2 Test Cycle Information

Tester:	**Automated**
Jira Ticket:	TEST2-84
Environment:	o2intelligence-v4-dev.metricell.com
Browser Details:	Google Chrome 155.0.8059.85
Date of Test:	20/10/2026
Limitations during Testing:	10 blocked; 0 inconclusive criterion(s). All ten criteria are blocked by the unavailable Building layer prerequisite. Attempt-002 contains all 40 referenced non-empty PNGs; visual review confirms the loaded catalogue, no Building search matches and restored catalogue. Building dashboard and floorplan assertions could not be exercised; no application defect is established. Criterion 1: Building layer is unavailable in this authenticated GIS catalogue. No Building point can be selected, so its dashboard cannot be exercised. Feature/permission prerequisite; no product assertion was evaluated. The initial screenshot save failed with ENOENT because the staging screenshots directory did not exist; the directory was created and this criterion restarted from the launcher with successful separate captures. Criterion 2: Building layer is unavailable in the authenticated GIS catalogue. Required Building points, building details and floorplans cannot be reached. No Building data request or dashboard loading/no-data/error state was triggered; the layer-search message is not a Building data no-data state. Missing feature/permission prerequisite prevents this criterion's asserted action. Defects (No.) counts directly contradicted criteria, not unique Jira bugs; blockers and inconclusive evidence count as zero.
Overall review outcome:	Blocked
Browser URL(s) recorded after criteria:	https://o2intelligence-v4-dev.metricell.com/gis

3 Test Summary

Area of test	Pass	Fail	Defects (No.)
1. Selecting one Building point opens a separate dashboard for that building once its details load.	N	N	0

Area of test	Pass	Fail	Defects (No.)
2. When multiple Building points are selected at one map location, the user can choose which building dashboard to open.	N	N	0
3. When the selection contains too many Building points to identify a building, the user is prompted to zoom in or apply filters, and no ambiguous building dashboard opens.	N	N	0
4. When building information is available, the dashboard shows building and floorplan summary information in sortable and filterable tables.	N	N	0
5. When the building has floorplans, the dashboard displays their images and lets the user select a floorplan.	N	N	0
6. Selecting a floorplan displays its image with the associated survey points overlaid.	N	N	0
7. When the building has no floorplans, the dashboard displays available building details without an empty floorplan image area.	N	N	0
8. While Building data is loading, a loading state is displayed.	N	N	0
9. When Building data is unavailable, a no-data state is displayed.	N	N	0
10. When Building data fails to load, an error state is displayed without incorrect building data.	N	N	0

4 Test Cases

Each test maps to a criterion and decisive browser evidence. Inconclusive results are reported as Failed.

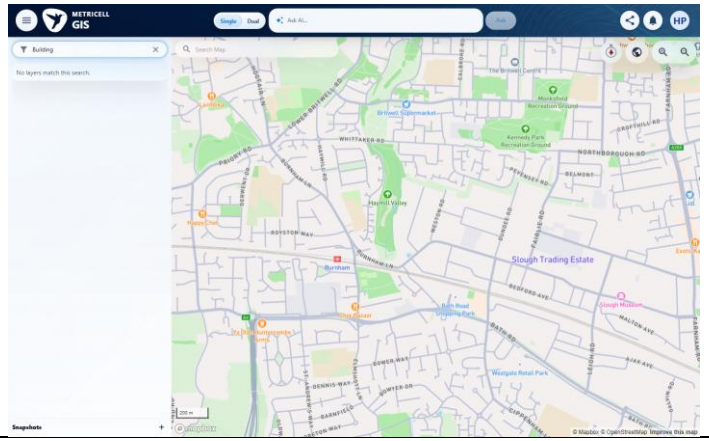

4.1 Tests

Preconditions:	V4 access and ticket conditions.	***Associated Requirements:***	Ticket criteria below.	Automation Notes:	Screenshots below each criterion; full log retained locally.

