| <b>Limitations during Testing:</b> | None recorded           |

| Area of test                                                                                                             | Pass | Fail | Defects (No.) |
|--------------------------------------------------------------------------------------------------------------------------|------|------|---------------|
| 1. Selecting Open on the GIS card loads the GIS module on the same V4 host without an application load error.            | Y    | N    | 0             |
| 2. Using the browser Back control returns to the V4 launcher, where the GIS card and its Open control are visible again. | Y    | N    | 0             |

All automated tests must map to an approved criterion and produce reproducible results plus decisive evidence. Use Failed, Blocked, or Unverified where applicable.

## About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
