About Metricell12

Version	Date	Revision Author	Summary of Changes
[1.0]	29/09/2026	TEST2 QA Automation	Generated from TEST2 evidence review

Tester:	Automated
Jira Ticket:	TEST2-42
Environment:	Chrome
Browser Details:	Chrome version not recorded
Date of Test:	29/09/2026
Limitations during Testing:	None recorded

Area of test	Pass	Fail	Defects (No.)
1. Starting on the V4 launcher at `/launcher`, selecting the Agentic AI launcher card opens the Agentic AI module view in the same browser session, with the module view rendered and no application error visible.	Y	N	0
2. Starting from the open Agentic AI module view, using browser Back returns to the V4 launcher, and the GIS launcher card is visible.	Y	N	0
3. Starting on the V4 launcher after returning from Agentic AI, selecting the GIS launcher card opens the GIS map view in the same browser session, with map controls visible and no application error visible.	Y	N	0

All automated tests must map to an approved criterion and produce reproducible results plus decisive evidence. Use Failed, Blocked, or Unverified where applicable.

4.1 Tests

Preconditions:	Not recorded in agent output.	Associated Requirements:	Criteria from criteria.md.	Automation Notes:	Automated browser run; PNG evidence reviewed.
-----------------------	-------------------------------	---------------------------------	----------------------------	--------------------------	---

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	Starting on the V4 launcher at `/launcher`, selecting the Agentic AI launcher card opens the Agentic AI module view in the same browser session, with the module view rendered and no application error visible.	Starting on the V4 launcher at `/launcher`, selecting the Agentic AI launcher card opens the Agentic AI module view in the same browser session, with the module view rendered and no application error visible.	The attempt-001 final screenshot shows the Agentic AI module view rendered with map content and no visible application error. The result's browserUrl is on the expected V4 host. Steps taken: Opened the required V4 launcher route and waited for the launcher cards to render.; Selected the Open Agentic AI card.; Confirmed the Agentic AI module view rendered at /agentic-ai with map content and no application error visible.	Passed

				
				
2.0.0	Starting from the open Agentic AI module view, using browser Back returns to the V4 launcher, and the GIS launcher card is visible.	Starting from the open Agentic AI module view, using browser Back returns to the V4 launcher, and the GIS launcher card is visible.	The attempt-001 final screenshot shows the V4 Launcher with the GIS card visible. The result's browserUrl is the V4 launcher URL. Steps taken: Started from the rendered Agentic AI module view.; Used browser Back.; Confirmed the launcher returned and the Open GIS card was visible.	Passed

				
				
3.0.0	Starting on the V4 launcher after returning from Agentic AI, selecting the GIS launcher card opens the GIS map view in the same browser session, with map controls visible and no application error visible.	Starting on the V4 launcher after returning from Agentic AI, selecting the GIS launcher card opens the GIS map view in the same browser session, with map controls visible and no application error visible.	The attempt-001 final screenshot shows the GIS map view and layer list/map controls, with no visible application error. The result's browserUrl is on the expected V4 host. Steps taken: Started on the launcher after returning from Agentic AI.; Selected the Open GIS card.; Waited for the map to finish loading and confirmed the GIS map, layer list,	Passed

map style, reset, and zoom controls were visible with no application error.

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