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	Selecting one Building point opens a separate dashboard for that building once its details load.	Selecting one Building point opens a separate dashboard for that building once its details load.	criterion-1-after-open-gis.png shows a populated GIS catalogue; criterion-1-final.png shows the Building filter with “No layers match this search.” The required Building layer is unavailable in this session. No Building point could be selected to open its dashboard. criterion-1-cleanup.png shows the catalogue restored after clearing the filter. Evidence: E01	Blocked

Criterion 1 evidence: Selecting one Building point opens a separate dashboard for that building once its details load.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

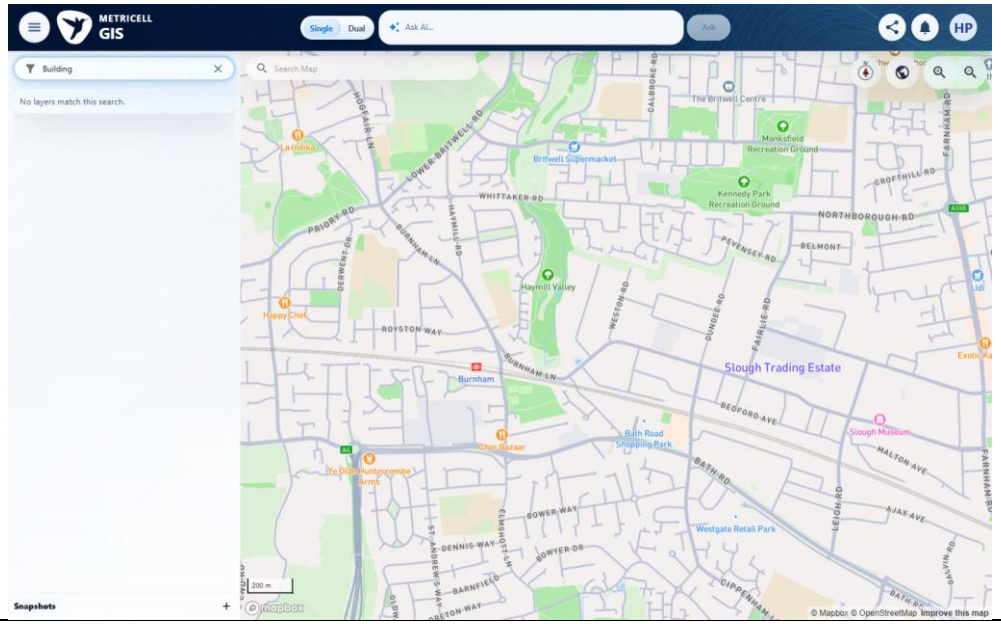

E01 - Final (criterion-1-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
2.0.0	When multiple Building points are selected at one map location, the user can choose which building dashboard to open.	When multiple Building points are selected at one map location, the user can choose which building dashboard to open.	criterion-2-after-open-gis.png shows a populated GIS catalogue; criterion-2-final.png shows the Building filter with “No layers match this search.” The required Building layer is unavailable in this session. Multiple Building points could not be selected to exercise the dashboard chooser. criterion-2-cleanup.png shows the catalogue restored after clearing the filter. Evidence: E02	Blocked

Criterion 2 evidence: When multiple Building points are selected at one map location, the user can choose which building dashboard to open.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

