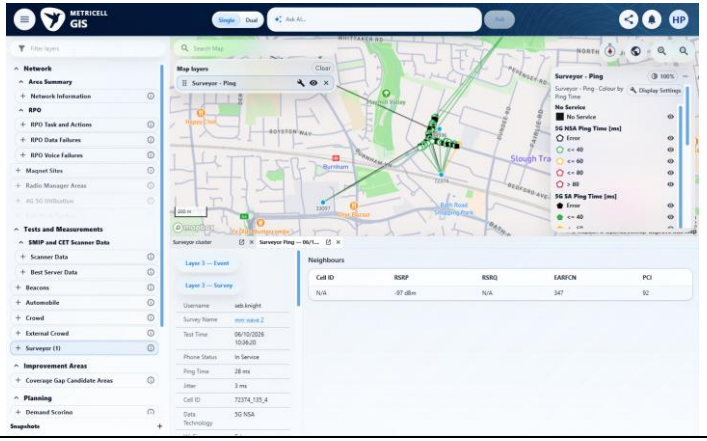

E02 - Surveyor config (criterion-1-surveyor-config.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 1 continued: When a selected Ping point's details have loaded, the detail view shows that point's Ping Time with the unit milliseconds (ms). **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E03 - Layer options (criterion-1-layer-options.png)**  **E04 - Ping config (criterion-1-ping-config.png)**

Criterion 1 continued: When a selected Ping point's details have loaded, the detail view shows that point's Ping Time with the unit milliseconds (ms). **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E13 - Confirmation before open surveyor (criterion-1-confirmation-before-open-surveyor.png)**  **E14 - Confirmation surveyor config (criterion-1-confirmation-surveyor-config.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 1 continued: When a selected Ping point's details have loaded, the detail view shows that point's Ping Time with the unit milliseconds (ms). **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E15 - Confirmation layer options (criterion-1-confirmation-layer-options.png)**  **E16 - Confirmation after add ping (criterion-1-confirmation-after-add-ping.png)** 				
Criterion 1 continued: When a selected Ping point's details have loaded, the detail view shows that point's Ping Time with the unit milliseconds (ms). **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E17 - Confirmation cluster (criterion-1-confirmation-cluster.png)**  **E18 - Confirmation final (criterion-1-confirmation-final.png)** 				

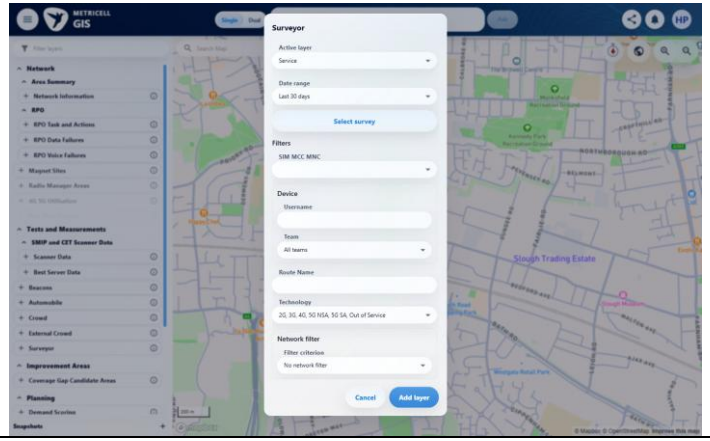

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
2.0.0	When Ping attributes are returned for the selected point, the detail view displays those attributes alongside the Ping Time.	When Ping attributes are returned for the selected point, the detail view displays those attributes alongside the Ping Time.	criterion-2-cluster.png identifies event 06/10/2026 10:32:56; criterion-2-final.png shows its matching time, username seb.knight, survey mm wave 2, Out of Service status and Jitter 0 ms alongside Ping Time 0 ms. Evidence: E19, E14, E15, E16, E20, E21	Passed

