About Metricell7

Version	Date	Revision Author	Summary of Changes
[1.0]	09/09/2026	TEST2 QA Automation	Generated from TEST2 evidence review

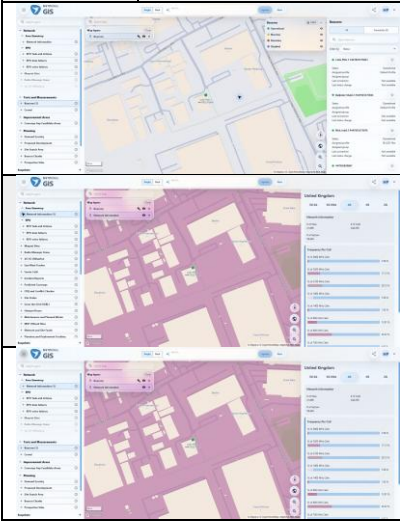

Tester:	Automated
Jira Ticket:	TEST2-9
Environment:	Chrome
Browser Details:	Chrome version not recorded
Date of Test:	09/09/2026
Limitations during Testing:	None recorded

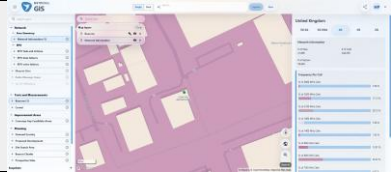

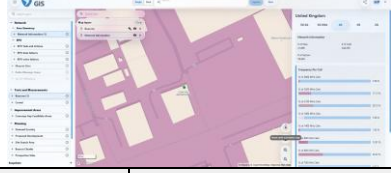

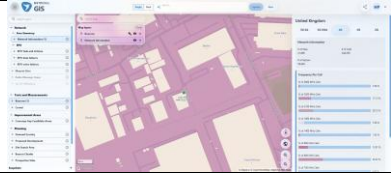

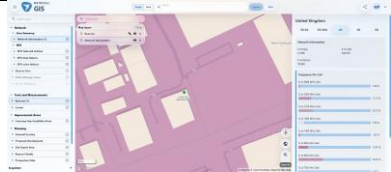

Area of test	Pass	Fail	Defects (No.)
1. Change the visible coverage layer; the chosen coverage remains visible after the panel is closed. 2. Close the layer panel; the selected coverage remains visible on the map. 3. Adjust the map and change tools; map navigation keeps its current position. 4. Return to the default view; the starting area is restored and the map controls remain available.	Y	Y	1

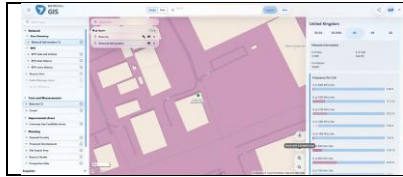

All automated tests must map to an approved criterion and produce reproducible results plus decisive evidence. Use Failed, Blocked, or Unverified where applicable.

4.1 Tests

Preconditions:	[Seeded data, permissions, saved auth, feature flags]	Associated Requirements:	[Jira key / criteria IDs]	Automation Notes:	[Runner, retry policy, evidence policy]
-----------------------	---	---------------------------------	---------------------------	-------------------	---

ID / Criterion	Criteria Tested	Expected Result	Actual Result / Evidence Path	Outcome
1.0.0	Change the visible coverage layer; the chosen coverage remains visible after the panel is closed.	The behaviour described by the criterion is present.	No direct screenshot proves the chosen coverage remained visible after the panel was closed.	Unverified
				

				
				
2.0.0	Close the layer panel; the selected coverage remains visible on the map.	The behaviour described by the criterion is present.	The captured state did not provide decisive direct evidence that the layer panel itself was closed. Steps taken: Attempted the available panel/menu control and captured the resulting map state.	Unverified
				
3.0.0	Adjust the map and change tools; map navigation keeps its current position.	The behaviour described by the criterion is present.	The map view changed through navigation while the selected coverage layer remained rendered. Steps taken: Clicked the map Zoom in control and captured the changed map view.	Passed
				
4.0.0	Return to the default view; the starting area is restored and the map controls remain available.	The behaviour described by the criterion is present.	The reset control was exercised and the map controls remained available in the captured state. Steps taken: Clicked the visible north/reset map control and captured the resulting state.	Failed

About Metricell

Metricell is on a mission to deliver connectivity. We work with our customers to design, deliver and manage wireless communication networks – with a shared ambition of achieving flawless network experience. We've been responsible for many first-to-market products, and our technology is characterised by the relentless pursuit of automation and digitalisation.

Our geospatial intelligence tools traverse a wide variety of business processes – from Test & Measurement to Customer Experience Management – and we're pioneers in Crowdsourcing and Digital Self Care. Our technology is today in use by a range of customers; thousands of their personnel; and millions of subscribers worldwide.