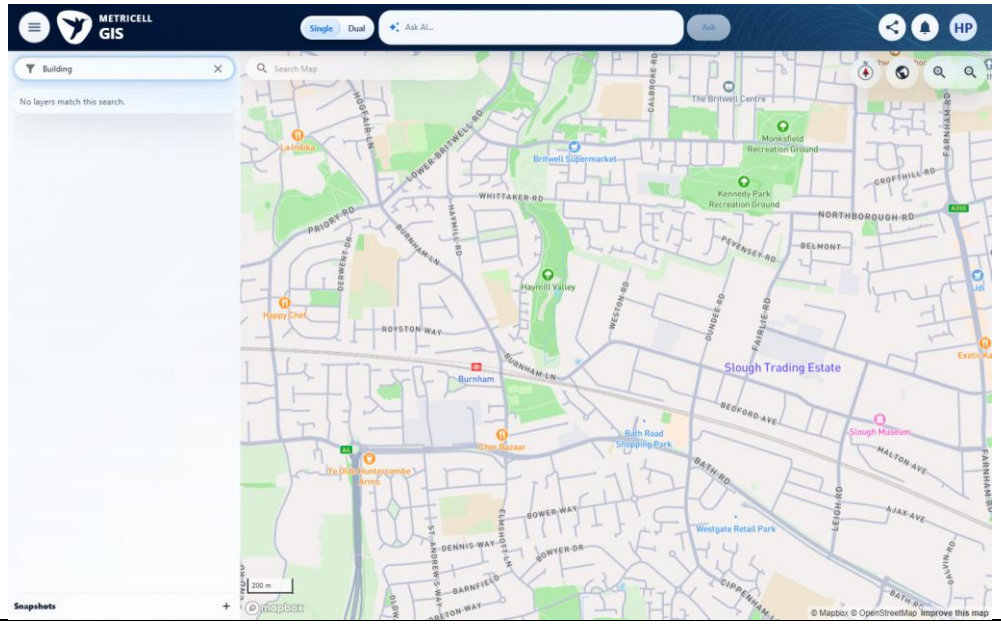

E02 - Final (criterion-2-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
3.0.0	When the selection contains too many Building points to identify a building, the user is prompted to zoom in or apply filters, and no ambiguous building dashboard opens.	When the selection contains too many Building points to identify a building, the user is prompted to zoom in or apply filters, and no ambiguous building dashboard opens.	criterion-3-after-open-gis.png shows a populated GIS catalogue; criterion-3-final.png shows the Building filter with “No layers match this search.” The required Building layer is unavailable in this session. A selection containing too many Building points could not be created to assess the zoom/filter prompt. criterion-3-cleanup.png shows the catalogue restored after clearing the filter. Evidence: E02	Blocked

Criterion 3 evidence: When the selection contains too many Building points to identify a building, the user is prompted to zoom in or apply filters, and no ambiguous building dashboard opens.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

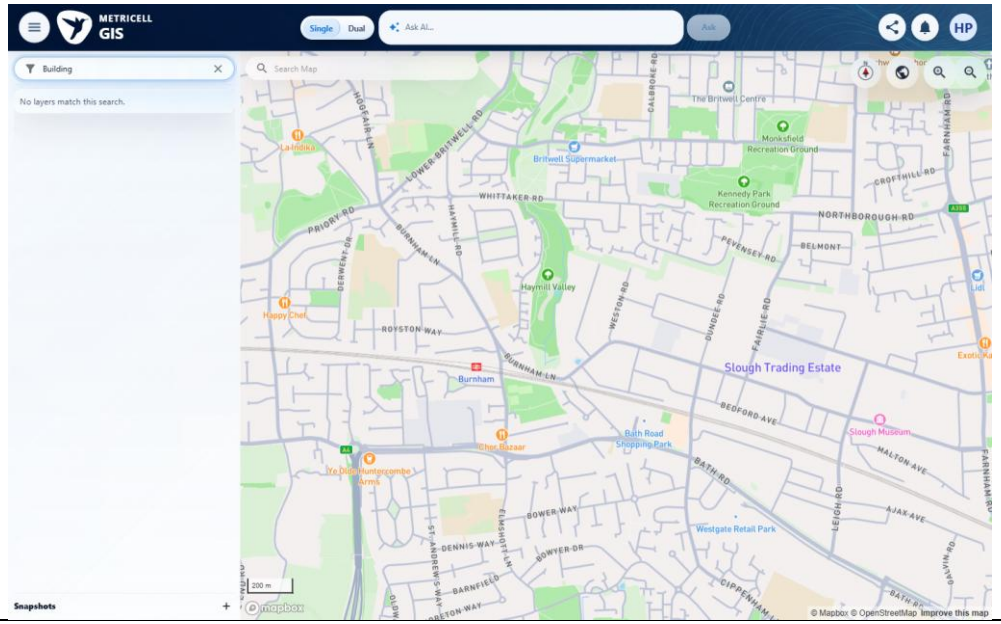

E02 - Final (criterion-3-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
4.0.0	When building information is available, the dashboard shows building and floorplan summary information in sortable and filterable tables.	When building information is available, the dashboard shows building and floorplan summary information in sortable and filterable tables.	criterion-4-after-open-gis.png shows a populated GIS catalogue; criterion-4-final.png shows the Building filter with “No layers match this search.” The required Building layer is unavailable in this session. Building and floorplan summary tables could not be reached to assess their data, sorting or filtering. criterion-4-cleanup.png shows the catalogue restored after clearing the filter. Evidence: E02	Blocked

Criterion 4 evidence: When building information is available, the dashboard shows building and floorplan summary information in sortable and filterable tables.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