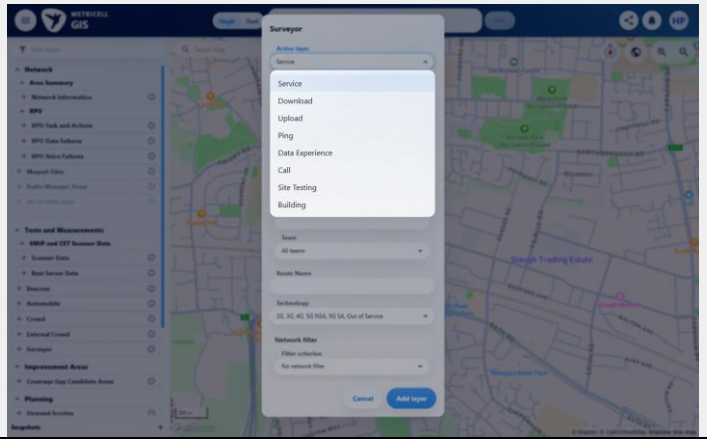

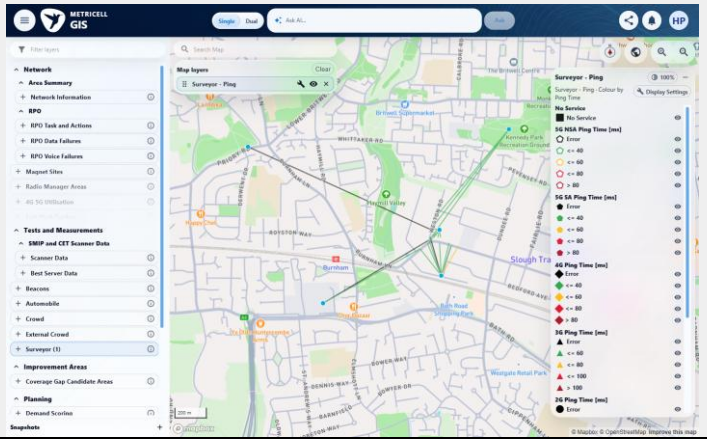

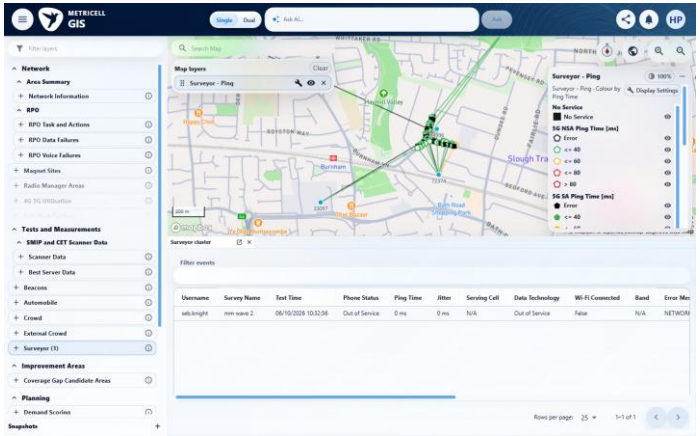

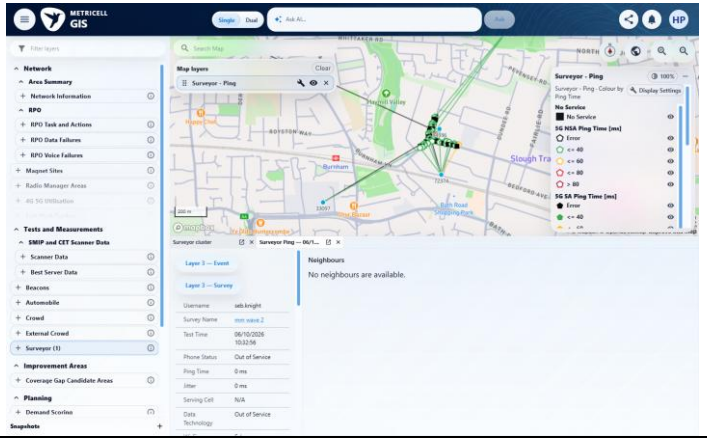

Criterion 2 evidence: When Ping attributes are returned for the selected point, the detail view displays those attributes alongside the Ping Time.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E19 - Before open surveyor (criterion-2-before-open-surveyor.png)

E14 - Surveyor config (criterion-2-surveyor-config.png)

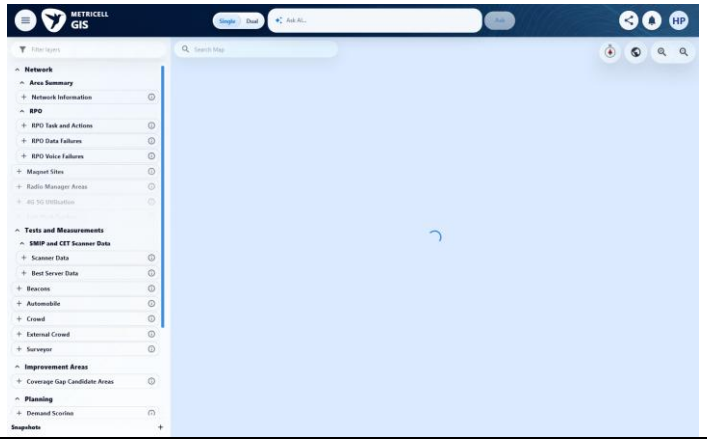

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 2 continued: When Ping attributes are returned for the selected point, the detail view displays those attributes alongside the Ping Time. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E15 - Layer options (criterion-2-layer-options.png)**  **E16 - After add ping (criterion-2-after-add-ping.png)** 				
Criterion 2 continued: When Ping attributes are returned for the selected point, the detail view displays those attributes alongside the Ping Time. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E20 - Cluster (criterion-2-cluster.png)**  **E21 - Final (criterion-2-final.png)** 				

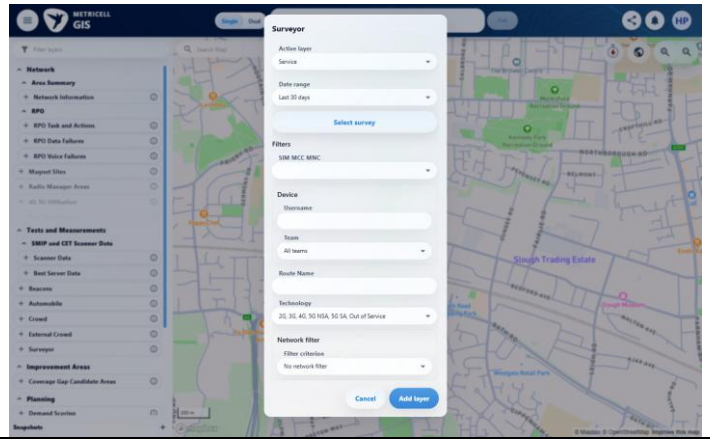

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
3.0.0	With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state.	With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state.	criterion-3-only-5G-NSA-config.png shows 5G NSA as the sole selected technology; criterion-3-matching-cluster.png and criterion-3-final.png show matching event 06/10/2026 10:36:20, Ping Time 28 ms, Jitter 3 ms, Cell ID 72374_135_4 and Data Technology 5G NSA in an opened detail view without a detail-load error. Evidence: E22, E14, E15, E23, E24, E25, E26, E27, E28, E29, E30, E31, E16, E32, E33, E34, E35	Passed

