1 Revision History

Version	Date	Revision Author	Summary of Changes
[1.0]	12/10/2026	TEST2 QA Automation	Generated from TEST2 evidence review

2 Test Cycle Information

Tester:	**Automated**
Jira Ticket:	TEST2-74
Environment:	o2intelligence-v4-dev.metricell.com
Browser Details:	Google Chrome 155.0.8059.40
Date of Test:	12/10/2026
Limitations during Testing:	Criterion 1: The pre-existing ALL Coverage Gap Candidate Areas panel shows 'Unable to load coverage gap candidate areas.' This was present before and after the sequence and did not prevent observing the required controls, cancellation, rendered base map or complete active-layer list. No test layer or data was saved; cleanup completed. Criterion 2: Cancelled the reopened configuration and captured cleanup. A tool-host response timeout occurred during the sequence; recovered with a fresh snapshot and verified the saved files and current state before proceeding. Defects (No.) counts directly contradicted criteria, not unique Jira bugs; blockers and inconclusive evidence count as zero.
Overall review outcome:	Passed
Browser URL(s) recorded after criteria:	https://o2intelligence-v4-dev.metricell.com/gis

3 Test Summary

Area of test	Pass	Fail	Defects (No.)
1. With GIS open and the existing Surveyor layer configuration opened from the catalogue, the configuration presents an editable Username field plus Cancel and Add layer controls.	Y	N	0

Area of test	Pass	Fail	Defects (No.)
2. After entering TEST2-rehearsal-unsaved-20261012 in the Username field and selecting Cancel without selecting Add layer, reopening the same Surveyor configuration shows the Username field empty.	Y	N	0
3. After cancelling the reopened Surveyor configuration, the visible map and complete active-layer list match the recorded initial state, and no Surveyor layer has been added.	Y	N	0

4 Test Cases

Each test maps to a criterion and decisive browser evidence. Inconclusive results are reported as Failed.

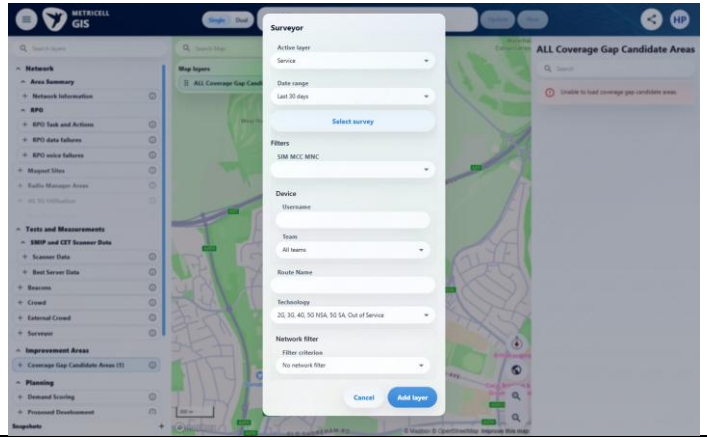

4.1 Tests

Preconditions:	V4 access and ticket conditions.	***Associated Requirements:***	Ticket criteria below.	Automation Notes:	Screenshots below each criterion; full log retained locally.

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	With GIS open and the existing Surveyor layer configuration opened from the catalogue, the configuration presents an editable Username field plus Cancel and Add layer controls.	With GIS open and the existing Surveyor layer configuration opened from the catalogue, the configuration presents an editable Username field plus Cancel and Add layer controls.	criterion-1-after-open-surveyor.png and criterion-1-final.png show Surveyor with the Username textbox, Cancel and Add layer controls. Direct editing is corroborated by the focused textbox containing the synthetic value in criterion-2-after-edit-before-first-cancel.png. Evidence: E01	Passed

Criterion 1 evidence: With GIS open and the existing Surveyor layer configuration opened from the catalogue, the configuration presents an editable Username field plus Cancel and Add layer controls.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E01 - Final (criterion-1-final.png)