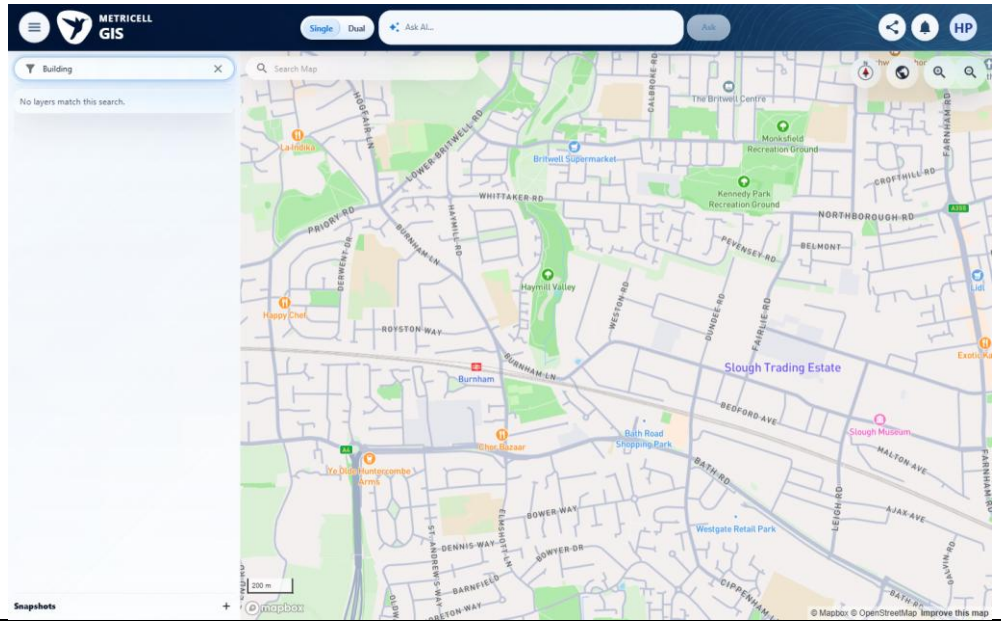

E02 - Final (criterion-4-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
5.0.0	When the building has floorplans, the dashboard displays their images and lets the user select a floorplan.	When the building has floorplans, the dashboard displays their images and lets the user select a floorplan.	criterion-5-after-open-gis.png shows a populated GIS catalogue; criterion-5-final.png shows the Building filter with “No layers match this search.” The required Building layer is unavailable in this session. A building with floorplans could not be reached to assess images and floorplan selection. criterion-5-cleanup.png shows the catalogue restored after clearing the filter. Evidence: E02	Blocked

Criterion 5 evidence: When the building has floorplans, the dashboard displays their images and lets the user select a floorplan.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