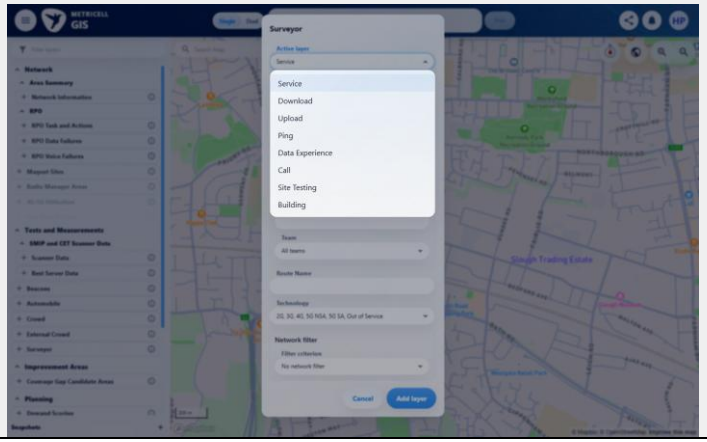

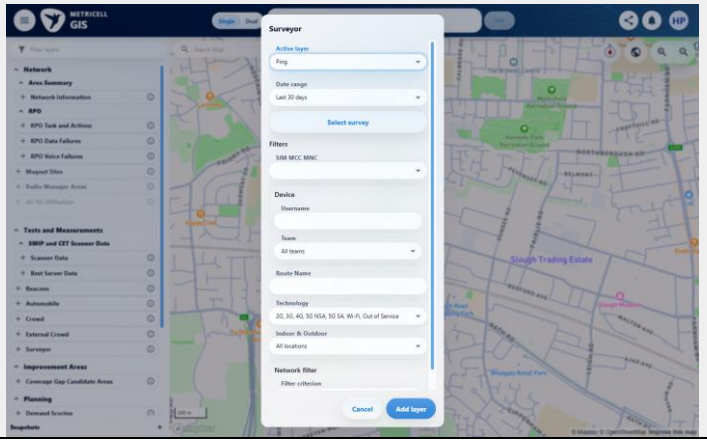

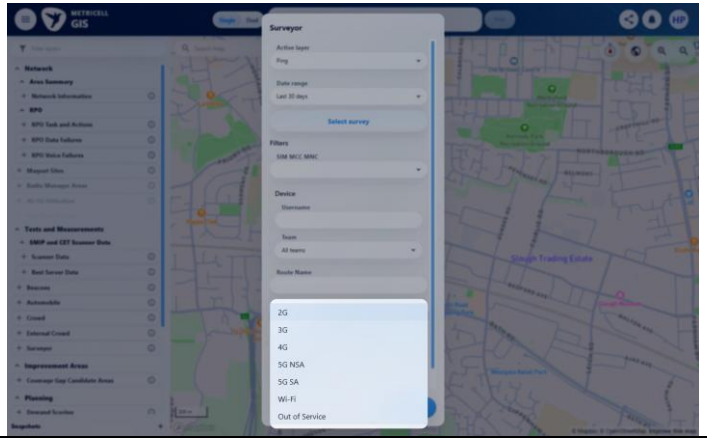

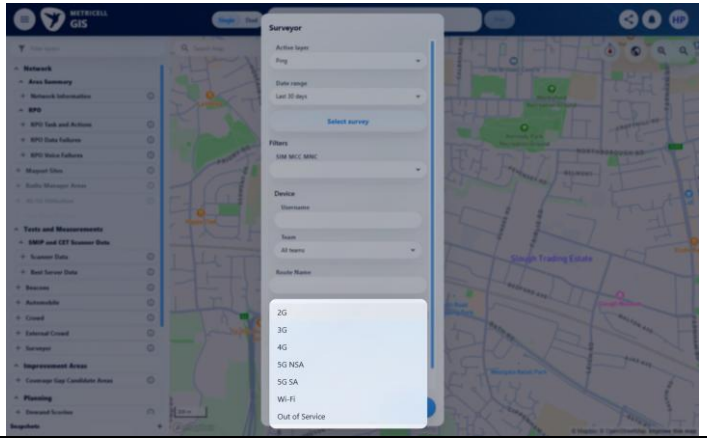

Criterion 3 evidence: With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

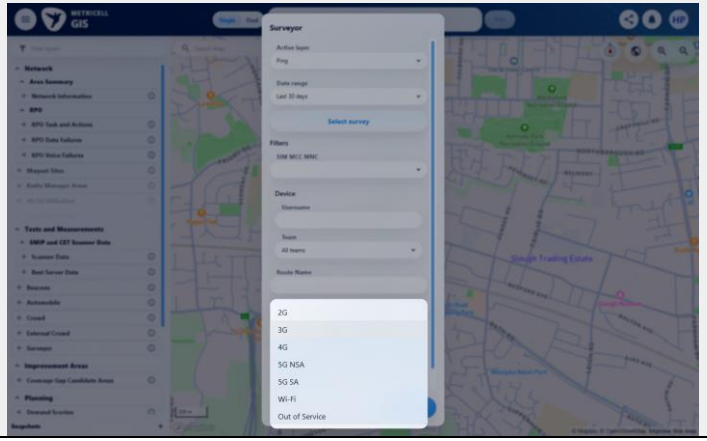

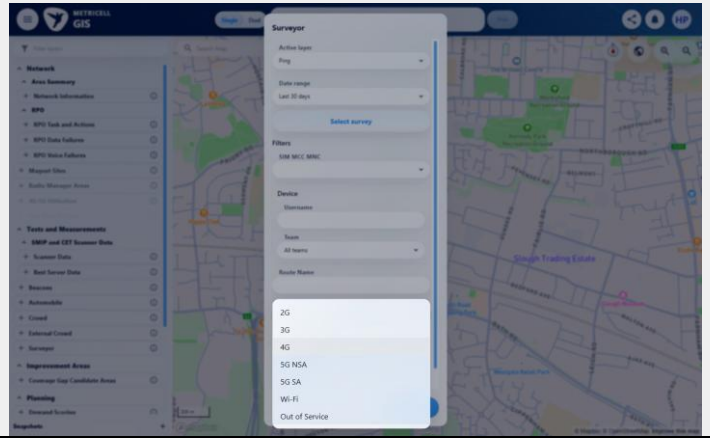

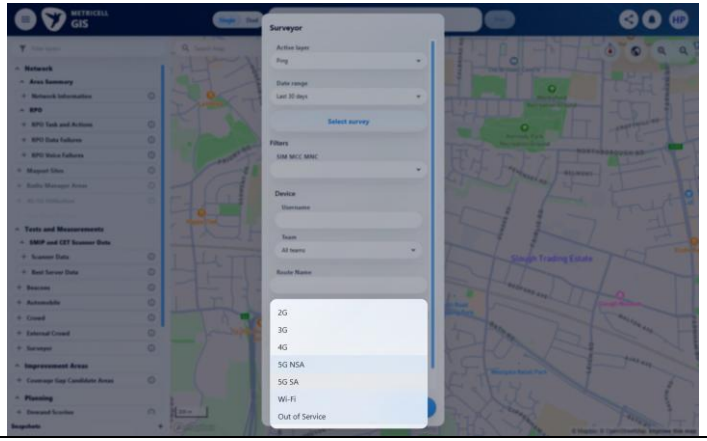

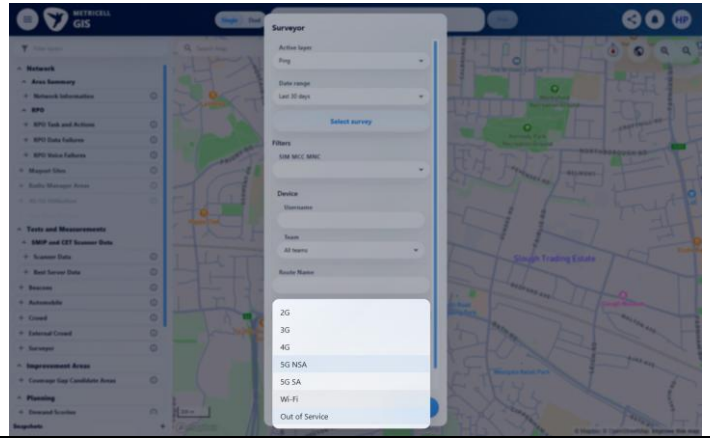

E22 - Before open surveyor (criterion-3-before-open-surveyor.png)