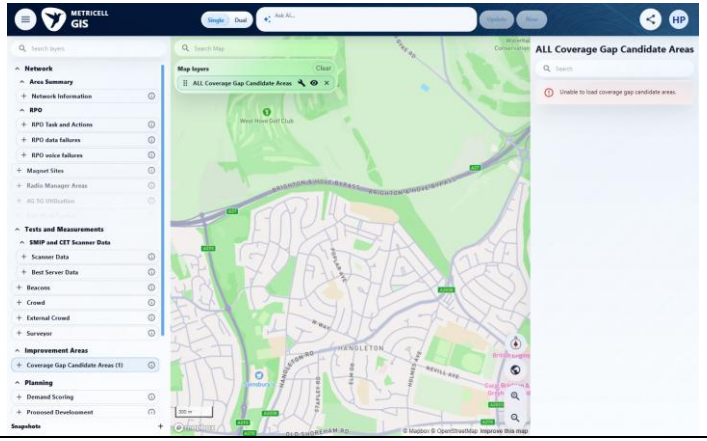

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
2.0.0	After entering TEST2-rehearsal-unsaved-20261012 in the Username field and selecting Cancel without selecting Add layer, reopening the same Surveyor configuration shows the Username field empty.	After entering TEST2-rehearsal-unsaved-20261012 in the Username field and selecting Cancel without selecting Add layer, reopening the same Surveyor configuration shows the Username field empty.	criterion-2-after-first-open-before-edit.png shows empty Username; criterion-2-after-edit-before-first-cancel.png shows TEST2-rehearsal-unsaved-20261012. The recorded Cancel step is supported by the dismissed dialog in criterion-2-after-first-cancel-before-reopen.png, followed by empty Username in criterion-2-after-reopen.png and criterion-2-final.png. The recovered sequence supports the result despite the disclosed tool-host timeout. Evidence: E02, E03, E04	Passed

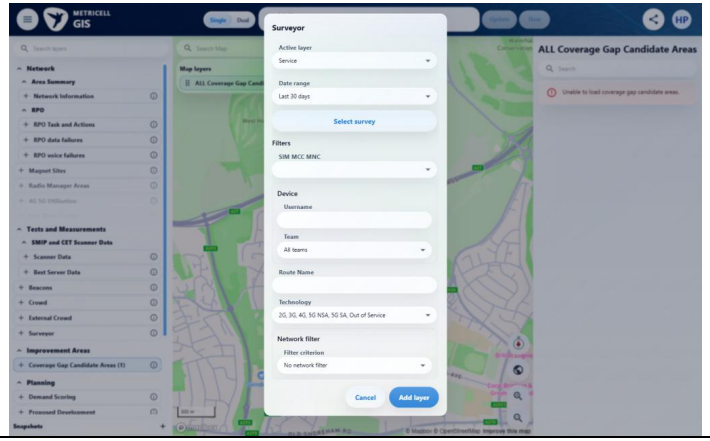

Criterion 2 evidence: After entering TEST2-rehearsal-unsaved-20261012 in the Username field and selecting Cancel without selecting Add layer, reopening the same Surveyor configuration shows the Username field empty.