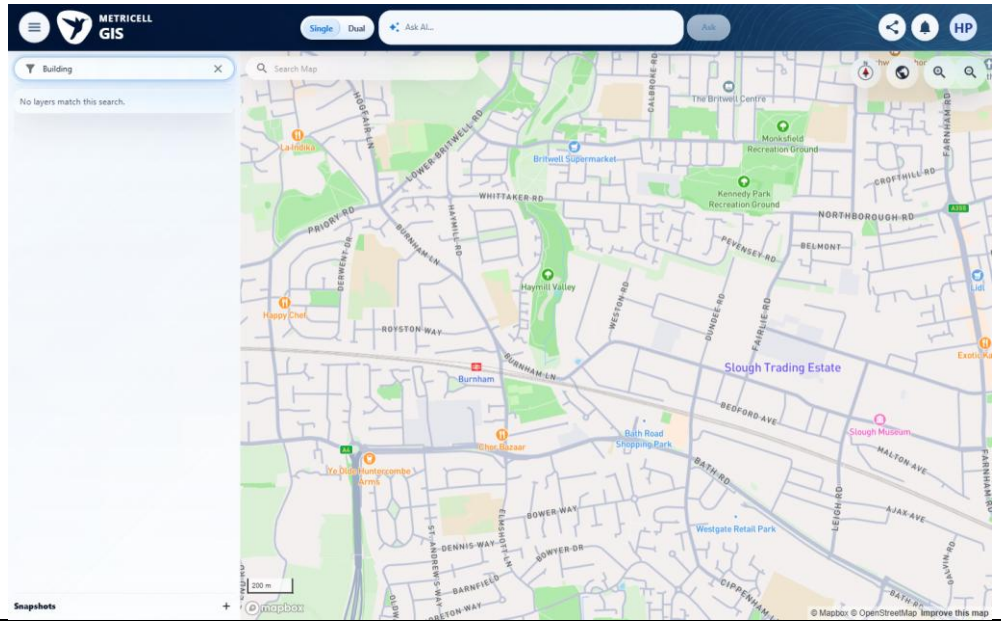

E02 - Final (criterion-5-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
6.0.0	Selecting a floorplan displays its image with the associated survey points overlaid.	Selecting a floorplan displays its image with the associated survey points overlaid.	criterion-6-after-open-gis.png shows a populated GIS catalogue; criterion-6-final.png shows the Building filter with “No layers match this search.” The required Building layer is unavailable in this session. No floorplan could be selected to assess its image and survey-point overlay. criterion-6-cleanup.png shows the catalogue restored after clearing the filter. Evidence: E02	Blocked

Criterion 6 evidence: Selecting a floorplan displays its image with the associated survey points overlaid.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

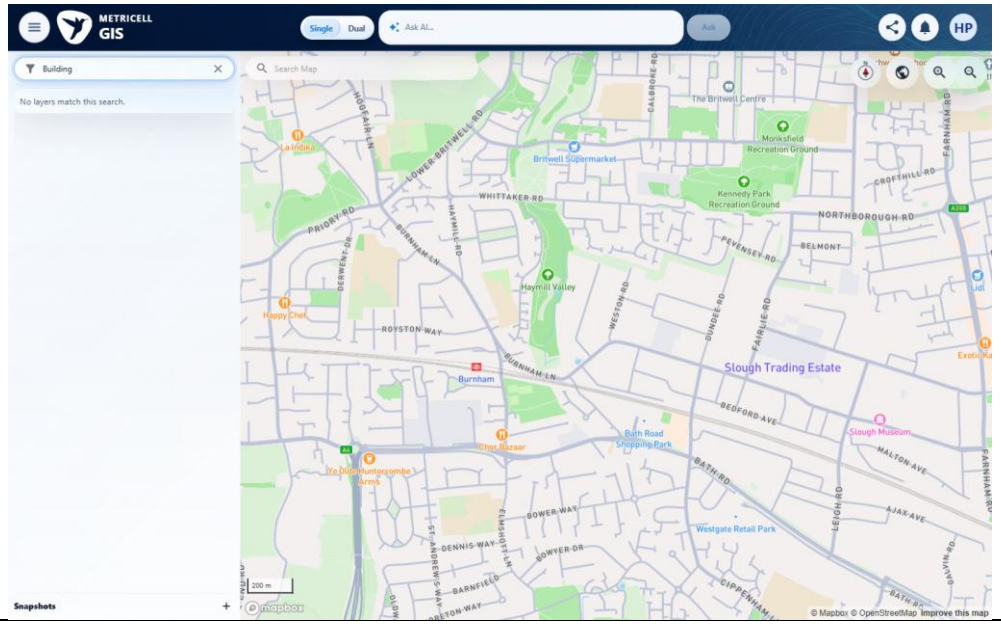

E02 - Final (criterion-6-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
7.0.0	When the building has no floorplans, the dashboard displays available building details without an empty floorplan image area.	When the building has no floorplans, the dashboard displays available building details without an empty floorplan image area.	criterion-7-after-open-gis.png shows a populated GIS catalogue; criterion-7-final.png shows the Building filter with “No layers match this search.” The required Building layer is unavailable in this session. A building without floorplans could not be reached to assess details and the absence of an empty image area. criterion-7-cleanup.png shows the catalogue restored after clearing the filter. Evidence: E02	Blocked

Criterion 7 evidence: When the building has no floorplans, the dashboard displays available building details without an empty floorplan image area.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