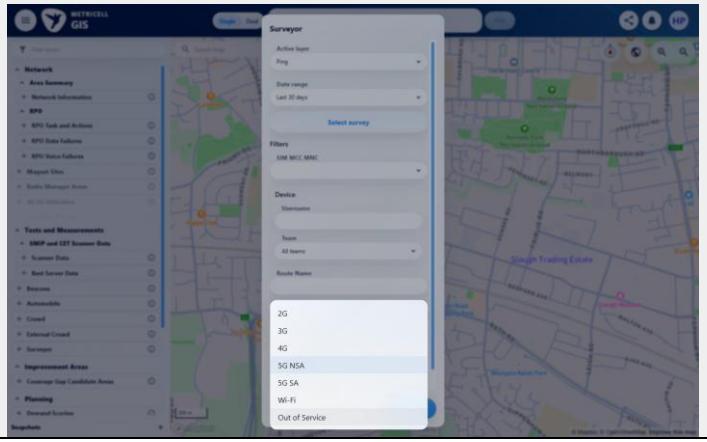

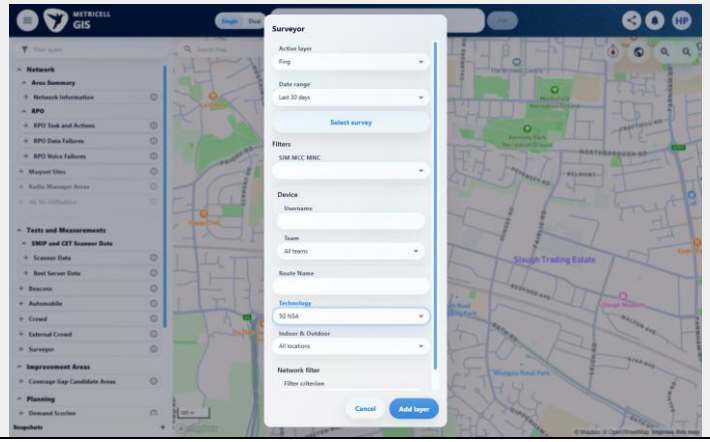

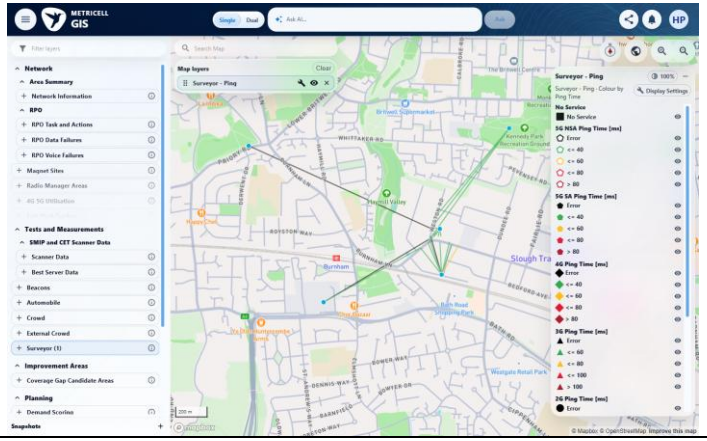

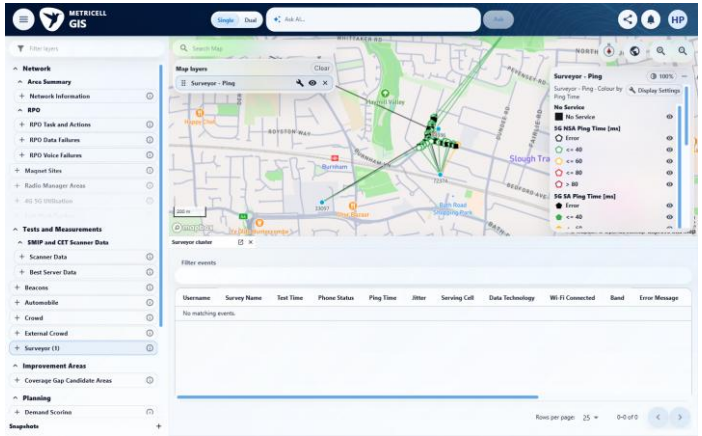

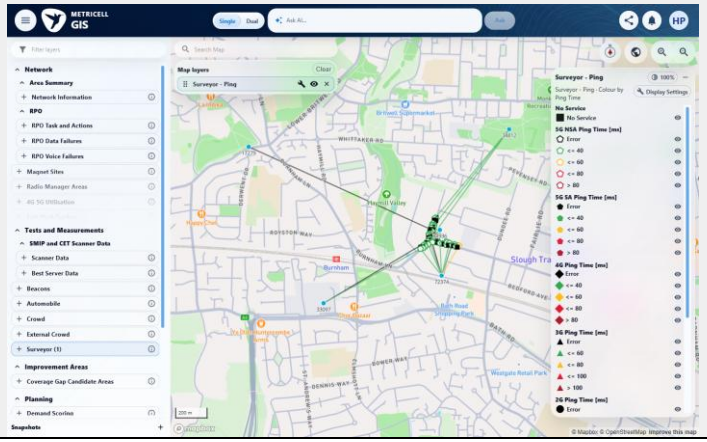

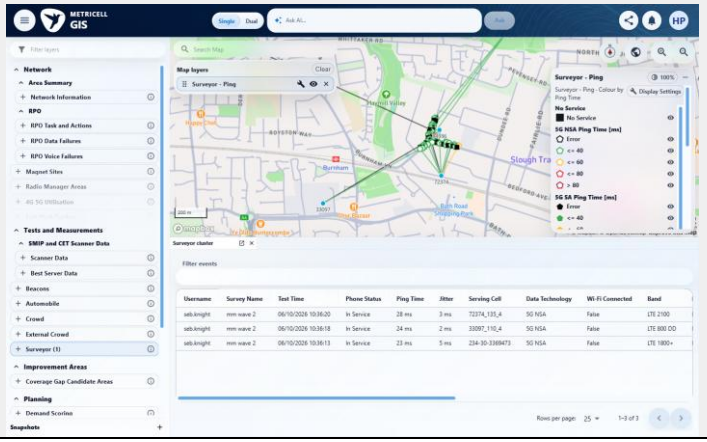

E14 - Surveyor config (criterion-3-surveyor-config.png)