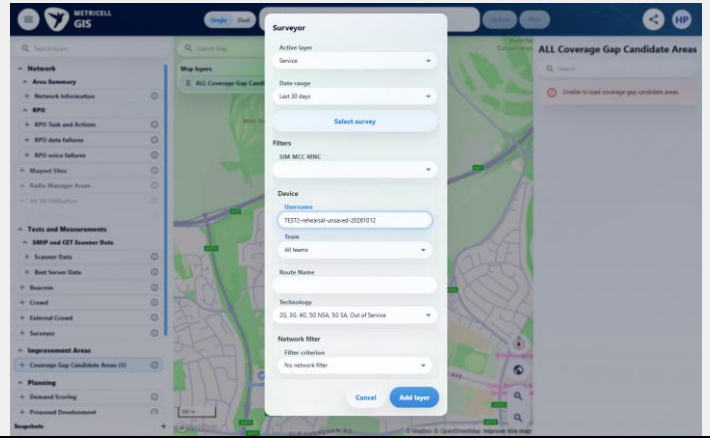

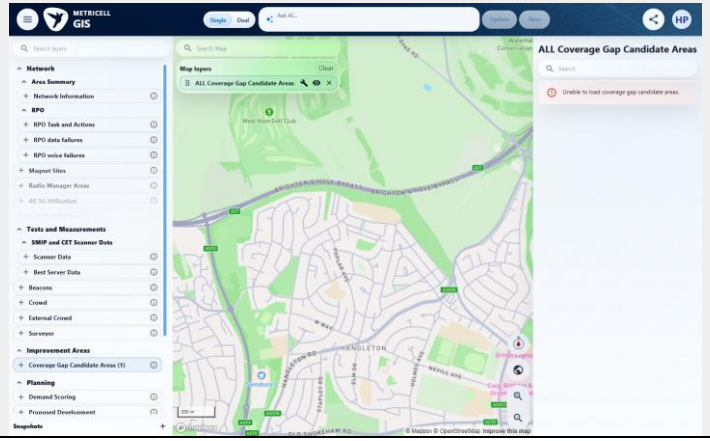

Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

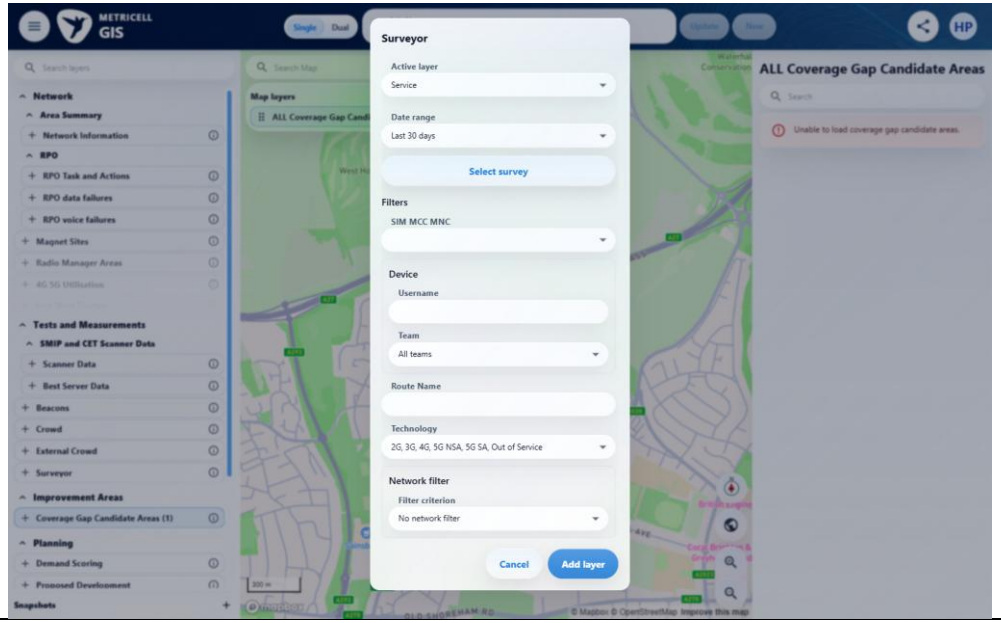

E02 - Before first open (criterion-2-before-first-open.png)

E03 - After first open before edit (criterion-2-after-first-open-before-edit.png)

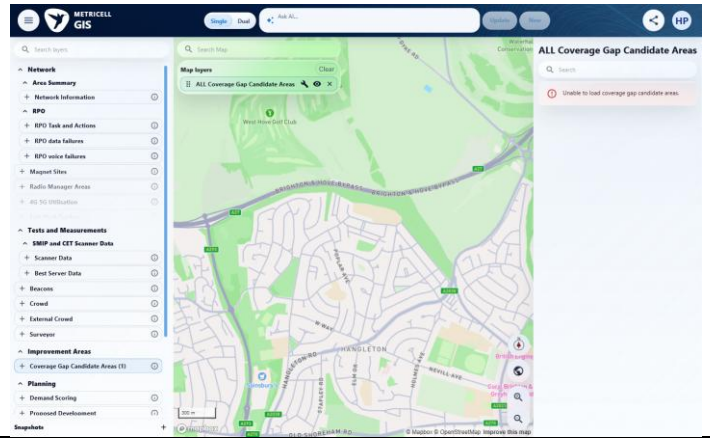

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 2 continued: After entering TEST2-rehearsal-unsaved-20261012 in the Username field and selecting Cancel without selecting Add layer, reopening the same Surveyor configuration shows the Username field empty. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E04 - After edit before first cancel (criterion-2-after-edit-before-first-cancel.png)**  	**E02 - After first cancel before reopen (criterion-2-after-first-cancel-before-reopen.png)**  		

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 2 continued: After entering TEST2-rehearsal-unsaved-20261012 in the Username field and selecting Cancel without selecting Add layer, reopening the same Surveyor configuration shows the Username field empty. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E03 - Final (criterion-2-final.png)** 				