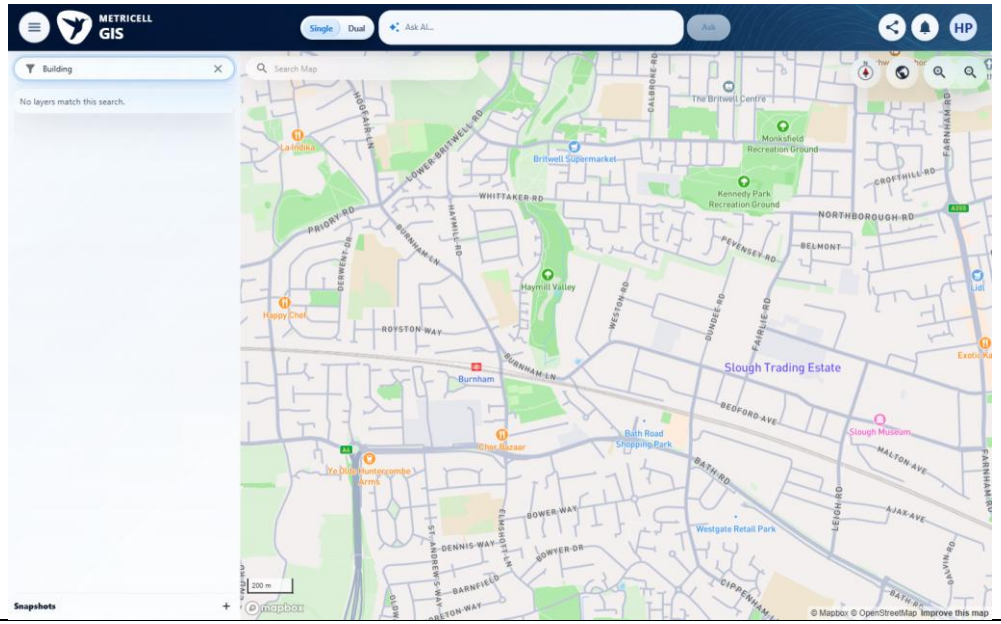

E02 - Final (criterion-7-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
8.0.0	While Building data is loading, a loading state is displayed.	While Building data is loading, a loading state is displayed.	criterion-8-after-open-gis.png shows a populated GIS catalogue; criterion-8-final.png shows the Building filter with “No layers match this search.” The required Building layer is unavailable in this session. No Building data request was triggered, so the Building loading state could not be assessed. criterion-8-cleanup.png shows the catalogue restored after clearing the filter. Evidence: E02	Blocked

Criterion 8 evidence: While Building data is loading, a loading state is displayed.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

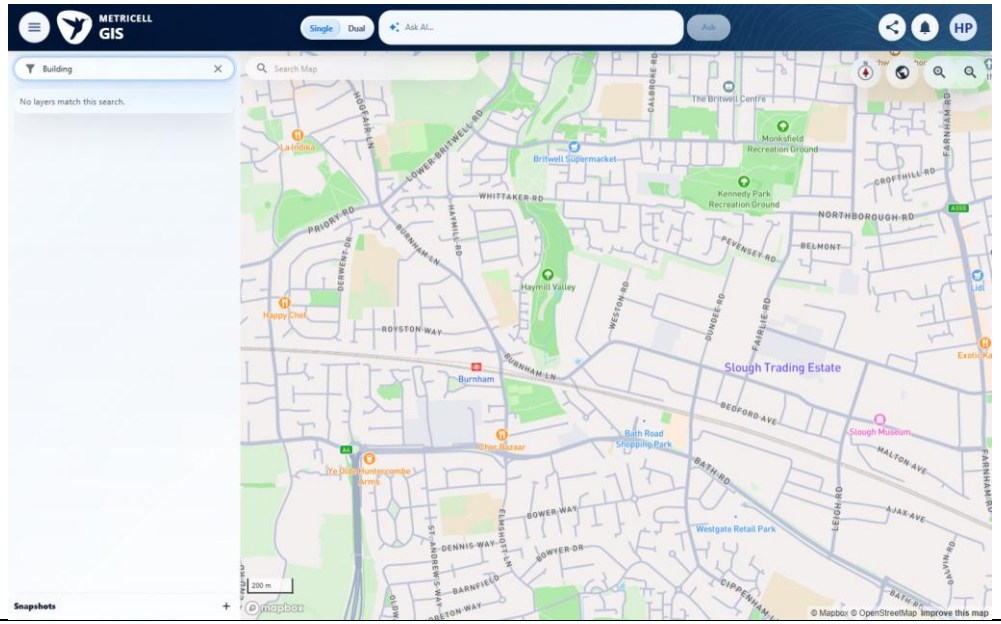

E02 - Final (criterion-8-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
9.0.0	When Building data is unavailable, a no-data state is displayed.	When Building data is unavailable, a no-data state is displayed.	criterion-9-after-open-gis.png shows a populated GIS catalogue; criterion-9-final.png shows the Building filter with “No layers match this search.” The required Building layer is unavailable in this session. No Building dashboard was reached; the layer-search message does not demonstrate the Building data no-data state. criterion-9-cleanup.png shows the catalogue restored after clearing the filter. Evidence: E02	Blocked