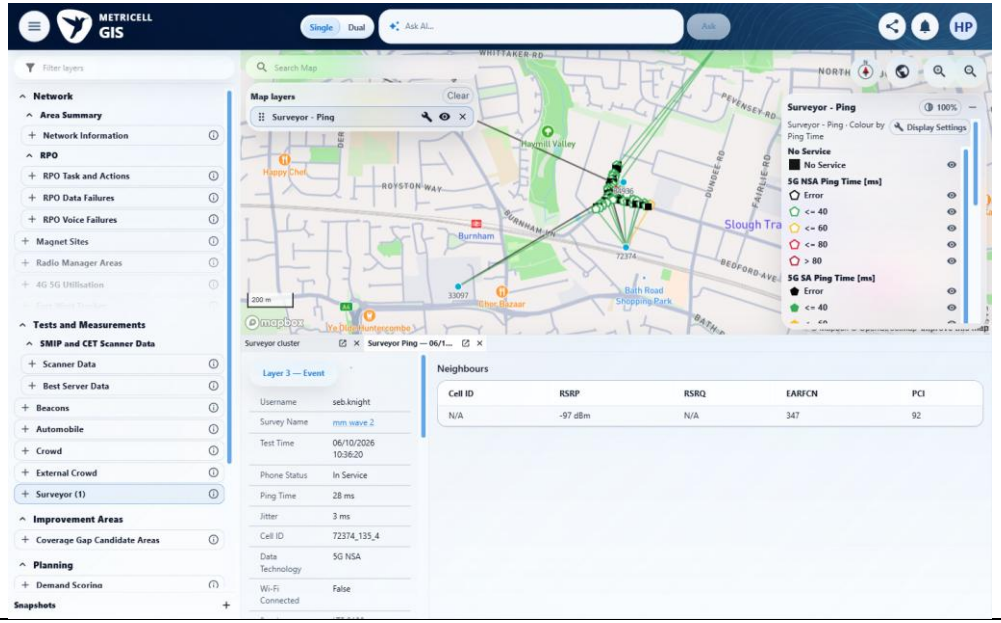

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 3 continued: With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E15 - Layer options (criterion-3-layer-options.png)**  **E23 - Ping config (criterion-3-ping-config.png)** 				
Criterion 3 continued: With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E24 - Before technologies (criterion-3-before-technologies.png)**  **E25 - After deselect 2g (criterion-3-after-deselect-2G.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 3 continued: With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E26 - After deselect 3g (criterion-3-after-deselect-3G.png)**  **E27 - After deselect 4g (criterion-3-after-deselect-4G.png)** 				
Criterion 3 continued: With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E28 - After deselect 5g sa (criterion-3-after-deselect-5G-SA.png)**  **E29 - After deselect wi fi (criterion-3-after-deselect-Wi-Fi.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 3 continued: With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E30 - After deselect out of service (criterion-3-after-deselect-out-of-service.png)**  **E31 - Only 5g nsa config (criterion-3-only-5G-NSA-config.png)** 				
Criterion 3 continued: With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E16 - After add ping (criterion-3-after-add-ping.png)**  **E32 - Cluster (criterion-3-cluster.png)** 				

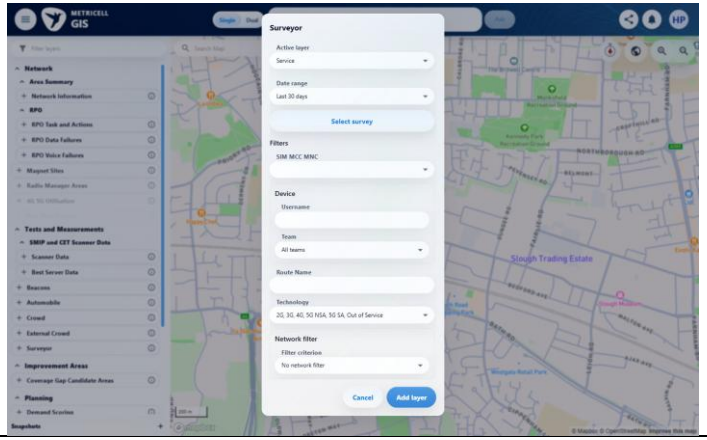

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 3 continued: With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E33 - Before next point (criterion-3-before-next-point.png)**  **E34 - Matching cluster (criterion-3-matching-cluster.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 3 continued: With 5G NSA as the only selected technology, opening a Ping point displays details for that selected point without an error state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E35 - Final (criterion-3-final.png)**  				

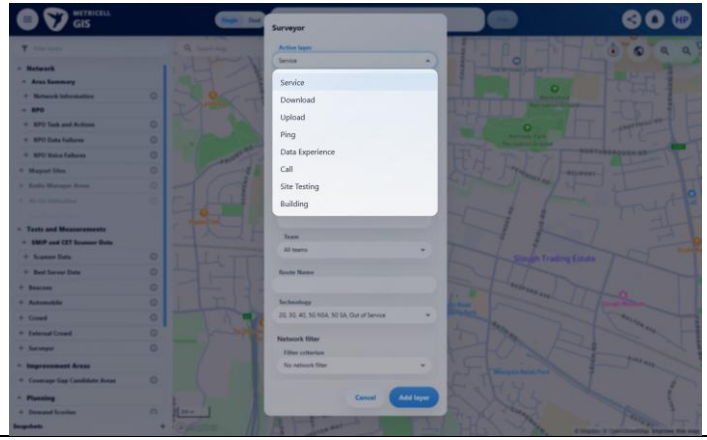

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
4.0.0	While Ping details are loading, the detail view shows a loading state.	While Ping details are loading, the detail view shows a loading state.	criterion-4-immediately-after-open-event.png and criterion-4-final.png already show populated Ping details with 28 ms; neither establishes a Ping-detail loading phase. The natural response completed before capture, and no controllable slow-loading point or approved loading fixture was available. Evidence: E14, E15, E36, E17, E37, E38	Blocked