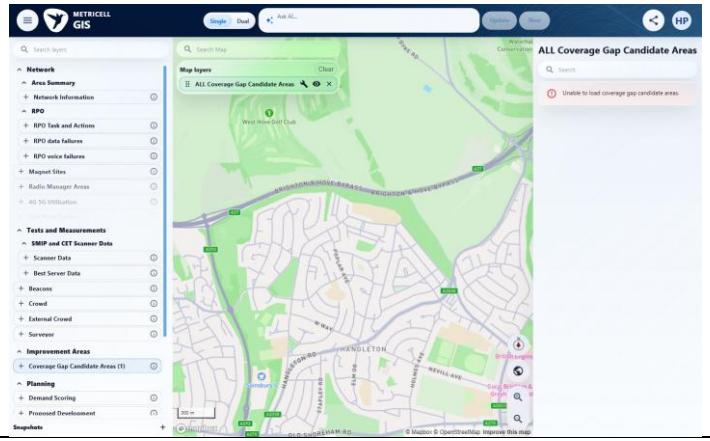

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
3.0.0	After cancelling the reopened Surveyor configuration, the visible map and complete active-layer list match the recorded initial state, and no Surveyor layer has been added.	After cancelling the reopened Surveyor configuration, the visible map and complete active-layer list match the recorded initial state, and no Surveyor layer has been added.	criterion-3-baseline-map.png and criterion-3-baseline-layers.png show the unobscured map and complete single-item active list (ALL Coverage Gap Candidate Areas). criterion-3-after-edit-before-first-cancel.png, criterion-3-after-first-cancel-before-reopen.png and criterion-3-after-reopen-before-final-cancel.png show entered Username, dismissal and reopened empty Username. After the recorded final Cancel, criterion-3-restored-map.png, criterion-3-restored-layers.png and criterion-3-final.png match the baseline map, extent and complete list; no Surveyor layer appears and no list scrolling is needed. The existing coverage-gap loading error appears before and after. Evidence: E02	Passed

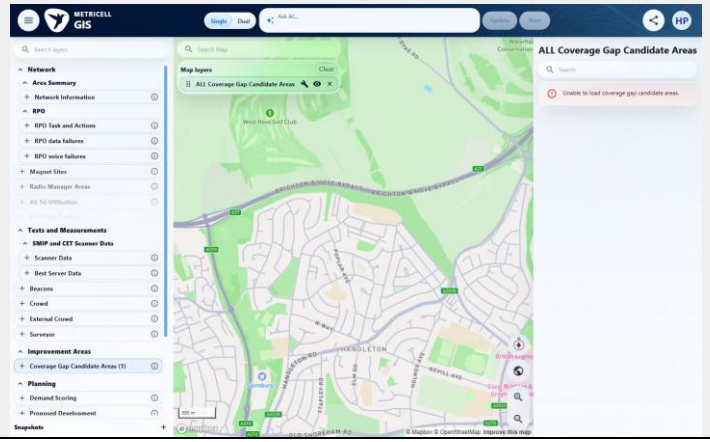

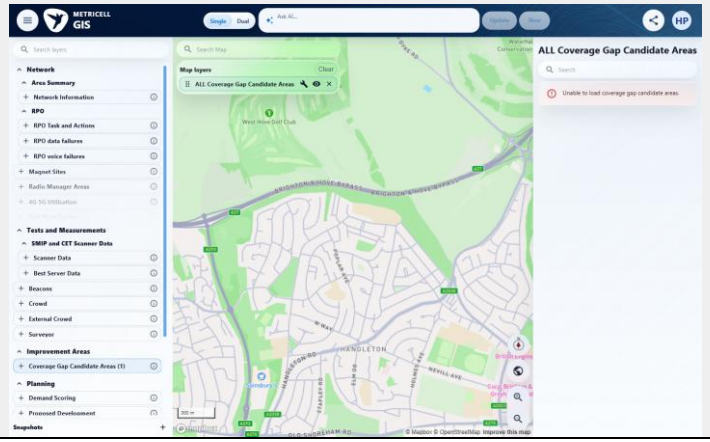

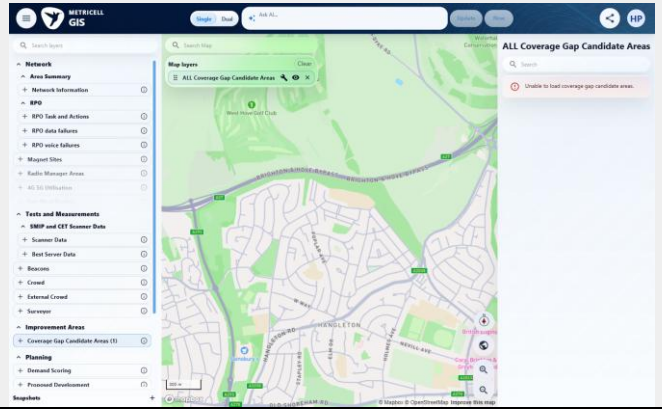

Criterion 3 evidence: After cancelling the reopened Surveyor configuration, the visible map and complete active-layer list match the recorded initial state, and no Surveyor layer has been added.
Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis

E02 - Baseline map (criterion-3-baseline-map.png)

E02 - Restored map (criterion-3-restored-map.png)

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
Criterion 3 continued: After cancelling the reopened Surveyor configuration, the visible map and complete active-layer list match the recorded initial state, and no Surveyor layer has been added. **Browser URL recorded after criterion: https://o2intelligence-v4-dev.metricell.com/gis** **E02 - Baseline layers (criterion-3-baseline-layers.png)**  **E02 - Final (criterion-3-final.png)**  				
Supporting setup captures - full attempt evidence remains in the local evidence folder **E05 - After open gis (criterion-1-after-open-gis.png)**

Better Connected

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