Criterion 9 evidence: When Building data is unavailable, a no-data state is displayed.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

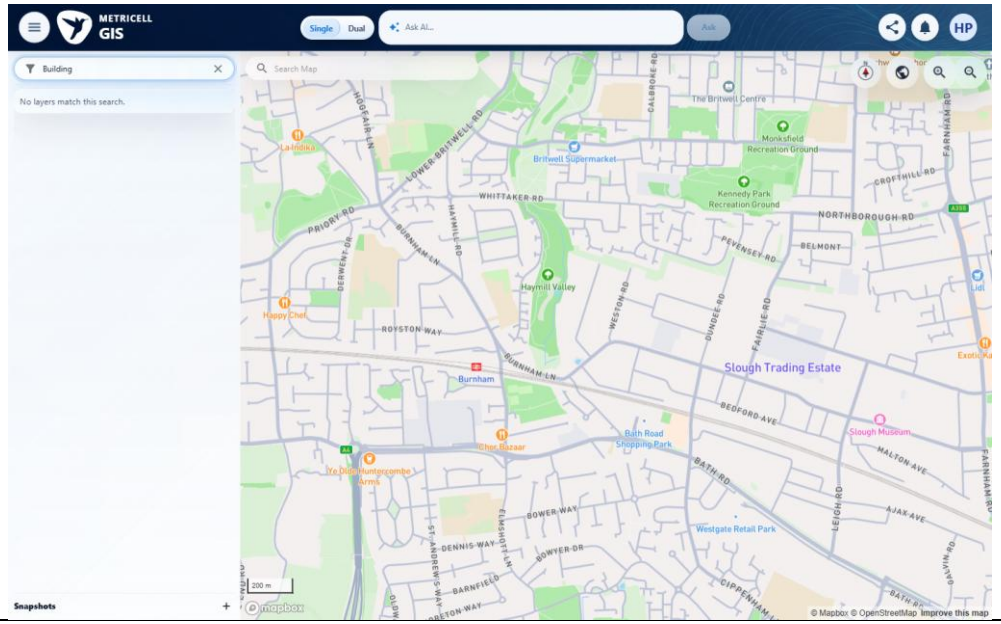

E02 - Final (criterion-9-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
10.0.0	When Building data fails to load, an error state is displayed without incorrect building data.	When Building data fails to load, an error state is displayed without incorrect building data.	criterion-10-after-open-gis.png shows a populated GIS catalogue; criterion-10-final.png shows the Building filter with “No layers match this search.” The required Building layer is unavailable in this session. No Building data failure was triggered, so its error state and handling of incorrect data could not be assessed. criterion-10-cleanup.png shows the catalogue restored after clearing the filter. Evidence: E02	Blocked

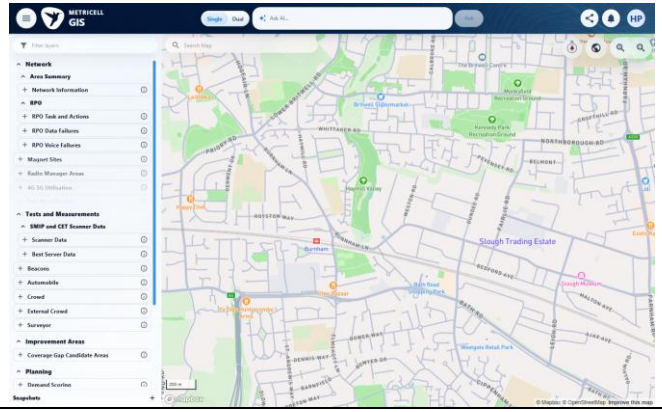

Criterion 10 evidence: When Building data fails to load, an error state is displayed without incorrect building data.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E02 - Final (criterion-10-final.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Supporting setup captures - full attempt evidence remains in the local evidence folder				

E03 - After open gis (criterion-1-after-open-gis.png)

Better Connected

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