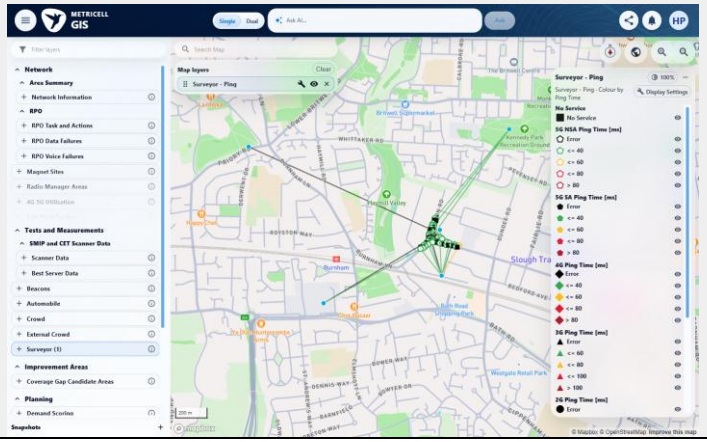

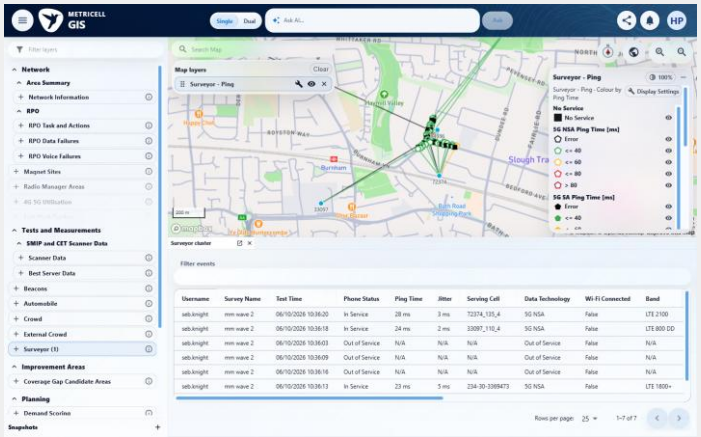

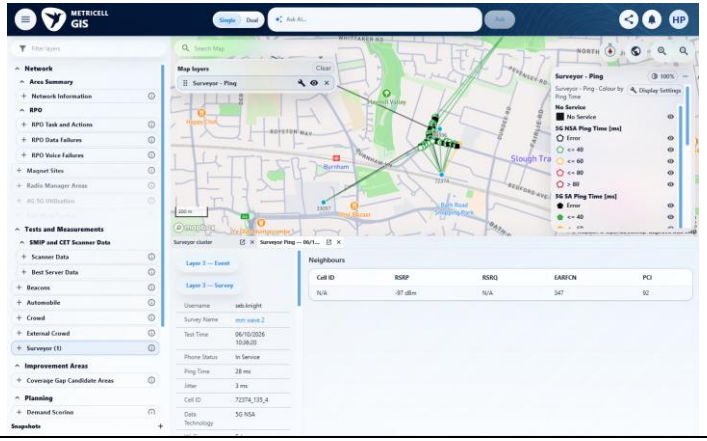

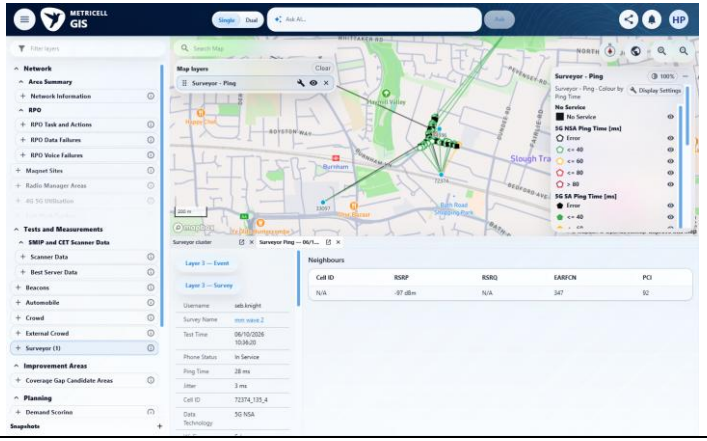

Criterion 4 evidence: While Ping details are loading, the detail view shows a loading state.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E14 - Surveyor config (criterion-4-surveyor-config.png)

E15 - Layer options (criterion-4-layer-options.png)

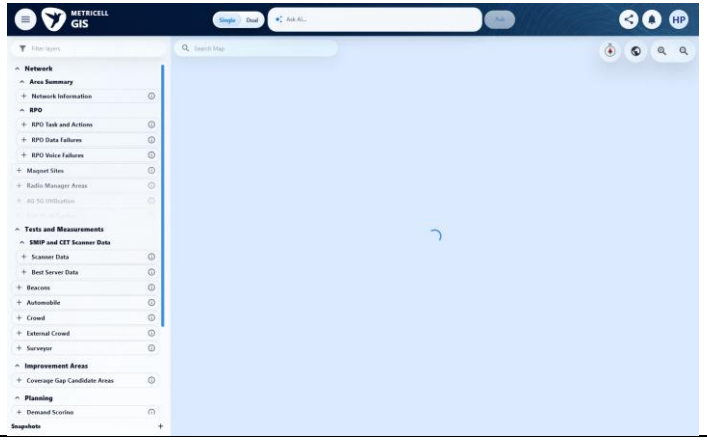

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 4 continued: While Ping details are loading, the detail view shows a loading state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E36 - After add ping (criterion-4-after-add-ping.png)** 			**E17 - After point selection (criterion-4-after-point-selection.png)** 	
Criterion 4 continued: While Ping details are loading, the detail view shows a loading state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E37 - Immediately after open event (criterion-4-immediately-after-open-event.png)** 			**E38 - Final (criterion-4-final.png)** 	

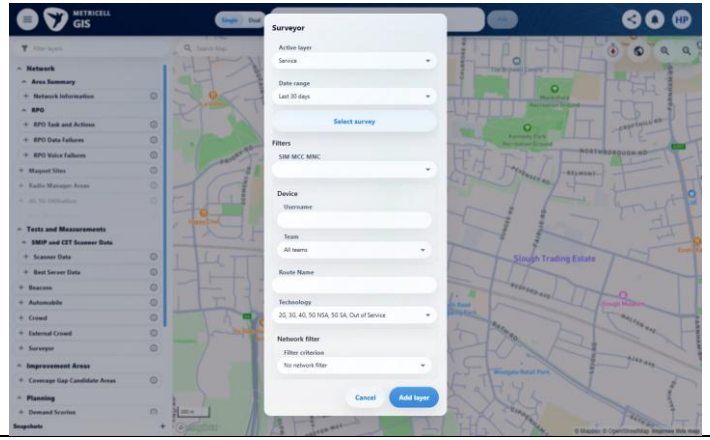

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
5.0.0	When Ping details are unavailable, the detail view shows a no-data state.	When Ping details are unavailable, the detail view shows a no-data state.	criterion-5-cluster.png and criterion-5-final.png show event 06/10/2026 10:36:03 with N/A Ping Time but available matching event attributes. Unavailable measurements and the neighbours-only no-data message do not establish unavailable Ping details; no selectable unavailable-detail point or documented fixture was available. Evidence: E39, E14, E15, E16, E17, E40	Blocked

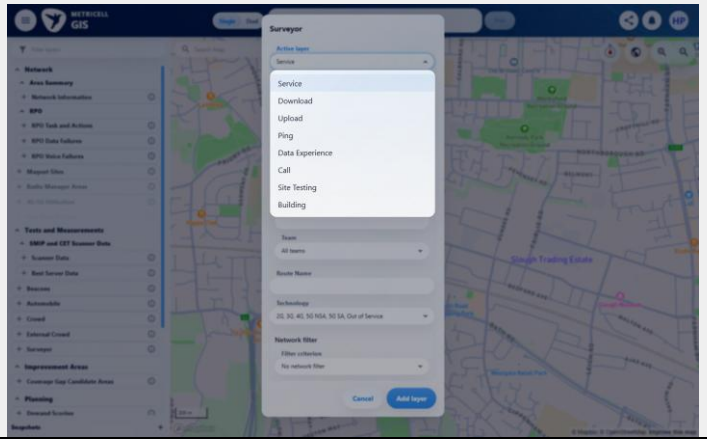

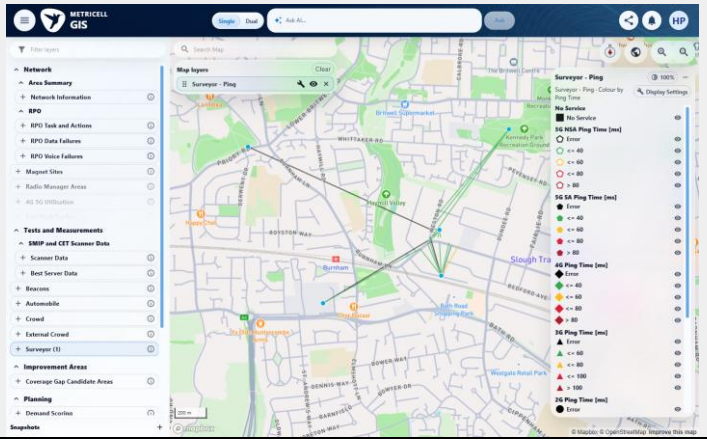

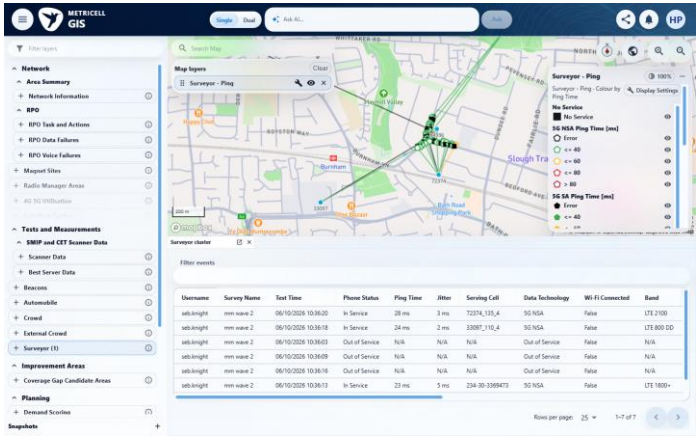

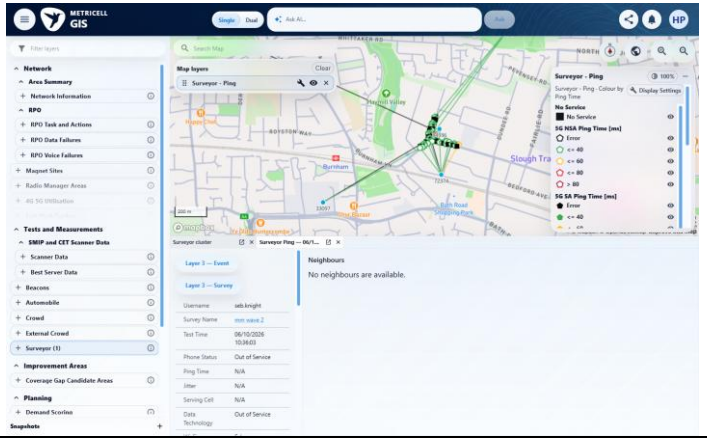

Criterion 5 evidence: When Ping details are unavailable, the detail view shows a no-data state.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E39 - Before open surveyor (criterion-5-before-open-surveyor.png)

E14 - Surveyor config (criterion-5-surveyor-config.png)

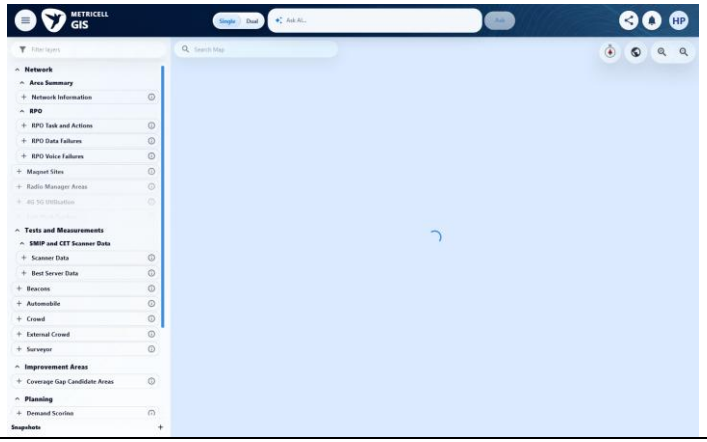

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 5 continued: When Ping details are unavailable, the detail view shows a no-data state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E15 - Layer options (criterion-5-layer-options.png)**  **E16 - After add ping (criterion-5-after-add-ping.png)** 				
Criterion 5 continued: When Ping details are unavailable, the detail view shows a no-data state. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E17 - Cluster (criterion-5-cluster.png)**  **E40 - Final (criterion-5-final.png)** 				

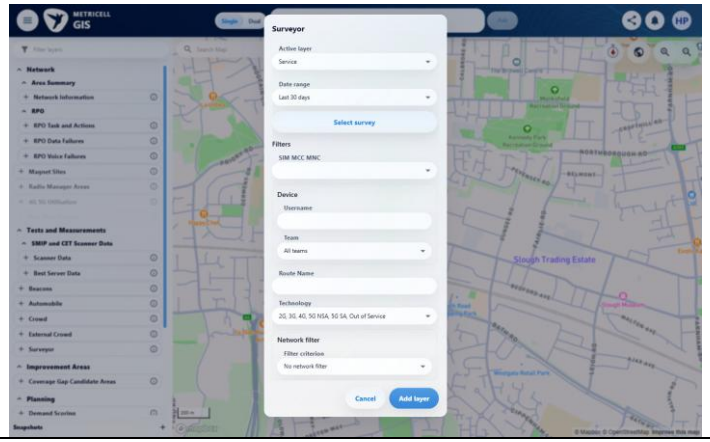

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
6.0.0	When Ping details fail to load, the detail view shows an error state and does not display data as if it belonged to the selected point.	When Ping details fail to load, the detail view shows an error state and does not display data as if it belonged to the selected point.	criterion-6-cluster.png and criterion-6-final.png show matching event 06/10/2026 10:32:56 with loaded attributes and Ping Time 0 ms. The reported historical NETWORK_TIMEOUT measurement does not establish a failed detail load; no reproducible failed-detail point or approved failure fixture was available to assess the error state and stale-data protection. Evidence: E41, E14, E15, E16, E20, E42	Blocked

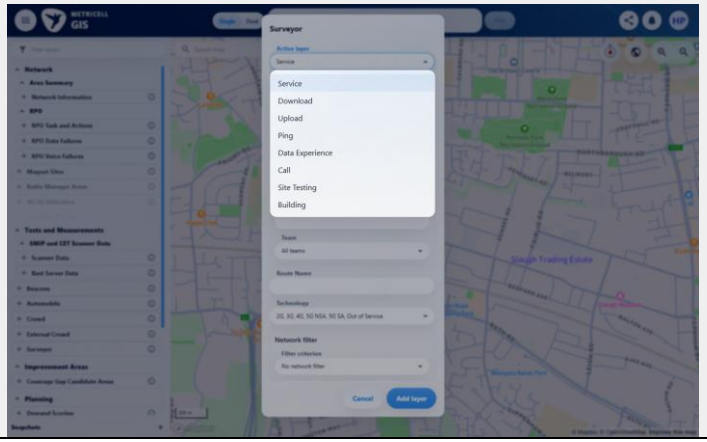

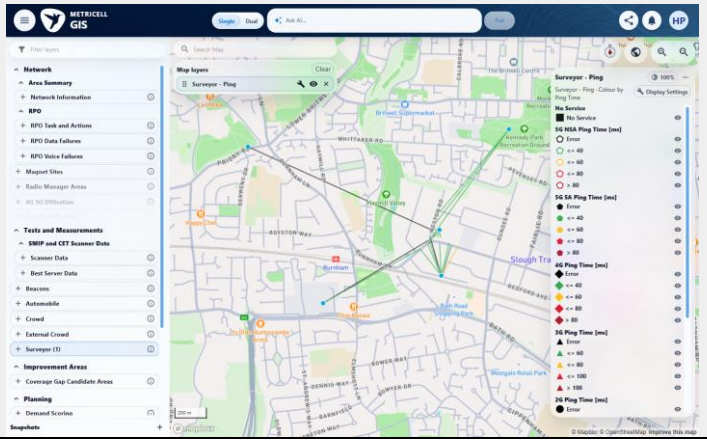

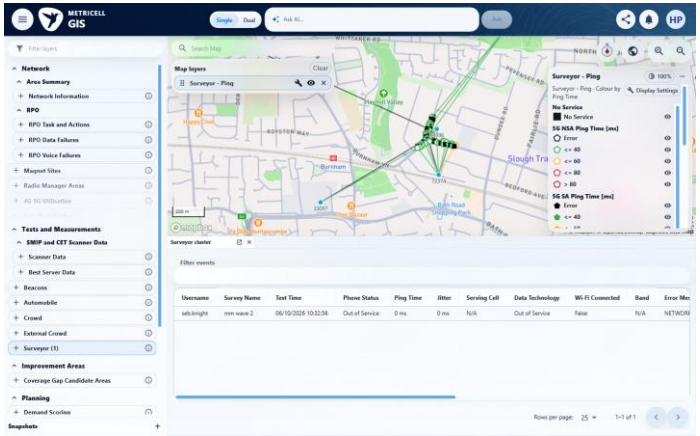

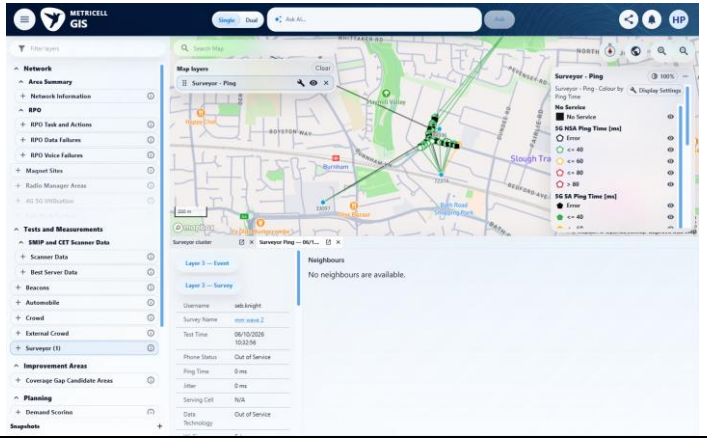

Criterion 6 evidence: When Ping details fail to load, the detail view shows an error state and does not display data as if it belonged to the selected point.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

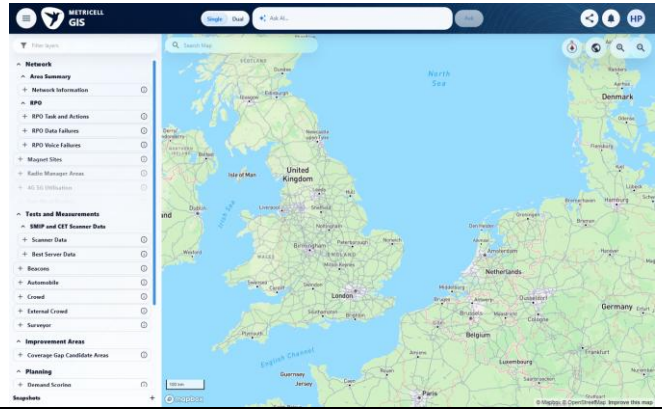

E41 - Before open surveyor (criterion-6-before-open-surveyor.png)

E14 - Surveyor config (criterion-6-surveyor-config.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 6 continued: When Ping details fail to load, the detail view shows an error state and does not display data as if it belonged to the selected point. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E15 - Layer options (criterion-6-layer-options.png)**  **E16 - After add ping (criterion-6-after-add-ping.png)** 				
Criterion 6 continued: When Ping details fail to load, the detail view shows an error state and does not display data as if it belonged to the selected point. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E20 - Cluster (criterion-6-cluster.png)**  **E42 - Final (criterion-6-final.png)** 				

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Supporting setup captures - full attempt evidence remains in the local evidence folder				
E43 - After open gis (criterion-1-after-open-gis.png)

Better Connected

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.

Find out more at www.metricell.com
